Date: 1-21-2016

Name: Jessie Dhillon

Current High School: Westview H.S.

Transition Comment: My daughter now attends Elmonica Elementary. With the new boundaries - she would not be able to attend the same high scool as many of her friends. My husband bought our home with the intention of having our children attend the nicer schools in Beaverton, to include Westview High School. However, the new boundaries would place our children at Aloha High school with groups of children they do not know & have not had the opportunity to form strong bonds of friendship. Elementary schools should not have divided boundaries for Highschool. This is an unfair disadvantage that the people of the community should decide - Not a group of bureaucrats. My only advantage growing up in poverty was my strong ties to the friends and teachers that were with me from Elementary School through Junior High then High School. That was my key to Success.

Date: 1/21/2016

Name: Grace Liaw

Current High School: Westview

Boundary Comment: With the new boundary propasal, the east of Bethany Blvd/North of West Union will be changed from Westview to Sunset. However Westview and sunset have different TAG programs (AP vs. IB). for students on G9-11 who already on AP classes in westview. this change will stop them from the AP study and give up the credits they earned. and force them to change to IB from the beginning. which is very disadvanatage and unfair to them.

We want the boundary change to keep TAG students in Westview and minimize the impacts to the existing TAG students.

Date: 1/21/2016

Name: Liheng Liu

Current High School: Westview

Boundary Comment: The current (newest) proposal will move us from Westview to Sunset. My concern is that how to make sure my child's learning path will not be interrupted. My child will be taking Ap classes during the 2017 boundary change. So, I don't want her AP path be interrupted in the whole high school period. (Sunset is in IB program.) I want my child can stay in Westview.

Current High School: Westview High School

Boundary Comment: We would like to see all of the El Monica students stay together and go to Westview. It will be difficult for the kids to be split up after middle school.

BEAVERTON SCHOOL DISTRICT

Boundary Comments

WELCOME...to a special meeting of the Beaverton School District. The Committee welcomes your participation and feedback. Please give us a brief description of your questions. Be sure to hand this completed form to a Committee Member before leaving.

Date: 1/21/16

Name: Abby Behunin

Current High School: Westview

Questions: Please send all of the Elmonica Elementary School families to the same high school. We would appreciate the committee using its own criteria when assigning our area to a high school. 1. Community - most of Elmonica will be assigned to Westview with a small portion assigned to Aloha 2. Proximity - Sunset is closest to us, Westview second, and Aloha is the furthest (about 1 mile greater) of the three high we've been considered to attend 3. Safety - traveling to Aloha High is the most dangerous of the three high schools because we will need to cross TV Highway 4. Space - Aloha is the most crowded of all BSD high schools in the current proposal - the only one at capacity.

WELCOME...to a special meeting of the Beaverton School District. The Committee welcomes your participation and feedback. Please give us a brief description of your questions. Be sure to hand this completed form to a Committee Member before leaving.

Date: Jan 21, 2016

Name: Dina Jones

Current High School: Westview

Questions:

#1

2 comments - We live in the Stonegate neighborhood and are very happy with the current map which keeps us at Westview — thank you! We were also OK with a previous map that slated us for Sunset We are not OK with a long arduous commute to either Beaverton or Aloha which is 4.5 (either) miles from us.

#2 - I do not have a junior the year of the change but I think they should be given the opportunity to stay at their current school. Thanks!

Date: 1/21/2016

Name: Loren Fishback

Current High School: Westview

~~Transition~~ Boundary Comment:

The part of the Elmonica Elementary boundary that is scheduled to switch to Aloha is a poor idea. Elmonica is not as good of a school rating as it was in the past. Many families have already left the area for better schools. ~~Many~~ The families that have not left yet usually have older students, hoping to go to westview. This change will simply make the neighborhood into a retirement community. Who else will buy an expensive house that attends Elmonica and Aloha high school. The move might ~~not~~ look good on paper today, but it is only temporary.

