### **KEENEYVILLE SCHOOL DISTRICT #20**

5540 Arlington Drive E. Hanover Park, Illinois 60133 Telephone: 630-894-2250 FAX: 630-894-5187

December 15, 2020

President and Members of the Board of Education Keeneyville School District 20 Hanover Park, IL 60103

The Comprehensive Annual Financial Report (CAFR) of Keeneyville School District 20 (the "District"), Hanover Park, Illinois, for the fiscal year ended June 30, 2020, is hereby submitted. The Assistant Superintendent of Finance & Operations has prepared the report. The audit was completed in December, 2020 and the report was subsequently issued.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The District includes all funds that are controlled by or dependent on the Board of Education of the District, as determined on a basis of financial accountability. The District does not have such financial accountability over any other entity and thus does not include any other entity as a component unit in this report. Additionally, the District is an independent entity, not includable as a component unit of any other reporting entity.

The Board of Education of Keeneyville School District 20, DuPage County, Illinois, provides educational instruction to children residing in the Villages of Hanover Park, Roselle, Bloomingdale and unincorporated Keeneyville. The District's operations are funded primarily through local property taxes. The District operates under guidelines and restrictions as set forth in the *School Code of Illinois* and various federal statutes.

On October 4, 1897, Lake Street School District 20, Bloomingdale, opened the doors of a one-room cabin schoolhouse with only nine students. Over the next hundred years, the District changed its name, expanded to include four different villages, and added necessary buildings to accommodate student population growth. By 1949, enrollment had grown to 35 students and by 1950, the name of Lake Street School officially changed to Keeneyville School, later to become known as Keeneyville School District 20.

The District has continued to grow. In 2020 the District housed 1,413 students in four separate school buildings with a teaching staff of 116 professionals. Waterbury Elementary in Roselle houses our kindergarten through fifth grades. Greenbrook Elementary in Hanover Park houses our kindergarten through fifth grades. Spring Wood Middle School in Hanover Park houses the sixth through eighth grade students. The Early Childhood Center houses our 3-5 pre-school program in Hanover Park.

Students leaving the District at the end of eighth grade attend Lake Park High School 108. District 108 levies its own local property tax and files its tax levy with the DuPage County Clerk.

The District has complete responsibility for the preparation and modification of its annual budget and is solely accountable for its fiscal matters, including surpluses and deficits, designation of management, and issuance of debt.

#### **ECONOMIC CONDITION AND OUTLOOK**

The District is located approximately 25 miles west of Chicago's Loop and approximately 14 miles west of O'Hare International Airport covering an area of 5 square miles. The economic condition of the Hanover Park, Roselle, Bloomingdale and unincorporated Keeneyville areas is stable, and the prospect of additional property tax revenue is good. However, in 1990 the State of Illinois' legislature imposed a cap on property taxes which limits the tax levy to 105% or the Consumer Price Index increase (whichever is the lesser) of the previous tax extension, excluding growth due to new construction. The legislation allows voters to override the tax cap by referendum. Hanover Park, Roselle, Bloomingdale and unincorporated Keeneyville have traditionally been very supportive of maintaining excellent school systems. As long as local taxpayers are allowed to support their schools, no financing problems for the District are foreseen.

### Mission, Belief and Strategic Plan:

In January 2019, community members, the Board of Education and administration reviewed the FY 17-19 Strategic Plan and created a new plan for FY 2020 through 2022. This new plan was adopted by the Board of Education at the June 2019 Board meeting. The Mission and Belief Statement remained the same as what was adopted March 2016.

Mission: Ignite the power and potential of each student

#### We Believe:

- All students have unique strengths and talents and excel in a rigorous, supportive environment.
- Students learn best in a safe, secure and respectful atmosphere.
- Our diversity enhances student learning and life experiences.
- Partnerships among school, home and community are essential to success.
- District resources must be managed responsively and efficiently.
- Student growth is ignited by inspiring passion, uncovering knowledge and developing personal relationships.

The Strategic Plan for FY 2019 through FY 2022 can be found on the District's website at <a href="https://www.esd20.org/district/superintendent-of-schools/strategic-plan">https://www.esd20.org/district/superintendent-of-schools/strategic-plan</a>.

### STUDENT ACHIEVEMENTS

Due to the COVID-19 pandemic, The Illinois Assessment of Readiness (IAR), a federally required measure of student mastery of the Illinois Learning Standards in English Language Arts and Mathematics in grades 3 through 8 was not able to be administered in March of FY 2020. Therefore, for FY 2020 we have not included these growth score comparisons to state averages.

#### **COVID 19 PANDEMIC**

Fiscal Year 2020 started out like any normal school year. We completed our traffic safety projects at both Greenbrook and Waterbury Elementary over the summer and students returned to school in August. In March 2020, due to the COVID 19 pandemic, a gubernatorial order required all Illinois school districts to move from in-person instruction to fully remote instruction to protect students and staff from the spread of the corona virus. Moving to fully remote instruction for Keeneyville 20, like many districts, had it challenges. There were additional costs; purchasing digital instructional materials, technology for teachers to improve the remote teaching experience and increased sanitation. There were also savings as a result of remote learning; reduced bus service costs, reduced food service costs and reduced support service costs.

The transition to full remote learning was new for both staff and students. In an effort to assist students who may have struggled or needed additional support due to the remote learning environment, the district implemented a Summer School program for all students with the CARES funds received from the Federal government. Keeneyville received \$207k. It was a huge success and helped teachers improve their own remote instruction and kept students engaged for an additional 6 weeks during the summer. We even had a STEM club for kids!

During FY 2020 the District worked diligently to prepare for the upcoming summer projects. These projects included the renovations of the Spring Wood and Waterbury Libraries into Innovation Centers. We were able to start these projects early due to the pandemic as staff and students were working remotely. These projects started in May and were completed in August 2020.

#### FINANCIAL INFORMATION

The District administration is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

Tests are made by the District's independent auditor to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations. The results of the tests for the fiscal year ended June 30, 2020 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

### **Budget Control**

The District maintains sound budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District's Board of Education.

Monthly, the business office provides the Board with a Variance Report based on changes to the approved budget.

Activities of the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the individual fund level.

The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year-end, on June 30.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

### **OTHER INFORMATION**

### **Independent Audit**

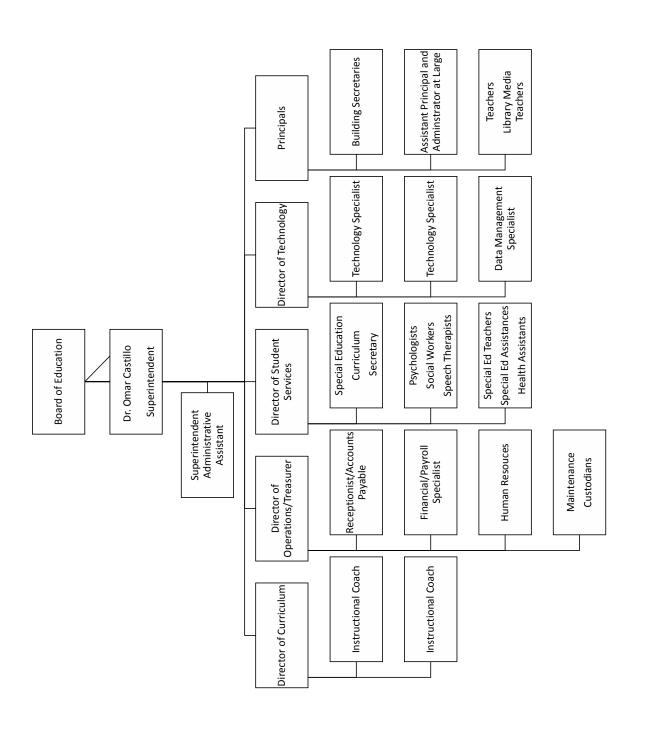

State statutes require an annual audit of the books of accounts, financial records and transactions of all funds of the District. The independent certified public accounting firm of Wipfli LLP performed the audit. The auditor's report is included in the financial section of this report.

