

Lodi USD Student Quarantine-Isolation Protocols, 1/24/2022

(<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Group-Tracing-Approach-to-Students-Exposed-to-COVID-19.aspx> , 2021-22 School Year, 1/12/2022) ; SJCPHS email communication (1/24/2022, 10:45a)

<p>All Students Testing Positive (vaccinated, unvaccinated, and those with COVID19 confirmed case within last 90 days)</p>	<ul style="list-style-type: none"> • Stay home (PDF) for at least 5 days. Isolation can end after day 5 if symptoms are not present or are resolving and an antigen test on day 5 or later yields negative result. • If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10. • If fever is present, isolation should be continued until fever resolves. • If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10. • Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings (see Section below on masking for additional information)
<p>Prolonged Exposure, e.g. a known positive case in household; for exposed students, the last date of exposure is defined as the day of the known positive case's day 5 negative test or the day the known positive has completed a full ten (10) day isolation/quarantine.</p>	<ul style="list-style-type: none"> • Fully vaccinated students are not required to quarantine if asymptomatic (follow "All Exposed Students below) • Unvaccinated/unknown-vaccination-status students – <ul style="list-style-type: none"> ○ Quarantine during known positive case individual's isolation ○ Exposed student begins quarantine one (1) day after known positive case's own day 5 negative test or known positive case completes full ten (10) quarantine/isolation ○ Exposed student may return to school after testing negative test result
<p>All Exposed Students not subject to "Prolonged Exposure Protocols" (including vaccinated, unvaccinated, and those students with a COVID19 confirmed case within last 90 days)</p>	<ul style="list-style-type: none"> • Remain in school if asymptomatic • Antigen testing recommended (not required) within 3 – 5 days of exposure • Exposed students participating in any sport or extra-curricular activity - <ul style="list-style-type: none"> ○ must take part in their site's weekly testing program to continue participation after exposure, or ○ be excluded from sport/extra-curricular for 10 days from exposure
<p>All Students Exhibiting Symptoms</p>	<p>Stay home until –</p> <ul style="list-style-type: none"> • At least 24 hours have passed since resolution of fever without the use of fever-reducing medications; and • Other symptoms have improved; and • They have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.

Exposure is defined as being within 0 -6 feet of a laboratory-confirmed COVID19 case for greater than 15 minutes in the aggregate over a 24-hr period. Fully vaccinated is defined as receiving either the sing Johnson & Johnson shot, or both shots in the Moderna or Pfizer regimen.