Date: 1/21/2016

Name: Cheryl McLaughlin

Current High School: Westview

Boundary Comment: A boundary condition of this committee should be to keep elementary school communities together. This drawing of boundary lines breaks apart the Oak Hills Elementary community. Children that my children have known since kindergarten will be split apart. I don't see how this is acceptable to BSD. I see that other elementary schools have been preserved. Please fix this and send all of Oak Hills to one school or the other (Westview or Sunset).

Date: 1/21/2016

Name: Scott McLaughlin

Current High School: Westview

Boundary Comment: I don't understand why we are splitting up elementary communities. And I don't understand why kids are getting moved midway through their HS years. As it stands, my son would start at Westview and move to Sunset - 2 totally different programs (AP vs IB). Who knows what impact that could have on his grades/studies and college admissions. If you start in one program you should finish there. And socially, halfway through HS you split up friends who have been together since elementary school? That's just poorly thought out and not in the interest of students.

WELCOME...to a special meeting of the Beaverton School District. The Committee welcomes your participation and feedback. Please give us a brief description of your topic and concerns. Be sure to hand this completed form to a Committee Member before leaving.

Date: 1/21/2016

Name: Scott McLaughlin

Current High School: Westview

Transition Comment:

I think it is crazy to split up kids who have been together for years (Bethany and Oak Hills) and send them to different High schools in the middle of their HS years. In our case, they also change types of schools (AP→IB) which could impact their college plans/admissions as well. This is poorly thought-out and could have long term impacts on these kids. If you start kids in one type of program they should finish in it.

Date: 1/21/16

Name: Sam Behonin

Current High School: Westview

Transition Comment: My comments concern the neighborhood which contains Elmonica Elementary school. This is an unusually diverse neighborhood, both economically and culturally. Our Elementary school is a big part of what unites our community. The current proposal divides a small portion of Elmonica's students from Westview and diverts them to Aloha HS. This is going to cause a lot of disunity at Elmonica and in our neighborhood.

Our high school students will also suffer, because they are so geographically isolated from the bulk of Aloha students. This will isolate our students socially and will discourage participation.

This is a relatively small neighborhood whose numerical impact is small.

Please assign all of Elmonica to Westview.

Boundary Comments

BEAVERTON SCHOOL DISTRICT

Date: 1-20-15

Name:

Current High School: Westview

Boundary Comment: Please put the area north of Westview & east of Bethany back into Westview. Bethany is not a natural boundary - Highway 26 is a better boundary. The neighborhoods south of 26 should be going to Aloha, not Westview. Please change the boundary line to highway 26 & bring the neighborhoods east of Bethany back into Westview.

If the committee ends up bringing back neighborhoods into Sunset, & Sunset needs to get rid of neighborhoods, please give the area east of Bethany back to Westview.

Why is one of Beaverton's few wealthy neighborhoods being transferred to Sunset? Sunset already has enough wealthy areas.

Transition Comment: We live in the the narrow strip of land in North Bethany that is being switched from Westview to Sunset and we are very opposed to the change. Currently kids can bike to/from school on days they have activities after school. There are safe bike trails to use. This would be a huge change if we had to go to Sunset. #Biking would not be an option. Also my daughter at Westview would be seperated from ALL of her friends, who live only a few blocks away, but still in the Westview boundary. I strongly believe every family who has their foot in the door at a current high school, should be allowed to stay there for the current student AND all younger siblings.

Name: Michael Hoffman

Current High School: Westview

Boundary Comment: Traveling / WV or Sunset "make sense", for our n'hood
- Safety - From Waterhouse South / Elmonica neighborhood to Aloha, Requires crossing TV Hwy & RR tracks
- Neighborhood Unity - proposed change splits our neighborhood
- Proximity to school - WV is 2.9 mi from our house - Aloha HS is 3.4 mi; (Sunset is 2.4 mi from our home.)

Date: 1/21/2016

Name: Phong Nguyen

Current High School: Westview HS

Boundary Comment: My kids are going to Elmonica ES. Based on the latest boundary, they will be going to Aloha HS. We are in the area north of Baseline that will go to Aloha HS. My kids will go to Five Oaks MS then split up with their friends to go to a different HS. This will affect friendship that they have built through school activities. Familiar friends will help them at the start of HS years. Based on the projection Aloha HS will be at 100% capacity by 2020. Why add a small area north of Baseline to Aloha HS population? Please reconsider the current plan and leave the area north of Baseline with Westview HS. Thank you.