### **Acknowledgments**

We wish to thank the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner. We also wish to thank the efficient and dedicated business office staff for their assistance in the timely preparation of this report.

Respectfully submitted,

Wendy J. Flaherty

### **Independent Auditor's Report**

**Board of Education**Keeneyville School District No. 20 **Hanover Park, Illinois** 

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Keeneyville School District No. 20 (the "District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the financial statements, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that a management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the [basic] financial statements, and other knowledge we obtained during our audit of the [basic] financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements for the year ended June 30, 2019, which are not presented with the accompanying financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. The audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The schedules of revenues, expenditures and changes in fund balances - budget and actual, related to the 2019 financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2019 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the 2019 schedules of revenues, expenditures and changes in fund balances - budget and actual are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

# Management's Discussion and Analysis For the Year Ended June 20, 2020

The discussion and analysis of Keeneyville Elementary School District No. 20's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2020. The District's financial statements incorporate required information for the District to be in compliance with the provisions of the Governmental Accounting Standards Board Statement No. 34. The management of the District encourages readers to consider the information herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. This report, Management's Discussion and Analysis (MD&A), provides an overview of the District's financial activities for the fiscal year ended June 30, 2020 with comparative data to the fiscal year ended June 30, 2019.

### Financial Highlights

- > The District's financial status continues to be strong as evidenced by ISBE's award of Financial Recognition with a score of 3.90 out of 4.00. This is the highest category a District can obtain. Additionally, the District continues to maintain a strong AA stable rating from Standard & Poor's rating agency.
- ➤ General Fund balances which include the Educational Account, Operations & Maintenance Account, Working Cash Account and Tort Immunity Account as of June 30, 2020 were \$15,800,811 reflecting an increase of \$1,458,267 or 10.16% due to additional revenues received as a result of the Evidenced Based Funding and local property taxes as well as the reduction in expenditures due to the COVID-19 pandemic. In March of 2020, a gubernatorial order required all school districts to move from in-person learning to full remote instruction to reduce the spread of the coronavirus. Expenditure reductions were seen in the area of salaries due to elimination of all extracurricular activities, staff needed for food service, reduced transportation costs and supply costs. This along with the continued school funding provided by the State improved the General Fund balances. The General Fund accounts for 84.6% of the total fund balance.
- > The combined fund balances of all governmental funds as of June 30, 2020 were \$18,677,133 reflecting an increase of \$2,038,942 or 12.2%. The District received nearly all of the state funds in both state aid (Evidenced Based Funding) and mandated categorical. Additionally, the District sold bonds in April in anticipation of the Waterbury and Spring Wood Library renovation projects.
- > The District's total net position as of June 30, 2020 decreased by \$244,025 to \$10,772,718 or a 2.2% decrease due to additional assets included from the traffic safety and Greenbrook library renovation projects, increased pension liabilities and the sale of working cash fund bonds.
- ➤ The Board of Education continues to adopt budgets that are balanced and is committed to operating these budgets within the parameters of each school year. For the past eighteen years, the Board of Education has approved balanced budgets and ended each of the past thirteen years with a fund surplus. Those surpluses have been used to fund infrastructure improvements annually as evidenced by the transfer of \$1,500,000 to the Capital Improvement fund for the library renovation projects.

### **Overview of the Financial Statements**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and additional supplementary information. The basic financial statements include two types of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the District-wide statements.

# Management's Discussion and Analysis For the Year Ended June 20, 2020

- The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short-term* as well as what remains for future spending.
- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

### Reporting the District as a Whole

### **Government-wide Financial Statements**

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies.

The statement of net position includes all of the District's assets plus deferred outflows and liabilities plus deferred inflows. All of the current year's revenues and expenses are accounted for in the statements of activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how it has changed. A District's net position is the difference between the District's assets and deferred outflows and liabilities and deferred inflows – this is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether the financial position is improving or deteriorating.
- To assess the District's overall health, one must consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are categorized as *Governmental Activities*. All of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes finance approximately 70% of all activities with state aid and federal revenues supporting the rest.

### Financial Analysis of the District as a Whole

The District's total net position decreased 2.2% or \$244,025 from \$11,016,743 to \$10,772,718. (see Table A-1). This figure is a combination of increased fund balances, increased capital assets and reductions due to the sale of Working Cash Fund Balances.

Net position, beginning	11,016,743		9,276,24	4		
Net position, ending	\$ 10,772,718		\$ 11,016,74	3		

The District's total revenue increased 6% or \$1,741,744 from \$27,594,562 to \$29,336,306 see (Table A 2 – above). The majority of this increase was a timing issue on when these grant funds were received.

On-Behalf Payments that the State of Illinois pays into the teachers' pension fund for employees increased by 5% or \$188,576. This figure, while a reporting requirement under GASB, is a pass through that does not increase the operating revenues of the District.

# Management's Discussion and Analysis For the Year Ended June 20, 2020

Property taxes increased 2% or \$340,295. For tax levy year 2019 taxes, collected in fiscal year 2020, the CPI-U was 2.1%. The CPI-U (or 2.1%) is the amount of additional revenue from the aggregate extension base the District can collect through local property taxes. The District typically collects 99.0% of all property taxes.

Unrestricted Federal and State aid increased by \$109,308. The State implemented the Evidence Based Funding (EBF) model in FY 2018. Keeneyville is a Tier 1 school district and has consistently received the base funding plus additional monies to bring the district to adequacy.

The total of all expenses for the 2019-2020 year were \$29,580,331. This was an increase of \$3,726,268 from the prior year's expenses of \$25,854,063. The increase represents costs associated the traffic safety construction project, completed in August of 2019, and the start of the library renovation projects at Spring Wood and Waterbury (started in May 2020).

Instructional services increased in the area of regular programs by 14% or \$1,808,981. This is a result of increased pension obligations as a result of updated actuarial calculations.

In the area of special educational programs, costs increased 3% or \$88,281. A large part of this increase was the accounting reclassifications. The District broke out pre-school special education program from the K-8 special education programs as well as some of the bi-lingual programs. This allowed the District to track these expenditures more in line with the EBF model.

General Administration expenses decreased \$50,989 or 6% as a result of reduced legal fees and purchased services.

School Administration expenses decreased \$19,250 or 2%. The District hired three new administrators who started in the FY 19-20 school year.

Operation and maintenance increased \$1,628,410 or 113% as part of the three year capital improvement plan which included the traffic safety project and renovation of the Spring Wood and Waterbury libraries.

Transportation expenses decreased \$177,873 or 18% as a result of the COVID 19 pandemic which resulting in the District going to full remote learning in March 2020.

Central Support services costs increased \$155,657 or 23% over the prior year due to increased spending on technology equipment and hiring of a Communications/Community Relations Director. The district is a 1:1 technology device district.

Interest on long-term liabilities increased \$78,920 or 18% due to issuance of general obligation limited tax bonds in FY2019. During FY 2019 the District issued Limited Tax School Bonds for the purpose of financing the Greenbrook library renovation project and the traffic safety renovation project. Funds flowed from the Working Cash Fund to the Capital Projects Fund. Additionally, the District refinanced a lease agreement in fiscal year 2019 for copiers. During FY 2020 the District issued Limited Tax School Bonds for the purpose of financing the Spring Wood and Waterbury library renovation projects. A more detailed review of the Districts general long-term debt obligations can be found in Note 5 of the Notes to Financial Statements.

