The FAQs indicate that the incoming senior class of 2017-2018 will not be required to attend a different high school. I think that the incoming sophomore and junior classes of 2017-2018 should be allowed to choose to remain in their current high school or move to the different high school (assuming that the boundary change would result in a different high school). One of the stated objectives is to minimize the transition for students. Forcing kids who have attended a high school for a couple of years to move to a different high school is extremely disruptive and could have very negative consequences for kids. This is especially true if none of the kid's friends are being moved to the different high school. Kids should be focusing on getting ready for college, not dealing with a completely different high school. Any kid who is currently attending a high school shouldn't be forced to move to a different one. They should be given the option of remaining at their current high school.
