CERTIFICATE OF BOARD

Galveston Independent School District
Name of School District

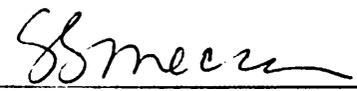

Galveston
County

084-902
Co. - Dist. No.

We, the undersigned, certify that the attached annual financial reports of the above named school district were reviewed and approved for the year ended August 31, 2021, at a meeting of the board of trustees of such school district on January 24, 2022.

President of the Board

Vice President of the Board

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Galveston Independent School District
Galveston, TX

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Galveston Independent School District (the "District") as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Trustees
Galveston Independent School District

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management’s Discussion and Analysis, the budgetary comparison schedule, required pension system information, and the required other post-employment benefit information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The combining and individual nonmajor fund financial statements and required Texas Education Agency (“TEA”) schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget (“OMB”); *Title 2 U.S Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, and required TEA schedules, as listed in the table of contents, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, required TEA schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 19, 2022 on our consideration of the District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control over financial reporting and compliance.

Houston, Texas
January 19, 2022

GALVESTON INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Galveston Independent School District's annual financial report presents the administration's discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2021. Please read it in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of the District exceeded liabilities and deferred inflows at the close of the most recent fiscal year by \$15,992,056. Of this amount, \$25,002,928 was net investment in capital assets, which represents the carrying value of the capital assets in excess of the related debt. \$5,346,084 was restricted for debt service and \$8,865,499 was restricted for federal and state programs. The remaining amount was a deficit unrestricted net position of \$23,222,455.
- The District's total net position increased by \$2,949,152 after a prior period adjustment of \$2,710,131. Net position increased by \$5,659,283 as a result of current year activities as a result of increased property tax revenue and grant funding.
- The District's governmental funds reported combined ending fund balances of \$44,761,962 as of August 31, 2021. Of this amount, \$1,143,266 is non-spendable in the form of (1) inventory in the amount of \$30,906 and (2) prepaid items in the amount of \$1,112,360. Fund balance of is restricted for (1) federal and state grants in the amount of \$8,865,499, (2) debt service in the amount of \$5,065,866, and (3) capital acquisitions in the amount of \$251,383. Fund balance of is committed for (1) disaster recovery of \$5.0 million and (2) decreases in state funding of \$6.0 million and (3) other committed in the amount of \$270,975. The remaining amount in fund balance of \$18,164,973 in the general fund is classified as unassigned and is available for spending at the District's discretion. The unassigned fund balance represents 20% of total general fund expenditures.
- The District's bonded debt decreased by \$6,100,000 as a result of \$5,745,000 principal payments on debt and \$29,735,000 of debt refunded by \$29,380,000 Series 2021 Refunding Bonds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference of the four reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused sick leave).

The government-wide financial statements of the District are principally supported by taxes and intergovernmental revenues (*governmental activities*).

GALVESTON INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains individual governmental funds for general, special revenue, debt service, and capital projects funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, ESSER I fund, and debt service fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in the financial statements. The District adopts an annual appropriated budget for its general fund, debt service fund, and National School Breakfast and Lunch Program special revenue fund.

Proprietary Funds

The District maintains an internal service fund for the Care Here program. *Internal service funds*, one type of proprietary fund, are an accounting device used to accumulate and allocate costs internally among the District's various funds and functions. Because this service predominantly benefits governmental functions, it has been included within *governmental activities* in the government-wide financial statements. Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail.

Fiduciary Funds

The fiduciary funds are used to account for resources held for the benefit of students and employees. The fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs.

A *custodial fund* is a type of fiduciary fund used to report resources held by the District in a purely custodial capacity. The District accounts for the activities of student groups in this type of fund.

A *private purpose trust fund* is a second type of fiduciary fund. Private purpose trust funds are used to report all trust arrangements, other than those properly recorded in pension trust funds or investment trust funds, under which principal and income benefit individuals, private organizations, or other governments. The District accounts for student scholarships in a private purpose trust fund.

GALVESTON INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. The required supplementary information relates to comparison of the original adopted budget, the final amended budget, and the actual amounts for the fiscal year. This is required supplementary information for the general fund. The Required Supplementary Information also includes information related to the required pension system information and the required other post-employment benefit system information.

Other Information

The combining and individual fund statements and schedules and other supplementary information are presented immediately following the required supplementary information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of the District, assets and deferred outflows of the District exceeded liabilities and deferred inflows by \$15,992,056 at the close of the most recent fiscal year.

A portion of the District's net position reflects its investment in capital assets (e.g., land, buildings and improvements, furniture and equipment, construction in progress), less any outstanding related debt used to acquire those assets. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

GALVESTON INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Governmental Activities

	Governmental Activities		
	2021	2020 (as Restated)	Change
Current and other assets	\$ 59,808,745	\$ 58,819,014	\$ 118,627,759
Capital assets	85,312,102	88,015,531	173,327,633
Deferred Outflows of Resources	16,178,639	19,189,378	35,368,017
Total Assets and Deferred Outflows of Resources	161,299,486	166,023,923	327,323,409
Current liabilities	32,521,164	8,997,666	41,518,830
Long term liabilities	85,841,017	125,768,117	211,609,134
Deferred Inflows of Resources	26,945,249	20,925,367	47,870,616
Total Liabilities and Deferred Inflows of Resources	145,307,430	155,691,150	300,998,580
Net Position			
Net investment in capital assets	25,002,928	20,452,654	45,455,582
Restricted	14,211,583	12,671,210	26,882,793
Unrestricted	(23,222,455)	(22,791,091)	(46,013,546)
Total Net Position	\$ 15,992,056	\$ 10,332,773	\$ 26,324,829

Net position in the governmental activities are restricted for various purposes as follows:

	Governmental Activities	
	2021	2020
Federal and state programs	\$ 8,865,499	\$ 4,653,709
Debt Service	5,346,084	4,771,745
Capital Projects	-	3,245,756
	\$ 14,211,583	\$ 12,671,210

The remaining balance of net position in the governmental activities consists of an unrestricted net deficit of \$23,222,455. At the end of the current fiscal year, the District reports positive balances in restricted net position and net investment in capital assets, which is reported net of outstanding related debt, in the governmental activities. The District's net position of the governmental activities increased by \$2,949,152 after a prior period adjustment of \$2,710,131. Net position increased by \$5,659,283 as a result of current year activities as a result of increased property tax revenue and grant funding.

Revenues are generated primarily from three sources. Property taxes, state-aid formula grants, and operating grants and contributions represent 99% of total revenues. The remaining 1% is generated from charges for services, investment earnings, and miscellaneous revenues.

Other expenses	20,331,463	17%
Total Expenses	\$ 119,708,697	100%

Governmental Funds Financial Analysis

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$44,761,962, a decrease of \$1,936,343 in comparison with the prior year.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$18,164,973, while total fund balance reached \$30,308,239. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 20% of expenditures and total fund balance represents 34% of the same amount.

