Questions:

I am appreciative of the work of the committee
I would like to request that the

committee's work be more transparent ~~that~~ in alignment with the principles of open meeting law. If the committee needs to split into smaller groups please allow for space so that individuals present can choose which group to listen to. The current format is entirely opaque and the meeting minutes do not replace observation of discussion.
Thank you!!

Questions: This evening, Carl Mead was overheard telling parents: "My daughter, who is a Sunset Varsity girls' basketball player, has no problem transferring to Beaverton High School." We would respectfully caution BSD leaders that this could be perceived as a "this-works-for-us, so it will work for you" without regard for listening, acknowledging and learning and understanding concerns and perspectives from very engaged and invested parents. Where is Jeff Rose? Another committee member was heard to say "we won't be reading the

emails and letters, because there are too many."

For all of the money that the district has sought from constituents, we would hope that each and every form of input would be valued, read, and used.

This "meeting" seems to be an exercise in appearance, as there is an awful lot of "telling" and not much "listening." Respectfully, however, thank you for opportunity for input.
