

# HIGH SCHOOL

The St. Mark's Class of 2020 is high school bound! This year, the Class of 2020 is headed to 13 unique high schools across the greater Houston area. We are excited for our graduates to continue their educational journey at the following incredible high schools.

# BOUND

We are often asked, “what makes a preschool through 8th grade school special?” At St. Mark's, we believe a foundation for lifelong learning is established in the elementary and middle school years, and we are most proud of the way we support our students along their path to high school and beyond. As a school that truly does celebrate each child's uniqueness, we not only meet children where they are, but personalize, rather than standardize, their path to the next level. The Head of Middle School and the Headmaster spend time, one on one, with 8th grade students and their families to help them target schools of interest that will fit and support them, and, as a result, nearly all our students get into their first or second choice schools. These schools that our students choose represent a diverse collection of faith-based, independent, and public programs, each chosen to help our graduates find a school community that will support their growth at the next level.