Total revenues for 2019-2020 were \$29,336,306 while the District's expenses were \$29,580,331 thereby decreasing net position by \$244,025. The main reason for the decrease in net position was increased liabilities due to the sale of limited tax school bonds for the renovation project as well as increased pension liabilities.

Management's Discussion and Analysis For the Year Ended June 20, 2020

### Reporting the District's Most Significant Funds – Fund Financial Statements

The District's fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole.

Fund accounting devices that the District uses to keep track of specific sources of funding and spending for particular programs include:

- Some funds that are required by state law and by bond covenants, and
- Other funds established by the District to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as Working Cash).

The District has two categories of funds:

- Governmental Funds: All of the District's basic services are included in governmental funds which generally focus on (1) how cash and other financial assets can readily be converted to cash flow both in and out and (2) the balances left at year-end that are available for spending.
- Consequently, the governmental funds statements provide a detailed short-term view that allows one to determine
  whether there are more or fewer financial resources that can be spent in the near future to finance the District's
  programs. Because this information does not encompass additional long-term focus of the Government-wide
  statements, reconciliations are provided to explain the relationship (or differences) between them.
- Fiduciary Funds: The District is the trustee, or fiduciary, for assets that belong to others, such as the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

### Financial Analysis of the District's Funds

The District's governmental funds have a combined fund balance of \$18,677,133 as of June 30, 2020. This is an increase of \$2,038,942 from the June 30, 2019 fund balance of \$16,638,191. This is a result of the issuance of Working Cash Fund Bonds for the renovation of the Spring Wood and Waterbury libraries.

The General Fund consists of the primary operating accounts of the District. These include the Educational Account, Operations & Maintenance Account, Working Cash Account and Tort Immunity Account. The District had revenues of \$23,280,752 in the General Fund for the 2019-2020 year and expended \$21,540,987 for a surplus of \$1,739,765 before other financing sources or uses. The ending increased the General Fund balance of \$15,800,811 was due to savings as a result of the COVID 19 pandemic. The District was able to reduce costs from March through June as a result of the District going from in-person learning to fully remote learning. Extra-curricular activities were all cancelled.

The Educational Account reflected an increase in revenues due to local property taxes, the state fully funding the Evidenced Based Funding model as well as an \$35,738 increase in investment income. (See Table A-3).

Management's Discussion and Analysis For the Year Ended June 20, 2020

The Education Fund reflects decreased support services due to the outsourcing of a psychologist as well as the retirement of a speech pathologist replaced by a newer staff member. Payment to other governments also increased as the District reclassified accounts for public and private tuition payments to more accurately track those expenditures.

12,936,155 6,667,621 1,288,400		iscal Year 2019 12,709,720 6,509,216		ecrease) 226,435

The Operations and Maintenance Account reflected an increase in capital outlay from \$156,000 in fiscal year 2019 to \$186,366 in fiscal year 2020 due to renovation projects. The Operations and Maintenance fund balance increased by \$129,903 in fiscal year 2020. Savings was a result of conservative budgeting. However, ending fund balance decreased by \$1,370,097 due to a transfer of \$1,500,000 to the Capital Project Fund for library projects.

The Working Cash Account increased due to a bond sale. That fund balance ended the fiscal year at \$3,879,748, up \$1,355,733 for the year.

The Tort Immunity Account revenues consisted of local property taxes, evidence based funding as well as investments and a small refund from the prior year. This fund also remained relatively flat as expenditures for Property Casualty insurance were \$117,358 for the year. The fund balance ended the fiscal year at \$29,303.

Non-major Governmental Funds include the Transportation Fund, Municipal Retirement/Social Security Fund and Capital Projects Fund. Transportation is a significant operating expense for the District. As shown below in Table A-4, transportation revenues increased as a result of the State funding five payments in FY 2020. Additionally, the District busing costs decreased due to the pandemic and the district going fully remote beginning in March of 2020.

Management's Discussion and Analysis For the Year Ended June 20, 2020

Transportation Fund (Table A-4) Schedule of Revenues and Expenditures

	-		•			•			

The Fire Prevention and Safety Fund increased by \$68 during fiscal year 2020 as a result of interest income.

### **General Fund Budgetary Highlights**

The District budget is prepared in accordance with Illinois law and based on the modified accrual basis of accounting, utilizing revenues, expenditures and encumbrances.

Comparison of 2019-2020 Budget vs. Actual (Table A-5)									
					\$ % Actual Revo				
General Fund		Budget		Actual	0	Difference	Difference	over E	xpenditures
Educational Revenue	\$	16,295,000	\$	20,892,176	\$	4,597,176	28%		
Educational Expenditures		16,295,000		19,328,218		3,033,218	19%	\$	1,563,958

O&M Expenditures		2,255,000		2,095,411		(159,589)	-7%		129,903
Working Cash Revenue		10,650		49,276		38,626	363%		
Working Cash Expenditures		-		-		-	0%		49,276
Tort Immunity Revenue		113,000		113,986		986	1%		
Tort Immunity Expenditures		113,000		117,358		4,358	4%		(3,372)
Total Revenue		18,673,650		23,280,752		4,607,102	25%		
Total Expenditures	\$	18,663,000	\$	21,540,987	\$	2,877,987	15%	\$	1,739,765
							-		

Appropriate budgetary control over all governmental expenditures is maintained with the use of a formal encumbrance system. Encumbered amounts lapse at year-end, on June 30, 2020. All appropriations lapse at year-end and must be re-established the following fiscal year.

The Board of Education and the Administration will continue to develop strategies to ensure that the financial condition of the District remains sound.

Management's Discussion and Analysis For the Year Ended June 20, 2020

### **Capital assets**

The District's investment in capital assets included the roof replacement at all three main buildings. Roofs now have a warranty for 30 years. A more detailed review of the Districts capital assets can be seen in Note 4 of the Notes to Financial Statements.

Capital Assets Net of Depreciation (Table A-6)								
		2020		2019				
Capital Assets								
Land	\$	2,151,258	\$	2,151,258				
Building and Improvements		16,913,845		16,316,001				
Equipment		1,052,777		955,526				
Total Capital Assets	\$	20,117,880	\$	19,422,785				
			-					

### **Debt Administration**

The District's statutory debt limit is 6.9% of the Equalized Assessed Valuation of all taxable property located within the boundaries of the District.

2019 Equalized Assessed Value:	\$ 453,587,951
Debt Limit @ 6.9%	\$ 31,297,569
General Obligation Debt Less: Debt Service Fund Balance	\$ 15,040,000 (129,967)
Net General Obligation Debt Outstanding	\$ 14,910,033
Legal Debt Margin	\$ 16,387,536

### Long Term Debt

General Obligation Bonds outstanding at year end were \$15,040,000. The District's tax bonds carry an AA rating from Standard & Poor's. The District's ratings reflect a steady, moderate tax base and sound financial operations with ample reserves, moderate debt burden and adequate security protection. Further detail is included in Note 5 of the Notes to Financial Statements.

Outstanding General Obligation Bonds (Table A-7)								
		2020		2019

Series 2020A		410,000		-				
Series 2020B		3,105,000		-				
otal Capital Assets		15,040,000	\$	12,470,000				
			•	_				

Management's Discussion and Analysis For the Year Ended June 20, 2020

### **Initiatives**

In January of 2019 the Board of Education, administration, staff, students and community members met to develop a new Three Year Strategic Plan for FY 2020 through 2022. That plan was adopted by the Board in June 2019. The District reviews these new objectives with Board members quarterly. The intent of this plan is to reflect, revisit, and refocus on the mission and strategic objectives for the future of the District.

