

### Transition Comments

PLEASE, to a special meeting of the Beaverton School Board. The Committee welcomes your participation and feedback. Please give us a brief overview of your topic and concerns. Be sure to send the completed form to a Committee Member before leaving.

Date: 1/31/2016

Name: Daina M. Grayewski / John A. Slinta

Current High School: Aloha

Transition Comment: Aloha - based on findings map

Originally, our subdivision was included in the new Cooper Middle School - now based on lunch buses we are back in Aloha. Now is a school offering at 100% capacity, mine to keep up with it's counterparts - however, outside the Aloha area has a brand new 90% home site (100% seats) & the area we are now starting going to go. How to help Aloha is make it out of a boutique school - smaller class sizes, current building plus Aloha at max capacity to the other schools if not meet capacity academically in these conditions.

Research shows that reduced class size effectiveness on disadvantaged kids in education, minor has a immigrant with smaller not larger class size - the academic performance increase and there is more student engagement. Long term success beyond test scores is ~~associated~~ associated with smaller class sizes - be smart & move the Hazelbaker School District to the new high school.
