Each family/household is listed on the signup, with approximate size and any food intolerances or preferences. Please sign up to feed one of these Warrior staff households if you are able to do so, or you can [donate to RevTrak](#) to cover dinner items and help out as well. Getting to know your Centaurus Team

Each week we will introduce a member of the Centaurus faculty or staff to our parent and student community. This week we would like to introduce KERRIE WLAD.

photo credit Kristen McFarland

This is Doctora Wlad's first year at Centaurus after almost two decades in post secondary education. She is excited to be teaching Spanish in her home community and lives close to the school with her 10th grade daughter, Lucie, who attends here as well. She also has an older daughter, Rain, who lives on Vancouver Island in Canada.

Dra. Wlad was born in Canada into a family of Ukrainian immigrants and grew up speaking three languages - she even went to an elementary school where the primary language of instruction was Ukrainian. In her teens, she moved to Brazil, learned Portuguese and completed high school and did her first year of university. Along the way, she also picked up Spanish. She moved back to Canada to complete university on an athletic scholarship and be on several national Track & Field Teams. Track gave her an additional opportunity to travel and represent Canada in national and international competitions. She has also lived, worked and gone to university in Germany, Mexico and Quebec.

In her free time, Dra. Wlad still likes to stay active and compete at an elite level in ultra endurance events. She qualified for the Ironman World Championship in Kona 12 times and at one point held the marathon run course record there. Now she mostly focuses on running ultra trail events with her favourite distance being 100 km. When she is not at school, teaching yoga or running, she spends a lot of time with her daughter and her rescued pets, including her one-eyed cat, Giovanni, who she found on a trail run in the Peloponnese mountains in Greece.
