What Should I be Thinking About in 10th Grade?

1. Continue getting excellent grades. Your grades and your ACT score (when you take it) will form your index score which will determine, in some cases, whether you can be admitted to the college of your choice.
2. Take Honors, AP, and CE classes when you can.
3. Continue to develop and seek leadership qualities through service to your school and community. An in-depth quality experience with one or two organizations is better than just getting your name on the rolls of several.
4. Take the PSAT (National Merit Test) in February of your sophomore year.
5. Be aware of classes that you need to take for scholarship consideration (i.e. The Regents' Scholarship) and to prepare for college — **THE #1 PREDICTOR OF GRADUATING FROM COLLEGE IS THE CLASSES YOU CHOOSE TO TAKE IN HIGH SCHOOL.**