During the current fiscal year, the total fund balance of the District's general fund increased by \$288,306 due to budgeted increases in property tax and state aid revenues.

The debt service fund has a total fund balance of \$5,065,866, all of which is restricted for the payment of debt service. The fund balance increased during the current year by \$294,121 due to an increase in property tax revenues.

The ESSER I fund had total revenues of \$1,505,617 due to new grants awarded to reimburse the District for COVID-19 recovery costs.

GALVESTON INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget of the general fund are summarized as follows:

	Budget	
	Original	Final Amended
Total revenues	\$ 92,552,742	\$ 89,900,000
Total expenditures	91,121,483	96,911,085
Net Change in Fund Balance	\$ 1,431,259	\$ (7,011,085)

Capital Assets

The District's investment in capital assets for its governmental type activities as of August 31, 2021, includes land, buildings and improvements, and furniture and equipment. The investment in capital assets (capital outlays) during the current year amounted to \$4,128,158. The following table summarizes the investment in capital assets as of August 31, 2021 and 2020.

	August 31, 2021	August 31, 2020 (as Restated)
Land	\$ 4,418,388	\$ 4,366,348
Buildings and improvements	187,341,126	182,512,292
Furniture and equipment	11,564,350	11,179,015
Vehicles	7,474,211	6,980,568
Construction in progress	-	1,735,216
Total at Historical Cost	210,798,075	206,773,439
Less Accumulated Depreciation for:		
Buildings and improvements	(111,389,506)	(105,373,697)
Furniture and Equipment	(9,965,762)	(9,600,390)
Vehicles	(4,130,705)	(3,783,821)
Total Accumulated Depreciation	(125,485,973)	(118,757,908)
Net Capital Assets	\$ 85,312,102	\$ 88,015,531

Additional information on the District's capital assets can be found in the notes to the financial statements.

Long-term Liabilities

At the end of the current fiscal year, the District had in bonded debt outstanding, a decrease of over the previous year. The District's bonds are sold with an "AAA" rating and are guaranteed through the Texas Permanent School Fund Guarantee Program. The underlying rating of the bonds from Standard and Poor's is "AA" and from Moody's Investors Service is "Aa3" for unlimited tax debt.

Changes in long-term debt, for the year ended August 31, 2021, are as follows:

Outstanding 09/01/20	Issued	Retired	Outstanding 08/31/21
\$ 61,200,000	\$ 29,380,000	\$ (35,480,000)	\$ 55,100,000

Additional information on the District's long-term liabilities can be found in the notes to the financial statements.

GALVESTON INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Economic Factors and Next Year's Budgets and Rates

- The District's enrollment decreased from 7,000 students to 6,650 students in FY 2020 due to the pandemic. At the time the budget was adopted, enrollment was projected at 6720 for FY 2022, an increase of 70 students.
- For 2021-2022, the maintenance and operations tax rate is \$.8820, while the debt service rate is \$0.0812, for a total tax rate of \$.9632. The maintenance and operations tax rate decreased \$0.0494, and the debt service rate decreased by \$.0138 when compared to 2020-2021. The adopted M&O tax rate reflects tax rate compression mandated by House Bill 3 of the 86th Legislature.
- Operating expenses per student in the District's general fund were \$10,340 for 2020-2021, net of the excess revenue (recapture) payment due to the Texas Education Agency. Operating expenses per student (net of recapture) for the 2021-2022 fiscal year are projected to be \$10,829.
- Overall, net taxable property values increased 21% from the prior year. The average taxable residence in Galveston decreased from an average taxable value in FY 2021 of \$129,254 to \$126,737 in FY 2022. This decrease was caused by a significant increase in the residential tax base subject to the over 65 or disability cap.
- Expenditures are budgeted to increase 13% or \$11.7M. This increase is primarily due to an \$8.6M increase in the excess revenue (recapture payment) due to TEA. The increase net of recapture of 4% is due primarily to salary increases of \$1,500 for teachers and 2% for all other personnel.

These indicators were taken into account when adopting the budget for 2021-2022. The Galveston Independent School District general fund adopted budget for 2021-2022 is as follows:

General Fund Budget	Original
Budgeted Revenues	\$ 102,711,653
Budgeted Expenditures	102,820,000
	<u>\$ (108,347)</u>

Contacting the District's Financial Management

This financial report is designed to provide the citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Dr. Jerry Gibson, Superintendent, at P.O. Box 660, Galveston, TX 77553 or by calling (409) 766-5100. You may also view previous year's financial reports on the District's website at www.gisd.org.

GALVESTON INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Year Ended August 31, 2021

Exhibit C-4

<u>Data Control Codes</u>		
	Net change in fund balances - total governmental funds	\$ 1,936,343
	Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current period.	(2,703,429)
	Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
1	Property taxes	426,351
	Bond and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond and other debt principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	
2	Issuance of refunding bonds	(29,380,000)
3	Payment to escrow agent	31,875,646
4	Premium	(2,802,839)
5	Principal paid on bonds	5,745,000
6	The internal service funds are used by management to charge the costs of risk management to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.	853
	Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
7	Accrued interest on long-term debt	173,855
8	Amortization of bond premiums	652,619
9	Amortization of deferred amounts on refunding	(201,498)
10	Compensated absences	37,937
11	Changes in pension liabilities and related deferred outflows and inflows of resources	(1,194,038)
12	Changes in OPEB liabilities and related deferred outflows and inflows of resources	<u>1,092,483</u>
	Change in Net Position of Governmental Activities	<u><u>\$ 5,659,283</u></u>

Note 1 - Summary of Significant Accounting Policies

Reporting Entity

The Galveston Independent School District (District) is governed by a seven-member Board of Trustees (Board), which has governance responsibilities over all activities related to public elementary and secondary education within the District. Because members of the Board are elected by the public; have authority to make decisions; appoint management and significantly influence operations; and have primary accountability for fiscal matters; the District is not included in any other governmental reporting entity. The accompanying financial statements present the District. There are no component units, entities for which the District is considered to be financially accountable, included within the reporting entity.

The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. The effect of interfund activity has been removed from these statements. *Governmental activities* normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to students or users who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The proprietary and custodial funds are reported using the economic resources measurement focus and the accrual basis of accounting.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

Grant revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

- The *general fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The *ESSER I fund* accounts for federal stimulus ESSER funds granted to the District through the CARES Act that support the District's ability to operate and instruct its students during the COVID-19 pandemic.
- The *debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Additionally, the District reports the following fund types:

Proprietary Funds

- The *internal service fund* accounts for employee benefits provided to other funds and/or employees of the District on a cost reimbursement basis.

Fiduciary Funds

- The *private purpose trust fund* is used to report all trust arrangements by the District. This fund type is used to account for the District's scholarship funds.
- The *custodial fund* is used to account for assets held by the District as a fiduciary for student organizations.

