INTRODUCTORY SECTION

INTRODUCTION

Executive Summary

September, 2018

Board of Trustees
Clear Creek Independent School District
2425 East Main St.
League City, TX 77573

Dear Board Members:

We are proud to publish the Fiscal Year 2018–2019 Budget to the Board of Trustees and to the community. We welcome the opportunity to present and discuss operational plans and related financial impact with all interested parties. Interaction among interested groups consistently leads to operational and educational improvements, which become available to students of the Clear Creek Independent School District (CCISD).

The development, review, and consideration of the FY 2018-19 Governmental Fund Budgets (the General Fund, the Special Revenue Funds, the Capital Projects Funds, and the Debt Service Funds) were completed with a detailed and exhaustive review of every revenue and expenditure item within the context of the District's Mission Statement, Strategic Goals, Operational Goals, Performance Objectives, and Board Policy. Information on each of the fund budgets is provided in this budget document.

We have also included financial information on the District's Proprietary Funds for comparative purposes. The largest fund in this group is the Food Service Fund which is treated as an Enterprise Fund at Clear Creek ISD. The Food Service Fund, along with the General and Debt Service Funds, are the only budgets that must be legally adopted by the Board of Trustees.

The document is organized into the following sections:

- **Introductory Section** - Introduces the reader to the document as a whole. It highlights important information contained in the budget. Users rely on this section to get an overview - a snapshot of what they can expect to find in the rest of the document.
- **Organizational Section** - Provides the context and framework within which the budget is developed and managed. The context for the budget is substantially predicated on the type and level of service to be provided to the students of the community. The framework also includes the District's organizational structure as well as the controls that direct and regulate the development and administration of the budget.
- **Financial Section** - Presents the heart of the school budget document. This section includes a description of the District's financial structure. It includes financial schedules that present the adopted budgets for the District compared with the results of past budget plans. It also provides information on schools and programs including the Mission Statements carried out by the school or program, objective methods of results by school or program, and the resources, both personnel and dollars, allocated to the school or program to carry out the stated mission.

INTRODUCTION

- **Informational Section** – Provides information on the local economy and a brief narrative of the Texas funding system along with recent legislation and court cases that may significantly impact the direction of educational funding in Texas. It includes more detailed schedules and governmental funds.

The information included in the budget document is structured to meet the requirements of the Meritorious Budget Award (MBA) of the Association of School Business Officials International (ASBO).

To receive this award, a school entity must publish a budget document as a policy document, as an operations guide, as a financial plan, and as a communications medium. We believe the current budget conforms to the requirements of this program. We are submitting this document to ASBO to determine its eligibility for these awards.

This award represents the highest level of recognition in budgeting for school entities. This attainment represents a significant accomplishment by a school entity and its management. The award is made after comprehensive review by a panel of independent budget professionals. Using extensive criteria, the reviewers not only evaluate the effectiveness of the budget in meeting the program criteria, but also provide commentary and feedback to the submitting entity as a basis for

improving the presentation of the District's financial and operational plan.

While this award is a great accomplishment for the District, the most important concern in the presentation of the budget data is to improve the quality of information provided to the community concerning the District's financial plan for the educational programs and services for the 2018-2019 fiscal year.

Mission Statement and Strategic Goals

As part of the budget development process the Board of Trustees and Administration reviewed the District's Mission Statement, Vision, Core Values, and Strategic Goals. Based on this foundation, operational goals and performance objectives were developed and reviewed with the Board of Trustees. The budget is an instructionally driven process. It is a balance of policy choices. It also represents a responsive balance between the educational needs of students and the ability of the community and the state to provide the necessary financial support to serve them.

Mission Statement

The mission of the Clear Creek Independent School District, the leader in visionary education, is to ensure that each student discovers and develops his or her unique talents and interests while realizing personal success and positively impacting their world through a new system distinguished by integrity, meaningful relationships, personalized learning, achievement, and a continuing commitment to Courage, Collaboration, Innovation, and Self-Direction.

INTRODUCTION

Strategic Goals

The Strategic Goals that guided the preparation of this year's budget include:

1. We will inspire learning through an array of personalized opportunities and experiences.
2. We will provide support to meet the needs and aspirations of each student.
3. We will ensure safe and nurturing learning environments.
4. We will ensure each student understands and is prepared to assume his or her role as a productive citizen.
5. We will broaden and strengthen connections within our communities.
6. We will ensure mutual understanding and support through effective communication.
7. We will build capacity for organizational change.

District Achievements

Clear Creek Independent School District is a leader in the field of education in Texas. This is evident by the many academic, financial, operational and administrative awards that the District has earned over the last few years. A partial list of these achievements is provided below. The strategic goals associated with these achievements is included.

Member of Texas High Performance Schools Consortium

Clear Creek ISD is a member of a group of 22 school districts empowered by the Texas Legislature to improve student learning in the state through the development of innovative, next-generation learning standards and assessment and accountability systems including standards and systems relating to career and college readiness. (*Goal #2, #7*)

High Score on the Financial Integrity Rating System of Texas (FIRST)

Clear Creek ISD received a rating of **"Passed"**, scoring an Above Standard on the financial accountability worksheet. (*Goal #2*)

Named a top Houston Area school district

Niche ranked CCISD among the top five school districts in the Houston Metropolitan Area. This ranking is based on rigorous analysis of academic and student life data from the U.S. Department of Education along with test scores and college data. (*Goal #2, 7*)

Superintendent Smith named 2012 Superintendent of the Year by the Texas Association of School Boards

This most prestigious award recognizes one outstanding superintendent of the more than 1,000 throughout the state of Texas. (*Goal #7*)

CCISD selected as one of the Houston Chronicle Top Workplaces.

CCISD ranked 19th among large employers. (*Goal #2, #5*)

INTRODUCTION

Continuing Academic Success

Based on results from the Texas Education Agency, Clear Creek Independent School District students scored well above the state's standards for student achievement, student progress from year to year, closing the achievement gap and post-secondary readiness on the State of Texas Assessment of Academic Readiness (STARR) tests for the 2017-18 school year. CCISD has a nationally recognized visual and performing arts program as well as competitive athletic programs. Three CCISD high schools are ranked among the top high schools in the nation by U.S. News and World Reports. Finally, CCISD students perform above the state and national average on the SAT and ACT. *(Goal #1)*

Received the Meritorious Budget Award from the Association of School Business Officials, International

This award has been received for eleven consecutive years. *(Goal #2)*

Received Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association

This award has been received for twelve consecutive years. *(Goal #2)*

Received the Certificate of Excellence in Financial Reporting from the Association of School Business Officials International

This award has been received for twelve consecutive years. *(Goal #2)*

Maintained high underlying credit rating

The District's maintains a high underlying credit rating of "Aa2" as rated by Moody's and "AA+" by Fitch Ratings Service. *(Goal #2)*

Maintained a low administrative cost ratio

The District maintains a low administrative cost ratio in comparison to the Texas Education Agency's standard benchmark. For a large school district, 25,000 students or more, the Agency benchmark is an administrative cost ratio of 8.55%. CCISD's administrative cost ratio is 4.42%. *(Goal #2)*

The Budget Process

The Planning Cycle

The budget process covers the entire financial cycle starting with budget planning and ending with the audited financial statements. The seven steps are:

- | | | |
|----------------------|---------------------|------|
| • Budget Planning | November – December | 2017 |
| • Budget Preparation | January – August | 2018 |

INTRODUCTION

- | | | |
|----------------------------------|----------------|-----------|
| • Board of Trustee Budget Review | March – August | 2018 |
| • Budget Adoption | August | 2018 |
| • Tax Rate Adoption | September | 2018 |
| • Budget Amendments | Monthly | 2018-2019 |
| • Audited Financial Statements | January | 2019 |

Budget Planning

The District budget process is instructionally driven. District budget planning begins with the senior administrative staff and the Board of Trustees holding goal-setting sessions in December. The Budget Calendar is also reviewed with the Board of Trustees. In addition, campuses prepare the required annual Campus Improvement Plans which is integrated into the budget process.

Budget Preparation

Budget Preparation begins with a training session with principals and program managers. At that time, the Budget Manual and budget worksheets are distributed. The District utilizes the eFinance software to allow for on-line budget preparation instead of strictly paper submissions. Therefore, annual software training is provided.

The District uses site-based budgeting to enhance the ability of principals to serve as effective instructional leaders. Site-based budgeting places the principal at the center of the budget preparation process.

The Campus Budget Worksheet reflects the initial campus funding allocations. These allocations address equity issues between campuses. The initial campus funding allocation is based on projected enrollment. These funds are allocated to campus programs by the Principal and Campus Improvement Council per the Campus Improvement Plan. The allocation is adjusted in January based on actual enrollment and staff on hand at the end of the first six weeks.

After the completed campus and program budget packages have been returned, the Superintendent's Budget Committee reviews them in detail with the principal or program manager. The review focuses on instructional needs and includes discussions on the reallocation of existing funds as well as any additional funding requests from the campus.

Board of Trustee Budget Review

The Board of Trustees regularly receives budget updates that include revisions to the long range financial forecast, the long-range staffing plan, the preliminary budget, the compensation & salary plan, and the capital projects/capital improvement plan. Since Clear Creek ISD is a growing district, staff asks the Board to approve additional teaching units in April or May of each year to accommodate growth needs. If funds are available, the compensation & salary plan for teachers is adopted at the May Board of Trustees meeting. Adopting the plan early in the budget process provides Clear Creek ISD with a competitive advantage in recruiting new teachers and retaining existing staff. During a legislative session, in odd numbered years, teacher salary plans are not adopted until after the session is over in June. A compensation & salary plan for support staff is generally adopted in July.

Budget Adoption

Once the District receives preliminary property value information from the appraisal districts, the Board is asked to approve the budget. The required legal notice for the FY 2018–19 Budget was

published on August 16, 2018. The Board of Trustees held the public hearing and adopted the budget on August 27, 2018.

Tax Rate Adoption

Historically, the Galveston Central Appraisal District (CAD) certified all District property, even though a high percentage of district property is in Harris County. Recent legislation ended this process in 2008 and now appraisal districts cannot cross county lines to appraise property. As a result, the District did not receive its final certified values from the Harris County CAD until the first week of September. In years past, the property values were certified in July by the Galveston CAD. After receiving its certified property value rolls, the Clear Creek ISD Tax Office calculates the effective and rollback tax rate in early August. The required legal notice of the District's effective and rollback tax rates was published on August 16, 2018. The Board of Trustees held the public hearing on the proposed tax rate on August 27, 2018 and adopted the tax rate on September 24, 2018.

Budget Amendments

Initial campus budget allocations are based on projected enrollment and are modified after the October Public Education Information Management System (PEIMS) snapshot. Budget amendments, if necessary, are taken to the Board monthly for consideration and approval.

The Final Amended Budget for the Year Ending August 31, 2018, was submitted at the August 27, 2018, Board meeting. It reflects all amendments previously approved by the Board of Trustees plus any final amendments. The Final Amended Budget for the Year Ending August 31, 2018, will be used by the District's external auditors in compiling the annual financial statements.

Audited Financial Statements

The final step in the budget cycle is the approval of the audited financial statements. This document includes budget to actual comparisons and highlights the District's ability to manage its 2018-19 \$589 million governmental funds budget. The 2017-18 Audited Financial Statements are scheduled for review and approval by the Board on January 21, 2019.

Capital Projects Budget Process

Clear Creek Independent School District is meeting the challenge of a fast growth school district by proactively analyzing facility needs and placing bond issues for taxpayer approval.

The Clear Creek Independent School District Board of Trustees established a citizens committee in October of 2016 to recommend a list of prioritized capital projects that will meet the District's growth and replacement needs over the next 3-5 years. This limited purpose committee met with staff, architects, engineers, and demographers to evaluate the District's long-term course for the addition, renovation and replacement of instructional facilities, support facilities, major mechanical systems, technology, and transportation.

INTRODUCTION

This Committee ranked \$499 million worth of projects as the highest priorities in facility needs. On May 6, 2017, the CCISD community approved a \$487 million bond referendum to fund these facility needs. These funds will be used to build a new elementary school, rebuild schools, replace portables with permanent additions, renovate aging schools to bring them up to today's learning standards, purchase surveillance equipment for campuses and new buses.

During the FY 2005-06 budget process, the District developed a separate Capital Replacement Fund to provide monies for major maintenance and capital needs. This fund was capitalized with \$14 million in seed money from the FY 2004-05 budget. Over the past ten years the District has added an additional \$103.7 million to this fund. At the same time, the District has transferred its entire annual capital replacement appropriation budget to the fund.

By taking a proactive approach to capital replacement, future bond issues will include fewer major maintenance needs. The operating impact of the capital projects is integrated annually into the budget and is highlighted in the Informational Section of this document within the financial forecasts.

Balanced Budget & Fund Balance

Legal requirements for school district budgets are formulated by the state, the Texas Education Agency (TEA) and the local district. However, according to the TEA, case law is where the definition of a balanced budget is found for all Texas school districts. A balanced budget is framed by case law as a budget with total expenditures not greater than the sum of total revenues plus fund balance. *Crystal City Independent School District, Appellant v. Bank of Dallas, Appellee, Court of Appeals of Texas, Dallas, March 24, 1987.*

Fund Balance occurs when revenues exceed expenses in any given year. In fund accounting, this excess carries over to the next fiscal year and is available for any lawful purpose. By policy, Clear Creek's goal is to maintain an undesignated fund balance equal to a minimum of two months operating expenses. The District currently meets this goal.

Budget Challenges and Priorities

The most significant challenge presented in forming the Clear Creek ISD budget is the continual increase in student enrollment of 200-250 students per year. This increase requires additional financial resources to fund areas such as campus personnel, support staff, instructional facilities and supplies. Another challenge is maintaining competitive pay structures for instructional personnel to be able to recruit and retain the best staff possible. Finally, the growth calls for new and renovated facilities requiring voter approval.

The Clear Creek Independent School District (CCISD), situated just south of Houston, lies within one of the fastest growing regions in Texas. This year, the District is expected to grow by more than 155 students. This is slightly lower than previous years. Over the last five years enrollment has increased by an average of over 400 students per year. Recent projections place future enrollment gains at around 200-250 students each year for the next five plus years.

INTRODUCTION

While enrollment growth is expected to grow steadily, this growth continues to be a major budgetary concern. To manage growth, the district developed the Facility Advisory Committee as explained above. Their work provided the framework for the 2017 bond program.

The 2018-19 budget includes district wide staffing increases totaling \$2.1 million. This will cover the addition of thirty five full time equivalent instructional positions at the elementary and secondary levels. Employee salary increases make up another increase to expenditures in the amount of \$6 million. The budget provides a 2% baseline salary increase for all staff. The budget provides an average teacher salary increase of 2.47% across all positions and creates a starting teacher salary of \$53,600 per year. Minor adjustments were made to the District Stipend Plan.

Various new operational expenditures totaling \$1.1 million are included in the 2018-19 budget. This includes increases in various educational budgets. The district contribution towards employee health insurance premiums was increased by \$.4 million.

Finally, the 2017-18 budget was the fifth year of a five-year plan to add funding to the budget to achieve a sustainable technology replacement program. The cost of this technology capital plan is \$3 million this year. This will provide a recurring funding source for student device replacements.

Past hurricane disasters on the Gulf Coast of Texas and Louisiana combined to create tremendous increases in property and casualty insurance premiums. As a result, most coastal districts have experienced drastic increases in insurance premiums with a corresponding drop in total insured value. Clear Creek experienced a 300% increase in premiums. At the same time, total insured values dropped from \$500 million to \$50 million. Clear Creek ISD incurred \$19 million in damages when Hurricane Harvey made landfall in August of 2017. Fortunately, the District was able to lock into a two-year policy in May of 2017. The windstorm premiums will total \$2.9 million this year which represents a slight increase due to higher insured values.

In 2018 a CCISD School Safety Committee was created to make recommendations to improve school safety. The 2018-19 budget includes funding for those recommendations including the addition of fifteen Student Support Counselors at a cost of \$975,000 per year and fifteen Sheriff Liaison Officers at a cost of \$1.2 million per year.

The budget priorities listed below were priorities in 2017-18 as well.

FY 2018-19 Budget Goals, Assumptions, Priorities, and Risks

The approval of a district-wide strategic plan facilitated the development of Board budget goals for the FY 2018-19 budget. This year's budget season began when the Board met in March 2018 to discuss budget priorities for the coming year. These priorities were used to build the District's 2018-19 budget. Board approved goals, assumptions and priorities are as follows:

➤ ***Budget Goal***

The 2018-2019 budget will further CCISD's mission and strategic plan with financial integrity, maximizing benefits from available resources.

➤ ***Budget Assumptions***

CCISD's 2018-2019 Budget will:

- Balance, accessing reserve funds if necessary;
- Retain the 5% local homestead exemption;
- Address all federal and state mandates;
- Meet CCISD's capacity and growth needs;
- Manage the District's resources efficiently and effectively; and,
- Maintain an adequate fund balance as defined in board policy.

➤ ***Budget Priorities***

- Provide optimal and targeted levels of funding and staffing for improved student achievement including identified priorities within the Strategic Plan;
- Administer competitive salaries, stipends and benefits for all employees;
- Develop alternative revenue streams;
- Continue funding an evolving comprehensive plan for safe and secure schools;
- Maintain designated disaster recovery reserves and continue capital replacement reserves consistent with other budget priorities.

➤ ***Budget Risks***

- Spending required by unfunded state and federal mandates.
- Changes in student enrollment and student needs.
- Inflationary impact of fuel, property & casualty insurance and other commodities.
- Impact of TRS ActiveCare insurance legislation and health insurance affordability.
- Inadequate funding to meet the needs of Clear Creek Independent School District students.
- Potential risk of sustainability of current programs.

The District's approach to coping with student growth, a restricted funding environment, and increasing academic standards has been to ensure that the budget process is driven by the District's Strategic Plan and budget priorities.

INTRODUCTION

Legislative Changes to the School Funding System

In response to many years of litigation, the Texas Legislature (the Legislature) enacted House Bill 1 (HB 1), which made substantive changes in the way the Finance System is funded. The Legislature also passed legislation which, among other things, established a special fund in the Texas state treasury to be used to collect new tax revenues that are dedicated under certain conditions for appropriation by the Legislature to reduce M&O Tax rates, broadened the State business franchise tax, modified the procedures for assessing the State motor vehicle sales and use tax and increased the State tax on tobacco products. HB 1 and other described legislation are collectively referred to as the Reform Legislation. The Reform Legislation became effective with the 2006-2007 fiscal year of each district.

