

WHERE ARE THEY NOW???

Mr. Scott Poss

Mr. Scott Poss graduated from Rabun County High School with the class of 1975. Upon graduation, he enrolled at the Georgia Institute of Real Estate in Atlanta in the Summer of 1975. He studied to become a real estate salesperson and obtained his real estate salesperson license in the Fall of 1975.

Scott's father had moved to Rabun County in June of 1969 to begin a real estate business, where Scott began his career after obtaining his real estate salesperson license. After working as a salesperson for three years, Scott decided it was time to take courses to obtain a real estate broker's license. Not long after completing his coursework and obtaining his broker's license, he decided he should pursue becoming an appraiser, thanks to a conversation with the gentleman who was the local appraiser for several counties. This gentleman was on the verge of retirement, and gave Scott the advice that someone needed to fill the void he would leave. Scott began taking appraisal courses through the Appraisal Institute. He obtained a license to conduct appraisals and this is where he would focus his career during the 1980's through the mid 1990's. In the mid 1990's the family business was growing and Scott decided he should return to the family business which he did and this is where he has been focused ever since. He has a wife and 3 children that he has raised here in Rabun County.

Scott's greatest achievement was having a support network of family, friends, and co-workers who have supported and uplifted him to enable him to be successful in his career.

He had a few words of wisdom for current students attending Rabun County Schools:

- "Be kind, be grateful, and think about the 'Big Picture'."