Nonmajor governmental funds of the District include federal, state and local grant funds accounted for as *special revenue funds*. Additionally, the *capital projects fund*, which is used to account for the proceeds from sales of bonds and other revenues to be used for authorized construction and technology projects/enhancements, is included in the nonmajor governmental funds of the District.

Amounts reported as *program revenues* include 1) charges to students or users for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes and investment income.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Operating expenses for the internal service fund include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 1 - Summary of Significant Accounting Policies (continued)

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposit, and investment pools. The funds of the District must be deposited and invested under the terms of a depository contract, the contents of which are set out in the Depository Contract Law. The depository bank may either place approved pledged securities for safekeeping and trust with the District's agent bank or file a corporate surety bond in an amount sufficient to protect district funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of FDIC insurance. The depository cash balances were covered by FDIC insurance and by collateral held by the District's agent in the District's name. The District categorizes fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments for the District are reported at fair value and the District's local government investment pools are recorded at amortized costs as permitted by GASB Statement No. 79 *Certain Investment Pools and Pool Participants*.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property tax receivables include unpaid property taxes at year-end along with penalties and interest assessed on these unpaid taxes and are shown net of an allowance for uncollectibles. The property tax receivable allowance is based on historical collections. Revenues from property taxes are recognized when levied to the extent they are available. The District considers property taxes as available when collected. However, not all outstanding property taxes are expected to be collected within one year of the date of the financial statements. Property values are determined by the Galveston Central Appraisal District as of January 1 of each year. Prior to September 1 of each year, the District must adopt its annual budget and as soon thereafter as practicable, shall adopt a tax rate thus creating the tax levy. Property taxes for the current calendar year are levied on approximately October 1 of each year and are payable by January 31 of the following year. Property tax receivables are recorded as of the date levied. Unpaid taxes become delinquent on February 1 and a tax lien on real property is created as of July 1 of each year.

Inventories and Prepaid Items

Inventories consisting of supplies and materials are valued at weighted average cost and they include maintenance, transportation, and office and instructional supplies. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. A portion of fund balance is classified as non-spendable to reflect minimum inventory quantities considered necessary for the District's continuing operations.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, furniture and equipment and vehicles, are reported in the governmental column in the government-wide financial statements. The District’s infrastructure includes parking lots and roads associated with various buildings. The cost of the infrastructure was initially capitalized with the building cost and is being depreciated over the same useful life as the building. Capital assets are defined by the District as assets with an initial, individual cost that equals or exceeds \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings and improvements, and furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>In Years</u>
Buildings and improvements	10 - 50
Furniture and equipment	5 - 20
Vehicles	5 - 20

Compensated Absences

Compensated absences are absences for which employees will be paid, such as sick leave. A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the government and its employees is accrued as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the government and its employees are accounted for in the period in which such services are rendered or such events take place.

In the governmental funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for them. The remainder of the compensated absences liability is reported in long-term liabilities on the Statement of Net Position.

Long-term Obligations

The District’s long-term obligations consist of bonded indebtedness and compensated absences. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts amortized over the life of the bonds using the bonds outstanding method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund. The current requirements for notes payable principal and interest expenditures are accounted for in the general fund. The current requirements for compensated absences are accounted for in the general fund.

Note 1 - Summary of Significant Accounting Policies (continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position, deferred amounts related to pension, and deferred amounts related to OPEB. The deferred charge on refunding resulted from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred amounts related to pension and OPEB relate differences between estimated and actual investment earnings, changes in actuarial assumptions, and other pension and OPEB related changes.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. Unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the government-wide financial statements the District reports deferred amounts related to pension and deferred amounts related to OPEB.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Note 1 - Summary of Significant Accounting Policies (continued)

Net Position and Fund Balances

The District reports fund balances in accordance with GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

Nonspendable fund balance – amounts that are not in spendable form or are required to be maintained intact. As such, inventory and prepaid items have been properly classified in the Governmental Funds Balance Sheet (Exhibit C-1). However, if the use of the proceeds from the sale of the inventory is restricted, committed, or assigned, then the applicable amounts are included in the appropriate fund balance classification, rather than nonspendable fund balance.

Restricted fund balance – Amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed fund balance – amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e. the Board of Trustees). To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint. The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. A fund balance commitment is further indicated in the budget document as a commitment of the fund. The District has committed 100 percent of the Campus Activity Funds' fund balance, \$5,000,000 in the General Fund for disaster recovery and \$6,000,000 in the General Fund for decreases in state formula funding.

Assigned fund balance – amounts the District intends to use for a specific purpose. Intent can be expressed by the District or by an official or body to which the Board of Trustees delegates the authority. The Board has delegated authority to the Superintendent to establish fund balance assignments.

Unassigned fund balance – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Data Control Codes

The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the Financial Accountability System Resource Guide. TEA requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Note 1 - Summary of Significant Accounting Policies (continued)

Implementation of New Accounting Standards

GASB Statement No. 90 *Majority Equity Interests, an amendment of GASB Statements No. 14 and No. 61* was issued in August 2018 and effective for periods beginning December 15, 2019. The primary objectives of this Statement are to improve consistency in the measurement and comparability of the financial statement presentation of majority equity interests in legally separate organizations and to improve the relevance of financial statement information for certain component units. An equity interest is a financial interest in a legally separate organization evidenced by the ownership of shares of the organization's stock or by otherwise having an explicit, measurable right to the net resources of the organization that is usually based on an investment of financial or capital resources by a government. An equity interest is explicit and measurable if the government has a present or future claim to the net resources of the entity and the method for measuring the government's share of the entity's net resources is determinable. The District has determined that this Statement does not have an effect on the financial statements as of August 31, 2021.

GASB Statement No. 98, *The Annual Comprehensive Financial Report*. This statement was issued in October 2021 and establishes the term annual comprehensive financial report and its acronym ACFR. This new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. This statement is effective for fiscal years ending after December 15, 2021 but earlier application is encouraged. Management has evaluated the implementation of this statement and determined that it is not applicable to the District.

Note 2 - Deposits and Investments

Cash Deposits

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law and these securities are held for safekeeping and trust with the District's and the depository bank's agent bank. The pledged securities are approved by the Texas Education Agency and shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance. At August 31, 2021, the District's cash in bank totaled \$14,296,363 and certificates of deposit totaled \$4,000,000, resulting in a total of \$18,296,363 requiring collateral. The carrying value was \$13,511,100 (governmental activities) and \$323,820 (fiduciary funds). Pledged collateral and FDIC insurance for these deposits totaled \$17,976,883. As such, the District's cash and certificates of deposit were 98% collateralized at August 31, 2021.

The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. The District further limits its investments to obligations of the U.S. Treasury or the State of Texas, certain U.S. Agencies, certificates of deposit, collateralized mortgage obligations, no-load money market mutual funds, certain municipal securities, repurchase agreements, or investment pools.

Investments

For fiscal year 2021, the District invested in certificates of deposit, MBIA Texas CLASS Investment Pool and TexasTERM Local Government Investment Pool. Texas CLASS and TexasTERM operate in a manner consistent with the Security and Exchange Commission's Rule 2a7 of the Investment Company Act of 1940.