Accounting for School District Operations

School districts in Texas manage their multi-million dollar budgets through funds that have been designated to manage school operations. These funds are separated into distinct categories. The major category of funds is called Governmental Funds. These funds represent the core educational activities of the district.

Districts also collect costs in a series of proprietary funds that capture such diverse items as the National School Lunch Program, athletic concessions, and the district's self-funded employee insurance programs.

One unique feature of school funding is that the Board of Trustees is only obligated to approve budgets for three sets of funds. Budgets for the General Fund, Debt Service Funds, and Food Service Fund (an Enterprise Fund) must be included in the official district budget and approved by the Board. These budgets are approved on a fiscal year basis from September 1st through August 31st.

INTRODUCTION

Governmental Funds

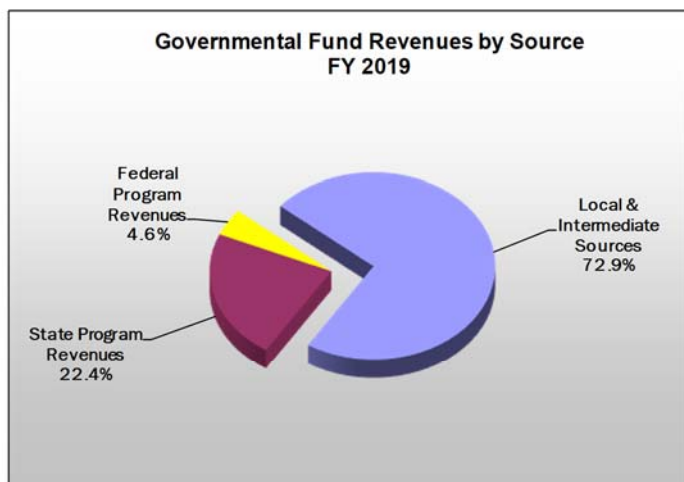

The following presents a comparison of revenues and expenditures for all Governmental Funds. Governmental Funds include the General, Special Revenue, Debt Service, and Capital Projects Funds. Most of the District's basic services are included in Governmental Funds.

The General Fund is the engine that drives all District activity. This fund pays teacher salaries, utilities, maintenance and other routine District activities. The Debt Service Fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. Special revenue funds account for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Finally, Capital Project Funds are used to build and maintain facilities and purchases buses.

The Governmental Fund Balance is anticipated to increase in 2018-19 by \$5 million due to bond funds received from Bonds 2017 in the Capital Projects funds that will be used for ongoing capital projects in future years.

Governmental Funds Revenues

The General Fund is the largest single governmental fund and comprises 77.0% of total revenue. Revenues in this fund class are mainly derived from the general taxing authority of the District. However, a large share of revenue is also derived from State funding under the reform legislation of 2006. The State's funding as a percentage of total Governmental Fund revenue is now 22.4%. This is up from a low several years ago of 15%. This is a direct result of the Reform Legislation passed in 2006 which lowered local property taxes and substituted a new business tax to raise the revenue needed to operate schools. Districts receive state aid based on a complex funding formula. The result of this formula is that the higher a District's property wealth (assessed property value) per student, the less state funding the district receives. Attendance is reported to the state through the PEIMS system and used to determine how many students are at the calculated per student amount. The District will see higher overall revenue due to an 3% increase in property wealth from property values across the district.

Governmental Funds Revenue

Description	FY 2015	FY 2016	FY 2017	Budget FY 2018	Budget FY 2019
Revenues:					
Local & Intermediate Sources	\$ 252,375,615	\$ 266,789,611	\$ 290,540,590	\$ 312,893,003	\$ 320,939,634
State Program Revenues	\$ 124,538,297	\$ 129,317,489	\$ 119,566,800	\$ 105,907,584	\$ 98,782,391
Federal Program Revenues	\$ 14,893,002	\$ 15,185,414	\$ 16,610,457	\$ 17,318,348	\$ 20,434,946
Total Revenues	\$ 391,806,914	\$ 411,292,514	\$ 426,717,847	\$ 436,118,935	\$ 440,156,971

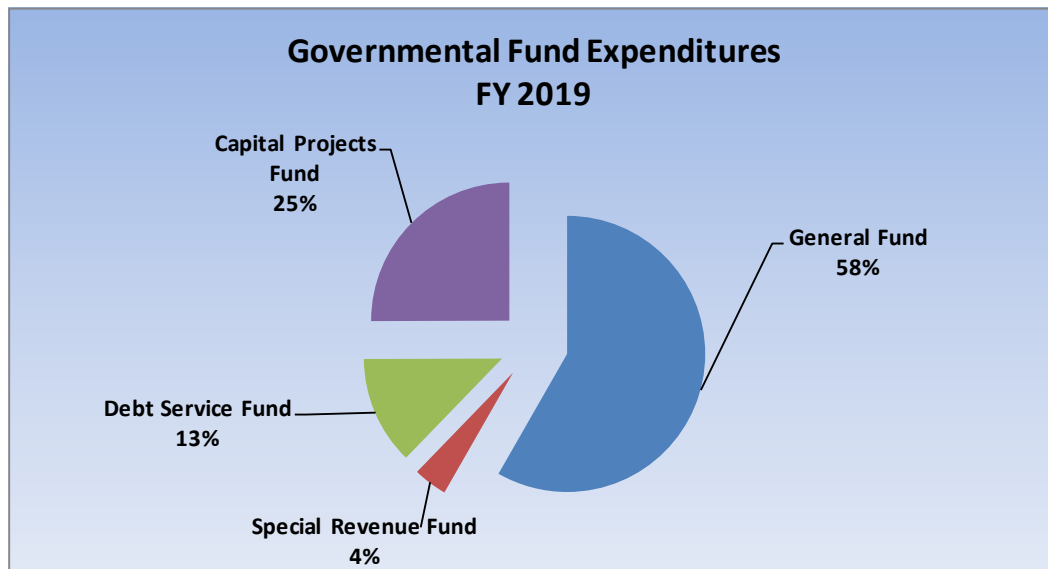

INTRODUCTION

Governmental Funds Expenditures

General Fund expenditures dominate Governmental Fund activities as well with almost 58% of the total. However, with the passage of the 2013 and 2017 Bond Programs, the Capital Projects Fund and Debt Service Fund will have a major impact on expenditures this budget year. The challenge of large enrollment gains and aging facilities can only be met with new and renovated facilities. These facilities are funded through taxpayer authorized bond issues that are managed through the Capital Project Funds. The District anticipates this growth to continue over the next ten years.

Governmental Fund expenditures will exceed Governmental Fund revenues by an estimated \$149 million. This will be offset by approximately \$157 million in Other Resources which includes proceeds from the sale of bonds approved by voters in 2017.

Total Governmental Funds Expenditures

Description	FY 2015	FY 2016	FY 2017	Budget FY 2018	Budget FY 2019
General Fund	\$ 298,154,242	\$ 309,653,116	\$ 317,375,460	\$ 332,052,994	\$ 343,576,577
Special Revenue Fund	23,021,366	21,110,149	23,312,727	20,019,935	23,344,971
Debt Service Fund	62,305,583	63,328,285	65,041,418	72,945,000	74,865,000
Capital Projects Fund	123,413,806	122,302,243	64,410,949	93,277,629	147,760,000
Total Expenditures	\$ 506,894,997	\$ 516,393,793	\$ 470,140,554	\$ 518,295,558	\$ 589,546,548

INTRODUCTION

Major Sources of Funds

District programs are primarily supported by local real and personal property taxes and state funding. Within the \$320.9 million in governmental funds local revenue, local taxes are budgeted at \$305.9 million which is divided between the General Fund at \$231.6 million and the Debt Service Funds at \$74.3 million. This is up from last year's total taxes of \$296.0 million. State program revenues are the next largest revenue source at \$98.8 million. This includes \$17.5 million from the Available School Fund, \$60.8 million from the Foundation School Program, and \$18.1 million for Teacher Retirement / TRS Care-On-Behalf Payments. The available school fund consists of the distributions from the total return on all investment assets of the permanent school fund, the taxes authorized by this constitution or general law to be part of the available school fund, and appropriations made to the available school fund by the legislature. The TRS On-Behalf revenues equal state payments of matching teacher retirement paid for active members of the school district in accordance with GASB Statement No. 24.

Major Uses of Funds

The Board places a high priority on funding direct classroom instruction. Clear Creek spends the largest percentage of its Governmental Fund budget on Instruction and Related Services. These dollars go directly into the classroom and pay for teacher salaries and classroom/campus supplies. Just over eighty six percent

(87.3%) of spending in the General Fund is for personnel, as a result a large part of this budget goes toward personnel and benefits associated with classroom teachers. The second largest expenditure class in Governmental Funds is capital outlay. Since it has been a fast growth district, Clear Creek has issued just over \$1 billion in bonds over the last ten years. Approximately thirteen percent (12.7%) of its governmental fund monies is budgeted in the Debt Service Funds.

INTRODUCTION

Analysis of Governmental Fund Budgets

General Fund

Revenue and Other Resources in this fund are estimated at \$346,587,000 while expenditures and other uses are budgeted at \$346,576,577. The 2018–2019 General Fund budget is balanced with an increase to fund balance of \$10,423.

This fund is established to account for resources financing the fundamental operations of the District. All revenues and expenditures that are not required to be accounted for in other funds are included here. Since this is a budgeted fund, any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities.

The education of students is labor intensive. This is reflected in the large portion of the District's budget for payroll costs. The composition of the District's workforce is determined by the staffing policies and guidelines of the Board of Trustees based on projected student enrollment and curriculum requirements. For the 2018–2019 fiscal year, payroll costs are budgeted at \$299,981,777 (87.3%) percent of the General Fund current operating expenditures.

INTRODUCTION

Fund Balance

Over the last ten years the Board of Trustees has placed a very high priority on building the District's General Fund, fund balance to an acceptable level. The Board set fund balance objectives in policy CE (Local) to reflect the need to keep undesignated fund balance at a minimum of two months of operating expenses. Due to this focus, the District ended FY 2016-17 with a total fund balance of \$62.2 million which includes an unassigned fund balance of \$58.3 million. This will ensure the District has adequate undesignated reserves to meet contingencies.

Special Revenue Funds

Special Revenue funds are received from a variety of sources and are used for an assortment of educational activities. The District anticipates accounting for over 25 special revenue funds in fiscal year 2018-19. Special revenue funds are classified as federal, state, or local, and are expended according to the requirements of the grantor or local policy. The largest group is federal entitlement programs that are applied for annually through the TEA. The federal program budget for 2018-19 is \$14,714,946. State funded special revenues for 2018-19 are projected to be \$1,105,391, while local special revenue funds are budgeted at \$7,524,634 and consist predominately of campus activity funds and the Galveston-Brazoria Cooperative for the Hearing Impaired. The Board of Trustees is not required to approve special revenue funds.

INTRODUCTION

Debt Service Funds

These funds are established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. They are budgeted at \$76,200,000. The graph highlights the growth in Debt Service Fund revenue over the last five years. The District has taken advantage of low interest rates to refinance debt and maintain a low, steady debt rate, currently thirty-four cents.

Bonded principal indebtedness is as follows:

Bonded Principal Indebtedness	
Balance at 8/31/18	\$ 942,950,000
2018-2019 Principal Payments	(32,890,000)
Balance at 8/31/19	\$ 910,060,000

As of August 31, 2018, the projected fund balance will be approximately \$17.8 million, or 23.75% of annual debt service payments. The District's goal is to maintain a fund balance of 10% of estimated annual payments which will result in no negative cash flow impact since bond payments are made in February and August of each year, far past the heavy tax collection times of December and January.

Capital Projects Funds

Over the past ten years, Clear Creek ISD has experienced a 16% student enrollment growth rate. New communities and neighborhoods have been built in previously sparsely populated areas of the District resulting in the need for new school facilities at the elementary and secondary level. In addition, the need to expand technology in the classroom and increase operating efficiency of facilities has required the District to perform renovations in every District facility and expand its technology capabilities. This has been accomplished through voter authorization of the following general obligation bonds accounted for in the Capital Projects Fund:

Authorized	Amount
May, 2007	\$ 183,100,000
May, 2013	\$ 367,000,000
May, 2017	\$ 487,000,000
Total	\$ 1,037,100,000

Over a ten-year period, from 2007-2008 through 2017-2018, enrollment increased by more than 5,800 students. Two new high schools, one new intermediate school, and four new elementary schools have been constructed using these funds. Major renovations have been performed at Clear Creek High School and Clear Lake High School, as well as existing Clear Creek secondary and elementary schools. These funds have also provided funding for new school buses, technology equipment upgrades and other new equipment and furnishings.

INTRODUCTION

Funding from the 2013 \$367 million bond referendum is being used to rebuild or improve 40+ year old schools, address student safety, security systems, repairs and enrollment growth; construct or expand co-curricular and extracurricular facilities for growth in programs; and improve technology for 21st century learning.

More than four years have passed since Clear Creek ISD voters approved a \$367 million bond program. Since that vote in May of 2013, there have been many accomplishments. The District is pleased to have completed all of the 2013 school bond projects as of August, 2018. The range of projects in the bond program extended from the complete rebuild of McWhirter Elementary School to the major rebuild of Clear Lake High School and the construction of the new Challenger Columbia Stadium. Almost every facility in CCISD was touched by this bond program. The program was significantly impacted by inflation in the Houston K-12 construction market. However, through aggressive project management CCISD was able to eliminate most of the cost of inflation on the projects. The work at Clear Lake High School Rebuild Project was the final project completed.

At the elementary level, the completely rebuilt McWhirter Elementary school was finished and opened its doors to students in February of 2016. The \$30 million project is a great example of a 21st century learning environment designed to easily facilitate student collaboration and personalized learning. Other completed projects include Armand Bayou Elementary, Bay Elementary, Brookwood Elementary, Clear Lake City Elementary, Ferguson Elementary, Hyde Elementary, League City Elementary, North Pointe Elementary, Ross Elementary, Ward Elementary, Wedgewood Elementary, Whitcomb Elementary, and White Elementary Schools Those projects ranged from replacing air conditioning and heating systems to new roofs and alarm systems as well as technology upgrades.

Highlights of the major renovation at Seabrook Intermediate School include a new addition housing seven general classrooms, three science rooms a food lab and an art room to accommodate enrollment growth. The Seabrook library and cafeteria were expanded and a new stage was installed. Student lockers were refurbished as a part of the renovation. The roof was also replaced and the parking lot was improved and reconfigured to improve student safety and traffic flow. Creekside Intermediate also had major work completed as a part of the bond package. Three general classrooms and a science room were added along with expansions to the band and choir rooms. Portable buildings were removed in addition to repairs to the AC/heating systems and improved classroom technology. Other repair and maintenance projects were completed at Clear Creek and Clear Lake Intermediate Schools.

A major rebuild at Clear Lake High School was the final project completed. Major construction included Clear Creek High School to replace a 1956 section of the facility with a new Career and Technical Education wings, fine arts area as well as new locker rooms and a third gym. The CTE wing is completed and occupied. Construction at Clear Brook High School is completed. A new secure entrance provides

INTRODUCTION

safety for the students and staff. Major repairs including the foundation and roof are finished. The Special Education wing, general classrooms as well as the cafeteria and library have all been expanded. The CCISD Challenger Columbia Stadium features a field house and community event room that has become a very popular event destination.

On May 6, 2017 the community overwhelmingly authorized \$487 million to build new or rebuild schools, replace portables with permanent additions, renovate aging schools to bring them up to today's learning standards, improve school and bus safety through the purchase of surveillance equipment and buses, and expand opportunities for students to explore science and the arts.

The District is moving expeditiously on building Elementary #27 to relieve significant overcrowding due to the volume of families calling Clear Creek ISD home. The rebuild of League City Elementary has begun as well as major renovations to Clear Lake City Elementary and Armand Bayou Elementary. Construction has started at Brookside Intermediate so that the 200 students turned away from the Seabrook Science Magnet will have a second Science Magnet to attend. Brookside Intermediate along with Space Center Intermediate and League City Intermediate will see significant improvements in their respective fine arts areas to match the exceptional talent of the students the schools serve. Classrooms will be added to Stewart Elementary and Clear Lake Intermediate. Dangerous playgrounds are being replaced with new places to play at many elementary schools.

Property taxes were expected to increase by 11.25 cents when the 2013 Bond was passed by 68 percent of CCISD voters. A strong and growing economy kept the increase to just four cents for property owners under the age of 65. With the passage of the 2017 bonds the District has been able to keep the debt service rate steady without any increases. Homeowners over 65 years have not seen a tax rate increase related to the 2013 or 2017 CCISD bond.

Proprietary Funds

Proprietary funds include those funds for which the District charges customers a fee. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Clear Creek's proprietary funds are further broken down into Enterprise Funds and Internal Service Funds.

Enterprise Funds

Enterprise Funds are used to report business-type activities. The District has three business-type activities within this fund class; the National Breakfast and Lunch Program, athletic concessions, and district advertising. The Child Nutrition Fund budget must be approved by the Board of Trustees. Over \$16 million in revenue is generated in these funds. Enterprise funds grow gradually as student enrollment increases. As more students are enrolled and the number of at-risk students increases, the Child Nutrition Fund budget will also increase. It is anticipated that revenues will exceed expenditures in these funds resulting in \$154,783 added to Fund Balance.

INTRODUCTION

Internal Service Funds

Internal Service Funds include activities in the District's employee self-funded insurance programs. This includes the Dental Insurance Fund, Worker's Compensation Fund and Disability Insurance Fund. Over \$3 million in revenue is generated from these funds. It is anticipated that revenues will exceed expenditures in the Disability Funds resulting in \$17,000 added to Fund Balance.