Date: 1/21/16

Name: Erin Burns

Current High School: Westview

Boundary Comment: By moving the boundary from Baseline to 173rd + Walker you take a small group of children, most of whom have been together since Kindergarten, and are moving them away from peers & close friends during a huge transition! Being a freshman is hard enough and by taking away friends you are taking away a support system and a coping method that these kids NEED! Why add more stress and anxiety to their lives when they could continue on with their peers and friends to Westview.

Date: 21 Jan 2016

Name: Alexey Klimkin

Current High School: Bethany border

Questions: It makes a very good sense to make the boundary on Bethany & Springville roads, as proposed by Jan 15, 2016. The neighbourhoods are split on those roads and makes it a natural boundary. The new boundary also seems to introduce better balance between Westview and Sunset to accomodate fast growth north from Springville rd. Thank you, good job!

Date: 1/20/16.

Name: Hans Heinzer

Current High School: Westview

Transition Comment: I hope that the kids that attend Elmonica and become good friends will be able to stay together. With the proposed split, half would go to westview and half aloha.

I believe using Jenkins and Murray would improve school kid unity and not split up the Elmonica community.

This proposal also doubles the travel distance of kids south of Walker, east of 173rd.

Thank you for your time.

Date: 1/21/16

Name: Christy Gabel

Current High School: Westview

Boundary Comment: Our neighborhood is being divided by the current shift to send us to Aloha HS. ~~Be~~ We live right beside Elmonica. Please let us stay with the rest of the area and go to Westview. There is still room for the 113 students in our area to go to Westview. Westview is closer to our home than Aloha. Please, please reconsider! We currently have a freshman at Westview. He will be a junior when the changes take place. At the very least, please let him graduate with his class at Westview. Junior year is very intense + a terrible time to transition to a new school.

Date: 1/21/16

Name: Kristin Killpack

Current High School: Westview

Boundary Comment: I am not happy about the part of Elmonica taken away from Westview to go to Aloha. I feel like my kids already have had to adjus~~t~~ to a middle school away from their friends in going to Summa. With the new boundary plan taking them to Aloha, they lose the connection not only to their elementary friends but also to their middle school friends. I'm also concerned about the crowding this brings to Aloha.

Good morning. I appreciate how hard the task of this committee must be, however, with all do respect I believe that your recent boundary adjustment and the relocation of 113 Elmonica Elementary students to Aloha versus Westview High School is in violation of several of your own criteria. 1) There is still room for these students at Westview (which according to the latest changes would have a lower % population than Aloha's 100% capacity). 2) Dividing Elmonica Elementary students violates that desire to keep communities together - affecting both school social circles and current sports teams. 3) Aloha is actually farther from our home than Westview - violating the proximity criteria. 4) This extra distance means more gas and emissions with regard to transportation. Not to mention the fact that they will need to cross TV highway. Our current route to Westview can be accomplished by back roads and a short trip on 185th. Please consider these violations thoughtfully. This pocket of students and their families are being isolated and forced to leave their academic communities. The numbers and the proposal currently set forth don't justify this discrimination. Thank you. Sincerely, Tina Swenson

Name: Sara Elms

Current High School: Westview

Boundary Comment:

My daughters both attend Oak Hills elementary. I am content + thrilled about them attending either Westview or Sunset my concern is the fact that the elementary school is being split up. By using Bethany Blvd as a dividing line it breaks up the elementary school. With all of the high school issues - both safety + emotional development - I think that the relationships, trust, and community established in the elementary level should be kept in place and "nutured" as they feed into middle & high school together. I would hate to see our elementary school - Oak Hills - broken up.

