2021 School Accountability Report Card

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2021-22 School Overview

School Description

Citrus serves 596 students in grades 6-8 and includes a teaching staff of 28 teachers. It is one of three middle schools in Kings Canyon Unified School District. When students leave Citrus, they will be able to think critically, apply knowledge from various sources using academic discourse, and problem solve orally or written on or above grade level. The goal at Citrus Middle School is to make sure students are College and Career ready.

School Mission Statement

Working alongside the vision of the district that all students will learn and succeed, the mission of Citrus Middle School, in partnership with the family and community, is to provide a rigorous and positive learning environment in which students achieve to their fullest potential, develop positive self concepts, and become lifelong learners and responsible citizens.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>

2019-20 Teacher Preparation and Placement

Authorization/Assignment	2019-20
Fully (Preliminary or Clear) Credentialed for Subject and Student Placement (properly assigned)	
Intern Credential Holders Properly Assigned	
Teachers Without Credentials and Misassignments (“ineffective” under ESSA)	
Credentialed Teachers Assigned Out-of-Field (“out-of-field” under ESSA)	
Unknown	
Total Teaching Positions	

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

No credential, permit or authorization to teach (a percentage of all the classes taught by teachers with no record of an authorization to teach)	

2021-22 Quality, Currency, Availability of Textbooks and Other Instructional Materials

A district textbook adoption committee is established for the process of textbook adoption. Each school site or grade level is represented on each textbook adoption committee. All students enrolled at Citrus Middle School have sufficient books that are standards aligned and board adopted in the subject areas indicated below. Each pupil, including English Learners, have access to district adopted texts, workbooks, or other supplemental instructional materials to use in class and take home.

School Facility Conditions and Planned Improvements

The district takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the KCUSD Business Office.

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment. Additional information about the condition of the school's facilities may be obtained by speaking with the school principal.

Citrus Middle School has 30 classrooms, a gymnasium/cafeteria, a library media center and an administration building. The main campus was built in 2003.

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

The Director of Maintenance, Custodial Supervisor, and the site principals work cooperatively with the custodial staff to develop cleaning schedules to ensure a clean and safe school. Citrus Middle School employs 3.50 custodians to ensure that the campus is safe, clean, and sanitary.

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar for dollar basis to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Asphalt resurfacing and pavilion are projected to begin in the 2021-2022 school year and there are plans for for a new marquee to be installed before the beginning of the 2022-2023 school year on the corner of South and Anchor Ave to improve communication to the community of what is happening at Citrus Middle School.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Subject	School 2019-20	School 2020-21	District 2019-20	District 2020-21	State 2019-20	State 2020-21

2020-21 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment. The CDE will populate this table for schools in cases where the school administered the CAASPP assessment. In cases where the school administered a local assessment instead of CAASPP, the CDE will populate this table with "NT" values, meaning this school did not test students using the CAASPP. See the local assessment(s) table for more information.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2020-21 California Physical Fitness Test Results

Due to the COVID-19 crisis, the Physical Fitness Test was suspended during the 2020-2021 school year and therefore no data are reported and each cell in this table is populated with "N/A."

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2021-22 Opportunities for Parental Involvement

Parent involvement and communication are essential to our school success. Citrus Middle School continually strives to involve parents by exchanging information that helps parents understand and support school programs and by providing opportunities for parent participation in school activities.

There are numerous and varied opportunities for parent involvement. Annual school programs include Back to School Night, Band and Choir concerts, and Open House. Parent education workshops are offered through the KCUSD Parent Academy, to help parents understand their role in helping their child be successful in school and to prepare for high school and beyond. In addition, our school social worker cover various topics to assist parents with student success at our parent meetings. This year we have added Mujeres Poderosas Amorasas that meets every two weeks. There, they go over mental health and it is a community support group.

Parents may also serve on advisory committees and leadership teams, including Parent Teacher Club (PTC), English Learners Advisory Council (ELAC), School Site Council (SSC), Migrant and Puente Meetings.

Home and school communication is enhanced through phone calls home, parent-teacher conferences, the student/parent handbook, the school website, and Parent Square. Translation is regularly provided for written and in-person communication. Material distribution and awards have also been given but have been modified due to COVID-19.

Parents who would like more information on how to become involved may contact Principal Stacy Carrillo at (559) 305-7370.

C. Engagement

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2018-19	School 2020-21	District 2018-19	District 2020-21	State 2018-19	State 2020-21

Expulsions	0.00	0.00	0.02	0.00	0.08	0.00

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

2021-22 School Safety Plan

Safety of students and staff is a primary concern of Citrus Middle School. We strive to maintain a safe, healthful, nurturing and orderly school campus that encourages a positive attitude and a growth mindset. Before, during, and after school, the campus is monitored by campus supervisors and assigned staff. All visitors must sign in at the front office and follow all health and safety guidelines. The comprehensive school safety plan is designed to assist in preparing for emergencies, managing emergency response efforts, and maintaining a safe school environment. The plan requires identification of security needs, development of prevention and intervention techniques, evaluation of physical facilities, and communication with staff and students. Components of the plan include: child abuse reporting procedures, procedures for teacher notification of dangerous pupils, disaster response procedures, procedures for entering and exiting school, sexual harassment policies, and suspension and expulsion policies. The safety plan is reviewed annually, and updated as needed. The plan was last reviewed/updated and discussed with staff in August 2021. An updated copy is available to the public at the school office. The school's crisis plan includes steps for ensuring the safety of students and staff during a disaster or emergency.