Total Proprietary Fund Revenues

Description	FY 2015	FY 2016	FY 2017	Budget FY 2018	Budget FY 2019
Enterprise Funds	\$ 13,840,784	\$ 14,463,126	\$ 14,751,157	\$ 15,768,854	\$ 16,027,283

INTRODUCTION

Analysis of Local Taxes

Assessed Values

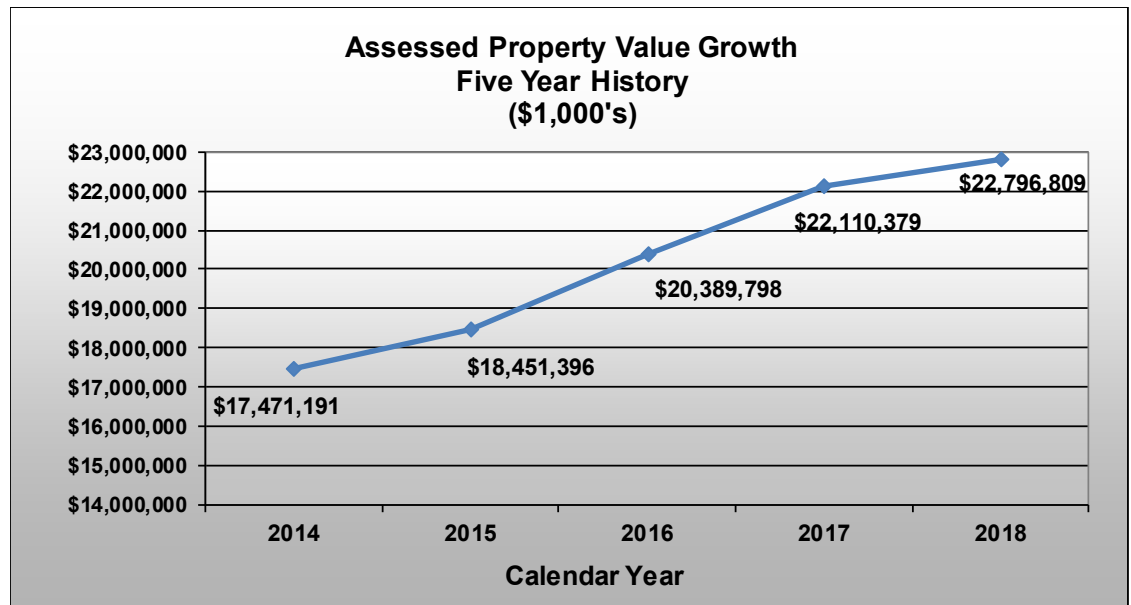

Recent legislation created a change in the appraisal process for school districts with property in more than one county. Since Clear Creek ISD has property in both Harris and Galveston counties the appraisal and budget process was impacted.

In prior years, districts with property in more than one county could choose one appraisal district to appraise all properties. Now these school districts are required to have split appraisals. Therefore, the Galveston County Central Appraisal District (GCAD) appraises property in Galveston County while the Harris County Central Appraisal District (HCAD) appraises property in Harris County for Clear Creek ISD.

While this legislation is logical, it has impacted the tax rate approval timeline and cash flow. The GCAD always certifies values on or before the state mandated deadline of July 25th. The HCAD, however, cannot meet this deadline and does not provide a certified tax roll until early September.

When the District used the GCAD to appraise all properties it was able to approve a tax rate in August and mail tax bills by early October. Due to delays from the HCAD, the District cannot approve a tax rate until late September. This means tax bills may not be mailed until late October or early November.

All properties are assessed at 100% of market value as of January 1, 2018. The Certified and Under Protest Appraisal Totals were used for the September 26 tax rate adoption. The District's fiscal year runs from September 1st to August 31st. Therefore, the projected

2018 Certified and Under Protest Appraisal Totals, which were \$22.7 billion were used for the August 31st budget adoption. This equates to an average growth rate in assessed values of more than 6.9% per year over the last four years. The values jumped by just over three percent this year.

The Texas Comptroller of Public Accounts annually certifies the final property values on or before July 1st of the following year. The Commissioner of Education uses the final values in the process of allocating state funds to school districts.

INTRODUCTION

Levy on the Average Residence

Clear Creek's tax base is heavily weighted towards residential property (69%). Just over sixty six percent (66.7%) of total general fund is derived from local property taxes. Homeowners fund most of the costs of operating the schools.

Clear Creek's levy on its average residence increased by \$51 in FY 2018-19. This is mainly due to the increased market value of residences. The chart below highlights this movement over the last five years.

The average taxable value of a home in the Clear Creek Independent School District increased from \$248,057 in 2017 to \$248,427 in 2018. As a result of the increase in taxable values, the levy due on the average residence rose from \$2,851 in 2017 to \$2,902 in 2018.

Distribution of Tax Base

Clear Creek is literally a district of roof-tops. The community is primarily residential in nature. Almost \$18.2 billion in value is residential in nature (69% of total market value). This is up slightly from five years ago when values were at \$13.4 billion in 2014. The next highest distribution is in commercial and industrial property at over \$7.0 billion (26.7% of total market value). This property value is also higher than 2014 and in line with the growth of residential property values. The District also has a large portion of its property in the form of acreage and platted lots/tracts which are available for development. This indicates that there is an abundance of land for future development. This raw land will eventually become land for new homes. As a result, the distribution of the tax base will continue to be heavily weighted in residential property.

Top Twenty Taxpayers

Clear Creek's top taxpayers are heavily weighted towards industrial and commercial operations. It should also be noted that even with a heavy weight of industrial and commercial taxpayers in the top twenty, the top taxpayer, Baybrook Mall LLP, accounts for less than one percent (.81%) of our total tax base. Our next largest taxpayer is Clear Lake Regional Medical Center which is a hospital. They

INTRODUCTION

account for 0.54% of the tax base. The twentieth largest taxpayer accounts for only 0.18% of the total tax base. This is evidence of Clear Creek's dependence on residential taxpayers. The Informational section includes a detailed list of the CCISD Top Twenty Taxpayers.

Property Tax Rates

The Board of Trustees adopted tax rates on September 24th after giving appropriate public notice. School district tax rates consist of a Maintenance & Operations tax rate and an Interest & Sinking tax rate.

Maintenance and Operations tax rate (M&O): A local school district tax rate that raises revenue to be used to operate and maintain the district's schools. This rate is at \$1.06 per \$100 valuation.

Interest and Sinking Tax (I&S): A tax levied and money used by school districts to pay for voter approved bonded indebtedness, usually construction of facilities or other capital needs. This rate is at \$0.34 per \$100 valuation.

The total tax rate has remained steady at \$1.40 per \$100 valuation over the last five years. The Interest and Sinking tax rate was reduced by two cents this year while the Maintenance and Operations rate was increased by two cents leaving the overall rate the same.

Property Tax Collections

Clear Creek has seen property tax collections steadily rise since FY 2014-15. The rise over the past five years again reflects the result of increased property values.

INTRODUCTION

Student Enrollment Projections

Enrollment projections were provided through a contract with Templeton Demographics. Templeton Demographics integrates school district enrollment information with individual neighborhood housing forecasts to create enrollment projections.

Templeton Demographics was retained in early 2011 to provide enrollment projections to the School Boundary Advisory Committee (SBAC). The purpose of the SBAC is to

examine potential attendance zones, review the related challenges associated with new and anticipated growth of the District, and recommend new attendance zones. This will allow the District to make efficient use of instructional facilities and determine future facility needs.

The District is steadily growing and has large areas of undeveloped land. In 2018 Templeton Demographics updated their projections based on updated housing forecasts. This report will be a key data source for the District in the future. Current projections show student enrollment for the FY 2018-19 school year to be 42,295. This number will grow to 44,026 over the next ten years.

District-Wide Staffing

The District has experienced tremendous enrollment growth over the last five years. To meet the challenges of a fast-growth school district, teaching and support staff has grown as well. In the last five years, the District has added approximately 180 new positions to meet growth. Instructional staff make up most of these new positions.

INTRODUCTION

As Clear Creek's enrollment continues to grow at a slower pace, it is anticipated that teaching and support staff will increase slightly in order to meet the needs of the District. This trend will continue to slow for the next ten years. As budgetary restraints continue, class sizes are closely evaluated. In addition, all non-teaching position vacancies will be evaluated to determine if the position's duties can be re-assigned and the position eliminated.

INTRODUCTION

Educational Performance Measures

Texas Accountability System

Texas provides annual academic accountability ratings to its public school districts. The ratings are based largely on performance on state standardized tests and graduation rates. The ratings examine student achievement, student progress, efforts to close the achievement gap and postsecondary readiness. In December 2017, the Texas Education Agency granted CCISD, one of only 20 school districts statewide, permission to create and implement a local accountability of its schools. This local evaluation system will supplement the State's new A-F rating of schools and school districts. Beginning with the 2017-18 school year school districts receive a letter grade for each category to reflect how well their students perform on the state standardized tests and whether they are ready for college and careers (student achievement); how much students are improving on state tests (school progress); and how well schools are boosting scores for subgroups such as students with special needs and English language learners (closing the gaps). They also receive an overall grade. In 2017-18 Clear Creek ISD received an overall grade of A, along with an A in Student Achievement and Closing the Gaps. CCISD received a B in School Progress.

Academic Performance and Per Pupil Spending

Clear Creek ISD is committed to providing efficient and effective services to its students. This does not mean that the District spends more than other districts. It means the District ensures that each dollar spent is focused on student achievement. When Clear Creek's per pupil spending is benchmarked to CCISDs' Texas peers, the District does not rank at the top in per pupil spending. Yet CCISD can still lay claim to being one of the highest performing large (enrollment in excess of 20,000) school districts in the State of Texas.

There has been a nation-wide push to force districts to spend an arbitrary amount of its funds on direct classroom instruction. The percentage that is most often used as a benchmark is 65% of the total budget. Over the last several legislative sessions, Texas legislators made a push to implement the 65% rule. Their goal has been to require districts to spend at least 65% of their total budget on direct classroom instruction. While the goal of increased classroom spending is one that all districts strive for, it is equally true that there is no direct research that links higher levels of spending with student success.

The chart on the next page highlights this fact. The General Fund per pupil spending in each major expense category is benchmarked against peer districts across the State of Texas. CCISD is compared to the top thirty school districts across the state. As can be noted, the District ranks 28th in overall per pupil spending in the peer group. In addition, CCISD is 22nd in Instruction and Related spending – often used as the benchmark for direct classroom spending, and 28th in Instructional and School Leadership which is campus and district based instructional support. It should also be noted that many districts spend much more than Clear Creek ISD on a per pupil basis.

These results support the idea that more is not better when it comes to per pupil spending. Student performance is a balance between direct classroom spending and having the very best teacher in each classroom and administrator on each campus.

INTRODUCTION

Financial Performance Measures

Financial Integrity Rating System of Texas

During the 77th regular session of the Texas legislature (2001), Senate Bill 218 was passed and Governor Perry signed it into law shortly thereafter. This law requires each school district to prepare an annual financial accountability report within two months of the date of issuance of the final School FIRST ratings. The School First accountability rating ensures that Texas school districts are accountable not only for student learning, but also for achieving these results cost effectively and efficiently. The information provided by the School FIRST system will guide us in the District's continued efforts to maximize each taxpayer dollar.

Many business-related issues are covered in this report. The primary reporting tool, however, is the Financial Accountability Ratings Worksheet. This worksheet was developed by representatives of the Texas Education Agency (TEA), the Texas Business & Education Council (TBEC) and the Texas Association of School Business Officials (TASBO). It is administered by the TEA and calculated on information submitted to the Agency via the PEIMS submission each year. The worksheet consists of 15 indicators, each weighted equally with the exception of the Critical Indicators.

The District received official notification of the 2017 Final School FIRST rating on November 15, 2018 for the 2016-2017 fiscal year. Clear Creek received a rating of "Above-Standard Achievement".

Bond Ratings

In order to ensure the lowest interest rates on bonds issued by the District, it is important to maintain a high credit rating. Fitch Ratings and Moody's Investor Service have assigned a municipal bond rating of "AAA" and "Aaa", respectively, based upon the Permanent School Fund Guarantee. The District's underlying credit rating is "AA+" by Fitch and "Aa2" by Moody's. As a result, the District has been able to issue bonds at very favorable interest rates from 2010 through 2017.

Long Range Compensation Plans

In October of 2012, the Clear Creek Independent School District Board of Trustees set out a specific goal for the superintendent to develop and implement a long-range compensation plan. The goal of this plan is to bring salaries in line with the School Board's compensation philosophy. That compensation philosophy is to ensure that Clear Creek Independent School District pays its teachers, administrators and staff at the average market salary for each position. The budget allocates approximately \$6.1 million to provide salary increases for teachers and staff. Starting teacher salaries will be \$53,600 for the coming year. The 2017-2018 budget funds an average 2.47% raise for teachers, nurses and librarians. It also provided for a 2% baseline increase for all other employees. Additional funding has been allocated to update the District's stipend plan. This will ensure that the District is able to keep stipends at competitive levels.

INTRODUCTION

Budget Highlights

The following is presented as a brief overview of significant items and issues contained in the FY 2018-19 budgets. This budget is set to meet the District's instructional goals as well as the operational needs by continuing operational efficiencies that enable us to focus dollars in the classroom.

As discussed earlier in this document, the Administration performed a detailed review of all revenues and expenditures which was focused on aligning the allocation of resources with the accomplishment of District goals and objectives. The Strategic Plan reference to the District's Strategic and Performance Goals and Performance Objectives is included for all cost variances where appropriate.

Major Impacts FY 2019 General Fund Budget

Description	Strategic Plan Alignment-Goal #	Approved Budget 2018 - 2019
Beginning Revenue and Other Resources (2017-18)		\$ 335,054,000
Revenue Changes		
Increase in Current Taxes		11,430,000
Available School Fund		9,860,000
Foundation School Program-Projected New Money		(17,100,000)
Operating Transfers		5,255,000
Interest Earnings		675,000
TRS On-Behalf		825,000
Other Revenue Increases		588,000
Total Revenue Adjustments		\$ 11,533,000
Ending Revenue and Other Resources (2018-19)		\$ 346,587,000
Beginning Expenditures and Other Uses (2017-18)		\$ 335,052,994
Expenditure Changes		
Contingency Teaching Units-Growth (20 FTE's)	1, 2, 4	1,210,000
Staffing Additions for Enrollment Growth	1, 2, 4	780,000
Additional Student Support Counselors (15 FTE's)	2, 3	975,000
Departmental Budget Increases	7	1,050,683
TRS On-Behalf	2, 7	825,000
Staffing - Campbell Elementary (2.5 FTE's)	1, 2, 4	155,000
Annual Salary Adjustments	2, 7	5,980,300
District Health Insurance Contribution	2, 7	372,000
Stipend and Substitute Increase	1	110,000
Additional SLO Officers (15)	3	1,200,000
Payroll Budget Realignment	1	(1,134,400)
Total Change in Expenditures		\$ 11,523,583
Ending Expenditures and Other Uses (2018-19)		\$ 346,576,577
Total Budget Surplus		\$ 10,423

INTRODUCTION

Clear Creek Independent School District 2018 – 2019 Board of Trustees

The members of the Board of Trustees are committed to serving the children and citizens of this school district. Their goal is to provide a high quality public education that meets the needs of our community. To achieve that goal, an operating protocol has been established that will help govern actions at meetings and in their role as trustees. The protocol will help enhance the effectiveness and efficiency of Board meetings while maintaining mutual respect and opportunities for communication. The success of Clear Creek ISD depends on a shared vision among the School Board, staff, parents and community, and they will try to the best of their ability to uphold these aspirations.

INTRODUCTION

Board Responsibility

- Board members serve as advocates for the children and families they represent.
- The Board focus is on the best interests of Clear Creek ISD students.
- Board members are advocates for quality public education. CCISD board members may not act privately on behalf of the Board.
- Board members will make every attempt to attend all Board functions.

Cooperation

- Board members will work cooperatively with other board members, the superintendent and staff. Board members will be respectful of each other and the right to differing opinions.
- Board members will accept responsibility for all Board decisions, regardless of how an individual voted. Board member confidentiality is expected regarding issues discussed in executive session.
- Board members will come prepared for each meeting.

Community Involvement

- Board members will be courteous to all participants and request the same courtesy in return.
- Board members will respect the civil and human rights of all members of the school community.
- Board members will maintain objectivity.
- Board members will base decisions on the available facts and independent judgment, not special interest groups.
- Board members will make decisions in the best interests of the students' education, even when the decision may be unpopular for political or other reasons.
- Board members will remain open to new concepts, views and ideas.

Board Meetings

All Clear Creek Independent School District board meetings and workshops are open to the public. Regular meetings will be held at 6:00 p.m. on the fourth Monday of each month in the board room located at the CCISD Education Support Center, 2425 East Main St., League City, Texas. Trustees hold monthly board workshops at 4:30 p.m. on the second Monday of each month in the large staff development room located at the CCISD Education Support Center. Other special meetings and work sessions are scheduled as needed.

If You Wish to Address the Board

The public may address the board during the community input participation portion of the board meeting. Remarks may be related to any topic, whether agenda items or non-agenda items, and are limited to three minutes. Requests to address the Board must be submitted in writing to the Superintendent by noon of the Thursday before a regular Board Meeting.

www.ccisd.net

INTRODUCTION

Page Rander, Board President

District 4

Having spent most of her professional career as a civil servant, Ms. Rander brings a wealth of knowledge in local government to her Board position. Currently, she works as a human resource supervisor for a Harris County department. In the community, she has volunteered for youth groups such as Hugh O'Brian Youth Leadership, school organizations and little league sports. Ms. Rander earned her Bachelor of Science degree in communications from Syracuse University and a master's degree from the Columbia University Graduate School of Journalism. She has lived in Friendswood for over ten years and has a son attending Clear Brook.

Dr. Laura DuPont, Vice President

District 1

Laura DuPont was elected to the District 1 seat on the CCISD school board in May 2013. For more than a decade she has been a veteran campus and District volunteer. She has also served in numerous leadership roles for PTAs and booster clubs. Dr. DuPont is a mother of three boys who attend Hyde Elementary, League City Intermediate, and Clear Falls High School. Dr. DuPont holds a B.S., M.S., and Ph.D. in Industrial Engineering. She was a private consultant in Quality Engineering and Improvement and served as an Examiner for the Malcolm Baldrige National Quality Award for 6 years.

Jay Cunningham, Secretary

District 5

Jay Cunningham, has lived in the League City area for over 11 years, and brings a wealth of knowledge about the district having served on the 2013 Bond, Strategic Planning, and INSIDE committees. Mr. Cunningham has also served as PTA President at Walter Hall Elementary. A district manager for a national air conditioning manufacturer specializing in indoor air quality and ventilation products, Mr. Cunningham earned a Bachelor's of Economics from the College of William and Mary along with an Executive MBA from Texas Southern University in Finance. Mr. Cunningham has two children currently attending CCISD schools.

Jennifer Broddle

At-Large Position A

A graduate of Clear Lake High School and a longtime volunteer in Clear Creek ISD, Jennifer Broddle joined the CCISD Board of Trustees in May 2018. Mrs. Broddle has served on multiple school district committees including the CCISD Facility Advisory Committee, CCISD Citizens Financial Advisory Committee, and the CCISD Strategic Planning Committee. She is deeply involved in the PTA and in several community organizations. Mrs. Broddle is married and her two children attend CCISD schools.

