Child Safeguard and Protection Commitment Statement

QSI International School of Djibouti is committed to the safety, welfare, and development of the children and young people they serve. We have a duty to make certain that every child and young person we serve is safe and protected from harm, including physical, emotional, and sexual abuse and neglect. The school works with the officials of Embassies, United Nations, UNICEF, EU and other agencies to coordinate safeguards for the well-being of our students. Quality Schools International provides guidance and training to all QSI schools for cohesiveness and consistency in the protection of students.