Thanks,

Date: 1/21/16

Name: Debbie Hereford

Current High School: Westview

Boundary Comment: As a teacher and parent in the District, I am quite concerned with the preliminary proposal. Instead of attempting to bring all high schools closer to the 39% average of students eligible for free & reduced lunch, this proposal widens the gap between schools (Sunset 11% → Aloha 64%). I believe there are ways to honor Board Policy priorities (space, proximity, unity, & safety) while also keeping in mind one of the District pillars: equity. One specific example involves Elmonica Elementary School. In the Springboard proposal, Elmonica students were within the Sunset boundaries. Since Elmonica is a Title I school, this helped to balance Sunset's SES numbers. In addition, the rich cultural diversity offered by the students of ~~Elemen~~ Elmonica would furth enhance SHS. Finally, Elmonica is now a Primary Years Programme school. As an IB school, Sunset is a natural fit. Please reconsider this most recent boundary adjustment.

Date: 11/21/12

Name: Amanda Hoffman

Current High School: Westview

Boundary Comment: The Shift of our neighborhood from Westview to Aloha High School (the area between Walker and Baseline 158th to 170th) splits our neighborhood - it splits the Elmonica Elementary population. Our neighborhood is left as an island of Aloha surrounded by Westview. This will affect home values and lead to much confusion for new families and current families. The shift sends our kids to a school farther away and does not seem to help the overcrowded issue at Aloha. Sending the kids farther away would is also dangerous - it will be required to cross TV Highway - a dangerous crossing. maintaining the boundary at Baseline / Jenkins is a natural boundary, keeps neighborhood unity without negatively impacting capacity or free+reduced lunch rates at westview or Aloha High School. →

Date: 1-21-16

Name: LISA CORCORAN

Current High School: WESTVIEW

Boundary Comment: We live near Elmonica and have Grandkids there and at Five Oaks. When I first saw the proposed boundary changes I thought I was seeing a gerrymandered political district. We are dismayed at the prospect of our gks (who we are responsible for several days a week) attending Aloha. Our grandson is challenged and happy at Five Oaks - brought home straight A's his first semester there. We want to see him continue at Westview not only because of the closer distance, but because he'd transition to a school where he knows some students.

Aloha's low statewide ranking is appalling and should not be the case. I feel sorry for those students but the wide disparity with Westview does concern me greatly. In fact we purchased a home for my son and his family in the same area (Elmonica) precisely for the schools.

* WATER-HOUSE
* 158 & WALKER

Date: 1-21-2016

Name: DANA DOLVIG

Current High School: WESTVIEW

Transition Comment: Thank you to the commitee for all their hard work. This is a very difficult process. I live in the Waterhouse neighborhood which is currently zoned to Westview and will continue to Westview with the current working map. I support this decision as it is the least impactful for our students. In location, we are actually closer to Sunset and that would also work from a location standpoint.

The location of both of these schools are within easy transportation as it is against commuter traffic to Westview and just across the freeway to Sunset. Any other school would be a difficult commute for our kids.

In addition I want to support the committee in using the Free + Reduced numbers as input into this process as well as not making the "easy" choice of drawing the boundary at Highway 26. I do not think that the Beaverton Community should be split in such a clear north/south or have/have not way. This would only exacerbate the overcrowding in the Northern Schools and lead to more changes needed in the future.

Please keep the current working map the way it is for the final boundaries. Thank You!

Date: 1/21/2016

Name: Ann Iverson (Waterhouse South neighborhood)

Current High School: Westview

Boundary Comment: The current proposed boundary changes our neighborhood from Westview to Aloha. There are 113 kids affected and there are 135 spots left at Westview. The boundary change puts Aloha at 100% capacity and Westview at 94%. There is room for these kids to remain at Westview. Having lived here for over 20 years our kids went to Westview and we know the importance of not splitting kids and letting them 'all' transition to the same high school. This is especially important for those kids in sports programs. We also have great concern about kids having to travel further (Aloha is 3.4 miles while Westview is only 2.8 miles. This means more time and gas plus the danger of crossing TV Hwy which is very dangerous. Why put more kids in danger. Also this boundary move puts Aloha at 61% receiving free lunch while ~~Westview~~ Sunset moves from 28% to 11%. This clearly isn't equitable which [illegible] of the District's main pillars. Please Reconsider and keep our kids at Westview

Our neighborhood has struggled with an elementary school that has a high level of English as a second language students and a middle school that has its own struggles. Having Westview as the high school has given families a reason to stay in the neighborhood. Many people have purposefully chosen to live in the neighborhood because of Westview. I know this isn't a criteria in your determination, but what this will do will be devistating the kids in our neighborhood deserve to be sent to Westview with the other kids.