INTRODUCTION

Ann Hammond
At-Large Position B

Ann Hammond, a 30-year resident of the Clear Lake area, has dedicated years of service to not only the school district but the community at-large. Ms. Hammond, a graduate of University of Houston-Clear Lake, has served on several CCISD committees including the Boundary committee, Bond committee, District Education Improvement (DEIC) committee, the Campus Instructional Improvement committee, and Super Sci-Tech Saturday conference committee. In addition to volunteering as a board member of the Clear Creek Community Council of PTA's, Ms. Hammond is also very active in the Bay Area Alliance for Youth and Families and the Bay Area Turning Point. She retired from NASA in 2004 but continues to assist the agency as a consultant. Ms. Hammond has two children.

Chris Reed
District 2

A former U.S. Army military police officer and paratrooper, Chris Reed currently owns Chris Reed Consulting where he provides local government, business and executive security consulting services. He is also the interim chief of police for the City of Kemah. He brings with him leadership experience gained as City Manager of Nassau Bay and League City Assistant Chief of Police as well as through his service in supporting the missions of many non-profit organizations around the region including the Clear Creek Education Foundation and Communities in Schools and Hope Village, to name a few. Reed also founded the Houston Area Wrestling Foundation which provides athletic opportunities to economically disadvantaged youth in the area. Reed is a graduate of Sam Houston State University with a Master of Science in criminal justice administration. He also earned a Bachelor of Business Administration from LeTourneau University and is a graduate of the FBI National Academy Command College. Chris Reed has been married 26 years to his wife and a father of three children.

teacher in CCISD, Jana, and is the

Arturo Sanchez
District 3

Arturo Sanchez works at NASA Johnson Space Center in the External Relations Office. As the director of Education and Workforce Development at Texas Instruments (TI) in Dallas from 2006-2012, he led TI's corporate K-12 science, technology, engineering and mathematics (STEM) education programs and investments, as well as managed regional strategic university relationships. Sanchez started his career at NASA in 2000, as a graduate cooperative education intern and held positions in education, equal opportunity programs, community and government relations, communications and outreach. He received a Bachelor of Business Administration from Texas A&M International University in Laredo and a Master of Public Service and Administration from the George Bush School of Government and Public Service, at Texas A&M University in College Station. Arturo and his wife Jayme are proud parents of a kindergartner and third grader in CCISD.

INTRODUCTION

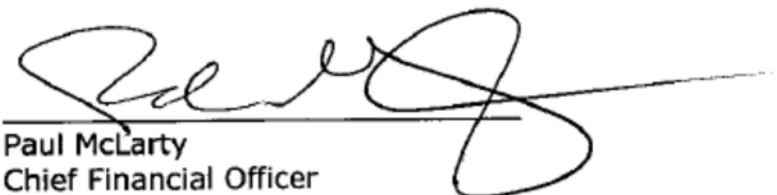

Acknowledgements

We appreciate the leadership and fiscal support provided by the Clear Creek Independent School District Board of Trustees and the Clear Creek community for development, implementation and maintenance of an excellent educational program for the children of the District.

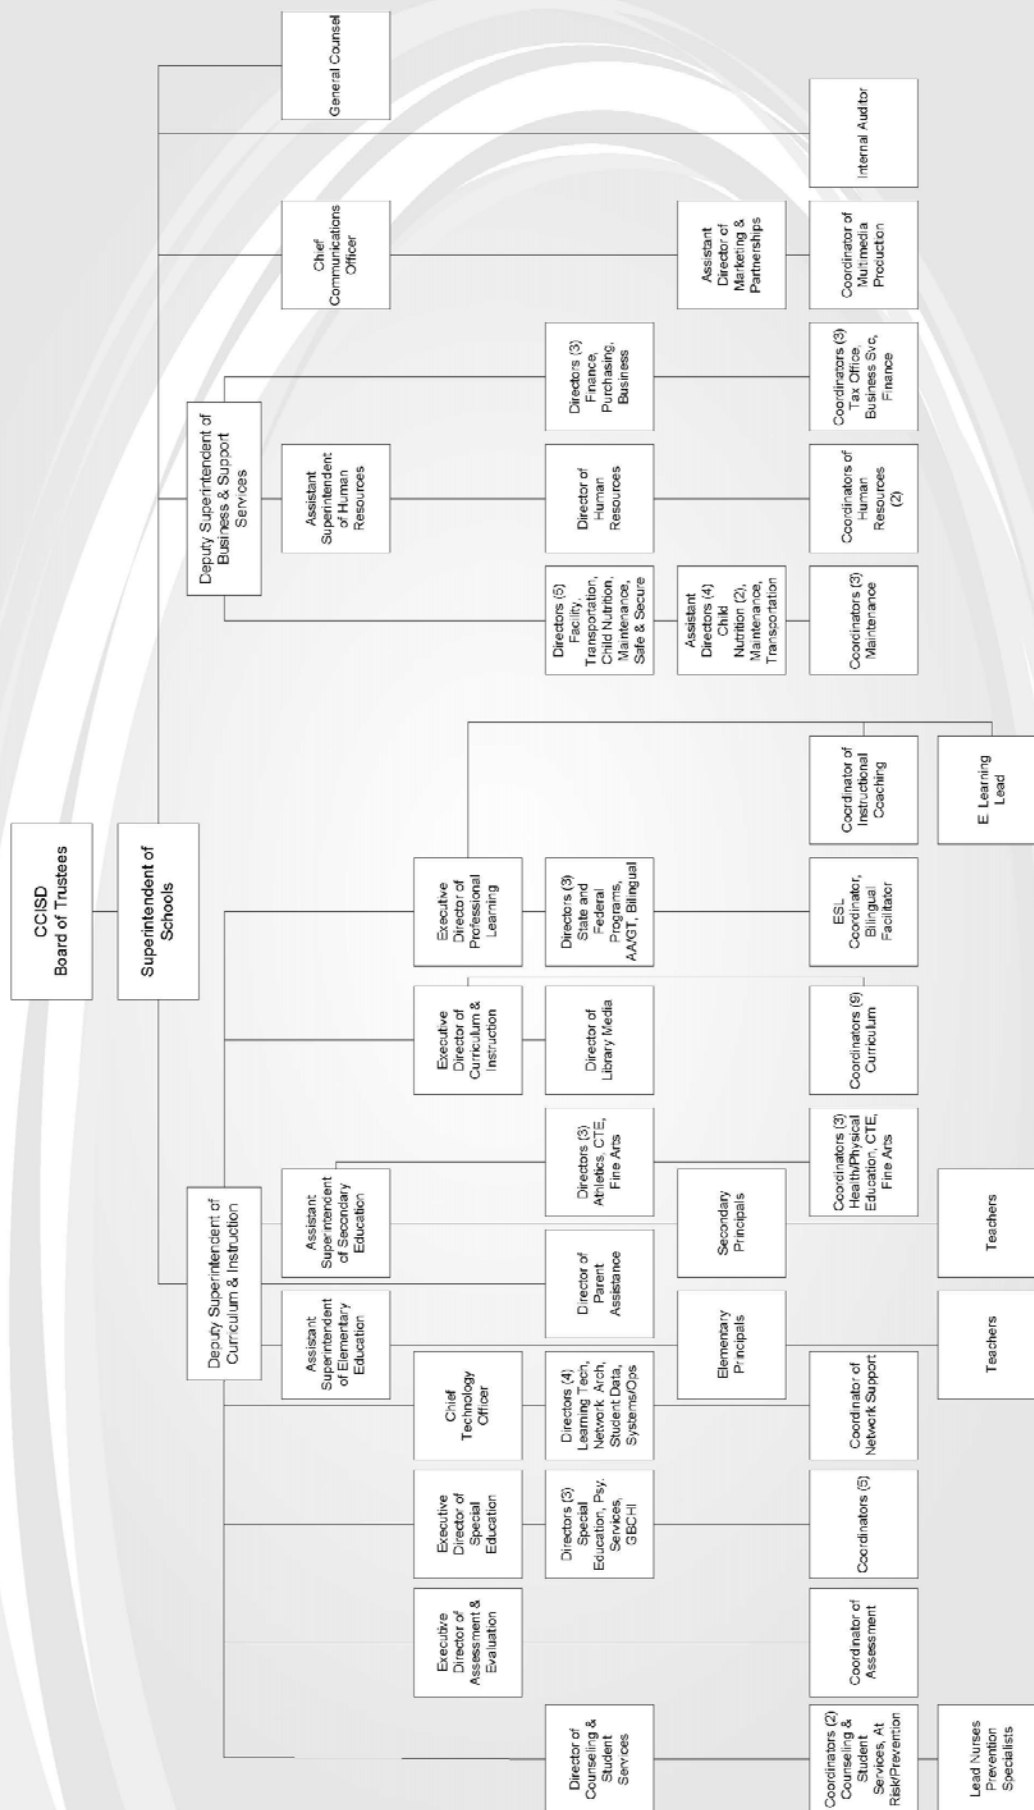

We have presented the challenges, opportunities, and high expectations of the Clear Creek Independent School District. The Clear Creek Independent School District Board of Trustees, administration, and staff are committed to making the Clear Creek Independent School District one of the top districts in the state. With a focus on high expectations, a common curriculum meeting the needs of all students, quality teachers, parental involvement, and the full utilization of facilities, the Clear Creek Independent School District will meet this goal.

ORGANIZATIONAL SECTION

ORGANIZATION

The District

Clear Creek is an Independent School District and is established under laws set out in Section 11 of the Texas Education Code. Independent school districts have the primary responsibility for implementing the state's system of public education and ensuring student performance in accordance with the Texas Education Code. Independent school districts are governed by a board of trustees who, as a body corporate, shall oversee the management of the district. Clear Creek ISD is fully accredited by the Texas Education Agency (TEA) as required in Section 11.001 of the Texas Education Code.

Celebrating seventy years of excellence, Clear Creek Independent School District, is situated just south of Houston. The District's story begins in 1948 when schools in League City, Seabrook, Webster and Kemah consolidated to form the Clear Creek Independent School District. At the time the schools were unified, there were fewer than 1,000 students in four schools.

Clear Creek ISD embraces the communities of League City, Seabrook, Webster, Kemah, El Lago, Nassau Bay, Clear Lake Shores and Taylor Lake Village, along with portions of Bacliff, Friendswood, Houston and Pasadena. Clear Creek ISD encompasses parts of Galveston and Harris counties. The District serves just over 42,000 students in grades pre-kindergarten through twelve. The district operates twenty-six elementary schools, ten intermediate schools, seven high schools, and one alternative campus.

Clear Creek ISD is meeting the challenge of a fast growth school district by proactively analyzing facility needs and placing bond issues for taxpayer approval. Taxpayers approved a \$487 million bond program in May of 2017. This bond program will provide funding for new and rebuilt schools, to replace portables with permanent additions, to renovate aging schools to bring them up to today's learning standards, and to improve school and bus safety through the purchase of surveillance equipment and buses.

Clear Creek ISD is home to the NASA/Johnson Space Center; the numerous engineering and technical organizations which support the space industry; the fishing and recreation areas of Galveston Bay; chemical and energy resource industries; and the University of Houston-Clear Lake.

The heart of a school district is its people – and the Clear Creek Independent School District takes great pride in its highly qualified Board of Trustees, administration, faculty and staff, all of whom are dedicated to providing the best possible education environment for all students. Parent and community interest and support strengthen the school program.

Clear Creek ISD is now the 29th largest of the 1,031 school districts in Texas. The district employs over 5,000 persons, over 2,800 of which are teachers. Student test scores are routinely well above the state average. Approximately 85 percent of graduating seniors plan to attend college or technical schools. 24 percent of the faculty members have a master's or doctorate degree.

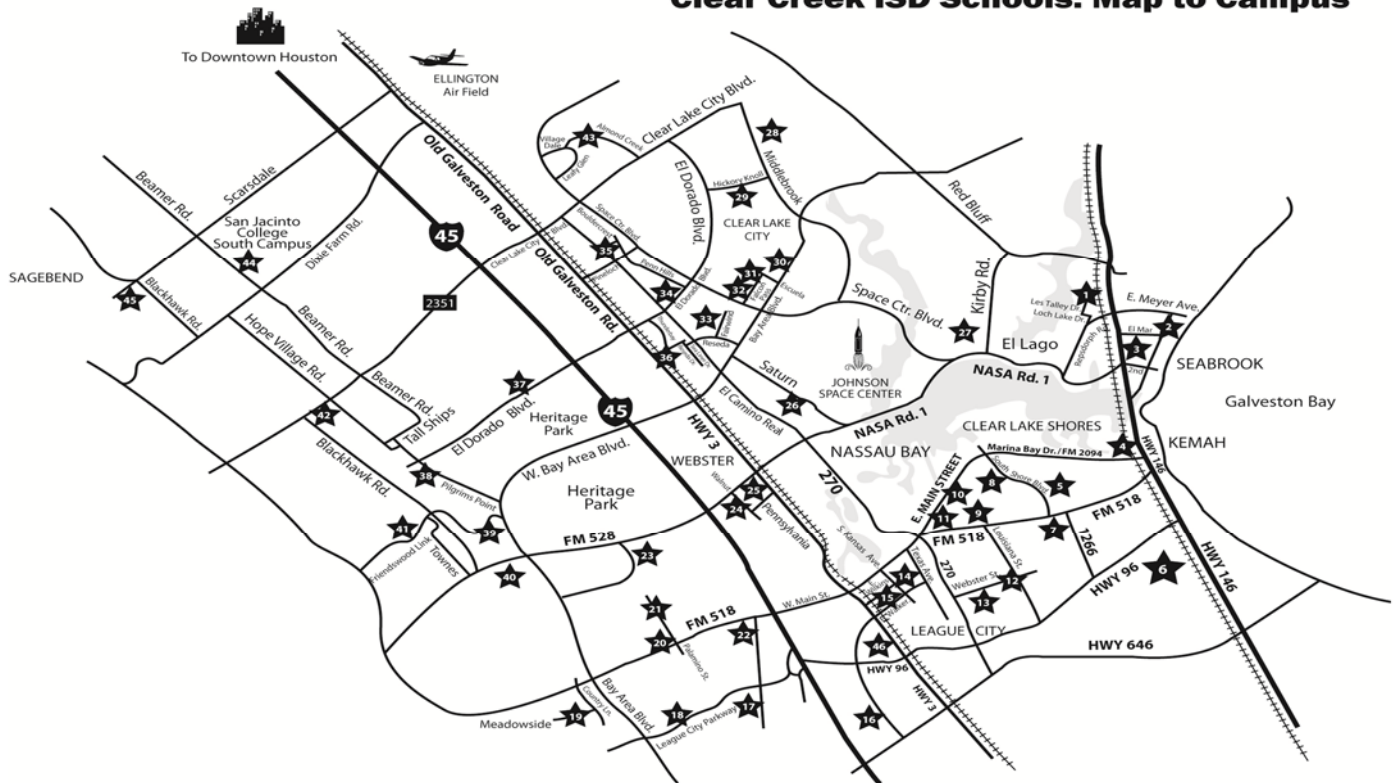

ORGANIZATION

The Clear Creek Independent School District received an "A" on the newest version of the Texas accountability system and all of its 44 schools reached or exceeded the highest designation of "Met Standard." As part of the Texas Education Agency's A-F Rating Report, it also gave each campus a numeric grade along with whether the campus "Met Standard," which is the highest rating issued to a campus. All CCISD schools met or exceeded the state requirements in all three domains of student achievement, school performance growth, and closing the gaps between student groups.

ORGANIZATION

Mission Statement

The mission of the Clear Creek Independent School District, the leader in visionary education, is to ensure that each student discovers and develops his or her unique talents and interests while realizing personal success and positively impacting their world through a new system distinguished by integrity, meaningful relationships, personalized learning, achievement, and a continuing commitment to **Courage, Collaboration, Innovation, and Self-Direction**.

District Motto

Courage, Collaboration, Innovation, Self-Direction

Portrait of a Clear Creek ISD Graduate

The Clear Creek ISD portrait of a 21st century graduate reflects the beliefs, goals, and mission of the district. Embedded within the strategic plan, the portrait is reflected by the successful integration of instruction, character development, and technology designed to equip students to demonstrate mastery of the following:

Courage – as demonstrated through:

- a personal code of ethics that is the foundation of a strong character
- the confidence to lead, venture, persevere, and address challenges
- a spirit of confidence and dignity

Collaboration – as demonstrated through:

- ethical leadership
- effective communication and creative problem-solving skills necessary to succeed in increasingly complex social and work environments
- active participation in and responsible contributions to team efforts
- supportive and cooperative interpersonal relationships
- a respectful understanding of diversity

Innovation – as demonstrated through:

- ethical decision-making and conduct
- efficient and effective use of technology to research, organize, evaluate and communicate information
- a heightened sensibility of the connections between the academic world and global issues
- a conscientious recognition of civic rights and environmental obligations
- the enthusiastic application of creativity, originality, and self-expression

Self-Direction – as demonstrated through:

- a strong work ethic
- accountability for personal and professional achievement
- a commitment to the process of learning and establishing a vision for the future
- the continuous improvement and maintenance of mental and physical health
- the development of initiative, flexibility, and adaptability in accepting responsibility for actions
- the ability to initiate change or adapt to changes in personal and professional settings

ORGANIZATION

Strategic Planning

Origins of the Planning Model

Over the 2013-2014 school year a diverse group of employees, parents and community members worked to create a new CCISD Strategic Plan. This plan documents the high levels of achievement CCISD aspires to for each student. The initial plan was developed by the first planning team, a group of twenty-eight individuals representing teachers, parents, Trustees and administrators. Once the draft strategic plan was developed, over 130 action team members proceeded to develop supporting action plans for each of the seven district strategies. This strategic plan will serve as the foundation for all planning efforts within the district over the next five years. The strategic plan approved by the Board of Trustees on May 19, 2014 is provided below.

Statement of Beliefs

We believe that:

- People flourish only in a culture based on integrity.
- Today's experiences are as valuable as tomorrow's opportunities.
- One's heartfelt passion creates limitless possibilities.
- Trust is built on what we do, not just what we say.
- Shared responsibility is essential to community success.
- Each person bears the responsibility to create his or her future.
- Each person possesses unique talents and creative ability.
- Everyone deserves to be physically and emotionally safe.
- Relationships are critical to meaningful teaching and learning.
- Respect for diversity strengthens community.
- The measure of any community is the success of its children.
- Each person deserves compassion and respect.

