## 2021 School Accountability Report Card

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at [www.cde.ca.gov/ta/ac/sa/](http://www.cde.ca.gov/ta/ac/sa/)

For more information about the LCFF or the LCAP, see the CDE LCFF web page at [www.cde.ca.gov/fg/aa/lc/](http://www.cde.ca.gov/fg/aa/lc/)

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at [dq.cde.ca.gov/dataquest/](http://dq.cde.ca.gov/dataquest/) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) [www.caschooldashboard.org/](http://www.caschooldashboard.org/) reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2021-22 School Overview

Middle School serves as a bridge between a more sheltered elementary experience and the more independent high school years. It is a time of transition for students and families. Students at Twelve Bridges have the support of their teachers, staff, and administration. Students are exploring a more challenging academic environment. At the same time, they are experiencing rapid personal, physical, and emotional growth. It is our intention to challenge students academically while providing them with appropriate support, and to be available to families with concerns, questions, or needs during this transitional phase of their students.

**Mission/Vision:** The staff at Twelve Bridges Middle School, in partnership with the students, parents and community, will motivate our learners by providing a rigorous academic experience with an emphasis on STEAM, AVID, and current technology. Our goal is to foster positive relationships with our students, to not only prepare them for high school, but also build great citizens.

### Collective Commitments:

We will focus on student learning and academic growth by providing meaningful curriculum which is based on best practices and current research.

Through the PLC process, we will use data to guide instruction.

We will provide a safe and respectful learning environment for all students.

We agree to collaborate and be respectful and professional as a staff.

We will support each other in developing instructional strategies and interventions, as well as take advantage of relevant professional development.

We are an AVID schoolwide site, which promotes student engagement and rigor by using AVID teaching strategies.

We will be open to changes that are in the best interest of our students.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2021-22 Opportunities for Parental Involvement

TBMS encourages all parents to have an active role in their student's education. This includes opportunities such as the Parent Teacher Club, School Site Council, and supporting school activities/assemblies, Honors Recognition/Celebration, School Dances, and volunteering in classrooms in other capacities.

Communication with parents is provided through periodic email messages and school updates. There is a daily Student Bulletin, which is announced in classrooms each morning and also posted on the school website. The school website includes contact information for the teachers. The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

## 2021-22 School Safety Plan

The Twelve Bridges comprehensive safety plan was revised and updated in October, 2021. The school safety plan is comprised of district protocols, policies, and procedures for emergencies, and includes detailed roles and responsibilities for all staff members in an emergency on campus. The fire drills maintain student and staff familiarity with classroom evacuation, while the evacuation drill allows us to practice removing all students from campus in an orderly manner. We conduct lock down/lock out drills for maintaining a safe campus if an emergency requires all staff and students to be locked inside. TBMS is involved in ongoing professional development with regard to school safety and procedures. Teachers have duty stations before and after school for added school safety. We have a closed campus, visitors must enter through the main office and sign in and students are not allowed off campus during the school day. The school is also monitored by surveillance cameras 24/7.

The safety plan is reviewed and utilized by the staff regularly to assure that TBMS is safe and secure. Our current school safety plan is designed based on the Standard Response Protocol (SRP) system, that includes different levels of response including Lockout, Lockdown, Evacuate, and Shelter. All staff are trained on the parameters of each response, and drills for each response are practiced multiple times each year, based on state law and district office directives.

## Professional Development

Teachers work within their Professional Learning Community during early release days each Monday. During this time, educators analyze performance data, design lessons, develop common assessments, and articulate progress with colleagues. The PLC system is monitored through accountability documentation as well as teacher-principal interaction.

A major focus at TBMS is on the AVID and STEAM programs. AVID (Advancement Via Individual Determination) is a college preparation program that requires the extensive training of staff members. Staff members have been trained in AVID methods and many more are registered participants for future training. Some training is completed throughout the school year in workshops. The bulk of the training comes during Summer workshops. STEAM (Science, technology, engineering, arts and math) is a program we have implemented through our elective schedule, and also includes STEAM courses from Project Lead the Way.

Teachers have been learning cooperative learning strategies. Research has shown that student engagement is one of the keys to success and cooperative learning strategies emphasize student engagement through peer interactions and discourse. Teachers have been given training through after school workshops as well as through peer coaching.

As we make a shift to a more restorative environment, with regard to discipline, teachers will begin the process of learning restorative practices. This training will be administered at after school workshops.

2021-2022 also brought a renewed and reinvigorated interest in learning about Growth Mindset. The staff has participated in discussions and professional development with the sole purpose of creating and maintaining a Growth Mindset not only within themselves but also in the classroom with their students.

This table displays the number of school days dedicated to staff development and continuous improvement.

## 2020-21 Local Accountability Report Card (LARC) Addendum

# Local Accountability Report Card (LARC) Addendum

## 2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