### **Next Year's Budget**

The 2020-2021 budget for the General Fund shows a balanced budget with revenues equal to expenditures.

### **Factors Bearing on the District's Future:**

The District is presently aware of several circumstances that may impact the financial health in the future:

- > The uncertainty due to the COVID-19 pandemic will be the largest factor facing the District in the next year. While the District's financial health is strong, the pandemic has created large reductions in revenues at the State level. This may result in reduced or pro-rated state funding to all schools in the state of Illinois.
- The District has seen a reduction in our student population as birth rates have declined. Since EBF is based on student count, we will likely see a reduction in future funding if our student counts continue to decline.
- On the positive side, the District has several significant industrial/commercial construction projects underway in the area. This will result in additional new property outside of the tax cap in the next few years.
- > The potential of a TRS cost shift, or a property tax freeze could negatively impact the District.

### **Contacting the District's Financial Management**

This financial report is designed to provide the District's citizens, taxpayers, investors and creditors with a general overview of the District's finances. Should you have questions about this report or need additional financial information, contact Wendy Flaherty, Assistant Superintendent of Finance & Operations, 5540 Arlington Drive E., Hanover Park, IL 60133.

Fund balances, end of year	\$ 15,800,811	\$ 129,967	\$ 1,617,402	\$ <u>1,128,953</u>	\$ 18,677,133

Reconciliation of the Statement of Revenues, Expenditures and Changes In Fund Balance of Governmental Funds to the Statement of Activities

Net change in fund balances - governmental funds		\$ 2,038,942
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay Depreciation expense	2,088,260 (1,393,165)	695,095
Because some of the governmental revenues will not be collected for several months after the District's fiscal year ends, they are not considered "available" revenues and are not accrued in the governmental funds. This is the change in unavailable revenue.		(117,520)
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of:  Change in deferred inflows/outflows related to pension Change in deferred inflows/outflows related to OPEB Change in net pension liability - IMRF Change in net pension liability - TRS Change in net OPEB liability - THIS	(1,196,626) 146,639 1,149,639 3,241 (525,833)	(422,940)
The governmental funds record bond and loan proceeds as other financing sources, while repayment of bond and loan principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of bonds and loans and related items is as follows:	(2.545.000)	
Bond issuance Capital lease proceeds	(3,515,000) (39,318)	
Repayment of bonds and other long term debt	701,894	
Payment to escrow agent	355,000	
Bond premium amortization	42,060	
Amortization of deferred loss on refunding	17,762	 (2,437,602)
Change in net position of governmental activities		\$ (244,025)

Liabilities	
Due to organizations	\$ <u>24,614</u>

## Notes to Financial Statements

## **Note 1: Summary of Significant Accounting Policies**

Keeneyville School District No. 20 (the District) is governed by an elected Board of Education. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the significant accounting policies, consistently applied in the preparation of the accompanying financial statements is described below.

In June 1999 the GASB unanimously approved Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain of the significant changes in the Statement include the following:

The financial statements include;

- A Management's Discussion and Analysis (MD&A) providing an analysis of the District's overall financial position and results of operations.
- Financial statements prepared using the full-accrual basis accounting for all the District's activities.
- A change in the fund financial statements to focus on major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements) as of June 30, 2020.

#### a. The Reporting Entity

The District includes all funds of its governmental operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the District as there are no other organizations for which it has financial accountability.

Joint Venture – the District is also a member of the following organization:

School Association for Special Education (See Note 9)

## b. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The following summarizes the fund types used by the District:

## **Notes to Financial Statements**

## **Note 1: Summary of Significant Accounting Policies** (Continued)

## **b. Fund Accounting (Continued)**

GASB statement No. 54 refined the definitions of various governmental funds. These updated definitions are incorporated into the following fund descriptions.

Governmental funds include the following fund types:

**General Fund** – The General Fund, which consists of the legally mandated Educational Account, Operations and Maintenance Account, and Working Cash Account is used to account for the revenues and expenditures, which are used in providing education in the District. It is used to account for all financial resources except those accounted for in other funds.

- ➤ Educational Account These accounts are used for most of the instructional and administrative aspects of the District's operations, as well as providing school lunch services to students. The revenue consists primarily of local property taxes, state government aid and student registration fees and lunch receipts from the District food service program.
- ➤ Operations and Maintenance Account This fund accounts are used for expenditures made for operation, repair and maintenance of District property. Revenue consists primarily of local property taxes.
- ➤ Working Cash Account This fund accounts for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied. The Working Cash Account was established and has been used to respond to fluctuations in cash flow resulting from unpredictable property tax collections. The earnings of the fund are allowed to be transferred to another fund under the Illinois Compiled Statutes. The principal of the fund, accumulated from bond issues, can be used as a source from which the District borrows money to support temporary deficiencies in other funds, or may be partially or fully transferred to the General Fund and the Special Revenue Funds Operation and Maintenance and Transportation Funds, upon Board approval. In fiscal year 2017 the District created a small levy for this account to access property taxes.
- ➤ Tort Immunity Account This fund accounts for revenues and expenditures related to tort immunity. Revenue is primarily derived from local property taxes.

**Special Revenue Funds** - Special Revenue Funds account for the proceeds of specific revenue sources (other than Debt Service and Capital Projects Funds) that are legally restricted to expenditures for specified purposes. The District's Special Revenue Funds are the Transportation and Municipal Retirement/Social Security Funds.

> Transportation Fund — This fund, elected by the District to be reported as major, accounts for the revenue and expenditures relating to student transportation, both to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

## **Notes to Financial Statements**

## Note 1: Summary of Significant Accounting Policies (Continued)

### **b. Fund Accounting (Continued)**

Municipal Retirement/Social Security Fund – This fund, elected by the District to be reported as major, accounts for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for noncertified employees and social security contributions for applicable certified and noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

**Debt Service Funds** - Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

➤ **Debt Service Fund** - The Debt Service Fund, elected by the District to be reported as major, accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. Since there are no legal requirements on bond indentures, which mandate that a separate fund be established for each bond issue, the District maintains one Debt Service Fund for all bond issues.

Capital Projects Funds - Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

- ➤ Capital Project Fund The Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities. Revenue is primarily derived from debt proceeds.
- Fire Prevention and Safety Fund The Fire Prevention and Safety Fund accounts for financial resources to be used for acquisitions and construction projects, which qualify as Fire Prevention and Safety expenditures. Revenue is primarily derived from debt proceeds.

#### **Fiduciary Fund Type**

**Agency Funds** - The Agency Funds (Activity Funds) account for assets held by the District in trustee capacity or as an agent for student organizations. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. In accordance with GASB, fiduciary funds are not included in the government-wide financial statements.

The District reports the following funds as major governmental funds:

- General Fund
- Debt Service Fund (elected as major)
- Capital Projects Fund

## Notes to Financial Statements

## Note 1: Summary of Significant Accounting Policies (Continued)

### **b. Fund Accounting** (Continued)

The District has adopted a policy consistent with GASB Statement No. 34 to net the interfund receivables and payables for combined totals used to determine the major funds. Consequently, the interfund loan balances, which net to zero, are not utilized to determine major funds. The District has elected to report the Debt Service and Fire Protection and Safety Fund as a major fund for the year ended June 30, 2020.

#### c. Basis of Presentation

#### **Government-Wide Financial Statements**

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the District, except for fiduciary funds. The effects of interfund activity have been eliminated. All of the District's operating activities are considered "governmental activities", that is, activities that are normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities". The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Property taxes and other revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenue of the District.

## Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the Statement of Net Position.

### **Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting, as applicable. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

## Notes to Financial Statements

## Note 1: Summary of Significant Accounting Policies (Continued)

### **Revenues- Exchange and Non-exchange Transactions**

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest, grants, entitlements and student fees.

## **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period[s] and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents the acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

## **Expenses/Expenditures**

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of costs, such as depreciation and amortization are not recognized in governmental funds.

## **Notes to Financial Statements**

## Note 1: Summary of Significant Accounting Policies (Continued)

## d. Deposits and Investments

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at amortized cost. All other investments are reported at fair value. Gains or losses on the sale of investments are recognized upon realization. Unrealized gains and losses are realized for those investments valued at fair value. Investments are placed according to guidelines provided by the Illinois Compiled Statutes public funds investment act.

Under Illinois law, the District is restricted to investing funds in specific types of investment instruments. The following generally represents the types of instruments allowable by state law:

- Securities issued or guaranteed by the United States.
- Interest-bearing accounts of financial institutions insured by the Federal Deposit Insurance Corporation.
- Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500,000,000 rated in the three highest classifications by at least two rating agencies.
- Insured accounts of an Illinois credit union chartered under United States or Illinois law.
- Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same types of obligations.
- Illinois Funds. (A state sponsored investment pool.)
- Repurchase agreements which meet instrument transactions requirements of Illinois law.
- Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, school district, the State of Illinois, any other state, or any political subdivision or agency of the State of Illinois or any other state.

### e. Capital Assets

Capital assets, which include land, buildings, buildings improvements, vehicles, equipment, and construction in progress are reported in the government-wide financial statements. The District defines capital assets as assets with an initial cost of more than \$2,500 and an estimated life in excess of one years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Buildings, improvements, furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and building improvements	40-50 years
Land improvements	20 years
Furniture, equipment and vehicles	5-10 years

## Notes to Financial Statements

## Note 1: Summary of Significant Accounting Policies (Continued)

## f. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## g. Fund Equity

In the GWFS, net position is reported as restricted when constraints placed on net position are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

## h. Property Taxes

Property taxes are levied each year on all taxable real property located in the District on or before the last Tuesday in December. The adoption date for the 2019 tax levy was November 21, 2019. Taxes attach as an enforceable lien on property on January 1 and are payable in two installments (on or about June 1 and September 1) subsequent to the year of levy. The District receives significant distributions of tax receipts approximately one month after these due dates. Property taxes for the 2019 levy, which are partially collected during the 2020 fiscal year, are considered to be budgeted to fund the operations of the 2020/21 school year and are reported as unavailable revenue.

### i. Personal Property Replacement Taxes

Personal property replacement tax revenues are first allocated to the extent required by Illinois law to the Municipal Retirement/Social Security Fund with the balance allocated to funds at the discretion of the District.

### j. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF), together "the Plans," and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## Notes to Financial Statements

## Note 1: Summary of Significant Accounting Policies (Continued)

## k. Other Post Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net positions of the Teachers' Health Insurance Security Fund (THIS) "the Plan," and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

### I. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

## m. Prior Year Comparative Information

The basic financial statements include certain prior-year partial comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2019 from which the partial information was derived.

### **Note 2: Cash and Investments**

## **Custodial Credit Risk - Deposits**

At June 30, 2020, the carrying amount of the District's deposits totaled \$23,455,205 (excluding student activity funds of \$24,614) and the bank balances totaled \$24,585,386. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2020, all deposits were either insured or collateralized.

#### **Investments**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

## **Notes to Financial Statements**

## Note 2: Cash and Investments (Continued)

As of June 30, 2020, the District had the following investments and maturities:

		Investment Maturities (in Years)				
				<b>-</b>	Applicable	
				Percent of	Agency	
Investment Type	Fair Value	Less than 1	Over 1	Portfolio	Rating	
Other Investments:						
Illinois School District Liquid Asset Fund	\$ 4,612,745	\$ 4,612,745 \$	-	92 %	AAAm	
Municipal Bonds	421,705		421,705	<u>8 %</u>	N/A	
Total investments	\$ <u>5,034,450</u>	\$ 4,612,745 \$	421,705	100.0 %		

The District had the following recurring fair values measurements as of June 30, 2020:

Municipal bonds of \$421,705 are valued by a pricing service based on recent market transactions (Level 2 inputs)

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an investment pool created and regulated by the Illinois General Assembly. The fair value of the District's investment in ISDLAF+ has been determined using the net asset value (NAV) per share (or its equivalent) of the investments. The NAV of the Liquid Class and MAX Class are determined as of the close of business on each Illinois banking day. The Multi-Class Series invests in high-quality short-term debt instruments (money market instruments), and shares may be redeemed on any Illinois banking day. The Term Series invest in high-quality debt instruments, which are generally money market instruments but may include instruments with a maturity over one year, and shares may be redeemed with seven days' advance notice. There were no known restrictions on redemption of the District's investments as of June 30, 2020.

#### Credit Risk

The District's investments are rated, as shown above, by the applicable rating agency. The District has adopted a policy to limit its credit risk by limiting its investments to the investments allowed in Note 1d.

#### Concentration of Credit Risk

The District places no limit on the amount the District may invest any one issuer. More than 5 percent of the District's investments are concentrated in specific individual investments. The above table indicates the percentage of each investment to the total investments of the District.

#### Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

## **Notes to Financial Statements**

## **Note 3: Special Tax Levies**

Proceeds from the Tort Immunity (liability insurance) special tax levy and related expenditures have been included in the operations of the General Fund (Tort Immunity Account). At June 30, 2020, the cumulative Tort Immunity revenues exceeded related cumulative expenditures resulting in a \$29,303 fund balance. Tort expenditures consisted of \$117,358 of insurance premiums.

Proceeds from the Special Education special tax levy and related expenditures disbursed have been included in the operations of the Educational Account. At June 30, 2020, the cumulative Special Education expenditures disbursed exceeded related cumulative revenues received in the Educational Fund.

## **Note 4: Capital Assets**

A summary of changes in capital assets follows:

Governmental Activities	Balance 7/1/2019	Additions	Deletions	Balance 6/30/2020
Capital assets, not being depreciated:				
Land	\$ <u>2,151,258</u> \$	<u> </u>	<u>-</u>	\$ 2,151,258

## Notes to Financial Statements

## Note 5: General Long-Term Debt (Continued)

#### a. General Obligation Bonds

Bonds dated 12/15/15 were issued in the amount of \$5,655,000. Principal payments are due January 1, with the last installment due 1/1/2029. Interest is paid July 1 and January 1, with rates varying from 3.0% to 4.0%.

Bonds dated 3/30/16 were issued in the amount of \$6,180,000. Principal payments are due January 1, with the last installment due 1/1/2035. Interest is paid July 1 and January 1, with rates varying from 3.00% to 4.00%.

Bonds dated 9/4/18 were issued in the amount of \$2,520,000. Principal payments are due January 15, with the last installment due 1/15/2035. Interest is paid July 15 and January 15, with rates varying from 3.4% to 4.0%.

Bonds dated 5/7/2020 were issued in the amount of \$410,000. Principal payments are due January 15, with the last installment due 1/15/2035. Interest is paid July 15 and January 15, at a rate of 3.465%.

Bonds dated 5/7/2020 were issued in the amount of \$3,105,000. Principal payments are due January 15, with the last installment due 1/15/2038. Interest is paid July 15 and January 15, at a rate of 2.490%.