Professional Development

Professional development at Citrus Middle School is designed to meet the individual needs of teachers to support student success with college and career readiness. Professional development may take the form of trainings, coaching, peer observation, or constructive self-reflection and are consistent with our school vision and goals. Principal, teachers, instructional aides, and other support personnel may take part in these activities. Citrus Middle School emphasizes collaborative team building, assessment and data collection, and effective teaching strategies in its professional development program, with emphasis on all students can learn. We will continue to emphasize focus on our English Language Learners and student with special needs as well. Citrus has had the benefit of having instructional coaches on campus to assist teachers with lesson planning, modeling lessons, classroom management and data analysis as well.

2016-2017: Staff development began to focus on writing in ELA and on conceptual understanding in math, all teachers received training on academic discourse, working with students with disabilities and with English Learners. During our district professional development days, teachers have options to attend professional development that is suited for them including math, AVID strategies, student engagement, Google classroom etc. A group of teachers attends the AVID summer institute and Kagan Cooperative Learning.

2017-2018: ELA teachers are focusing on write from the beginning, math teachers are working on creating and analyzing common formative assessments and understanding the common core standards, and science teachers are working on developing units for the NGSS science standards. All teachers are receiving support on understanding the digital library, using the provided interim assessments and deconstructing standards. Citrus has a math coach work with each of the grade levels once per month and a science coach on site for one week. We continue to have an instructional coach to work with individual teachers three times per week.

2018-2019: For this school year the focus is on developing first tier instruction, strategically intervening on behalf of students and developing collaborative teams. The school is using strategies from Get Better Faster, Data Driven Instruction and the strategies from Teach Like a Champion. Furthermore, science teachers are also working on developing their understanding of NGSS, they are developing lessons and implementing the 5 E's. A district math coach is assigned to Citrus 5 days for the year to help teachers implement the shifts in math. Teachers continue to attend and implement AVID strategies, Kagan Cooperative learning, engagement strategies, and receive support using Google Classroom.

Staff, grade level, and vertical team meetings also provide regular opportunities for professional collaboration, as do district data analysis and interpretation committee meetings. Teachers may also attend conferences and workshops. Buy-back and early release Wednesdays provide time for quality professional development. Teachers focus on the implementation of common core and the use of the mathematical practices. Science teachers are focusing their attention to the New Generation Sciences standards and attend FCOE professional learning communities to stay up to date on the latest science standards.

2019-2020: Working with the staff, we developed IAP's (Instructional Action Plans/Goals) for the site, ELA, and Math for everyone to have a part in. The focus this year was on good first instruction. With the goals in place, teachers had a focus on: Speaking in complete sentences using academic discourse, Writing across all content areas/grade levels, Higher order thinking questions, Checking for understanding, and Student engagement. PLC time is devoted to professional development on the site focus. Science teachers are continuing to get NGSS training on NGSS standards and feedback is given on lesson delivery.

PLC professional development along with vertical alignment with our ELA and Math team will happen throughout the year with our ELA Instructional Coach and the Math Coach from the High School. Teachers are going to view other teachers to get strategies in support of managements, teaching strategies, and support in the classroom as well. Some teachers are getting some one-on-one support, lesson development, pacing, and others are working in a whole group PLC process.

Writing continues to be a focus through the district and we have a few teachers that are piloting ideas and are working with our coaches to bring back the concepts to our teachers. We continue to work through writing with our pacing and bring in samples through the PLC and rubrics. Those will be revised through Professional Development as well through the PLC process through the site.

2020-2021, We will continue the process of the IAP growth of the site focus and PLC team building with vertical alignment. Teachers will continue to look at good first instruction and build on what they working on from distance education and technology into the classroom to embed with our learning from last year.

2021-2022, We will continue the IAP process with our Instructional focus built using our Instructional Leadership team. Our IAP focus is academic discourse reflected in writing. Our staff developed our student outcome statement of: When students leave Citrus, they will be able to think critically, apply knowledge from various sources using academic discourse, and problem solve orally or written on or above grade level. We work through the PLC cycle and reflect on our high leverage teaching practices. Our Leadership team on some Wednesdays is able to present on those high leverage teaching practices as well as to their peers and teachers are able to bring in evidence and reflect on student learning. We will continue to use the PLC cycle throughout the year as a site.

2020-21 Local Accountability Report Card (LARC) Addendum

Local Accountability Report Card (LARC) Addendum

2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
