

Celebrating a New Building A 2017 Bond Project

SPRING BRANCH INDEPENDENT SCHOOL DISTRICT

Memorial High School

935 Echo Lane, Houston, TX 77024

Principal: Lisa Weir

Memorial High School's new four-story, 161,249 square-foot building addition and renovations to the existing site elevate teaching, learning and engagement to new heights in both design and functionality.

Additional facility maintenance and improved safety and site usage also are part of the recently completed work. The original school was built in 1963.

Construction

The new classroom building design was a collaboration between our architects, Stantec, and a project advisory team. Durotech Inc. served as the general contractor for the project. The four-story design replaces six older academic buildings.

Design

Unparalleled attention to detail, from Mustang murals, to acoustical ceilings, a main central atrium and modern staircase, make the four-story building addition unique. Located on the west side of the campus, it features a two-story dining area, 21 science labs, 28 general classrooms and a suite for assistant principals.

Site Plan

Site improvements include the installation of new traffic signals, a new driveway, increased parking, updates to the existing HVAC system, restroom facilities upgrades and an elevator system. New classrooms boast natural light and collaborative learning spaces. West-facing rooms overlook the turf field for a one-of-a-kind view.

Athletics

Upgrades to the athletics turf system, safety netting, practice fields, and field house, including an eight-court tennis complex and renovation of grass practice fields were also completed.

**Thank you to
our community for
your support
of the 2017 Bond.**

Great schools. Great community.

BOND

2017

Spring Branch ISD

The new classroom wing and site improvements provide critical upgrades identified for this Phase I rebuild of Memorial High School thanks to the generosity of our voters. Approved by 80 percent of the vote in November, 2017, the 2017 Bond Program continues the transformation of district facilities that began with the 2007 Bond Program.