At June 30, 2020, the annual cash flow requirements of all bonds payable to retirement were as follows:

Due In Fiscal Year	Principal	Interest	Total
2021	\$ 610,000	\$ 492,631 \$	1,102,631
2022	540,000	499,203	1,039,203
2023	575,000	477,605	1,052,605
2024	615,000	454,603	1,069,603
2025	655,000	433,405	1,088,405
2026 - 2035	3,890,000	1,790,079	5,680,079
2031 - 2035	5,130,000	994,891	6,124,891
2036 -2038	3,025,000	134,709	3,159,709
Total	\$ <u>15,040,000</u>	\$ 5,277,126 \$	20,317,126

Payments to retire bonds payable will be made from debt service levies in future periods. There is \$129,167 of fund equity available in the Debt Service Fund to service outstanding bonds payable. The District is subject to the Illinois Compiled Statutes which limits the amount of bond indebtedness, to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2020 the statutory debt limit for the District was \$31,297,569, providing a debt margin of \$16,387,536 after taking into account amounts available in the Debt Service Fund.

In Fiscal year 2020 the District partially refund a potion of the 2015 Refunding/Fire Prevention and Safety Bonds. \$355,000 of the 2015 bonds were defeased through the issuance of the May 7, 2020 general obligation refunding bonds.

## **Notes to Financial Statements**

## Note 5: General Long-Term Debt (Continued)

### b. Long-Term Capital Leases

The District has refinanced a lease agreement for copy machines. As of June 30, 2020, the lease was comprised of one repayment schedule, payable from the Debt Service Fund. The lease currently extends into fiscal year 2023. The lease calls for monthly payments, which are made up of principal and interest. The interest rate is 4.00%. Total assets received under the lease amount to \$271,540.

The District has entered into a lease agreement for interactive panels. As of June 30, 2020, the lease was comprised of one repayment schedule, payable from the Debt Service Fund. The lease currently extends into fiscal year 2023. The lease calls for annual payments, which are made up of principal and interest. The interest rate is 2.986%. Total assets received under the lease amount to \$314,157.

The District has entered into a lease agreement for interactive panels. As of June 30, 2020, the lease was comprised of one repayment schedule, payable from the Debt Service Fund. The lease currently extends into fiscal year 2025. The lease calls for annual payments, which are made up of principal and interest. The interest rate is 4.35%. Total assets received under the lease amount to \$39,318.

Remaining principal and interest requirements for the leases are as follows:

		Capital	•	
Due In Fiscal Year		Principal	Interest	Total
2021	\$	122,559	\$ 12,464	\$ 135,023
2022		126,194	8,829	135,023
2023		130,713	4,308	135,021
2024		7,875	733	8,608
2025	<u> </u>	8,233	374	8,607
Total	\$ <u></u>	395,574	\$ 26,708	\$ 422,282

## Notes to Financial Statements

## **Note 6: Employee Retirement Systems**

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below. The General Fund has been used in prior years to liquidate pension/OPEB liabilities.

## a. Teachers' Retirement System of the State of Illinois (TRS)

### Plan Description

The District participates in the Teachers Retirement System of the State of Illinois (TRS). TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at http://www.trsil.org/financial/cafrs/fy2019; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

## Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

## Notes to Financial Statements

## Note 6: Employee Retirement Systems (Continued)

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

#### **Contributions**

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2019, was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

**On-behalf contributions to TRS.** The State of Illinois makes employer pension contributions on-behalf of the District. For the year ended June 30, 2020, State of Illinois contributions recognized by the District were based on the State's proportionate share of the pension expense assicated with the District, and the District recognized revenue and expenditures of \$3,895,473 in pension contributions from the state of Illinois.

**2.2 formula contributions.** The District contributes 0.58% of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2020 were \$50,044, and are deferred because they were paid after the June 30, 2019 measurement date.

**Federal and special trust fund contributions.** When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2020, the employer pension contribution was 10.66% of salaries paid from federal and special trust funds. For the year ended June 30, 2020, no salaries were paid from the federal and special trust funds that required employer contributions. These contributions are deferred because they were paid after the June 30, 2019 measurement date.

## Notes to Financial Statements

## Note 6: Employee Retirement Systems (Continued)

**Employer retirement cost contributions.** Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2020, the employer paid \$1,228 to TRS for employer contributions due on salary increases in excess of 6 percent and made no payments for sick leave days granted in excess of the normal annual allotment.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020 the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability \$ 893,884 State's proportionate share of the net pension liability associated with the District 63,616,722

Total \$\_\_64,510,606

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2019, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2019, the employer's proportion was 0.0011000%, which was a decrease of 0.0000490% from its proportion measured as of June 30, 2018.

## **Notes to Financial Statements**

## Note 6: Employee Retirement Systems (Continued)

For the year ended June 30, 2020, the District recognized pension expense of \$3,895,473 and revenue of \$3,895,473 for support provided by the state. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	I	Deferred		Deferred
	0	utflows of		Inflow of
	R	Resources	F	Resources
Difference between expected and actual experience	\$	14,657	\$	-
Changes in assumptions		20,029		17,158
Net difference between projected and actual earnings in pension plan				
investments		1,416		-
Changes in proportion and differences between District contributions and proportionate share of contributions		316,642		539,735
Total deferred amounts to be recognized in OPEB expense in future periods		352,744		556,893
District's contributions subsequent to the measurement date		51,272		<u>-</u>
Total	\$	404,016	\$	556,893

\$51,272 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net Deferred
	Outflows
	(Inflows) of
Year Ending June 30,	Resources
2021	\$ (265,006)
2022	46,269
2023	18,836
2024	(1,622)
2025	(2,626)
Total	\$ <u>(204,149)</u>

## **Notes to Financial Statements**

## Note 6: Employee Retirement Systems (Continued)

#### **Actuarial Assumptions**

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases Varies by amount of service credit

Investment rate of return 7.00% net of pension plan investment expense, including inflation

Healthcare cost trend rates In the June 30, 2019 actuarial valuation, mortality rates were based on the RP-

2014 White Collar Table with appropriate adjustments for the TRS experience. The rates are based on a fully-generational basis using projection table MP-2017. In the June 30, 2018 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational

basis using projection table MP-2014.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

		Long-Term
	Target	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return
U.S. equities large cap	15.0 %	6.3 %
U.S. equities small/mid cap	2.0 %	7.7 %
International equities developed	13.6 %	7.0 %
Emerging market equities	3.4 %	9.5 %
U.S. bonds core	8.0 %	2.2 %
U.S. bonds high yield	4.2 %	4.0 %
International debt developed	2.2 %	1.1 %
Emerging international debt	2.6 %	4.4 %
Real estate	16.0 %	5.2 %
Commodities (real return)	4.0 %	1.8 %
Hedge funds (absolute return)	14.0 %	4.1 %
Private Equity	<u>15.0</u> %	9.7 %
Total	100.0 %	

## **Notes to Financial Statements**

## Note 6: Employee Retirement Systems (Continued)

#### **Discount Rate**

At June 30, 2019, the discount rate used to measure the total pension liability was 7.0%, which was the same as the June 30, 2018 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2019 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate::

				Current		
	19	% Decrease	Di	scount Rate	1	% Increase
		(6.00%)		(7.00%)		(8.00%)
District's proportionate share of the net pension liability	\$	1,091,801	\$	893,884	\$	731,157

Detailed information about the TRS's fiduciary net position as of June 30, 2019 is available in the separately issued TRS Comprehensive Annual Financial Report.

#### b. Illinois Municipal Retirement Fund (IMRF)

## Plan Description and Benefits

The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained online at <a href="https://www.imrf.org">www.imrf.org</a>.

