please allow juniors to have a choice to stay at  
their current school or move to the new school.

please don't force juniors to change schools. That  
would be traumatic for so many kids. Help our  
kids. Don't hurt them.

Seniors should be grandfathered. Seniors should be focusing on enjoying the last year of high school & preparing for college. They should not be experiencing the emotional upheaval of losing their social circle, clubs, sports teams, & schools. It would be so cruel to do that to them.

If juniors are not grandfathered in District is going to receive thousands of transfer requests. Why put everyone through that process? Juniors should be allowed to choose to remain at their current school from the outset. Don't make them apply for a transfer.

Either grandfather all juniors or let juniors choose whether they want to change schools or not. Some juniors will choose to stay & some will choose to change schools. It might not have a huge impact on the

numbers, but it will help so many kids. 2 years is too long to be at a school to then be kicked out.

You will make the boundary change so much easier if you let juniors choose whether to change schools or not.

Please don't hurt my child. Please don't take her school away from her. It is her world. Please don't force juniors to change schools.

Transition Comment: I respectfully ask that juniors be allowed to remain at their current school. As upperclassmen, they are finally in a position to enjoy what they have been working for. They could be a asset on their sports team. They could get to lead in the school play. They could be a leader of their club. They will lose all of this if they are forced to change schools. They will have to start over again, from scratch. If juniors are not given the option of staying at their current school, that is treating the entire class as if it is expendable. The district should care about these kids. Ripping them away from their school & friends is wrong. It is harmful. The district is in a position to help juniors succeed in high school by grandfathering them. or the district could limit them by forcing them to change schools.

Juniors are already embedded in their schools. They are on an academic track. They go to football games & dances. They are played sports with the same kids for a decade. Their school is their community & their world. How could the district even consider forcing them to change schools at 2 years?

Please grandfather juniors!!! You will help so many kids if you do that.

Please give juniors the chance to stay at their current school.