Mission Statement

The mission of the Clear Creek Independent School District, the leader in visionary education, is to ensure that each student discovers and develops his or her unique talents and interests while realizing personal success and positively impacting their world through a new system distinguished by integrity, meaningful relationships, personalized learning, achievement, and a continuing commitment to **Courage, Collaboration, Innovation, and Self-Direction**.

Objectives

- Each student sustains a fulfilled life actualizing his or her personal talents and interests.
- Each student optimizes his or her potential by continuously setting and achieving individual learning goals.
- Each student actively enriches and advances his or her community and greater society.

Parameters

- We will make all decisions based on the best interest of the student.
- We will honor the dignity of each person.
- We will operate in a culture of collaboration.
- We will make optimal use of transformative technology.
- We will protect and defend our local autonomy.
- We will accept nothing less than excellence.
- We will not compromise integrity in the pursuit of excellence.

ORGANIZATION

Superintendent Targets

STRATEGY I: We will inspire learning through an array of personalized opportunities and experiences.

Superintendent Target 1: Effectiveness of Standards Based Learning systems in elementary schools.

Measures: Grades, percent of students using goal binders, STAAR, MAP (at specific schools), technology support of the system, YouthTruth
Outcome: Improved student academic achievement.

Superintendent Target 2: Effectiveness of Blended Learning opportunities.

Measures: Assessment trend data between blended and non-blended classrooms, STAAR, MAP (at specific schools), YouthTruth, teacher survey on Blended Learning
Outcome: Determine effectiveness of blended learning systems

STRATEGY II: We will provide support to meet the needs and aspirations of each student.

Superintendent Target 3: Growth in overall student performance.

Measures: BAS, ACT, SAT, PSAT, TSIA, CCMR, AP participation and performance, Graduation rates, CTE participation, Fine Arts participation, College hours earned, STAAR, by student group, district, and campus
Outcome: Continuous improvement of student performance.

Superintendent Target 4: Effectiveness and efficiency of special education programs and services

Measures: Special Education Program Review
Outcome: Improvement in special education programs and services

Superintendent Target 5: Effectiveness of Response to Intervention (RtI) and Positive Behavior Interventions and Supports (PBIS).

Measures: Student discipline data, PBIS student incident reports, ISS/OSS, and AEP data; PBIS BOQ Self-Assessment, RtI reportable data
Outcome: Increase in academic and behavioral performance for students in RtI

STRATEGY III: We will ensure safe and nurturing learning environments.

Superintendent Target 6: Implementation and effectiveness of Safety Committee recommendations.

Measures: Training of safety protocols, procedures, and lifesaving techniques for employees, safety communication platforms, tracking and reporting of each recommendation, connections to school board policy; counselor student contact hours, number of students served, YouthTruth, effectiveness of existing protocols
Outcome: Safe and nurturing school environments

ORGANIZATION

STRATEGY IV: We will ensure each student understands and is prepared to assume his or her role as a productive citizen.

Superintendent Target 7: Core Values deepened and expanded at each school.

Measures: Student discipline data, including bullying; disaggregation of disciplinary incidents, students demonstrate an understanding of Core Values, number of National Schools of Character, number of the Leader in Me Schools, Employees demonstrate Core Values, YouthTruth

Outcome: Consistent teaching, learning, and demonstration of Core Values by students and employees.

Superintendent Target 8: Responsible use of technology while learning at school, home, and in the community.

Measures: Student discipline data, including cyberbullying; disaggregation of disciplinary incidents, students demonstrate an understanding of Core Values and Digital Citizenship, use of computers as intended, messaging on Responsible Use Guidelines, YouthTruth

Outcome: Increase in positive behaviors when using technology

STRATEGY V: We will broaden and strengthen connections within our communities.

Superintendent Target 9: Strengthening connections within our communities

Measures: Efforts aimed at building relationships, Mentoring, Pastors group, Realtors group, Advocacy at all levels of government, PK-12 Communities, Financial accountability, bond work, and operations

Outcome: Deepened and expanded relationships throughout the community.

STRATEGY VI: We will ensure mutual understanding and support through effective communication.

Superintendent Target 10: Expectation and use of effective communication.

Measures: School-based communication, District communication, PK-12 Communities, Parent Assistance Center data, YouthTruth

Outcome: Responsive communication at all levels

STRATEGY VII: We will build capacity for organizational change.

Superintendent Target 11: Effectiveness of professional learning

Measures: Communities of Practice by campus/department, results; T-TESS growth in domains at each of the six pilot schools, teacher retention rates, YouthTruth

Outcome: Highly trained, engaged, and committed employees

Strategies and Action Plans

Strategy I: We will inspire learning through an array of personalized opportunities and experiences.

Action Plans:

1. Curriculum and flexible scheduling that support student choice and personalized learning.
2. Project based learning with appropriate assessment tools.

ORGANIZATION

Strategy II: We will provide support to meet the needs and aspirations of each student.

Action Plans:

1. Student mentorship opportunities at all levels.
2. A systematic approach for instructional and behavioral supports for each student.
3. A process to ensure consistent enrichment opportunities for each student.

Strategy III: We will ensure safe and nurturing learning environments.

Action Plans:

1. Consistent district procedures for visitors on campus.
2. Consistent district procedures for student arrival and dismissal.
3. An intentional culture of school safety.
4. A Common Behavior Framework to focus on the social and emotional well-being of all students and staff.
5. Consistent training and drills for crisis response.

Strategy IV: We will ensure each student understands and is prepared to assume his or her role as a productive citizen.

Action Plans:

1. Students develop the necessary character traits to apply themselves in any situation.
2. A future-ready culture that fosters career exploration for grades 4-12 at all schools.
3. Effective use of technology while learning at school, home, and in the community.
4. Responsible use of technology while learning at school, home, and in the community.
5. Internship opportunities that are strategically aligned to all endorsement areas for secondary students working with business and corporations.
6. Experiential learning opportunities designed to address effective communication and interpersonal skills in the classroom and beyond.

Strategy V: We will broaden and strengthen connections within our communities.

Action Plans:

1. Engaged patrons.
2. Processes that develop and maintain meaningful relationships within PK-12 communities.
3. Processes that match needs and resources to maximize community partnerships.
4. Service opportunities for all students to give back to the community.

ORGANIZATION

Strategy VI: We will ensure mutual understanding and support through effective communication.

Action Plans:

1. A comprehensive communication plan inclusive of all students, parents, staff and community.
2. Improved internal communication for all employees.
3. Resources to increase parent awareness of campus and district information.
4. Resources to increase parent ability to support their children academically.

Strategy VII: We will build capacity for organizational change.

Action Plans:

1. A professional learning plan that provides varied and flexible opportunities.
2. Enhanced employee mentorship programs.
3. A district-wide system of Professional Learning Communities (PLC).
4. Time and opportunities for job embedded professional learning.
5. Reception, creation, and exploration of innovation.
6. Increased leadership opportunities for all employees of CCISD.
7. An instructional coaching model to facilitate the building of teacher capacity.

ORGANIZATION

Budget and Financial Policies

Legal Requirements for Budgets

Legal requirements for school district budgets are formulated by the state, Texas Education Agency, and the local district.

Statement of Texas Law

Sections 44.002 through 44.006 of the Texas Education Code establish the legal basis for budget development in school districts. The following six items summarize the legal requirements from the code:

- The superintendent is the budget officer for the district and prepares or causes the budget to be prepared.

Note: TEA recommends that an interactive approach between the board of trustees and the superintendent be taken to establish the budget process and define related roles and responsibilities.

- The district budget must be prepared by a date set by the state board of education.
- The president of the board of trustees must call a public meeting of the board of trustees, giving ten days public notice in a newspaper, for the adoption of the district budget. Any taxpayer in the district may be present and participate in the meeting.
- No funds may be expended in any manner other than as provided for in the adopted budget. The board does have the authority to amend the budget or adopt a supplementary emergency budget to cover unforeseen expenditures.
- The budget must be prepared in accordance with GAAP (generally accepted accounting principles) and state guidelines. The budget must be legally adopted before the adoption of the tax rate.

TEA Legal Requirements

TEA has developed additional requirements for school district budget preparation as follows:

- The budget must be adopted by the board of trustees, inclusive of amendments, no later than August 31.
- Minutes from district board meetings will be used by TEA to record adoption of and amendments to the budget.
- Budgets for the General Fund, the Food Service Fund (whether accounted for in the General Fund, a Special Revenue Fund or Enterprise Fund) and the Debt Service Fund must be included in the official district budget (legal or fiscal year basis). These budgets must be prepared and approved at least at the fund and function levels to comply with the state's legal level of control mandates.

ORGANIZATION

Note: Districts may prepare and approve budgets for other funds and/or with even greater detail at their discretion. Such local decisions may affect the need for budget amendments and financial reporting requirements.

- The officially adopted district budget, as amended, must be filed with TEA through PEIMS (Public Education Information Management System) by the date prescribed in the annual system guidelines. Revenues, other sources, other uses, and fund balances must be reported by fund, object (at the fourth level), fiscal year, and amount.
- Expenditures must be reported by fund, function, object (at the second level), organization, fiscal year, program intent and amount.
- A school district must amend the official budget before it exceeds a functional expenditure category, i.e., instruction, administration, etc., in the total district budget. The annual financial and compliance report should reflect the amended budget amounts on the schedule comparing budgeted and actual amounts. The requirement for filing the amended budget with TEA is satisfied when the school district files its Annual Financial and Compliance Report.

Local District Requirements

In addition to state legal requirements, the Clear Creek Independent School District Board of Trustees has established their own requirements for annual budget preparation through Board Policy CE (LEGAL and LOCAL) Annual Operating Budget. The District is in full compliance with all policies presented.

ANNUAL OPERATING BUDGET, CE (LEGAL)

DATE ISSUED: 11/11/2017 - UPDATE 109

Authorized Expenditures

The District shall not lend its credit or gratuitously grant public money or things of value in aid of any individual, association, or corporation. *Tex. Const. Art. III, Sec. 52; Brazoria County v. Perry, 537 S.W.2d 89 (Tex. Civ. App.-Houston [1st Dist.] 1976, no writ)*

The District shall not grant any extra compensation, fee, or allowance to a public officer, agent, servant, or contractor after service has been rendered or a contract entered into and performed in whole or in part. Nor shall the District pay or authorize the payment of any claim against the District under any agreement or contract made without authority of law. *Tex. Const. Art. III, Sec. 53; Harlingen ISD v. C.H. Page and Bro., 48 S.W.2d 983 (Comm. App. 1932)*

The state and county available funds may be used only for the payment of teachers' and superintendents' salaries and interest on money borrowed on short time to pay those salaries that become due before school funds for the current year become available. Loans for the purpose of payment of teachers may not be paid out of funds other than those for the current year. Education Code 45.105(b)

Local funds from district taxes, tuition fees, other local sources, and state funds not designated for a specific purpose may be used for purposes listed above for state and county available funds and for purchasing appliances and supplies; paying insurance premiums; paying janitors and other employees; buying school sites; buying, building, repairing, and renting school buildings, including acquiring school buildings and sites by leasing through annual payments with an ultimate option to purchase [see CHG];

ORGANIZATION

and for other purposes necessary in the conduct of the public schools determined by a board. Education Code 45.105(c)

Public funds of a district may not be spent in any manner other than as provided for in the budget adopted by the board, but the board may amend a budget or adopt a supplementary emergency budget to cover necessary unforeseen expenses. Education Code 44.006(a)

Prohibited Use of District Resources

The Board shall not enter into an agreement authorizing the use of District employees, property, or resources for the provision of materials or labor for the design, construction, or renovation of improvements to real property not owned or leased by the District.

The Board may not use state or local funds or other resources of the District to electioneer for or against any candidate, measure or political party. *Education Code 11.168*

Commitment of Current Revenue

A contract for the acquisition, including lease, of real or personal property is a commitment of the District's current revenue only, provided the contract contains either or both of the following provisions:

1. Retains to the Board the continuing right to terminate the contract at the expiration of each budget period during the term of the contract.
2. Is conditioned on a best efforts attempt by the Board to obtain and appropriate funds for payment of the contract. *Local Gov't Code 271.903*

Fiscal Year

The Board may determine if the District's fiscal year begins on July 1 or September 1 of each year. *Education Code 44.0011*

Budget Preparation

The Superintendent shall prepare, or cause to be prepared, a proposed budget covering all estimated revenue and proposed expenditures of the District for the following fiscal year. *Education Code 44.002*

Deadlines

The proposed budget shall be prepared on or before a date set by the State Board of Education, currently August 20 (June 19 if the District uses a July 1 fiscal year start date). *Education Code 44.002(a); 19 TAC 109.1(a), 109.41*

The adopted budget must be filed with the Texas Education Agency on or before the date established in the *Financial Accountability System Resource Guide*. *Education Code 44.005; 19 TAC 109.1(a)*

Public Meeting on Budget and Proposed Tax Rate

After the proposed budget has been prepared, the Board President shall call a Board meeting for the purpose of adopting a budget for the succeeding fiscal year. Any taxpayer of the District may be present and participate in the meeting. Education Code 44.004 [See CCG (LEGAL) for provisions governing tax rate adoption].

ORGANIZATION

The meeting must comply with the notice requirements of the Open Meetings Act. *Gov't Code 551.041, 551.043*

Published Notice

The Board President shall also provide for publication of notice of the budget and proposed tax rate meeting in a daily, weekly, or biweekly newspaper published in the District. If no daily, weekly, or biweekly newspaper is published in the District, the President shall provide for publication of notice in at least one newspaper of general circulation in the county in which the District's central administrative office is located. The notice shall be published not earlier than the 30th day or later than the tenth day before the date of the hearing.

Form of Notice

The published notice of the public meeting to discuss and adopt the budget and the proposed tax rate must meet the size, format, and content requirements dictated by law.

The notice is not valid if it does not substantially conform to the language and format prescribed by the comptroller.

Taxpayer Injunction

If the District has not complied with the published notice requirements in the FORM OF NOTICE described above, and the requirements for DISTRICTS WITH JULY 1 FISCAL YEAR below, if applicable, and the failure to comply was not in good faith, a person who owns taxable property in the District is entitled to an injunction restraining the collection of taxes by the District. An action to enjoin the collection of taxes must be filed before the date the District delivers substantially all of its tax bills. *Education Code 44.004*

Publication of Proposed Budget Summary

Concurrently with the publication of notice of the budget under Education Code 44.004, the District shall post a summary of the proposed budget on the District's Internet Web site or, if the District has no Internet Web site, in the District's central administrative office.

The budget summary must include a comparison to the previous year's actual spending and information relating to per student and aggregate spending on:

1. Instruction;
2. Instructional support;
3. Central administration;
4. District operations;
5. Debt service; and
6. Any other category designated by the Commissioner.

Education Code 44.0041

Budget Adoption

The Board shall adopt a budget to cover all expenditures for the succeeding fiscal year at the meeting called for that purpose and before the adoption of the tax rate for the tax year in which the year covered by the budget begins.

ORGANIZATION

Certified Estimate

By April 30, the chief appraiser shall prepare and certify an estimate of the taxable value of District property. *Tax Code 26.01(e)*

Districts with A July 1 Fiscal Year

A district with a fiscal year beginning July 1 may use the certified estimate of the taxable value of District property in preparing the published notice if the District does not receive the certified appraisal roll on or before June 7. A district that uses a certified estimate may adopt a budget at the public meeting designated in the published notice prepared using the estimate, but the District may not adopt a tax rate before the District receives the certified appraisal roll for the District. *Education Code 44.004*

Budget Adoption after Tax Rate Adoption

The District may adopt a budget after the District adopts a tax rate for the tax year in which the fiscal year covered by the budget begins if the District elects to adopt a tax rate before receiving the certified appraisal roll for the District as provided by Tax Code 26.05(g). Following adoption of the tax rate, the District must publish notice and hold a public meeting before the District may adopt a budget. The comptroller shall prescribe the language and format to be used in the notice. The District may use the certified estimate of taxable value in preparing the notice. *Education Code 44.004(j)*

Publication of Adopted Budget

On final approval of the budget by the Board, the District shall post on the District's Internet Web site a copy of the budget adopted by the Board. The District's Web site must prominently display the electronic link to the adopted budget. The District shall maintain the adopted budget on the District's Web site until the third anniversary of the date the budget was adopted. *Education Code 39.084*

Amendment of Approved Budget

The Board shall have the authority to amend the approved budget or to adopt a supplementary emergency budget to cover necessary unforeseen expenses.

Copies of any amendment or supplementary budget must be prepared and filed in accordance with State Board rules. *Education Code 44.006*

Failure to Comply with Budget Requirements

A Board member who votes to approve any expenditure of school funds in excess of the item or items appropriated in the adopted budget or a supplementary or amended budget commits a misdemeanor offense. *Education Code 44.052(c)*

Certain Donations

The District may donate funds or other property or service to the adjutant general's department or to the Texas National Guard. *Gov't Code 431.035(c), 431.045 (b)*

ANNUAL OPERATING BUDGET, CE (LOCAL)

DATE ISSUED: 9/15/2011

Fiscal Year

The District shall operate on a fiscal year beginning September 1 and ending August 31.

ORGANIZATION

Goals and Objectives

The purpose of the budget is to provide a statement, expressed in financial terms, that serves as management's primary tool for planning and controlling operations.

Primary objectives of the budget system are to:

1. Assist the formulation of an integrated plan of operations and understanding of how each organization's activities contribute to the overall mission.
2. Provide a means of communication between various levels of management by stating the objectives of each organization and the funds necessary to achieve them.
3. Provide each organization head with the financial information necessary to perform his or her function and control expenditures.
4. Provide a means of measuring and guiding performance by comparing planned (budgeted) expenditures and workload against actual expenditures and workload.
5. Provide the historical data required for realistic budget preparation.
6. Relate expenditures to the three year financial, education, and construction plans.

Budget Planning and Development

Budget planning shall be an integral part of overall program planning so that the budget effectively reflects the District's goals and the plan to implement them. In the budget planning process, general educational goals, specific program goals, and alternatives for achieving program goals shall be considered, as well as input from the District and campus level site-based committees.

The District administration shall allocate funds according to goals and priorities developed by the Board of Trustees. Staff shall submit a preliminary plan and its rationale in May. The Board shall at a minimum receive revised financial estimates in June, July, and August. The Board shall be informed as new information impacting the budget becomes available.

