

💡 My Mascot Idea 💡

Have you ever wondered what MAC's mascot should be? Well I have an idea. I think we should be the MAC mountain lions. Why you might ask? The mountain lion represents our school's mission statement: fearless forward mindset, innovative academics, and exploration of character. They also are native to Colorado.

Mountain lions show a fearless forward mindset because when on a hunt they take bold risks, just like the children here at Mac. We take bold risks every day through our learning. Also mountain lions teach their cubs how to be fearless just like the teachers teach us how to be fearless here MAC.

Mountain lions are highly intelligent and stay alive because of their hunting and living patterns, so just like that, mountain lions reflect the innovative academics we do at MAC. Mother mountain lions teach and guide their young just like how our teachers teach us important life skills and everything we need to know.

Mountain lions show exploration of character because they are strong and independent and they teach their young how to be strong and independent, like here at Mac we have the freedom to do whatever we choose. Mountain lions are one of the most adaptable creatures, meaning they are resilient like us. We can adapt to so many different changes, even covid.

So as you can see the mountain lion would be the perfect mascot because they show adaptability, independence, bravery, intelligence. They take risks, guidance, and life skills, just like we do at MAC.