~~Questions~~ Boundary Comments

BEAVERTON SCHOOL DISTRICT

WELCOME...to a special meeting of the Beaverton School District. The Committee welcomes your participation and feedback. Please give us a brief description of your questions. Be sure to hand this completed form to a Committee Member before leaving.

Date: 1-21-16

Name: Anne Morris

Current High School: Westview

Questions: I am very concerned with the proposed boundary change. My children are NOT affected by any of the proposed changes. I have served as PTO president and VP at Springville in the past and have been very active in volunteering. I am a strong believer in equity in our schools. I feel very strongly that having a diverse student body - both ethnically AND socioeconomically is key to having a succesful school. I have been so impressed by BSD's fair decision making historically - it always makes me vote "yes" for BSD bonds. I am troubled that the boundary change committee is listening to parents who are complaining the loudest, rather than making choices based on equity, fairness, distance, and available space. We need to look at Free + Reduced lunch percentages - having one high school at a 12% poverty level while another is at 61% is RIDICULOUS. Please make decisions based on LOGIC and not just the complaining of parents whose children might be moved to a school that is less affluent. It does not matter if children from the same elementary school stay together for high school. Please make your recommendation based on fairness and not emotion of hysterical parents.

Thank you for listening and for all your hard work.

a Morris

Date: 1/21/16

Name: Heather Lambert 15562 NW Oakhills Dr. Beaverton 97006

Current High School: Westview

Questions: You have managed to adjust the boundaries in order to keep Wismer Elementary all together moving into the same high school. Why would it be okay then to divide Oak Hills Elementary up, and in half?!? You just managed to cut bus service to 300 students because you say they are close enough to walk to Oak Hills... that also means some of them are within walking distance to Sunset. In the end, just keep our elementary school intact. We are a community that works together well, both sides of Bethany Blvd work cohesively. Please don't divide us. Send us to Sunset or Westview, but send us together. If you send us to Oak Hills, then Meadow Park, then on to Sunset, my kids will know a handful of students for their grade. That is not fair when a whole district of students would average knowing several dozens of students they would go to High School with. Westview will now have more space, keep us all there if you like and send all the North Bethany development to Sunset. We have been living here for years, Oak Hills was here first and has been for 40 years, send the new people wherever. They don't even live here yet, they won't care.

Current High School: WESTVIEW HS.

Can you matriculate in stages or swap Kids School for school to complete their HS career

Transition Comment:

As a Watershouse South resident your ~~are~~ current boundary plan causes my children to switch midstream which HS they will attend. Your decision for my neighborhood does not support your own criteria.

1) There are spaces at WHS
2) My children will have to travel further
3) You are dividing where our educational community matriculates, thus destroying the unity that is so diligently being created

4) More transportation will be required to attend school programs and events
5) My ~~soon~~ children will have to cross TV Hwy to get to & from school ~~matching~~, increasing the danger
6) My children will be part of a HS community and the patterns therein and then will be ~~asked~~ told to change all the while trying to prepare and position for attending college. I don't see any program changes to support them.

Please reconsider where you are sending my kids with your boundary changes and follow your own criteria.

Current High School: Westview

Transition Comment: Based on the Demographics of the bundry map I would better fit the District to Help diversify the Schools and Spread out the lower income Need Families instead of consolidating them at one Specific School.

Secondly we dont want to have family/Neighbors seperated. The bards children make could be severly Impacted Based on the Re zoning effort.

Current High School: WESTVIEW

Boundary Comment: Some of the boundary changes do not conform to any of the stipulated conditions. For example the ALTH area move from Westview to Aloha HS violates all guidelines interms of proximity, safety, equity, student composition, neighborhood unity or even availability of space. With this move of ~113 students to Aloha that school will reach 100% capacity to start with and no room for growth. However WV will now reduce to 94% capacity. Even with the addition of this area WV will still remain at 96% and will have room for growth. So why single out a section of Elmonica students & separate them from the community friends of 8 years!