Public Budget Meeting

The annual public meeting to discuss the proposed budget and tax rate shall be conducted as follows:

1. The Board President shall request at the beginning of the meeting that all persons who desire to provide input on the proposed budget and/or tax rate sign up on the sheet provided.
2. Prior to the beginning of the meeting, the Board may establish time limits for speakers.
3. Speakers shall confine their remarks to the appropriation of funds as contained in the proposed budget and/or the tax rate.
4. No officer or employee of the District shall be required to respond to questions from speakers at the meeting.

Authorized Expenditures

The adopted budget provides authority to expend funds for the purposes indicated and in accordance with state law, Board policy, and the District's approved purchasing procedures. The expenditure of

ORGANIZATION

funds shall be under the direction of the Superintendent or designee, who shall ensure that funds are expended legally, ethically, and in accordance with the adopted budget.

Budget Amendments

The Board shall amend the budget when a change is made increasing any one of the functional spending categories or increasing revenue object accounts and other resources. The Superintendent or designee shall recommend budget amendments to the Board for approval.

Reserves

The Board and the administration shall work together to maintain two months undesignated fund balance in the maintenance and operations budget and ten percent of the projected annual debt service payments in restricted fund balance in the debt service fund budget, barring emergency situations. This level of reserves will accomplish two Board priorities.

1. To provide adequate funds to meet emergency needs.
2. To ensure a favorable bond rating for the District.

In addition, the Board may commit fund balance from time to time in order to meet specific District contingencies. The Board will review and approve designated reserves on an annual basis with the adoption of the District's annual budget in August.

Budget Reporting

During the year, the administration shall provide monthly summaries of the budget, as approved, versus actual expenditures.

A running record of all development, construction, and maintenance projects accrued costs versus budgeted amounts shall be available throughout the year to support deliberations for project approvals.

Audits

Independent audits shall be performed every year or as requested by the Board.

Fund Balance Classification

Fund balance classification shall be recorded in accordance with governmental accounting standards as promulgated by the Governmental Accounting Standards Board.

Order of Expenditure

The order of spending and availability of the fund balance shall be to reduce funds from the listed areas in the following order: restricted, committed, assigned, and unassigned. Negative amounts shall not be reported for restricted, committed, or assigned funds.

ORGANIZATION

OTHER DISTRICT POLICIES

Other District policies can be found at: <http://pol.tasb.org/Home/Index/505>

The following are other pertinent policies:

CAA (Local) Fiscal Management, Goals and Objectives-Financial Ethics

This policy defines fraud and financial impropriety, outlines financial controls and oversight and delegates responsibility for fraud prevention, fraud investigation and analysis of fraud.

ORGANIZATION

Fund Balance of the General Fund

Fund balance shall mean the gross difference between governmental fund assets and liabilities reflected on the balance sheet. Governmental fund assets are those of the general fund, special revenue funds, debt service funds, and capital project funds.

The fund balance of the general fund, one of the governmental fund types, is of primary significance because the general fund is the primary fund, which finances most functions in the District. The fund balance of the general fund shall mean the gross difference between general fund assets and liabilities reflected on the balance sheet.

The five classifications of fund balance of the governmental types are as follows:

1. Non-spendable fund balance, which shall mean the portion of the gross fund balance that is not expendable (such as inventories) or is legally earmarked for a specific use.
2. Restricted fund balance, which shall include amounts, constrained to a specific purpose by the provider, such as a grantor.
3. Committed fund balance, which shall mean that portion of the fund balance that is constrained to a specific purpose by the Board.
4. Assigned fund balance, which shall mean that portion of the fund balance that is spendable or available for appropriation but has been tentatively earmarked for some specific purpose by the Superintendent or designee. In current practice, such plans or intent may change and may never be budgeted, or may result in expenditures in future periods of time.
5. Unassigned fund balance, which shall include amounts available for any legal purpose. This portion of the total fund balance in the general fund is available to finance operating expenditures.

The unassigned fund balance shall be the difference between the total fund balance and the total of the non-spendable fund balance, restricted fund balance, committed fund balance, and assigned fund balance.

Budget Process

Objectives of Budgeting

The objectives of budgeting are outlined by the Texas Education Agency in the Financial Accountability System Resource Guide.

Performance evaluation allows citizens and taxpayers to hold policy makers and administrators accountable for their actions. Because accountability to citizens often is stated explicitly in state laws and constitutions, it is considered a cornerstone of budgeting and financial reporting. The Governmental Accounting Standards Board (GASB) recognizes its importance with these objectives in its GASB Concepts Statement No. 1 (Section 100.177):

- Financial reporting should provide information to determine whether current-year revenues were sufficient to pay for current-year services.

ORGANIZATION

- Financial reporting should demonstrate whether resources were obtained and used in accordance with the entity's legally adopted budget. It should also demonstrate compliance with other finance-related legal or contractual requirements.
- Financial reporting should provide information to assist users in assessing the service efforts, costs and accomplishments of the governmental entity.

Meeting these objectives requires budget preparation to include several concepts recognizing accountability. Often these concepts have been mandated for state and local public-sector budgets. They include requirements that budgets should:

- Be balanced so that current revenues are sufficient to pay for current services.
- Be prepared in accordance with all applicable federal, state, and local legal mandates and requirements.
- Provide a basis for the evaluation of a government's service efforts, costs and accomplishments.

Note: Although the objective of balanced budgets is generally applicable to all school districts to ensure long-term fiscal health, variations of this objective which are considered appropriate for some school districts over short-term periods are available. For example, the balanced budget objective may be met by using fund balance reserves to pay for current services during certain periods. Such uses of fund balance reserves must be in accordance with applicable state and local fund balance policies.

Budget Process Overview

The budgeting process is comprised of three major phases: planning, preparation and evaluation. The budgetary process begins with sound planning. Planning defines the goals and objectives of campuses and the school district and develops programs to attain those goals and objectives. Once these programs and plans have been established, budgetary resource allocations are made to support them. Budgetary resource allocations are the preparation phase of budgeting. The allocations cannot be made, however, until plans and programs have been established.

Finally, the budget is evaluated for its effectiveness in attaining goals and objectives. Evaluation typically involves an examination of: how funds were expended, what outcomes resulted from the expenditure of funds, and to what degree these outcomes achieved the objectives stated during the planning phase. This evaluation phase is important in determining the following year's budgetary allocations.

In summary, budget preparation is not a one-time exercise to determine how a school district will allocate funds. Rather, school district budget preparation is part of a continuous cycle of planning and evaluation to achieve district goals.

The Planning Cycle

The Budget Process covers the entire financial cycle starting with budget planning and ending with the audited financial statements. The seven steps are:

ORGANIZATION

• Budget Planning	November - December	2017
• Budget Preparation	February - August	2018
• Board of Trustee Budget Review	April – August	2018
• Budget Adoption	August	2018
• Tax Rate Adoption	September	2018
• Budget Amendments	Monthly as needed	2018-19
• Audited Financial Statements	January	2019

Budget Planning

The budget process is instructionally driven. Budget planning begins with a series of meetings held in November to begin developing broad-based budget goals. The Chief Financial Officer facilitates numerous planning meetings with key District decision makers to develop a list of budget priorities for Board consideration. The Board receives budget priorities from the Superintendent's Cabinet, the District Educational Improvement Council (DEIC), the CFO Advisory Council (an advisory group of campus leaders throughout the District), and the Citizens Financial Advisory Committee (an advisory group of local business leaders).

The final step in the goal-setting process is a planning meeting with the Board of Trustees in early December. The Board reviews input from all sources and adopts the budget goals, assumptions and priorities that will drive budget development.

The budget calendar is also reviewed with the Board of Trustees at this early planning meeting. The Board may also consider issues highlighted on the District and Campus Improvement Plans as well as the District Strategic Plan at this time.

Budget Preparation

Budget preparation begins with a training session for campus leaders and program managers at the time the Budget Manual and budget worksheets are distributed in February. The District utilizes eFinance accounting software to allow for on-line budget preparation. The District provides annual software training in this area for budget managers.

The District uses site-based budgeting to enhance the ability of campus leaders to serve as effective instructional leaders. Site-based budgeting places the campus leader at the center of the budget preparation process. The site-based budget reflects the prioritized needs of the campus and is aligned with the Campus Improvement Plan and the District's Strategic Plan.

Each campus receives a campus budget worksheet which reflects initial campus funding allocations. These allocations address equity issues between campuses. They are designed around three cost drivers: total enrollment, at risk student enrollment, and staffing. Enrollment allocations reflect the total number of projected students on a given campus. This number is based on prior year Public

ORGANIZATION

Education Information Management System (PEIMS) data adjusted for known or expected increases or decreases in enrollment for the coming year. These allocations are then adjusted during the budget year after the October PEIMS snapshot of student enrollment is made available to the District.

The funding allocation for at risk students is based on the number of children eligible to receive free or reduced meals at the campus. These children are considered at risk of failure and additional funds are allocated for tutoring and educational support for these students.

Staff allocations are aligned with student projections. Teacher staffing is set according to the District's Board approved student teacher ratios and staffing standards (included on pages 63-67). In Texas, the State sets the maximum student to teacher ratio for grades kindergarten through four. This ratio is 22-1 and it can only be exceeded by applying for a waiver from the Texas Education Agency (TEA). The Board has set a District standard student teacher ratio of 25-1 in all secondary core courses (math, science, social studies, and English/language arts). This ensures that student class loads for secondary core subject teachers do not exceed 150 students during a standard six period day. Additionally, the Board set the student to teacher ratio in all Algebra I classes at 22-1. Research indicates that Algebra I is a bedrock course that can predict student success in high school. To ensure student success, the District lowered student to teacher ratios to allow more one-on-one instruction. Remaining staffing decisions are based on the Board approved five-year staffing plan. This plan is reviewed and updated for Board approval during the spring of each school year to ensure it meets the needs of the growing district.

After the completed campus and program budget packages have been returned to the Finance Office, a District Budget Committee reviews each department's budget requests with the responsible campus leader, program manager or department director. The review focuses on instructional impact and includes the allocation of existing funds as well as any additional funding requests. At these meetings, department/campus leaders provide District staff with key information that is needed to make budget decisions.

Board of Trustee Budget Review

The Board of Trustees regularly receives budget updates that include revisions to the long range financial forecast, the long-range staffing plan, the preliminary budget, the compensation & salary plan, and the capital projects/capital improvement plan. If funds are available, the compensation & salary plan for teachers is adopted at the March Board of Trustees meeting. Adopting the plan this early in the budget process provides Clear Creek ISD with a competitive advantage in recruiting new teachers and retaining existing staff. Since Clear Creek ISD is a growing district, staff also asks the Board to approve additional teaching units (fifty or more) to accommodate growth. The compensation & salary plan for support staff is generally adopted in July.

Budget Adoption

The Galveston Central Appraisal District certifies the property value roll to taxing entities in July. The District publishes the required legal notice in August. The required legal notice for the FY 2018- 19 Budget was published on August 16, 2018. The Board of Trustees held the public hearing and adopted the budget on August 27, 2018.

ORGANIZATION

Tax Rate Adoption

Historically, the Galveston Central Appraisal District (CAD) certified all District property, even though a high percentage of district property is located in Harris County. Recent legislation ended this process in 2008 and now appraisal districts cannot cross county lines to appraise property. As a result, the District did not receive its final certified values from the Harris County CAD until the first week of September. Prior to this legislation, property values were always certified in July by Galveston CAD. After the receiving the certified property value rolls, the Clear Creek Tax Office calculates the effective and rollback tax rate in early August. The required legal notice of the District's effective and roll-back tax rates was published on August 16, 2018. The Board of Trustees held the public hearing to discuss the proposed tax rate on August 27, 2018 and adopted the tax rate on September 24, 2018.

Budget Amendments

Initial campus budget allocations are based on projected enrollment and are modified after the October PEIMS snapshot. Budget amendments, if necessary, are taken to the Board monthly for consideration and approval.

The Final Amended Budget for the Year Ending August 31, 2018, was submitted at the August 27, 2018, Board meeting. It reflects all amendments previously approved by the Board of Trustees plus any final amendments. The Final Amended Budget for the Year Ending August 31, 2018, will be used by the District's external auditors in compiling the annual financial statements.

Audited Financial Statements

The final step in the budget cycle is the approval of the audited financial statements. This document includes budget to actual comparisons and highlights the District's ability to manage its 2018-19 \$589 million governmental funds budget. Audited Financial Statements for 2017-18 are scheduled for review and approval by the Board on January 21, 2019. In summary, school district budget preparation is part of a continuous cycle of planning, preparation and evaluation to achieve the District's goals and objectives.

Capital Projects Budget Process

Clear Creek Independent School District is meeting the challenge of a fast growth school district by proactively analyzing facility needs and placing bond issues for taxpayer approval.

During the FY 2005-06 budget process, the District developed a separate Capital Replacement Fund to provide monies for major maintenance and capital needs. This fund was capitalized with \$14 million in seed money from the FY 2004-05 budget. Over the past twelve years the District has added an additional \$103.7 million to this fund. At the same time, the District has transferred its entire annual capital replacement appropriation budget to the fund. The operating impact of the capital projects is integrated annually into the budget and is highlighted in the Informational Section of this document within the financial forecasts.

The Clear Creek Independent School District Board of Trustees established a citizens committee in October 2016 to recommend a list of prioritized capital projects that will meet the District's growth and replacement needs over the next 3-5 years. This limited purpose committee met with staff, architects, engineers, and demographers to evaluate the District's long-term course for the addition, renovation and replacement of instructional facilities, support facilities, major mechanical systems, technology, and transportation.

ORGANIZATION

Specific Tasks:

- Tour facilities on the priority list to gain an understanding of building and infrastructure needs at these sites;
- Review facility assessment information provided by architects, engineers and district staff;
- Consider student enrollment projections;
- Analyze property value trends and district/state financial funding parameters;
- Make recommendations to the Board of Trustees concerning the timing, funding, and priority of capital projects over the next three to five years.

This committee began with a list of \$1.2 billion worth of needs assessments. On May 6, 2017, the CCISD community approved a \$487 million bond referendum.

Balanced Budget & Fund Balance

Legal requirements for school district budgets are formulated by the state, the Texas Education Agency (TEA) and the local district. However, according to the TEA, case law is where the definition of a balanced budget is found for all Texas school districts. A balanced budget is framed by case law as a budget with total expenditures not greater than the sum of total revenues plus fund balance. *Crystal City Independent School District, Appellant v. Bank of Dallas, Appellee, Court of Appeals of Texas, Dallas, March 24, 1987*. Fund Balance occurs when revenues exceed expenses in a given year. In fund accounting, this excess carries over to the next fiscal year and is available for any lawful purpose. By policy, Clear Creek's goal is to maintain an undesignated fund balance equal to a minimum of two months operating expenses. The District currently meets this goal.

CCISD Finance Committee

The CCISD Finance Committee is comprised of two or more Board of Trustee members named by the Board along with the Superintendent and Deputy Superintendent for Business and Support Services. The Finance Committee set specific goals for 2018-2019 as follows:

1. Monitor implementation of the Community Safety Committee security recommendations.
2. Review available options to provide affordable, innovative programs to incorporate into CCISD benefits package.
3. Review options that will lead to an optimal fund balance in the Debt Service Fund and General Fund in 2018-2019.

Standing Goals:

4. Review options leading to a sustainable long range financial plan that meets the needs of students, teachers, and staff while maintaining a balanced budget.
5. Publish Finance Committee meeting minutes prior to each Board meeting that provides comprehensive descriptions of board agenda items that have financial or operational impacts.
6. Ensure that the district sets and completes an ambitious annual audit plan.
7. Monitor the capital plan, including recommendations impacting sources and uses of funds in a manner consistent with district strategic plan.

Budget Calendar for the Year 2018-2019

<i>Date</i>	<i>Meeting</i>	<i>Budget Topics</i>

ORGANIZATION

Budget Control and Management Process

Management Process

For management control purposes all budgets are assigned a local option code. The local option code designates the individual responsible for the particular budget. Typically principals are responsible for campus budgets and program managers are responsible for districtwide budgets. Campus principals and program managers are authorized to submit Purchase Requisitions and reimbursements for the purchase of goods and services. All activities involving payroll costs, salaries and employee benefits, are controlled through the Human Resources department.

Approval Control

All purchases of goods and services are processed through the financial management system with the appropriate approval controls to ensure the legal purpose is met and the appropriate account charged. Purchase Requisitions are initially entered at the campus or department level and are approved by the campus principal or program manager submitting the request. Purchase Requisitions for Special Revenue funds are then approved by the appropriate grant program manager. The Purchasing Director reviews the Purchase Requisition to verify that appropriate purchasing laws are being complied with and that the goods and services are being requested from a legally qualified vendor. The Purchase Requisition is then converted into a Purchase Order and forwarded to the vendor. Upon receipt of the invoice Accounts Payable verifies the receipt of the goods or services, cuts a check, and closes the Purchase Order.

Encumbrance Control

All purchases of goods and services are processed through the financial system with the appropriate encumbrance controls to ensure the availability of funds. An encumbrance is an obligation in the form of a Purchase Order charged to an appropriation which reserves a part of that appropriation. Additionally, pre-encumbrances are also reserved based on submitted Purchase Requisitions awaiting conversion into Purchase Orders. Specifically, the financial software will not allow the entry of a Purchase Requisition unless there are sufficiently available funds at the full account line item level.

Budget Amendments and Budgetary Level of Control

The budgetary level of control for Board adopted budgets is at the Object level for revenues and the Function level for expenditures. Any transfer of funds that increases a revenue object or modifies an expenditure function must be approved monthly by the Board of Trustees.

Final Amended Budget

At the last meeting of the fiscal year a formal final amended budget is approved by the Board of Trustees.

Adopted Budget

The officially adopted District budget, as amended, must be filed with TEA through PEIMS (Public Education Information Management System) by the date prescribed in the annual system guidelines.

ORGANIZATION

Monthly Reporting

The District's financial statements and investments are reviewed monthly with the Board of Trustees.

Annual Audit

The final stage of the budget cycle is the approval by the Board of Trustees of the audited financial statements part of which includes budget to actual comparisons.

Financial Structure

Summary of Significant Accounting Policies

Clear Creek ISD's budget should be based on financial principles that will keep the District financially viable and able to sustain its key programs over time. The District seeks to achieve the following fiscal management priorities:

- Provide optimal and targeted levels of funding for improved student achievement including identified priorities within the Strategic Plan;
- Administer competitive salaries, stipends and benefits for all employees;
- Develop alternative revenue streams;
- Continue optimal funding for the comprehensive plan for safe and secure schools;
- Maintain staffing plans to address optimal staffing at all levels;
- Maintain designated disaster recovery reserves and continue capital replacement reserves consistent with other budget priorities.