MBIA Texas CLASS Investment Pool is duly chartered by the State of Texas Interlocal Cooperation Act, is administered and managed by MBIA Municipal Investors Service Corporation. Wells Fargo Bank N.A. is the custodial bank. The primary objectives of MBIA Texas CLASS Investment Pool, is to maintain safety of principal while providing participating government entities (Participants) with the highest possible rate of return for invested funds.

Note 2 - Deposits and Investments (continued)

Investments (continued)

TexasTERM is directed by an Advisory Board of experienced local government officials, finance directors and treasurers and is managed by a team of industry leaders that are focused on providing professional investment services to investors. The pool offers a fully liquid money market and invests only in those securities authorized by the statutes governing investment of funds by local governments in the state.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis and specific identification.

Credit Risk

State law and the District’s investment policy limits investments in all categories to top ratings issued by nationally recognized statistical rating organizations. The District’s investment policy requires the investment portfolio to be diversified in terms of investment instruments, maturity scheduling, and financial institutions in order to reduce the risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer.

The District reports its local government investment pools at amortized cost as permitted by GASB Statement No. 79 *Certain External Investment Pools and Pool Participants*. In addition, the investment pools do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. The four pools do not impose any liquidity fees or redemption gates.

At year-end, the District’s investment balances, weighted average maturity (in days), valuation method, and Standard & Poor’s (S&P) ratings were as follows:

	<u>Carrying Value</u>	<u>% of Portfolio</u>	<u>Weighted Average Maturity</u>	<u>Valuation Method</u>	<u>S&P Rating</u>
Governmental Activities:					
Certificates of deposit	\$ 4,000,000	13%	260	Fair Value Level 2	N/A
Local Government Investment Pools:					
Texas CLASS	10,209,360	36%	38	Amortized Cost	AAAm
TexasTERM	14,498,440	51%	53	Amortized Cost	AAAm
Total Local Government Investment Pools	<u>24,707,800</u>	<u>87%</u>	47		
Total Governmental Activities	<u>\$ 28,707,800</u>	<u>100%</u>	75		

Note 3 - Receivables

Receivables as of year-end for the District's individual major and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	ESSER I	Debt Service Fund	Nonmajor Governmental Funds	Total
Property taxes	\$ 6,356,495	\$ -	\$ 628,995	\$ -	\$ 6,985,490
Due from other governments	6,963,086	1,741,096	-	3,387,168	12,091,350
Interest	8,712	-	8,712	-	17,424
Other	88,284	-	5,214	57,881	151,379
Gross receivables	<u>13,416,577</u>	<u>1,741,096</u>	<u>642,921</u>	<u>3,445,049</u>	<u>19,245,643</u>
Allowance for doubtful accounts, property tax related	(1,556,173)	-	(154,832)	-	(1,711,005)
Allowance for doubtful accounts, grant related	<u>(1,233,772)</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>(1,233,772)</u>
Net Total Receivables	<u><u>\$ 10,626,632</u></u>	<u><u>\$ 1,741,096</u></u>	<u><u>\$ 488,089</u></u>	<u><u>\$ 3,445,049</u></u>	<u><u>\$ 16,300,866</u></u>

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period or in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the District reported unearned revenues for advanced collection of state aid, grants, and other fees in the following amounts:

	Unearned Revenue
General Fund	\$ 2,217,349
Nonmajor Governmental Funds	28,983
Total	<u><u>\$ 2,246,332</u></u>

Note 4 - Capital Assets

Capital asset activity for the year ended August 31, 2021, was as follows:

	Balance, as Restated September 1, 2020	Additions	Retirements	Transfers	Balance August 31, 2021
Capital Assets, not being Depreciated					
Land	\$ 4,366,348	\$ 52,040	\$ -	\$ -	\$ 4,418,388
Construction in progress	1,735,216	3,093,618	-	(4,828,834)	-
Total Capital Assets, not being Depreciated	6,101,564	3,145,658	-	(4,828,834)	4,418,388
Capital Assets, being Depreciated					
Buildings and improvements	182,512,292	-	-	4,828,834	187,341,126
Furniture and equipment	11,179,015	385,335	-	-	11,564,350
Vehicles	6,980,568	597,165	(103,522)	-	7,474,211
Total Capital Assets, being Depreciated	200,671,875	982,500	(103,522)	4,828,834	206,379,687
Less Accumulated Depreciation for:					
Buildings and improvements	(105,373,697)	(6,015,809)	-	-	(111,389,506)
Furniture and Equipment	(9,600,390)	(365,372)	-	-	(9,965,762)
Vehicles	(3,783,821)	(450,406)	103,522	-	(4,130,705)
Total Accumulated Depreciation	(118,757,908)	(6,831,587)	103,522	-	(125,485,973)
Governmental Capital Assets	\$ 88,015,531	\$ (2,703,429)	\$ -	\$ -	\$ 85,312,102

Depreciation expense was charged to functions/programs of the District as follows:

Function	Depreciation Expense
Instruction	\$ 1,895,042
Instructional resources and media services	15,456
Curriculum and staff development	165,446
Instructional leadership	107,052
School leadership	175,070
Guidance, counseling, and evaluation services	99,842
Social work services	14,918
Health services	33,573
Student transportation	133,939
Food service	196,025
Extracurricular activities	71,411
General administration	104,575
Facilities maintenance and operations	3,625,720
Security and monitoring services	49,914
Data processing services	103,584
Community services	40,020
	\$ 6,831,587

The District had no open construction commitments at August 31, 2021.

Note 5 - Interfund Receivables, Payables, and Transfers

Interfund balances consist of short-term lending/borrowing arrangements that result primarily from payroll and other regularly occurring charges that are paid by the general fund and then charged back to the appropriate other fund. Additionally, some lending/borrowing may occur between two or more nonmajor governmental funds.

The composition of interfund balances as of August 31, 2021, is as follows:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>	<u>Net</u>
Governmental Funds			
General Fund	\$ 4,535,045	\$ -	\$ 4,535,045
ESSER I Fund	-	(1,741,096)	(1,741,096)
Debt Service Fund	-	(25,045)	(25,045)
Nonmajor Governmental Funds	-	(2,768,904)	(2,768,904)
Total	<u>\$ 4,535,045</u>	<u>\$ (4,535,045)</u>	<u>\$ -</u>

Interfund transfers are defined as “flows of assets without equivalent flow of assets in return and without a requirement for repayment.” The following is a summary of the District’s transfers for the fiscal year ended August 31, 2021:

<u>Transfer Out</u>	<u>Transfer In</u>	<u>Amount</u>
General Fund	Nonmajor Governmental Fund	\$ 24,384
General Fund	Internal Service Fund	305,000
		<u>\$ 329,384</u>

During the fiscal year, a transfer was made from the general fund to reimburse a nonmajor governmental fund for previous year expenditures that were not reimbursed by a grant. In addition, the general fund transferred funds to the internal service fund to cover the operating deficit.

