# What About Study Halls?

- Your course selection should be built based upon your personal interests, skills, time availability and time constraints.
- Study halls **DO NOT EARN CREDIT**, but do require a place in your schedule.
- You only need to request a study hall if the term of fall or spring is a priority.
- Only select a study hall preference if you want to prioritize a study hall over having your electives.

# ☆ How to Decide What Classes are Right for Me? ☆

1. Identify short-term and long-term goals. Take an inventory of personal skills, interests, learning pace and style, academic strengths and challenges, and extracurricular responsibilities.
2. Review the course offerings and anticipate sequential course selections for future grade levels based on current interests and goals.
3. Review the course description and anticipated homework time for each course. Ask yourself if the combination of courses you are requesting is manageable and realistic for you?
- ☆ 4. Consider whether or not you are going to leave time for a study hall in your schedule, and if so, how many days per cycle.
5. Remember to select alternative electives during the course selection process in case there is a conflict or cancellation of a previously selected elective course. ☆