Clear Creek Independent School District is an independent public educational agency operating under the applicable laws and regulations of the State of Texas. The District is autonomously governed by a seven-member Board of Trustees elected by the District's residents. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in ***Statement of Auditing Standards No. 69***, as amended by Statement on Auditing Standards No.'s 91 and 93 of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of the Texas Education Agency's ***Financial Accountability System Resource Guide*** and the requirements of contracts and grants of agencies from which it receives funds.

The District's Financial Statements are in accordance with GASB No. 34, "Basic Financial Statements and Management Discussion and Analysis for State and Local Governments", GASB Statement No. 37, which provides additional guidance for the implementation of GASB No. 34, and GASB Statement No. 38, which changes the note disclosure requirements in the financial statements for governmental entities.

GASB No. 34 established a new financial reporting model for state and local governments that included the addition of management's discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the effects of internal service activities and the use of account groups to the already required fund financial statements and notes.

ORGANIZATION

The GASB determined that fund accounting has and will continue to be essential in helping governments to achieve fiscal accountability and should, therefore, be retained. The GASB also determined that government-wide financial statements are needed to allow users of financial reports to assess a government's operational accountability. The GASB 34 reporting model integrates fund-based financial reporting and government-wide financial reporting as complementary components of a single comprehensive financial reporting model.

The following is a summary of the most significant accounting policies.

Reporting Entity

The District is considered an independent entity for financial reporting purposes and is considered a primary government. The overriding elements associated with prescribed criteria considered in determining that the District's financial reporting entity status is that of a primary government are the following: it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments.

The Board of Trustees is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its Statement No. 14, "The Financial Reporting Entity". The District has also implemented GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units". The District receives support from various parent teacher organizations, booster clubs and foundation organizations. None of these organizations meet the criteria specified in GASB 39 to be included in the District's financial statements. Therefore, there are no component units included within the reporting entity.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary and fiduciary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources, and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within sixty days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept, that is, when they

ORGANIZATION

are both measurable and available. Miscellaneous revenues are recorded when they are received in cash because they are generally not measurable until physically received. Interest earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related authorized expenditures have been made. If balances are not expended by the end of the project period, grantors sometimes require the District to refund all or a part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in

the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless they conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Assets. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

The following list summarizes the basis used for budgeting purposes for each fund of the District:

<u>Governmental Funds</u>	<u>Budgeting Basis</u>	<u>Proprietary Funds</u>	<u>Budgeting</u>
General Fund	Modified Accrual	Internal Service:	Accrual
Special Revenue Fund	Modified Accrual	Health Fund	Accrual
Debt Service Fund	Modified Accrual	Worker's Comp Fund	Accrual
Capital Projects Fund	Modified Accrual	Disability Fund	Accrual
		Property Fund	
		Enterprise Funds:	
		Child Nutrition	Accrual
		Athletic Concessions	Accrual
		District Advertising	Accrual

Fund Accounting

The District accounts are organized on the basis of funds in accordance with the provisions of the Resource Guide. Each fund is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses. For financial statement presentation, the District's fund financial statements provides more detailed information about the District's most significant funds – not the District as a whole. The funds shown on the Fund Financial Statements are considered major funds because of the size and activity of the funds in accordance with generally accepted financial reporting criteria. The District has three kinds of funds:

1. **Governmental funds** – Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

ORGANIZATION

2. **Proprietary funds** – Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds provide both long and short-term financial information.
3. **Fiduciary funds** – The District is the trustee, or fiduciary, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Governmental Fund Types

1. **General Fund** – This is the District's primary operating fund. It is established to account for resources used in accomplishing the core mission of the District – educating students so that they are equipped to excel in today's environment. All revenues and expenditures not required to be accounted for in other funds are included here. This fund is budgeted and must be approved by the Board of Trustees. Any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees for any lawful purpose.
2. **Special Revenue Funds** – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance are accounted for in these funds. Sometimes unused balances must be returned to the grantor at the close of specified project periods.
3. **Debt Service Funds** - This fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. This is a budgeted fund and must be approved by the Board of Trustees. A separate bank account is maintained for this fund. Any unused sinking fund balances are transferred to the General Fund after all of the related debt obligations have been met.
4. **Capital Projects Funds** - This fund is established to account for proceeds, on the modified accrual basis, from the sale of bonds and other resources to be used for Board authorized acquisition, construction, or renovation, as well as, furnishing and equipping of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.

Other Sources and Uses of Funds

Throughout the presentation of the District's financial statements, the reader will see revenue and expenditures summarized as Other Sources and Uses of Funds. This category of revenues and expenses are placed here because they do not fit into the routine revenue and expenditure categories. This includes revenues from the sale of bond issues as a source of funds, and the District's transfer of funds from the General Fund to the Capital Projects Fund for use in ongoing large capital projects.

Other Sustaining Local Revenue Sources

As budgets have become tighter, the District has developed methods to earn local revenue from various sources that are considered sustaining. The District charges tuition fees to students for summer school. Entry fees are charged at athletic events. The District has a large facility rental program which allows other entities or individuals to rent District facilities for fixed rates. Finally, the District has developed an advertising program that includes school bus advertising, stadium advertising and website advertising. The revenue generated from these programs is used to offset the costs of the programs, i.e. transportation, technology, athletics and fine arts.

Proprietary Fund Types

1. **Enterprise Funds** – The District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods and services of those activities are accounted for in an enterprise fund.

ORGANIZATION

The District's non-major Enterprise funds are the National Breakfast and Lunch Program, athletic concessions and district advertising. The Food Service Fund is a budgeted fund and must be approved by the Board of Trustees

- 2. Internal Service Funds** – Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. Internal service funds have been established to account for the District's health, workers' compensation and disability self-insurance plans.

Fiduciary Funds

Agency Funds – These funds are used to report student activity funds and other resources held in a purely custodial capacity. Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agency capacity and are therefore not available to support District programs, these funds are not included in the government-wide financial statements.

Budgetary Basis of Accounting

The budgetary basis of accounting shall be consistently applied in budgeting, recording and reporting foundation school program (FSP) revenues in PEIMS information. Under the budgetary basis, earned and material FSP revenues that are collectible beyond 60 days are to be treated consistently for budgeting, recording, and reporting through PEIMS and for tax rollback rate calculation purposes.

Legal requirements for school district budgets are formulated by the State, the Texas Education Agency, and each local district.

The Board is legally required to adopt an appropriated budget prepared in accordance with GAAP (generally accepted accounting principles) for the general fund, debt service fund and food service fund (an enterprise fund). These are the only funds that require Board approval. The budgetary level of control for Board adopted budgets is at the Object level for revenues and the Function level for expenditures. Any transfer of funds that increases a revenue object or modifies an expenditure function must be approved on a monthly basis by the Board of Trustees. At a minimum, the District is required to present the original and the final amended budgets for revenues and expenditure compared to actual revenues and expenditures for these three funds. Budget amendments to these funds must be approved by the Board.

Classification of Revenues and Expenditures

Revenues are presented in the financial statements in three broad categories.

Local and Intermediate sources are those revenues that are collected from the citizens of the school district, nongovernmental entities both within the school district and outside it, and also states other than the state of Texas. Such revenues include property taxes, interest income and proceeds from the sale of WADA.

State revenues are those revenues received from the state of Texas, excluding monies passed through the state from the federal government. Such revenues include state grants and Foundation School Program Revenues.

Federal revenues are those revenues received from the federal government or its agencies either directly or through the state of Texas. Such revenues would primarily be from federal programs.

ORGANIZATION

The major types of expenditures are operating, capital, debt service, and intergovernmental charges.

Operating expenditures for a school district include a wide range of expenditures. The largest portion of operating expenditures relates to payroll and related employee benefits.

Capital relates to acquisition of general capital assets. Cost associated with acquisition of capital assets in governmental funds are recorded as current expenditures when the liability is incurred, usually upon receipt of the related asset.

Debt service expenditures represent the payment of principal and interest needed to service debt. Such payments are usually recorded as expenditures in the Debt Service Fund when the amount becomes due and payable and not when they accrue.

In addition, operating transfers result in the reduction of a fund's expendable resources, but they are not classified as expenditures.

Internal Audit Department

The Clear Creek ISD Internal Audit Department helps the Board of Trustees maintain the financial and operational integrity of the District by examining and analyzing District financial data, operations, programs and services. The Internal Audit Department prepares an annual audit plan to allocate resources and prioritize work schedules to include oversight of District departments and programs as well as special project requests.

This Department reviews compliance with applicable laws and regulations, performs internal control and risk assessment evaluations, and provides consultation when requested. In completing each project, this Department recommends ways the District can use resources in a more efficient, effective and economical manner and safeguard the District's assets.

The Internal Audit Department develops an audit plan utilizing risk analysis to identify the major areas necessitating audit attention. Each year the audit department evaluates the top risk areas and determines which should be included in the annual audit plan.

The following are types of audits handled by the CCISD Internal Audit Department:

Spot-check Audits: These audits are conducted on a random basis for all types of transactions (i.e., accounting, inventory, long-distance calls, payroll, cash counts, petty cash, etc.). This allows the audit department to review for accuracy and compliance with procedures as well as identify weaknesses which may warrant more in-depth audit coverage.

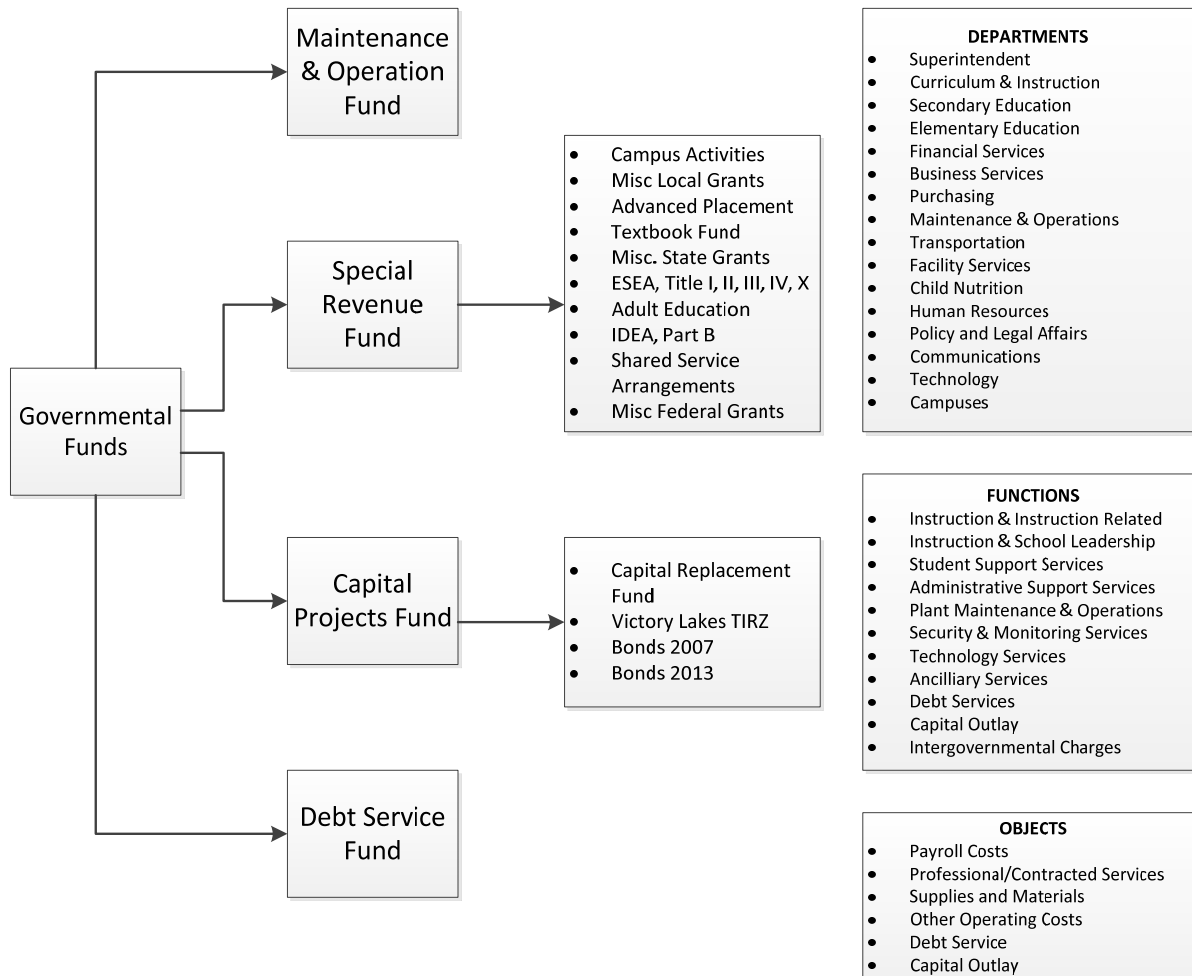

Special Projects: These projects are audits or investigations that are conducted upon request by the Superintendent, Board of Trustees, departments, and investigations based on information obtained from various sources.

Departmental Audits: These audits are designed to review the administrative responsibilities of each department of the District.

Campus and Student Activity Funds: These audits are conducted on an annual rotating basis. This allows the audit department to review for accuracy and compliance with procedures as well as to ensure proper safeguard of the Campus and Student Activity Funds.

FUND FLOWCHART

The following flowchart represents the flow of financial information presented by the District:

ORGANIZATION

The following chart reflects the various departments in Clear Creek ISD and where these departments charge expenses in their budgets.

FINANCIAL

General Fund

The General Fund is a governmental fund with budgetary control which is used to show transactions resulting from operations of on-going organizations and activities from a variety of revenue sources for which fund balance is controlled by and retained for the use of the local education agency. The general fund utilizes the modified accrual basis of accounting. To maintain separate revenue and expenditure accounts to assure the integrity of specific revenue purposes when required by law or rule, the general fund is to employ the classification defined below by the Texas Education Agency. Designated by Fund 199, this classification must be used to account for funds in which the local governing board designates. The local governing board has wide discretion in their use as provided by law. This fund usually includes transactions as a result of revenues from local maintenance taxes, payments in lieu of taxes, foundation entitlements, State and County available and other Foundation School Program sources.

General Fund Revenues

This fund is budgeted at \$346,587,000 and is established to account for resources financing the fundamental operations of the District. All revenues and expenditures that are not required to be accounted for in other funds are included here. Since this is a budgeted fund, any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities. The 2018–2019 General Fund budget is balanced and includes a small increase in fund balance (\$10,423).

Total revenues increased by approximately three percent (1.89%) from FY 2017-18 to FY 2018-19. This can primarily be attributed to a \$11.4 million increase in tax collections as a result of a two cent increase in the M&O tax rate from \$1.04 to \$1.06. In addition, state revenues decreased by a net of \$6.4 million. State funding decreased by \$5.8 million primarily due to high appraised value growth in 2017-18. This loss was partially offset by projected enrollment growth of 598 students. This growth is larger than recent years because it is expected the students that were lost last year will return in FY 2018-19. State funding is highly dependent on local property value growth. The school finance system uses last year's property values to determine current year funding – there is a one year funding lag. As property values increase, state funding decreases the following year. Property value growth was 8% in 2017 resulting in reduced state funding this year.

Clear Creek Independent School District

Analysis of Revenues

Budget for the Year Ending August 31, 2019

General Fund Revenues

(\$1,000's)

Description	FY 2015	FY 2016	FY 2017	Budget FY 2018	Budget FY 2019
Local & Intermediate Sources	\$ 182,802	\$ 193,215	\$ 210,420	\$ 224,702	\$ 236,815
State Program Revenues	\$ 117,802	\$ 123,811	\$ 112,926	\$ 102,992	\$ 96,577
Federal Program Revenues	\$ 3,741	\$ 3,648	\$ 4,697	\$ 5,140	\$ 5,720
Total Revenues	\$ 304,345	\$ 320,673	\$ 328,042	\$ 332,834	\$ 339,112

Major Sources of Funds

Local & Intermediate Sources of revenue increased by 5.4% in FY 2018-19. This is primarily due to the two cent increase in the M&O tax rate. The District showed a small property value growth in Galveston County of 3.20% which was almost entirely due to new construction. In addition, value growth in Harris County increased by 3.06%. Since more than 66% of the District's property value is located in Harris County this increase in value impacts District revenues.

The only ways to receive additional state funding under the State of Texas School funding system is through enrollment gains, or an act of the State's legislative body. The Reform Legislation passed by the Texas Legislature in May of 2006 essentially tied all future increases in state funding to enrollment gains. Therefore, absent enrollment gains, state funding remains constant at the District's 2006 per student funding level until changed by the legislature.

Other resources increased by \$5.3 million primarily due to the transfer of Capital Plan Funds of \$7.225 million to eliminate a projected deficit in the General Fund. Although the budgeted transfer is \$7.225 million the actual transfer expected, due to year end budget surpluses, will be substantially less.

Currently, the District receives 70% of total General Fund revenue from Local and Intermediate Sources. This percentage is down from a high of more than 81% in FY 2005-06. This shows the dramatic impact of the Reform Legislation on local taxpayers.

FINANCIAL

General Fund Expenditures

Total General Fund spending increased by just over three percent (3.47%) in FY 2018-19. Expenditure increases can be attributed to several major factors. First, district wide salary increases were approved for district staff costing \$6.1 million. Teachers, nurses and librarians received an average 2.47% increase. All other employees received a 2% baseline salary increase. Second, the District added 35.5 full time positions totaling \$2.1 million. Third, Community Safety Committee Recommendations were implemented at a cost of \$2.2 million which included the addition of 15 Student Support Counselors and 15 Sheriff Liaison Officers at the secondary level. Finally, there were other small increases such as increases of \$1 million in departmental budget increases, \$.4 million increase in the district contribution to employee health plans, \$.8 million increase in TRS On-Behalf payments. These increases were offset by a \$1.1 million payroll budget realignment.

Major Uses of Funds

The mission of a school district is to provide excellent educational opportunities. Clear Creek takes that mission very seriously. The District spends 67% of its General Fund budget on Instruction and Related Services. The budget increased by \$7 million this year. This is primarily due to the salary increases provided and additions of instructional staff. Instructional and School Leadership and

Student Support Services combined to account for another 18% of the General Fund budget. These two categories increased by almost \$1.9 million this year. Therefore, Clear Creek spends 85% of its budget on instruction and student support services. In total, these three expense categories increased by just over \$8.9 million this year. This increase accounted for a large part of the expenditure increases in this year's budget.