## **Notes to Financial Statements**

## Note 6: Employee Retirement Systems (Continued)

All employees (other than those covered by TRS) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

#### Plan Membership

As of June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	121
Inactive employees entitled to but not yet receiving benefits	113
Active employees	58
Total	292

#### **Contributions**

As set by statute, Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actual contribution rate for calendar year 2019 was 7.55% of covered payroll. The District contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### **Net Pension Liability**

The District's net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

## **Notes to Financial Statements**

## Note 6: Employee Retirement Systems (Continued)

### **Actuarial Assumptions**

The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method Entry Age Normal
Asset valuation method Market Value of Assets
Amortization method Level Percent of Payroll

Price inflation 2.50%

Salary increases 3.35% to 14.25%, including inflation

Investment rate of return 7.25%

Retirement age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2017 valuation pursuant to an experience

study of the period 2014-2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully

generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with

adjustments to match current IMRF experience.

Other information: Notes There were no benefit changes during the year.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Equities	37.0 %	7.05 %
International equities	18.0 %	8.10 %
Fixed income	28.0 %	3.70 %
Real estate	9.0 %	6.35 %
Alternatives	7.0 %	4.65-11.30 %
Cash		1.85 %
Total	<u>100.0</u> %	

## **Notes to Financial Statements**

## Note 6: Employee Retirement Systems (Continued)

### Discount Rate

The single discount rate used to measure the total pension liability for IMRF was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.75%, and the resulting single discount rate is 7.25%.

#### Changes in Net Pension Liability

	Total OPEB Liability (A)	Plan Fiduciary Net Position (B)	Net OPEB Liability (A) - (B)
Balances at December 31, 2019	\$ <u>12,371,267</u>	\$ 11,098,969	\$ 1,272,298

## **Notes to Financial Statements**

## Note 6: Employee Retirement Systems (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liabilities of the District, calculated using the discount rate of 7.25%, as well as what the District's net pension liabilities would be if they were calculated using discount rates that are 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

				Current		
	1%	Decrease	Dis	count Rate	1	% Increase
	(	(6.25%)		(7.25%)		(8.25%)
District's proportionate share of the net pension liability	\$	1,512,201	\$	122,659	\$	(1,019,857)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2020, the District recognized pension expense of \$397,714. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred	Deferred
	(	Outflows of	Inflow of
		Resources	Resources
Difference between expected and actual experience	\$	65,910	\$ -
Net difference between projected and actual earnings in OPEB plan investments	_		596,852
Total deferred amounts to be recognized in OPEB expense in future periods		65,910	596,852
District's contributions subsequent to the measurement date	_	94,659	
Total	\$_	160,569	\$ 596,852

\$94,659 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Ne Ne	t Deferred
	Outflows
(Ir	nflows) of
Year Ending December 31,	esources
2020 \$	(113,813)
2021	(189,952)
2022	50,185
2023	(277,362)
Total \$	(530,942)

## **Notes to Financial Statements**

## **Note 7: Other Postemployment Benefits**

## **Teacher Health Insurance Security (THIS)**

Plan Description. The District participates in the Teacher Health Insurnace Security Fund (THIS). The THIS is a cost-sharing, multiple-employer defined benefit post-employment healthcare plan (OPEB) that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. THIS members are retirees of public schools who were certified educators or administrators. Eligibility is currently limited to former full-time employees, and others who were not full-time employees that meet certain requirements, and their dependents. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) (SEGIA) establishes the eligibility and benefit provisions of the plan.

The THIS issues a publicly available financial report that can be obtained at the website of the Illinois Auditor General: <a href="https://www.auditor.illinois.gov/Audit-Report/ABC-List.asp">https://www.auditor.illinois.gov/Audit-Report/ABC-List.asp</a>. The current reports are listed under "Central Management Services"; prior reports are available under "Healthcare and Family Services".

## Benefits Provided

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state administered participating provider option plan or choose from several managed care options. Annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage Plans.

Amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS.

#### **Contributions**

The SEGIA requires that all active contributors to the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.24% of salary and for every employer of a teacher to contribute an amount equal to 0.92% of each teacher's salary. Additionally, the SEGIA requires the State to match the employees' contribution on-behalf of the employer. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THIS, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The SEGIA requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

## **Notes to Financial Statements**

## Note 7: Other Postemployment Benefits (Continued)

On-behalf contributions to THIS. The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 1.24% of pay during the year ended June 30, 2020. State of Illinois contributions were \$106,967, and the District recognized revenue and expenditures of this amount during the year.

Employer contributions to THIS Fund. The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.92% during the year ended June 30, 2020. For the year ended June 30, 2020, the District paid \$79,381 to the THIS Fund, which was 100 percent of the required contribution. These contributions are deferred because they were paid after the June 30, 2019 measurement date.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to **OPEB** 

At June 30, 2020, the District's reported a liability for its proportionate share of the net OPEB liability. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability State's proportionate share of the net OPEB liability associated with the District 13,120,889

\$ 22,810,441 Total

The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019. The District's proportion of the net OPEB liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2019, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2019, the District's proportion was 0.035009%, which was an increase of 0.000226% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized OPEB expense of \$458,568.

9,689,552

## **Notes to Financial Statements**

## Note 7: Other Postemployment Benefits (Continued)

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	D	eferred	Deferred
	Ou	itflows of	Inflow of
	Re	esources	Resources
Difference between expected and actual experience	\$	-	\$ 160,790
Changes in assumptions		3,673	1,110,738
Net difference between projected and actual earnings in OPEB plan investments		-	317
Changes in proportion and differences between District contributions and			
proportionate share of contributions		130,150	 3,581
Total deferred amounts to be recognized in OPEB expense in future periods		133,823	1,275,426
District's contributions subsequent to the measurement date		79,381	
Total	\$ <u></u>	213,204	\$ 1,275,426

\$79,381 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Net Deferred
	Outflows
	(Inflows) of
Year Ending June 30,	Resources
2021	\$ (233,887)
2022	(233,887)
2023	(233,862)
2024	(233,810)
2025	(155,137)
Thereafter	<u>(51,020)</u>
Total	\$ <u>(1,141,603)</u>

#### Actuarial Valuation Method

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

## Notes to Financial Statements

## Note 7: Other Postemployment Benefits (Continued)

#### Actuarial Assumptions.

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases Depends on service and ranges from 9.50% at 1 year of service to 4.00% at 20

or more years of service. Salary increase includes a 3.25% wage inflation

assumption

Investment rate of return 0.00%, net of OPEB plan investment expense, including inflation

Healthcare cost trend rates Actual trend used for fiscal year 2019. For fiscal years on and after 2020, trend

starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.50%. Additional trend rate of 0.31% is added to non-Medicare costs on and after 2022 to

account for Excise Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

#### Discount Rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 3.62% as of June 30, 2018, and 3.13% as of June 30, 2019. The increase in the single discount rate from 3.62% to 3.13% caused the total OPEB liability to decrease by approximately \$2,296 million from 2018 to 2019.

