

Tackle Your Debt

America's student loan debt crisis is postponing the American Dream for 46 million borrowers. On top of it, the rules to reduce payments and forgive debt are so confusing that experts say the system is truly broken with a staggering \$1.7 trillion pile of debt added up.

That's why LSR7 is partnering with Savi, an online concierge tool that will walk LSR7 student loan borrowers through lowering monthly payments with an income-driven repayment plan and ultimately achieve student loan forgiveness. Savi aims to be an ally in the complicated and often harrowing process of repaying student loans.

What Users Are Saying

"I taught for 30 years. I'm financially not in great shape. I just kept pushing the loans off but you can't keep pushing them off, they're federal loans. It was all overwhelming at first, but Savi showed me it's not scary. I now know what my payments are going to be and lowered them to my realm of reality."

-Nancy, New Jersey

"I started my forgiveness application process with my student loan lender in 2008 and was just doing it myself just to get denied. I met Savi and we turned it in successfully and my loans were forgiven on the first try. It's been over a 10 year process trying to apply to this and Savi got it done in under 1 year."

-Lucas, Montana