Current High School: Westview

Boundary Comment: My address is 315 SW 169th Ct Beaverton
I am very concerned that a proposed change will move my area from Westview to Aloha. I object most strongly that my students will be forced to attend a highly underfunded and inferior school. One of the reasons to purchase in Waterhouse South was the strong highschool. Aloha is practically a failed institution. Please leave the boundary alone. Westview is not at capacity and Aloha is. This move does not make sense.

Thanks for your attention

Date: 1/21/16

Name: Kristin Killpack

Current High School: Westview

Boundary Comment: I am not happy about the part of Elmonica taken away from Westview to go to Aloha. I feel like my kids already have had to adjus~~t~~ to a middle school away from their friends in going to Summa. With the new boundary plan taking them to Aloha, they lose the connection not only to their elementary friends but also to their middle school friends. I'm also concerned about the crowding this brings to Aloha.

Good morning. I appreciate how hard the task of this committee must be, however, with all do respect I believe that your recent boundary adjustment and the relocation of 113 Elmonica Elementary students to Aloha versus Westview High School is in violation of several of your own criteria. 1) There is still room for these students at Westview (which according to the latest changes would have a lower % population than Aloha's 100% capacity). 2) Dividing Elmonica Elementary students violates that desire to keep communities together - affecting both school social circles and current sports teams. 3) Aloha is actually farther from our home than Westview - violating the proximity criteria. 4) This extra distance means more gas and emissions with regard to transportation. Not to mention the fact that they will need to cross TV highway. Our current route to Westview can be accomplished by back roads and a short trip on 185th. Please consider these violations thoughtfully. This pocket of students and their families are being isolated and forced to leave their academic communities. The numbers and the proposal currently set forth don't justify this discrimination. Thank you. Sincerely, Tina Swenson

Boundary Comment:

My daughters both attend Oak Hills elementary. I am content + thrilled about them attending either Westview or Sunset my concern is the fact that the elementary school is being split up. By using Bethany Blvd as a dividing line it breaks up the elementary school. With all of the high school issues - both safety + emotional development - I think that the relationships, trust, and community established in the elementary level should be kept in place and "nutured" as they feed into middle & high school together. I would hate to see our elementary school - Oak Hills - broken up.

Thanks,

Current High School: Westview

Boundary Comment: As a teacher and parent in the District, I am quite concerned with the preliminary proposal. Instead of attempting to bring all high schools closer to the 39% average of students eligible for free & reduced lunch, this proposal widens the gap between schools (Sunset 11% → Aloha 64%). I believe there are ways to honor Board Policy priorities (space, proximity, unity, & safety) while also keeping in mind one of the District pillars: equity. One specific example involves Elmonica Elementary School. In the Springboard proposal, Elmonica students were within the Sunset boundaries. Since Elmonica is a Title I school, this helped to balance Sunset's SES numbers. In addition, the rich cultural diversity offered by the students of ~~Elemen~~ Elmonica would furth enhance SHS. Finally, Elmonica is now a Primary Years Programme school. As an IB school, Sunset is a natural fit. Please reconsider this most recent boundary adjustment.

Current High School: Westview

Boundary Comment: The Shift of our neighborhood from Westview to Aloha High School (the area between Walker and Baseline 158th to 170th) splits our neighborhood - it splits the Elmonica Elementary population. Our neighborhood is left as an island of Aloha surrounded by Westview. This will affect home values and lead to much confusion for new families and current families. The shift sends our kids to a school farther away and does not seem to help the overcrowded issue at Aloha. Sending the kids farther away, road is also dangerous - it will be required to cross TV Highway - a dangerous crossing. maintaining the boundary at Baseline / Jenkins is a natural boundary, keeps neighborhood unity without negatively impacting capacity or →

free+reduced lunch rates at westview or Aloha High School.

Date: 1-21-16

Name: LISA CORCORAN

Current High School: WESTVIEW

Boundary Comment: We live near Elmonica and have Grandkids there and at Five Oaks. When I first saw the proposed boundary changes I thought I was seeing a gerrymandered political district. We are dismayed at the prospect of our gKs (who we are responsible for several days a week) attending Aloha. Our grandson is challenged and happy at Five Oaks - brought home straight A's his first semester there. We want to see him continue at Westview not only because of the closer distance, but because he'd transition to a school where he knows some students.