## **Notes to Financial Statements**

## Note 7: Other Postemployment Benefits (Continued)

Sensitivity of the Employer's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.13%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.13%) or 1-percentage-point higher (4.13%) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	2.13%	3.13%	4.13%
District's proportionate share of the net OPEB liability	\$ 11,605,358	\$ 9,689,552	\$ 8,140,935

The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rate, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate. They key trend rates are 8.00% in 2020 decreasing to an ultimate trend rate of 4.81% in 2027 for non-Medicare coverage, and 9.00% decreasing to an ultimate trend rate of 4.50% in 2027 for Medicare coverage:

			H	lealthcare	
	Cost Trend				
	1% Decrease			Rate	1% Increase
		(a)	As	ssumptions	(b)
District's proportionate share of the net OPEB liability	\$	7,828,367	\$	9,689,552	\$ 12,203,316

- a) One percentage point decrease in healthcare trend rates are 7.00% in 2020 decreasing to an ultimate trend rate of 3.81% in 2027, for non-Medicare coverage, and 8.00% in 2020 decreasing to an ultimate trend rate of 3.50% in 2027 for Medicare coverage.
- b) One percentage point increase in healthcare trend rates are 9.00% in 2020 decreasing to an ultimate trend rate of 5.81% in 2027, for non-Medicare coverage, and 10.00% in 2020 decreasing to an ultimate trend rate of 5.50% in 2027 for Medicare coverage.

#### Note 8: Common Bank Account

Separate bank accounts are not maintained for all District funds; instead, certain funds maintain their uninvested cash balances in a common checking account, with accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund. Occasionally, certain funds participating in the common bank account will incur overdrafts (deficits) within the account. The overdrafts result from expenditures distributed which have been approved by the School Board.

## Notes to Financial Statements

# Note 9: Joint Venture - School Association for Special Education in Dupage County (SASED)

The District has entered into a joint agreement with other districts in DuPage County to provide special education programs and services to the students enrolled. Each member district has a financial responsibility from annual and special assessments as established by the policy board. Complete financial statements for SASED can be obtained from its business office at 6S331 Cornwall Road, Naperville, IL 60540.

## Note 10: Risk Management

The District has purchased insurance from private insurance from a risk pool (see Notes 11 and 12) and companies. Risks covered include general liability, workers compensation and others. Premiums have been displayed as expenditures in appropriate funds. No material decreases in insurance coverages have occurred nor have any insurance claims in excess of insurance coverages been paid or reported during the last three years.

## **Note 11: Suburban School Cooperative Insurance Pool (SSCIP)**

The District is a member of SSCIP, a voluntary cooperative agency consisting of Illinois public school districts and joint agreements. SSCIP's purpose is to manage and fund first-party property losses and third party liability claims of its members. Each member district has a financial responsibility to make annual contributions based on property values, student enrollment, personnel employed, past loss history and vehicles owned.

Complete financial statements of SSCIP are available from its treasurer at 5540 Arlington Drive, Hanover Park, IL 60103.

## **Note 12: Education Benefit Cooperative (EBC)**

The District is a member of the Educational Benefit Cooperative (EBC) which is the voluntary cooperative agency consisting of Illinois public school districts joint agreements. Its purpose is to manage and fund medical and dental claims of the covered employees (and their spouses and dependents) of its members. Currently, the various districts are covered under different plans voted on by their members which create various coverage costs and features. Additionally, EBC offers to its members Group Life Insurance Coverage obtained through an outside insurance company. EBC began operations on June 30, 1984, and currently has fifty-four members.

Complete financial statements can be obtained from the Treasurer at 1860 Glen Ellyn Road, Glendale Heights, IL 60139.

## Notes to Financial Statements

## **Note 13: Fund Balance Reporting**

According to Government Accounting Standards, fund balances are to be classified into five major classifications; Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance.

### **Nonspendable Fund Balance**

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

#### **Restricted Fund Balance**

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Examples of these restrictions could be those imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories —

#### 1. Special Education

Revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Account. Expenditures exceeded revenue for this purpose, resulting in no restricted fund balance.

## 2. Tort Immunity Account

Expenditures and the related revenues are accounted for in the Tort Immunity Account. Revenues received exceeded expenditures disbursed for this purpose, resulting in a restricted fund balance of \$29,303.

### 3. State and Federal Grants

Proceeds from state and federal grants and the related expenditures have been included in the General Fund and various Special Revenue Funds. At June 30, 2020, expenditures exceeded revenue from state and federal grants, resulting in no restricted balances.

#### 4. Capital Projects Funds

Expenditures and the related revenues are accounted for in the Capital Projects and Fire Prevention and Safety Funds. All equity within these funds are restricted for the associated capital expenditures within these funds.

## Notes to Financial Statements

## Note 13: Fund Balance Reporting (Continued)

#### **Committed Fund Balance**

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board through passage of a board resolution). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

#### **Assigned Fund Balance**

The assigned fund balance classification refers to amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

#### **Unassigned Fund Balance**

The unassigned fund balance classification is the residual classification for amounts in the General Fund for amounts that have not been restricted, committed, or assigned to specific purposes within the General Fund, or negative fund balance in any other fund.

#### **Expenditures of Fund Balance**

Unless specifically identified, expenditures disbursed act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances, Expenditures disbursed for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

## **Note 14: Transfers**

During the fiscal year ended June 30, 2020 the District transferred \$127,273 from the Educational account of the General Fund to the Debt Service Fund to fund the principal and interest payment of capital leases. The District also transferred \$1,696,789 from the Working Cash Fund and \$1,500,000 from the Operations and Maintenance Account to the Capital Project Fund to fund various capital projects throughout the District.

#### **Notes to Schedule**

Valuation date: Actuarially determined contribution rates are calculated as of December

31 of each year, which are 12 months prior to the beginning of the fiscal

year in which contributions are reported.

Methods and assumptions used to determine contribution rate

Actuarial cost method Aggregate entry age normal Level percent of pay, closed Remaining amortization period 24-year closed period

Asset valuation method 5-year smoothed market; 20% corridor

Wage growth 3.25% Inflation 2.50%

Salary increases 3.35% to 14.25%, including inflation

Investment rate of return 7.509

Retirement age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2017 valuation pursuant to an experience

study of the period 2014-2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with

fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF

experience.

The District implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

#### **Notes to Schedule**

#### Changes of assumptions

For the 2019, 2018, 2017, and 2016 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit, but the rates of increase in the 2018 measurement year were slightly higher.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

The District implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

<sup>\*</sup> The amounts presented were determined as of the prior fiscal-year end.

# Notes to Required Supplementary Information June 30, 2020

#### **Budgets and Budgetary Accounting**

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the Governmental Funds. All encumbrances are canceled at year end, and, if necessary, are reinstated at the beginning of the subsequent fiscal year. The legal level of budgetary control is the fund level, due to transfers which can be made by the Superintendent in accordance with No.4 below, the District may overspend the budgets at the department level, but may not alter the total fund budget. The Board of Education, in accordance with Chapter 105, Section 5/17-1 of the Illinois Compiled Statutes, follows these procedures in establishing the budgetary data reflected in the financial statements:

- ➤ The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- Prior to September 30 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- ➤ The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund without Board of Education approval; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education following the public hearing process mandated by law. The budget, which was not amended, was adopted on September 26, 2019.
- Formal budgetary integration is employed as a management control device during the year for all Governmental Funds.
- > The District has adopted a legal budget for all its Governmental Funds. The legal level of budgetary control is at the individual fund level, therefore, actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.
- The budget lapses at the end of each fiscal year.
- ➤ The District had the following excess of expenditures over budget:

Fiscal Year		Budget		Actual		Excess
Educational Account	Ś	16,295,000	\$	19,328,218	Ś	3,033,218

#### THIS PAGE INTENTIONALLY LEFT BLANK

#### STATISTICAL SECTION (UNAUDITED)

This part of the Government's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Keeneyville School District No. 20						
percentage of total tax rate	42%	43%	43%	43%	43%	42%

<sup>\*</sup>Includes Road District

Tax rates are expressed in dollars per one hundred of assessed valuation.

Tax rates are presented for all governments with boundaries that overlap the District.

The total tax rate applied to each parcel of taxable property in the District would be less than the total shown above.
