## COVID-19 Notification

**Notification of a presumptive close contact to a positive COVID-19 case in our school community**

**If you develop symptoms at any time, or already have symptoms: stay home, test and quarantine until test results are received**

**Vaccinated 5-17 year olds who have had a two-dose Pfizer series OR adults who have completed ANY vaccine series and received a booster**

**No Quarantine**

**Testing on Days 4 and 5 (24 hours apart) is recommended**

**Can call school to arrange pick up of test kits**

**ADULTS who are: vaccinated with a two-dose Pfizer series greater than 5 months ago or J & J more than 2 months prior and no booster**

**Can pick up tests at school and test every morning for 5 days. If test is negative, can come to school, attend school/afterschool activities, and ride the bus**

**Individuals with presumptive school contact do not need to otherwise quarantine during their testing periods.**

**Unvaccinated**

**Can pick up tests at school and test every morning for 5 days. If test is negative, can come to school, attend school/afterschool activities and ride the bus**

**Individuals with presumptive school contact do not need to otherwise quarantine during their testing periods**

**Confirmed COVID-19 in the past 90 days**

**No quarantine if you have no symptoms; wear a mask around others for 10 days**