Note 6 - Compensated Absences and Other Retirement/Sick Leave Benefits

A local retirement program that was in effect for five years prior to the 2005-2006 fiscal year was rescinded during the 2006 fiscal year by the Board of Trustees. The remaining liability under this plan will be retired in accordance with the terms of the original resolution.

The following summarizes the District’s liability and the changes for the year:

Balance, September 1, 2020	\$ 58,974
Deductions: Payments to participants	(37,937)
Balance, August 31, 2021	<u>\$ 21,037</u>

Note 7 - Long-Term Liabilities

The District has entered into a continuing disclosure undertaking to provide annual reports and material event notices to the State Information Depository of Texas through the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District. There are a number of limitations and restrictions contained in the general obligation debt indentures. Management has indicated that the District is in compliance with all significant limitations and restrictions as of August 31, 2021.

General Obligation Bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the District. Bonds payable for the year ended August 31, 2021 were as follows:

<u>Issue</u>	<u>Original Issuance Amount</u>	<u>Interest Rate (%)</u>	<u>Maturity Date</u>	<u>Debt Outstanding</u>
Unlimited Tax Refunding Bonds:				
Series 2013	\$ 36,955,000	2.00% to 5.00%	2/1/2023	\$ 3,670,000
Series 2018	27,585,000	3.00% to 5.00%	2/1/2030	22,425,000
Series 2021	29,380,000	1.43% to 5.00%	2/1/2029	29,005,000
				<u>\$ 55,100,000</u>

Debt service requirements to maturity are as follows:

<u>Year Ending August 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Totals</u>
2022	\$ 5,440,000	\$ 2,243,060	\$ 7,683,060
2023	5,620,000	1,980,810	7,600,810
2024	5,810,000	1,709,310	7,519,310
2025	6,065,000	1,426,435	7,491,435
2026	6,230,000	1,133,060	7,363,060
2027 - 2030	25,935,000	1,897,245	27,832,245
	<u>\$ 55,100,000</u>	<u>\$ 10,389,920</u>	<u>\$ 65,489,920</u>

Changes in Long-Term Liabilities

The following is a summary of changes in the District's total governmental long-term liabilities for the year ended August 31, 2021:

	<u>Balance September 1, 2020</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance August 31, 2021</u>	<u>Due Within One Year</u>
General obligation bonds	\$ 61,200,000	\$ 29,380,000	\$ (35,480,000)	\$ 55,100,000	\$ 5,440,000
Premiums/discounts	6,362,878	2,802,839	(2,641,962)	6,523,755	-
Accrued compensated absences	58,974	-	(37,937)	21,037	21,037
	<u>\$ 67,621,852</u>	<u>\$ 32,182,839</u>	<u>\$ (38,159,899)</u>	<u>\$ 61,644,792</u>	<u>\$ 5,461,037</u>

Note 7 - Long-Term Liabilities (continued)

Changes in Long-Term Liabilities (continued)

During the current fiscal year, the District issued Unlimited Tax Refunding Bonds, Taxable Series 2021 in the amount of \$29,380,000 with a premium of \$2,802,839. The bonds were used to refund \$3,690,000 of the Unlimited Tax Refunding Bonds, Series 2011 and \$26,045,000 of Unlimited Tax Refunding Bonds, Series 2013. The reacquisition price exceeded the net carrying amount of the old debt by \$1,063,198 which is reported as a deferred outflow of resources and amortized over the remaining life of the refunded debt, which had a shorter remaining life than the refunded debt. The transaction reduced the District's debt service payments by \$1,538,885 and resulted in an economic gain of \$1,462,588. The net proceeds were deposited in an irrevocable trust with an escrows agent to provide funds for the future debt service payment on the refunded bonds. As a result, \$26,045,000 of the Series 2013 bonds are considered defeased and a liability for those bonds has been removed from the statement of net position.

Note 8 - Revenues from Local, Intermediate, and Out-of-State Sources

During the current year, revenues from local and intermediate sources consisted of the following:

	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Total</u>
Property Taxes	\$ 79,086,648	\$ 8,056,272	\$ -	\$ 87,142,920
Gifts and bequests	26,000	-	9,775,329	9,801,329
Student activities	-	-	203,015	203,015
Food Sales	-	-	167,180	167,180
Rent	101,358	-	-	101,358
Investment Income	51,941	32,448	-	84,389
Shared service agreement	-	-	68,691	68,691
Athletics	43,903	-	-	43,903
Tuition and fees	34,185	-	-	34,185
Insurance recovery	31,209	-	-	31,209
Miscellaneous	965,347	-	844,262	1,809,609
	<u>\$ 80,340,591</u>	<u>\$ 8,088,720</u>	<u>\$ 11,058,477</u>	<u>\$ 99,487,788</u>

Note 9 - Operating Leases

Commitments under operating lease (non-capitalized) agreements for facilities and equipment are subject to fiscal funding clauses. As such, the agreements are cancelable and the District is therefore not obligated for minimum future rental payments as of August 31, 2021. Rental expenditures during the year amounted to \$268,047.

Note 10 - Pension Plan and Other Post-Employment Benefits

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at https://www.trs.texas.gov/TRS%20Documents/cafr_2020.pdf, or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers, and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

Note 10 - Pension Plan and Other Post-Employment Benefits (continued)

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member’s annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	Contribution Rates	
	2021	2020
Member	7.7%	7.7%
Non-employer contributing agency	7.5%	7.5%
Employers	7.5%	7.5%

	Fiscal Year
	2021
District Contributions	1,982,690
Employee Contributions	3,963,778
Non-employer Contributing Entity (State)	2,646,906

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate, times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment.
- When any part or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- All public schools, charter schools, and regional educational service centers must contribute 1.5 percent of the member’s salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Note 10 - Pension Plan and Other Post-Employment Benefits (continued)

Actuarial Assumptions

The total pension liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Component	Result
Valuation Date	August 31, 2019, rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term Expected Rate	7.25%
Municipal Bond Rate as of August 2020	2.33%. Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."
Last year ending August 31 in Projection Period (100 years)	2119
Inflation	2.30%
Salary Increases	3.05% to 9.05% including inflation
Ad Hoc Post-Employment Benefit Changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2019. For a full description of these assumptions please see the actuarial valuation report dated November 14, 2019.

Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Note 10 - Pension Plan and Other Post-Employment Benefits (continued)

Discount Rate (continued)

Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2020 are summarized below:

Asset Class	Target Allocation ¹	Long-Term Expected Arithmetic Real Rate of Return ²	Expected Contribution to Long-Term Portfolio Returns
Global Equity			
USA	18.00%	3.90%	0.99%
Non-U.S. Developed	13.00%	5.10%	0.92%
Emerging Markets	9.00%	5.60%	0.83%
Private Equity	14.00%	6.70%	1.41%
Stable Value			
Government Bonds	16.00%	-0.70%	-0.05%
Absolute Return (Including Credit Sensitive Investments)	0.00%	1.80%	0.00%
Stable Value Hedge Funds	5.00%	1.90%	0.11%
Real Return			
Real Estate	15.00%	4.60%	1.01%
Energy, Natural Resources and Infrastructure	6.00%	6.00%	0.42%
Commodities	0.00%	0.80%	0.00%
Risk Parity			
Risk Parity	8.00%	3.00%	0.30%
Leverage			
Cash	2.00%	-1.50%	-0.03%
Asset Allocation Leverage	-6.00%	-1.30%	0.08%
Inflation Expectation			2.00%
Volatility Drag ³			-0.67%
Expected Return	100.00%		7.32%

¹ Target allocations are based on the FY2020 policy model.

² Capital Market Assumptions come from Aon Hewitt as of August 31, 2020.

³ The volatility drag results from the conversion between arithmetic and geometric mean returns.

Note 10 - Pension Plan and Other Post-Employment Benefits (continued)

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the Net Pension Liability.

	<u>Discount Rate</u>		
	<u>1% Decrease (6.25%)</u>	<u>Current Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
District's proportional share of the net pension liability	\$ 37,310,146	\$ 24,196,225	\$ 13,541,452

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At August 31, 2021, the District reported a liability of \$24,196,225 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 24,196,225
State's proportionate share that is associated with the District	<u>33,401,348</u>
Total	<u><u>\$ 57,597,573</u></u>

The net pension liability was measured as of August 31, 2019 and rolled forward to August 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

At August 31, 2020, the employer's proportion of the collective net pension liability was 0.0452% which was a decrease of 0.0021% from its proportion measured as of August 31, 2019.

Note 10 - Pension Plan and Other Post-Employment Benefits (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Changes Since the Prior Actuarial Valuation

There were no changes in assumptions since the prior measurement date.

For the year ended August 31, 2021, the District recognized pension expense of \$3,830,715. The District also recognized on-behalf pension expense and revenue of \$4,017,440 for support provided by the State.

At August 31, 2021, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 44,180	\$ (675,252)
Changes of assumption	5,614,385	(2,387,197)
Net difference between projected and actual earnings on pension plan investments	489,832	-
Changes in proportion and differences between District contributions and proportionate share of contributions	1,282,694	(1,431,922)
District contributions subsequent to the measurement date	1,982,689	-
Total	<u>\$ 9,413,780</u>	<u>\$ (4,494,371)</u>

Deferred outflows of resources resulting from District contributions subsequent to the measurement date in the amount of \$1,982,689 will be recognized as a reduction of the net pension liability in the year ended August 31, 2022. The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year</u>	<u>Pension Expense Amount</u>
2022	\$ 954,742
2023	991,043
2024	1,021,636
2025	350,827
2026	(333,277)
Thereafter	(48,251)
	<u>\$ 2,936,720</u>

Note 11 - Defined Other Post-Employment Benefit Plans

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care’s fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at https://www.trs.texas.gov/TRS%20Documents/cafr_2020.pdf, or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers, and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic postemployment benefit changes, including automatic COLAs.

The premium rates for retirees are reflected in the following table:

	TRS-Care Monthly Premium Rates	
	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Note 11 - Defined Other Post-Employment Benefit Plans (continued)

Contributions (continued)

Texas Insurance Code, section 1575.202 establishes the state’s contribution rate which is 1.25% of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates	
	2021	2020
Member	0.65%	0.65%
Non-employer contributing agency	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private funding	1.25%	1.25%

	Fiscal Year
	2021
District Contributions	507,832
Employee Contributions	342,566
Non-employer Contributing Entity (State)	819,435

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether or not they participate in the TRS Care OPEB program*). When hiring a TRS retiree, employers are required to pay TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$230.8 million in fiscal year 2020 to maintain premiums and benefit levels in the 2020-2021 biennium.

The actuarial valuation was performed as of August 31, 2019. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2020. The actuarial valuation was determined using the following actuarial assumptions:

Component	Result
Valuation Date	August 31, 2019, rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.33% as of August 31, 2020
Aging Factors	Based on plan specific experience
Election Rates	Normal Retirement: 65% participation prior to age 65 and 40% participation after age 65, 25% of pre-65 retirees are assumed to discontinue coverage at age 65
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claim costs.
Salary Increases	3.05% to 9.05% including inflation
Ad Hoc Post-Employment Benefit Changes	None

Note 11 - Defined Other Post-Employment Benefit Plans (continued)

Actuarial Assumptions (continued)

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation that was rolled forward to August 31, 2020: (a) Rates of Mortality, (b) Rates of Retirement, (c) Rates of Termination, (d) Rates of Disability, (e) General Inflation, (f) Wage Inflation, and (g) Expected Payroll Growth.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Discount Rate

A single discount rate of 2.33% was used to measure the total OPEB liability. There was a decrease of 0.30% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to *not be able* to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2020 using the fixed-income municipal bonds with 20 years to maturity that include only federally tax exempt municipal bonds.

Discount Rate Sensitivity Analysis

Discount Rate - The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.33%) in measuring the Net OPEB Liability.

	Discount Rate		
	1% Decrease (1.33%)	Current Rate (2.33%)	1% Increase (3.33%)
District's proportional share of the net OPEB liability	\$ 30,085,346	\$ 25,071,169	\$ 21,110,690

Note 11 - Defined Other Post-Employment Benefit Plans (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2021, the District reported a liability of \$25,071,169 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 25,071,169
State's proportionate share that is associated with the District	33,689,642
Total	<u>\$ 58,760,811</u>

The Net OPEB Liability was measured as of August 31, 2019 and rolled forward to August 31, 2020 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer’s proportion of the Net OPEB Liability was based on the employer’s contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

At August 31, 2020, the District’s proportion of the collective Net OPEB Liability was 0.0660% which was a decrease of 0.0051% from its proportion measured as of August 31, 2019.

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the assumed healthcare cost trend rate:

	<u>Healthcare Cost Trend Rate</u>		
	<u>1% Decrease</u>	<u>Current Rate</u>	<u>1% Increase</u>
District's proportional share of the net OPEB liability	\$ 20,479,933	\$ 25,071,169	\$ 31,186,047

Changes Since the Prior Actuarial Valuation

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

- The discount rate changed from 2.63 percent as of August 31, 2019 to 2.33% as of August 31, 2020. This change increased the Total OPEB Liability.
- The participation rate for post-65 retirees was lowered from 50% to 40%. This changed lowered the Total OPEB Liability.
- The ultimate health care trend rate assumption was lowered from 4.50% to 4.25% as a result of Congress’ repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

Changes of Benefit Terms Since the Prior Measurement Date - There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2021, the District recognized negative OPEB expense of \$579,660. The District also recognized negative on-behalf OPEB expense and revenue of \$233,928 for support provided by the State.