Aloha's low statewide ranking is appalling and should not be the case. I feel sorry for those students but the wide disparity with Westview does concern me greatly. In fact we purchased a home for my son and his family in the same area (Elmonica) precisely for the schools.

"WATERHOUSE" - 158th + WALKER

Date: 1-21-2016

Name: DANA DOLVIG

Current High School: WESTVIEW

Transition Comment: Thank you to the committee for all their hard work. This is a very difficult process. I live in the Waterhouse neighborhood which is currently zoned to Westview and will continue to Westview with the current working map. I support this decision as it is the least impactful for our students. In location, we are actually closer to Sunset and that would also work from a location standpoint.

The location of both of these schools are within easy transportation as it is against commuter traffic to Westview and just across the freeway to Sunset. Any other school would be a difficult commute for our kids.

In addition I want to support the committee in using the Free + Reduced numbers as input into this process as well as not making the "easy" choice of drawing the boundary at Highway 26. I do not think that the Beaverton Community should be split in such a clear north/south or have/have not way. This would only exacerbate the overcrowding in the Northern Schools and lead to more changes needed in the future.

Please keep the current working map the way it is for the final boundaries. Thank You!

Date: 1/21/2016

Name: Ann Iverson (Waterhouse South neighborhood)

Current High School: Westview

Boundary Comment: The current proposed boundary changes our neighborhood from Westview to Aloha. There are 113 Kids affected and there are 135 spots left at Westview. The boundary change puts Aloha at 100% capacity and Westview at 94%. There is room for these Kids to remain at Westview Having lived here for over 20 years our Kids went to Westview and we know the importance of not splitting Kids and letting them 'all' transition to the same high school. This is especially important for those kids in sports programs. We also have great concern about Kids having to travel further (Aloha is 3.4 miles while Westview is only 2.8 miles. This means more time and gas plus the danger of crossing TV Hwy which is very dangerous. Why put more Kids in danger. Also this boundary move puts Aloha at 61% receiving free lunch while ~~Westview~~ Sunset moves from 28% to 11%. This clearly isn't equitable which is one of the Districts main pillars. Please Reconsider and keep our kids at Westview

Our neighborhood has struggled with an elementary school that has a high level of English as a second language students and a middle school that has its own struggles. Having Westview as the high school has given families a reason to stay in the neighborhood. Many people have purposefully chosen to live in the neighborhood because of Westview. I know this isn't a criteria in your determination, but what this will do will be devistating to the kids in our neighborhood deserve to be sent to Westview with the other kids.

~~Questions~~ Boundary Comments

BEAVERTON SCHOOL DISTRICT

WELCOME...to a special meeting of the Beaverton School District. The Committee welcomes your participation and feedback. Please give us a brief description of your questions. Be sure to hand this completed form to a Committee Member before leaving.

Date: 1-21-16

Name: Anne Morris

Current High School: Westview

Questions: I am very concerned with the proposed boundary change. My children are NOT affected by any of the proposed changes. I have served as PTO President and VP at Springville in the past and have been very active in volunteering. I am a strong believer in equity in our schools. I feel very strongly that having a diverse student body - both ethnically AND socioeconomically is key to having a succesful school. I have been so impressed by BSD's fair decision making historically - it always makes me vote "yes" for BSD bonds. I am troubled that the boundary change committee is listening to parents who are complaining the loudest, rather than making choices based on equity, fairness, distance, and available space. We need to look at Free + Reduced Lunch percentages - having one high school at a 12% poverty level while another is at 61% is RIDICULOUS. Please make decisions based on LOGIC and not just the complaining of parents whose children might be moved to a school that is less affluent. It does not matter if children from the same elementary school stay together for high school. Please make your recommendation based on fairness and not emotion of hysterical parents.

Thank you for listening and for all your hard work.

