

..... The St. Mark's Class of 2020 walked our halls for a combined total of 360 years. While the end of their time at St. Mark's certainly looked differently than anticipated, we are beyond proud of the way this class showed resilience, grace, and kindness during a difficult season. We are thrilled to send these 49 students into the world of high school, where we know they will do great things!

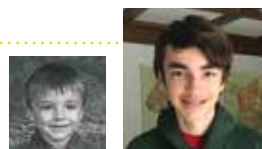

Georgia Bailey
