

## Lodi USD Student Quarantine-Isolation Protocols, 1/24/2022 (reformatted 1/26/2022)

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Group-Tracing-Approach-to-Students-Exposed-to-COVID-19.aspx> , 2021-22 School Year, 1/12/2022) ; SJCPHS email communication (1/24/2022, 10:45a)

<p>All Students Testing Positive (<b>vaccinated</b>, unvaccinated, and those with COVID19 confirmed case within last 90 days)</p>	<ul style="list-style-type: none"> <li>• Stay home (PDF) for at least 5 days. Isolation can end after day 5 if symptoms are not present or are resolving and an antigen test on day 5 or later yields negative result.</li> <li>• If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.</li> <li>• If fever is present, isolation should be continued until fever resolves.</li> <li>• If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.</li> <li>• Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings (see Section below on masking for additional information)</li> </ul>
<p><b>Prolonged Exposure</b>, e.g. a known positive case in household; for <b>exposed</b> students, the last date of <b>exposure</b> is defined as either the date of the negative day 5 test taken by the known positive or the day after the known positive has completed a full ten (10) day isolation/quarantine.</p>	<ul style="list-style-type: none"> <li>• <b>Fully vaccinated and verified students are not required to quarantine if asymptomatic</b> (follow “All Exposed Students below)</li> <li>• Unvaccinated/unknown-vaccination-status students –             <ul style="list-style-type: none"> <li>○ Quarantine during known positive case individual’s isolation</li> <li>○ <b>Exposed</b> student begins quarantine one (1) day after the date of the negative day 5 test taken by the known positive or known positive case completes full ten (10) quarantine/isolation</li> <li>○ Once <b>exposed</b> student begins quarantine, <b>exposed</b> student may return to school after their own day 5 negative test result or after completing a full ten (10) day quarantine</li> </ul> </li> </ul>
<p>All <b>Exposed</b> Students not subject to “Prolonged Exposure Protocols” (including <b>vaccinated</b>, unvaccinated, and those students with a COVID19 confirmed case within last 90 days)</p>	<ul style="list-style-type: none"> <li>• Remain in school if asymptomatic</li> <li>• Antigen testing recommended (not required) within 3 – 5 days of <b>exposure</b></li> <li>• <b>Exposed</b> students participating in any sport or extra-curricular activity -             <ul style="list-style-type: none"> <li>○ must take part in their site’s weekly testing program to continue participation after <b>exposure</b>, or</li> <li>○ be excluded from sport/extra-curricular for 10 days from <b>exposure</b></li> </ul> </li> </ul>
<p>All Students Exhibiting Symptoms</p>	<p>Stay home until –</p> <ul style="list-style-type: none"> <li>• At least 24 hours have passed since resolution of fever without the use of fever-reducing medications; and</li> <li>• Other symptoms have improved; and</li> <li>• They have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.</li> </ul>

**Scroll down to page 2 of this document for definitions/explanations**

## Exposure-

- is defined as being within 0 -6 feet of a confirmed COVID19 case for greater than 15 minutes in the aggregate over a 24-hr period.
- The potential window of **exposure** begins 48-hours prior to the **Test Date** of a known case's positive result. All **exposure** notifications must calculate the beginning of that 48-hour window through the last day that the known case was on campus.
  - Examples –
    - Student stays home on Monday, receives a positive test result same day
      - 48-hours prior to Monday is Saturday, so no exposure has occurred, no notification required
    - Student was in school Thursday and Friday, tests on Saturday, receives a positive test result same day
      - 48-hours prior to Saturday is Thursday, so ...
      - Go back to Thursday and Friday and notify all families with students in same class, club, or sport

## Vaccinated or Fully-vaccinated

- is defined as having received the single Johnson & Johnson shot or both shots in the Moderna or Pfizer regimen.
- Currently available booster shots are not necessary to meet the test of **vaccinated/fully-vaccinated**.

## Verified

- Is defined as **vaccination** status has been verified by Principal/Designee **and** the student's **vaccination** dates have been entered into the student's Aeries immunization chart (under the "Medical" tab)