A Morris

Date: 1/21/16

Name: Heather Lambert 15562 NW Oakhills Dr. Beaverton 97006

Current High School: Westview

Questions: You have managed to adjust the boundaries in order to keep Wismer Elementary all together moving into the same high school. Why would it be okay then to divide Oak Hills Elementary up, and in half?!? You just managed to cut bus service to 300 students because you say they are close enough to walk to Oak Hills... that also means some of them are within walking distance to Sunset. In the end, just keep our elementary school intact. We are a community that works together well, both sides of Bethany Blvd work cohesively. Please don't divide us. Send us to Sunset or Westview, but send us together. If you send us to Oak Hills, then Meadow Park, then on to Sunset, my kids will know a handful of students for their grade. That is not fair when a whole district of students would average knowing several dozens of students they would go to High School with. Westview will now have more space, keep us all there if you like and send all the North Bethany development to Sunset. We have been living here for years, Oak Hills was here first and has been for 40 years, send the new people wherever. They don't even live here yet, they won't care.

Can you matriculate in stages or swap kids school for school to complete their HS career

Transition Comment:

As a Watershouse South resident your ~~are~~ current boundary plan causes my children to switch midstream which HS they will attend. Your decision for my neighborhood does not support your own criteria.

1) There are spaces at WHS
2) My children will have to travel further
3) You are dividing where our educational community matriculates, thus destroying the unity that is so diligently being created
4) More transportation will be required to attend school programs and events
5) My ~~soon~~ children will have to cross TV Hwy to get to & from school ~~matching~~, increasing the danger
6) My children will be part of a HS community and the patterns therein and then will be ~~asked~~ told to change all the while trying to prepare and position for attending college. I don't see any program changes to support them.

Please reconsider where you are sending my kids with your boundary changes and follow your own criteria.

WELCOME...to a special meeting of the Beaverton School District. The Committee welcomes your participation and feedback. Please give us a brief description of your topic and concerns. Be sure to hand this completed form to a Committee Member before leaving.

Date: January 21, 2016

Name: Jennifer Hoosn

Current High School: West new

Transition Comment:

My main concern is diversity and equality. The current map is less diverse and their needs to be more equality in each School. SUNSET IS NOW only 10% diverse!

Thank you.

Date: 1/21/15

Name: Mike Riedel

Current High School: Westview

Questions: Please pull S. Waterhouse into Westview boundry. The current proposal divides Elmonica. Aloha is at 100% capacity. There is room at Westview for our neighborhood. It does not seem fair or like a responsible decision to send the S. Waterhouse neighborhood to Aloha.

Thank you.

Name: Justin Bigler

Current High School: Westview

Transition Comment: Based on the Demographics of the bundry map I would better fit the District to Help diversify the Schools and Spread out the lower income Need Families instead of consolidating them at one Specific School.

Secondly we dont want to have family/Neighbors seperated. The bonds children make could be severly Impacted Based on the Re zoning effort.

Name: AVANTH SANKAR

Current High School: West View

Boundary Comment:

While I understand the objective to reduce number of students assigned to West View, in the second scenario table shown (seniors remain at original school) why does West View % stays at 100% while enrollment is 2064 and total capacity is 2,412?

Name: SUBHADRA

Current High School: WESTVIEW

Boundary Comment: Some of the boundary changes do not conform to any of the stipulated conditions. For example the ALTH area move from Westview to Aloha HS violates all guidelines interms of proximity, safety, equity, student composition, neighborhood unity or even availability of space. With this move of ~113 students to Aloha that school will reach 100% capacity to start with and no room for growth. However WV will now reduce to 94% capacity. Even with the addition of this area WV will still remain at 96% and will have room for growth. So why single out a section of Cmonica students & separate them from the community friends of 8 years!

Current High School: Westview

Boundary Comment: My address is 315 SW 169th Ct Beaverton
I am very concerned that a proposed change will move my area from Westview to Aloha. I object most strongly that my students will be forced to attend a highly underfunded and inferior school. One of the reasons to purchase in Waterhouse South was the strong highschool. Aloha is practically a failed institution. Please leave the boundary alone. Westview is not at capacity and Aloha is. This move does not make sense.

Thanks for your attention