Note 11 - Defined Other Post-Employment Benefit Plans (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (continued)

Changes Since the Prior Actuarial Valuation (continued)

At August 31, 2021, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 1,312,717	\$ (11,473,849)
Changes of assumption	1,546,370	(6,884,673)
Net difference between projected and actual earnings on OPEB plan investments	8,147	-
Changes in proportion and differences between District contributions and proportionate share of contributions	2,326,595	(4,092,356)
District contributions subsequent to the measurement date	507,832	-
Total	<u>\$ 5,701,661</u>	<u>\$ (22,450,878)</u>

The \$507,832 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending August 31, 2022. The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Fiscal Year</u>	<u>OPEB Expense Amount</u>
2022	\$ (2,809,075)
2023	(2,810,164)
2024	(2,810,787)
2025	(2,810,617)
2026	(2,140,961)
Thereafter	<u>(3,875,445)</u>
	<u>\$ (17,257,049)</u>

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2021, 2020, and 2019, the subsidy payments received by TRS-Care on-behalf of the District were \$239,729, \$235,552, and \$171,752, respectively. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Note 12 - Risk Management

Property/Liability

The District is exposed to various risks of loss related to property/liability losses for which the District carries commercial insurance.

Health Insurance

The District provides medical insurance coverage for its employees under the TRS-Active Care insurance provided by the Teachers' Retirement System of Texas.

Workers' Compensation

During the year ended August 31, 2021, the District met its statutory workers' compensation obligations through Participation in the TASB Risk Management Fund (the "Fund"). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's workers' compensation program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute interlocal agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members' injured employees.

The Fund and its members are protected against higher-than-expected claims costs through the purchase of stop-loss coverage for any claim in excess of the Fund's self-insured retention of \$2 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. For the year ended August 31, 2021, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2020 are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

Note 13 - Shared Service Arrangements / Joint Ventures

The district is the fiscal agent for two shared service arrangements (SSA) which provide services for visually impaired students and for students requiring orientation and mobility services. The member districts participating are listed below. All services are provided by the fiscal agent. The member districts reimburse the fiscal agent.

According to guidance provided in the TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in special revenue funds and will be accounted for using Model 3 in the SSA section of the Resource Guide. Expenditures of the SSAs are summarized below:

	Visually Impaired Program	Orientation and Mobility Program
Member Districts:		
Dickinson ISD	\$ -	\$ 23,603
Friendswood ISD	-	28,345
Galveston ISD	68,691	28,697
Hitchcock ISD	-	11,297
Santa Fe ISD	-	10,275
Texas City ISD	-	28,642
	<u>\$ 68,691</u>	<u>\$ 130,859</u>

Note 14 - Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

Note 15 - Arbitrage

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of (1) the amount earned on investments purchased with bond proceeds over (2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five-year anniversary date of the bond issue. The District has estimated that it does not have an arbitrage liability as of August 31, 2021.

Note 16 - Hurricane Ike

The eye of Hurricane Ike made landfall on September 13, 2008 just to the east of Galveston Island and resulted in catastrophic damage to the District's entire service area. At landfall, the storm was rated as a category 2 hurricane; however, Ike's width beyond the eye of the storm was large with a storm surge disproportional to its wind speed (category). The storm resulted in extensive flooding submerging substantial portions of the Galveston area. In addition, wind damage was significant. Ike's damage along the Gulf Coast was estimated to reach \$31.5 billion, which would make it the third costliest hurricane on record. In addition, the District's service area suffered a huge economic devastation beyond the direct damage caused by the storm.

Damage to the District's facilities was extensive, amounting to approximately \$47,900,000. The District received approximately \$8,400,000 in insurance proceeds. To date, the Federal Emergency Management Agency (FEMA) has paid the District approximately \$21,150,000 out of \$27.3M in eligible damages. Most projects have been closed out; however, after reductions for the District's local share of approximately 10%, as of August 31, 2021, the District's receivable was \$3,701,317. The District also reported an allowance of \$1,233,772 which resulted in a net receivable of \$2,467,545.

Note 17 - Subsequent Events

As of September 2, 2021, the Texas Education Agency informed local education agencies (LEAs) that it has no plans to issue missed school day waivers due to COVID-19 during the 2021-2022 school year when the LEA or its campuses are closed. Each LEA will need to plan to make up time for school closures during the school year and may need to add additional instructional days and/or minutes to their calendar to meet the 75,600 operational minute requirement.

LEAs have reported to TEA that attendance rate declines continue to occur due to COVID-19. As a result, TEA is exploring options to ensure school systems will not experience significant financial difficulties. Additionally, LEAs had varying daily rates of attendance during the 2020-2021 school year due to the impact of virtual learning options. Once TEA receives this local information in a PEIMS upload this fall, it will be equipped to analyze, understand, and determine potential changes to the rules around waivers, particularly low attendance waivers. As of the date of this report, the District has not determined the impact.

Note 18 - COVID-19

The full extent of the ongoing impact of COVID-19 on the District's 2020-21 fiscal year and longer-term operational and financial performance will depend on future developments, many of which are outside of its control, including the effectiveness of the mitigation strategies related to COVID-19, the duration of COVID-19, and future governmental actions, all of which are highly uncertain and cannot be predicted.

Note 19 - Prior Period Adjustments

Three prior period adjustments were made to beginning balances. The first adjustment was made to decrease the District's net position due to construction in progress being improperly reported in the prior period. The second adjustment was made to report unavailable revenue and an allowance for uncollectible amounts for receivable related to Hurricane Ike amounts due from FEMA, which reduced the District's fund balance and net position. The third adjustment reclassified the custodial fund amounts due to student group amounts to net position in accordance with GASB Statement No. 84 which was implemented in the previous fiscal year. The following was the impact of the prior period adjustments:

	<u>Fund Balance</u>	<u>Net Position</u>	
	<u>General Fund</u>	<u>Governmental Activities</u>	<u>Custodial Fund</u>
Beginning Balance	\$ 33,721,250	\$ 13,042,904	\$ 3,823
Restatement due to recording allowance and unavailable revenue for Hurricane Ike grant receivable	(3,701,317)	(1,233,772)	-
Restatement due to capital asset corrections	-	(1,476,359)	-
Restatement due to reclassification of amounts due to student groups to net position in the custodial fund	-	-	160,644
Beginning Balance - As Restated	<u>\$ 30,019,933</u>	<u>\$ 10,332,773</u>	<u>\$ 164,467</u>

GALVESTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

A. Budgets and Budgetary Accounting

The District adopts annual appropriations type budgets for the General Fund, Child Nutrition Program Fund, and the Debt Service Fund using the same method of accounting as for financial reporting, as required by law. The remaining Special Revenue Funds (primarily federal grant programs) utilize a managerial type budget approved at the fund level and amended as necessary when the Notices of Grant Awards are received. These grants are subject to Federal, State and locally imposed project length budgets and monitoring through submission of reimbursement reports.

Expenditures may not legally exceed budgeted appropriations at the function or activity level. Expenditure requests which would require an increase in total budgeted appropriations must be approved by the Trustees through formal budget amendment. State law prohibits trustees from making budget appropriations in excess of funds available and estimated revenues. State law also prohibits amendment of the budget after fiscal year end. Supplemental appropriations were made to the General Fund, Food Service Fund and Debt Service Fund during the fiscal year ended August 31, 2021.

The administrative level at which responsibility for control of budgeted appropriations begins is at the organizational level within each function of operations. The finance department reviews closely the expenditure requests submitted by the various organizational heads (principal and department heads) throughout the year to ensure proper spending compliance. No public funds of the District shall be expended in any manner other than as provided for in the budget adopted by the Board of Trustees.

The official school budget was prepared for adoption for budgeted governmental fund types by August 31, 2020. The budget was formally adopted by the Board of Trustees at a duly advertised public meeting prior to the expenditure of funds. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

Encumbrance accounting is utilized in all government fund types. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at year-end and encumbrances outstanding at that time are appropriately provided for in the subsequent year's budget.

Budget Overages

During the current fiscal year, the District exceeded budgeted amounts in food service expenditures by \$50,874 and in payments related to shared service arrangements by \$37,388.

GALVESTON INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PENSION

Changes of Assumptions

The single discount rate as of August 31, 2019 was 7.25, which is the same rate as of August 31, 2020.

Changes in Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the 2020 or 2019 measurement periods.

Other Information

Effective September 1, 2014, employers who did not contribute to Social Security for TRS-eligible employees were required to contribute an additional 1.5% of TRS-eligible compensation which nearly doubled the District's contributions into the Plan. Because the District's proportional share of the plan is determined by its proportional share of contributions, the District recognized a corresponding increase in its share of net pension liability.

	<u>2021</u>	<u>2020</u>	<u>2019</u>	<u>2018</u>
Contractually required contributions	\$ 507,832	\$ 503,983	\$ 504,518	\$ 411,882
Contributions in relation to the contractual required contributions	507,832	503,983	504,518	411,882
Contribution deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
District's covered payroll	\$ 51,477,625	\$ 48,848,474	\$ 47,736,256	\$ 44,365,365
Contributions as a percentage of covered payroll	0.99%	1.03%	1.06%	0.93%

Note: Ten years of data should be presented in this schedule but data is unavailable prior to fiscal year 2018.
Net OPEB liability is calculated in accordance with GASB 75.

GALVESTON INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - OPEB

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that have affected measurement of the Total OPEB liability (TOL):

- The discount rate was 2.33 percent, 2.63 percent, and 3.69 percent as of August 31, 2020, August 31, 2019, and August 31, 2018, respectively.
- During measurement year 2020, the participation rate for post-65 retirees was lowered from 50% to 40%. This change lowered the Total OPEB Liability.
- During measurement year 2020, the ultimate health care trend rate assumption was lowered from 4.50% to 4.25% as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability (TOL).
- During measurement year 2019, the health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- During measurement year 2019, the participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. Twenty-five percent of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- During measurement year 2019, the percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20 percent to 10 percent. These changes decreased the TOL.

Changes of Benefit Terms

There were no changes in benefit terms in the 2020 measurement year.

The 85th Legislature, Regular Session, passed the following statutory changes in House Bill 3976 which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventive drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017, and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage plan and Medicare prescription drug plan for all Medicare-eligible participants.
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period.
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums.

FEDERAL AWARDS SECTION

INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Galveston Independent School District
Galveston, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Galveston Independent School District (the “District”), as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise District’s basic financial statements, and have issued our report thereon dated January 19, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Board of Trustees
Galveston Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Whitley Penn LLP". The signature is written in a cursive, flowing style.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Trustees
Galveston Independent School District
Galveston, Texas

Report on Compliance for the Major Federal Program

We have audited Galveston Independent School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal program for the year ended August 31, 2021. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations and the terms and conditions of its federal awards to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal program for the year ended August 31, 2021.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The image shows a handwritten signature in black ink that reads "Whitley Penn LLP". The signature is written in a cursive, professional style.

* Assistance Listing Number (ALN) formerly known as Catalog of Federal Domestic Assistance (CFDA)

Note 1 - Summary of Significant Accounting Policies

The District accounts for all awards under federal programs in the General and Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

Expenditures reported on the Schedule of Expenditures of Federal Awards are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods. All federal grants are subject to review by the grantor agencies. Any expenditures identified by the grantor agencies as disallowed could require reimbursement to the grantor agency from the District's general fund.

Note 2 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2021. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Uniform Guidance. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 3 - Reconciliation to Basic Financial Statements

The following is a reconciliation of expenditures of federal awards program per the Schedule of Expenditures of Federal Awards ("SEFA") and expenditures reported on the Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds:

Total Expenditures of Federal Awards - Exhibit K-1	\$ 14,608,963
Medicaid SHARS	631,393
JROTC	84,751
Total Federal Revenue - Exhibit C-3	<u>\$ 15,325,107</u>

GALVESTON INDEPENDENT SCHOOL DISTRICT
NOTE TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended August 31, 2021

CARES Act ESSER I	235,479
CRRSA Act ESSER II	14,204
ARP Act ESSER III	48,630
Total Indirect Costs	<u>676,355</u>
Total Federal Revenue - Exhibit C-3	<u><u>\$ 1,503,858</u></u>

GALVESTON INDEPENDENT SCHOOL DISTRICT

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

For the Year Ended August 31, 2021

Federal regulations, Title 2 U.S. Code of Federal Regulations Section 200.511 states, "The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee must prepare a summary schedule of prior audit findings." The summary schedule of prior audit findings must report the status of the following:

- All audit findings included in the prior audit's schedule of findings and questioned costs; and
- All audit findings reported in the prior audit's summary schedule of prior audit findings except audit findings listed as corrected.

I. Prior Audit Findings

None Noted

GALVESTON INDEPENDENT SCHOOL DISTRICT

CORRECTIVE ACTION PLAN

For the Year Ended August 31, 2021

Federal regulations, Title 2 U.S. Code of Federal Regulations §200.511 states, "At the completion of the audit, the auditee must prepare, in a document separate from the auditor's findings described in §200.516 Audit findings, a corrective action plan to address each audit finding included in the current year auditor's reports."

I. Corrective Action Plan

Not Applicable

DO NOT PRINT IN REPORTS

Schedule L-1 – Required Responses to Selected School FIRST Indicators

SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF3	Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies? (If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issued, the school district is considered to not have made timely payments.) Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 days from the date the warrant hold was issued. Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.	Yes
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district's fiscal year end?	Yes
SF8	Did the school board members discuss the school district's property values at a board meeting within 120 days before the school district adopted its budget?	Yes
SF9	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end.	\$ -0-

NOTE: This schedule is to be included as part of the annual financial audit report (AFR) submission on the required due date and published as a part of the school district's AFR. This schedule should be submitted in the data feed file and submitted as an Adobe Acrobat portable document file (pdf).