Clear Creek also prides itself in being "lean and mean" in administrative spending. This is supported by its low level of spending on administrative support services (2.2%). As a further testament to this, the Administration budget actually increased by only 4% from last year's budget.

The education of students is labor intensive. This is reflected in the large portion of the District's budget for payroll costs. The composition of the District's workforce is determined by staffing policies and guidelines approved by the Board of Trustees, on projected student enrollment, and on curriculum requirements. For the 2018-2019 fiscal year payroll costs are budgeted at \$299,981,777 (87.3%) percent of the General Fund's current operating expenditures. Although payroll costs are the District's largest expenditure, utility costs make up the next largest fixed cost and are included in the Maintenance and Operations expense category. Therefore, between payroll and other fixed costs, almost 91% of the expenditures of the District are tied up in fixed expenditures. All Texas districts face the same issue: how to stretch flexible costs to meet growing facility maintenance and renovation needs.

FINANCIAL

General Fund – Fund Balance

Clear Creek is located along the Texas Gulf Coast – a region that is susceptible to hurricanes and strong tropical storms. As a result, it is vital for the district to maintain a source of funds to cover emergencies. The District now has an undesignated reserve (\$58 million) which equates to slightly more than two months of current operating expenses (\$57 million).

The Board of Trustees set fund balance objectives in policy CE (Local) to reflect the need to keep undesignated fund balance at a minimum of two months of operating expenses. As a result of this policy, the District ended FY 2016-17 with a total fund balance of \$62.1 million which includes an unassigned fund balance of approximately \$58.3 million. In 2017, two months of operating expenditures in the General Fund were right at \$52.8 million.

Special Revenue Funds

Special Revenue Funds are governmental funds used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds utilize the modified accrual basis of accounting. Activities included within these funds are as follows:

Note: This is not an exhaustive list of special revenue funds.

Fund 211 - ESEA, Title I, Part A Improving Basic Programs – Funds allocated to local educational agencies to enable schools to provide opportunities for children served to acquire the knowledge and skills contained in the challenging State content standards and to meet the challenging State performance standards developed for all children.

Fund 224 - IDEA B, Formula – Funds granted to operate educational programs for children with disabilities. This fund classification includes capacity building and improvement.

Fund 225 - IDEA B, Preschool – Funds granted for preschool children with disabilities.

Fund 244 - Vocational Regular Basic Grant – Funds granted to provide career and technology education to develop new and/or improve career and technology education programs for paid and unpaid employment. Full participation in basic grant is from individuals who are members of special populations, at 1) a limited number of campuses (sites) or 2) a limited number of program areas.

Fund 255 - Title II, Part A: Teacher and Principal Training and Recruiting

- Funds granted to (1) Increase student academic achievement through improving teacher and principal quality and increasing the number of highly qualified teachers in classrooms and highly qualified principals and assistant principals in schools, and (2) hold local education agencies and schools accountable for improving student academic achievement.

Fund 263 - Title III, Part A - English Language Acquisition and Language Enhancement – Funds granted to improve the education of limited English proficient children, by assisting the children to learn English and meet challenging State academic content and student academic achievement standards.

Fund 410 – State Textbook Fund – Funds awarded to school districts under the textbook allotment.

Fund 435 – Shared Service Arrangement – Regional Day School for the Deaf (state)

-Funds allocated for staff and activities of the Regional Day School Program for the Deaf.

Fund 458 – Shared Service Arrangement – Regional Day School for the Deaf (local)

-Funds received from shared service arrangement among ten area school districts to provide a regional day school program for students who have an auditory impairment.

Fund 461 – Campus Activity – Funds received from campus based initiatives.

Special Revenue Funds Revenues

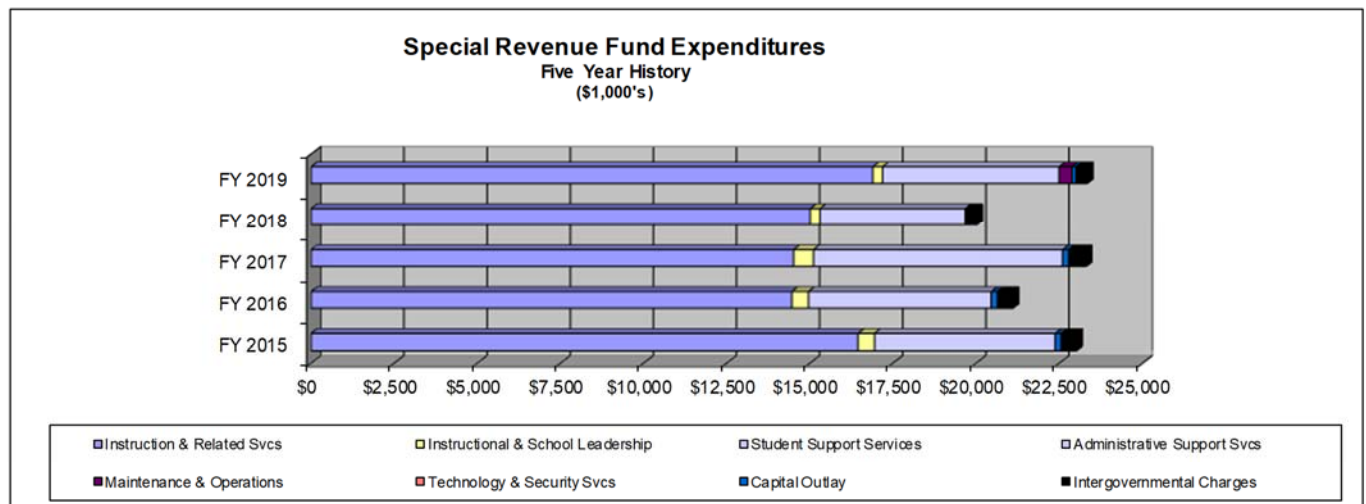

Clear Creek's Special Revenue Funds have remained relatively stable since FY 2014-15. However, several funds within the Special Revenue Funds will see increases this year including: Federally Funded Special Revenue (\$1.6 Million), IDEA B (\$.7 million) and Campus Activity Funds (\$.6 million). The overall increase in the Special Revenues Funds for FY 2018-19 is 16.6 %.

Special Revenue Fund Expenditures

Special Revenue Fund expenditures increased in tandem with revenues. The largest increase was in Instruction and Instructional Related Costs (\$1.8 million or 13%). This is mainly due to the increases in special revenue funds mentioned above.

It is important to note that 72% of all expenditures in the Special Revenue Fund are found in the Instruction & Instructional Related category. This shows Clear Creek's commitment to direct its budget funds to the classroom.

Special Revenue Funds - Expenditures (\$1,000's)

Special Revenue Fund – Fund Balance

The Fund Balance in the Special Revenue funds was \$3.6 million at the end of FY 2016-17. Most federal funds require any unused balances be returned to the grantor at the close of specified project periods. Therefore, most of the funds in the Fund Balance are the result of balances in the Campus Activity funds. It is not anticipated that there will be a significant change in the Special Revenue Fund Balance over the coming year.

Debt Service Funds

Debt Service Funds

A debt service fund is a governmental fund, with budgetary control, that must be used to account for general long-term debt principal and interest for debt issues and other long-term debts for which a tax has been dedicated. A separate bank account must be kept for this fund. Principal and interest payments for operating indebtedness including warrants, notes, and short-term lease-purchase agreements, are to be made from the fund for which the debt was incurred. This fund utilizes the modified accrual basis of accounting.

Clear Creek has a relatively modest debt service tax rate of 36 cents. This debt tax rate remained steady at 32 cents for several years in order to pay for taxpayer approved bond programs. With the passage of the 2013 Bond Program the District increased the tax rate by four cents to cover the increased debt payments. It was estimated that with the passage of the 2013 bond issue that the maximum tax rate would reach 40.5 cents (an 8.5 cent tax increase from the 2012 rate). However, due to rising local property values, the District was able to hold the debt tax rate at 36 cents in 2017-18.

For 2018-19 the District will reduce the the debt service tax rate by two cents from 36 cents to 34 cents for one year. The tax rate in the M&O will increase by two cents. Section 26.08(a) of the Tax Code states: "...When increased expenditure of money by a school district is necessary to respond to a disaster, ...that has impacted a school district and the governor has requested federal disaster assistance..., an election is not required...by the governing body for the year following the year in which the disaster occurs." The tax code allows school districts to increase the M&O tax rate for one year without a tax ratification election.

Debt service tax rates have remained low for several reasons. First, the District's tax base has grown by 30% in the last five years with the largest increase between 2015 and 2016. Property values did rise by 3% in the last year. The FY 2018-19 budget will not need to use fund balance to fund the debt service.

Interest rates have been at historicly low levels which has led to bond sales at extremely favorable rates. This has allowed the District to keep interest payments low on new debt.

Tax Supported Debt Limitation

Chapter 45 of the Texas Education Code, as amended, requires a district to demonstrate to the Texas Attorney General that it has the prospective ability to pay debt service on a proposed issue of bonds, together with debt service on other outstanding new debt of the district, from a tax levied at a rate of \$0.50 per \$100 of assessed valuation before bonds may be issued. In demonstrating the ability to pay debt service at a rate of \$0.50, a district may take into account State allotments to the district which effectively reduces the district's local share of debt service. Once the prospective ability to pay such tax has been shown and the bonds are issued, a district may levy an unlimited tax to pay debt service. The District has \$942,950,000 in outstanding bonds. The District's total current debt service requirement is \$1,394,047,413 which is covered with a \$0.34 cent tax rate. At a \$0.50 cent tax rate ceiling, the District's total debt ceiling is \$2,453,410,964. Looking ahead ten years, the District will be able to meet its long range facility requirements and stay well below the 50 cent tax limitation.

FINANCIAL

Debt Issues

A \$183.1 million bond election was held on May 12, 2007. Voters approved this bond proposition by the largest margin in Clear Creek's long history. Over 72% of voters were in favor of the projects included in the bond proposition. It included funding for new schools, capital additions, roofs, and school buses. The District has sold all of its authorized bonds.

A \$367 million bond election was held May 11, 2013. Over 68% of voters approved this bond referendum which includes funding for rebuilding and improving 40+ year old schools, improvements or enrollment growth, construction and expansion of co-curricular and extracurricular facilities, and improvements to wireless infrastructure and technology. Clear Creek ISD has sold the bonds as follows: \$200 million in December of 2013 and \$100 million in July of 2014. The final \$67 million was sold in April of 2015.

A \$487 million bond election was held May 6, 2017. Voters approved this bond referendum which includes funds to build new or rebuild schools, replace portables with permanent additions, renovate aging schools, and improve school and bus safety through purchase of surveillance equipment and buses. \$155 million in bonds were sold in February of 2018 with the remaining bonds to be sold at future dates.

Debt Policy

Policy CCA (Regulation) describes Clear Creek ISD's Debt Management Policy. The District's debt portfolio may be comprised of three types of debt: 1.) traditional fixed rate debt, 2.) variable rate debt and 3.) synthetic debt structures. In general, the District may issue debt obligations to fund capital improvements within the District or to refinance the District's debt obligations. Permitted capital improvements include: land purchases for school facilities, construction of school facilities, renovation of school facilities, school buses, refund outstanding debt obligations, fund a payment associated with the termination of a synthetic debt structure or any other purpose legally available to the District pursuant to state law. In no circumstance shall the District amortize its debt obligations for a time period longer than the expected useful life of such project being financed.

Bond Ratings

The District's bonds are rated Aaa by Moody's Rating Services and AAA by Fitch by virtue of the Permanent School Fund of the State of Texas. An underlying rating of Aa2 has been assigned by Moody's and AA+ by Fitch.

Debt Service Fund Revenues

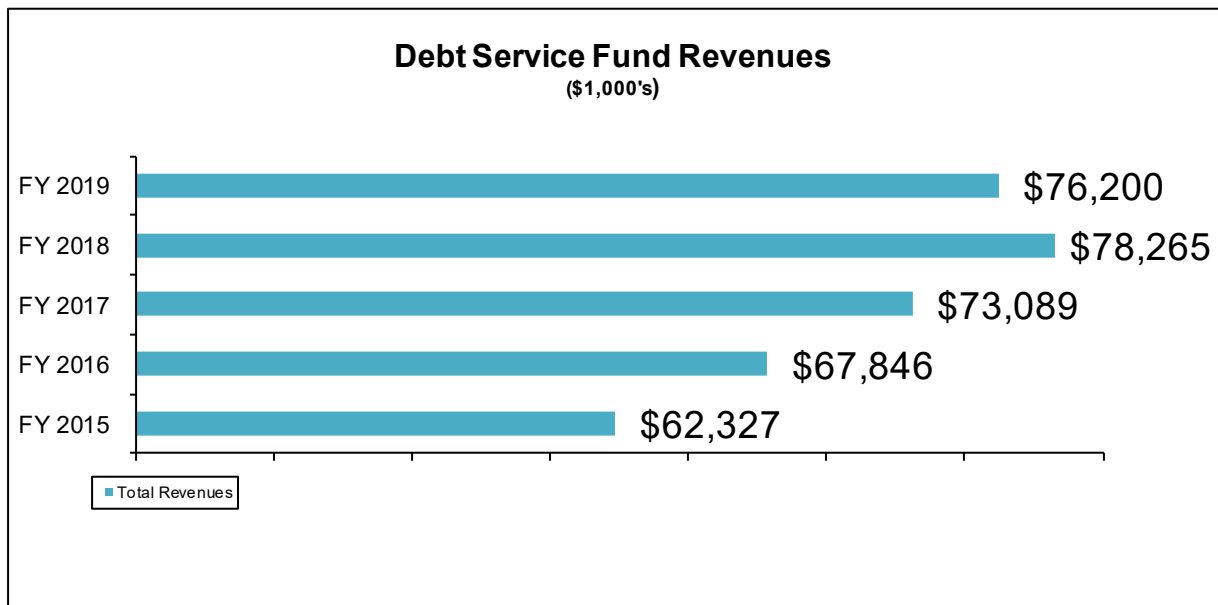

Debt Service Fund revenues have grown steadily over the past five years. However, local revenues are projected to decrease by \$2 million in FY 2018-19 as a result of the two cent reduction in the debt service tax rate from \$0.36 to \$0.34. State revenue remained comparable to the prior year. Other than this homestead exemption funding, the District does not qualify for any state funding to cover debt service payments.

FINANCIAL

Debt Service Fund Expenditures

Debt Service Fund expenditures have increased 20% over the last five years. This is due to the issuance of \$367 million in bonds which occurred in late 2013 through April of 2015 and \$155 million in bonds in 2018 as noted above.

Expenditures in this fund are projected to increase by \$1.9 million due to increased principal and interest payments from the first sale of bonds from Bonds 2017 projects.

In order to pay the interest and principal on these bond sales, the Debt Service tax rate was increased by four (4.0) cents in 2013. The Debt Service tax rate increased from thirty-two (32.0) cents to thirty four (36.0) cents in 2013 and will reduce by two cents in 2018 as explained above.

Debt Service Fund Balance

As of August 31, 2018 the projected fund balance will be approximately \$17.7 million, or 24% of projected annual debt service payments. This exceeds the District's goal to maintain a fund balance of 10% of estimated annual payments. This surplus will be used to help offset future increases related to Bonds 2017 bond payments.

Capital Projects Funds

Capital Projects Funds

A Capital Projects Fund is a governmental fund that must be used to account, on a project basis, for projects financed by the proceeds from bond issues, or for capital projects otherwise mandated to be accounted for in this fund. The Capital Projects Fund utilizes the modified accrual basis of accounting. The fund codes used to designate the Capital Projects Funds are between 600-699.

Capital Projects History

The District has experienced tremendous enrollment growth that has created the need for additional classroom space. From time to time, the District asks taxpayers to approve bond issues to provide for this growth. Taxpayers have approved over \$1 billion in bond programs over the last eleven years to help the District manage enrollment growth.

In 2007 the District passed a \$183.1 million bond issue to further meet the needs of enrollment growth. The focus of this bond issue was on the construction of new educational facilities. This bond included a new 2,500 student high school, a 1,200 student intermediate school, two 900 student elementary schools and the conversion of two high school ninth grade centers to intermediate campuses. In addition, the bonds included the purchase of \$6 million in buses, science classrooms in the high schools, and major roof and air conditioning replacements.

In 2013 the District passed a \$367 million bond issue that has touched all CCISD schools and eight support facilities in some capacity. A complete listing of bond projects can be found in the Informational Section of this book. In general, the bonds will:

- Rebuild or improve all 40+ year old schools
- Address student safety, security systems, repairs and enrollment growth
- Construct or expand co-curricular and extracurricular facilities for growth in programs
- Improve wireless infrastructure and access to technology for 21st century learning

In May of 2017, a \$487 million bond issue was approved. These funds will be used to build new schools, rebuild schools, replace portables with permanent additions, renovate aging schools to bring them up to today's standards, and improve school and bus safety through the purchase of surveillance equipment and buses. A complete listing of bond projects can be found in the Informational Section of this book.

Operating Costs

The operating costs of new or renovated facilities, once completed, impacts the General Fund. Generally, the addition of 1,000 square feet of school space results in an annual increase in utilities (electricity & natural gas) of \$1,200 and added custodial labor and supplies of up to \$1,500. Many of the District's capital projects are renovations or replacements of older facilities. These projects have very little or no negative impact to the operating budget of the District. Newer facilities are designed to be more efficient in terms of maintenance and utilities. Due to better technology and design, the District's newer facilities average close to \$1.00 per square foot in utility cost. Older facilities can cost over \$1.50 per square foot. Property and casualty insurance is one expense that has skyrocketed over the past few years. The cost to insure new

facilities can be approximately 50 cents per square foot. Since the new campuses were completed in FY 2009-10, there have been no new campus openings. However, the District has completed some major projects which provide for additional square footage. These projects which will be completed in the fall of 2018 include the addition of classrooms and Fine Arts rooms at Brookside Intermediate and Fine Arts classrooms at League City Intermediate.

In early 2011 the District received grants to purchase 11 buses that run on compressed natural gas and additional funding to retrofit 44 of the District's current bus fleet with compressed natural gas engines. The savings from using CNG buses versus diesel fueled buses is approximately \$0.32 per mile. The savings are estimated at \$250,000 per year. The District has also purchased 28 propane buses through grant and capital funds. The savings from using Propane buses versus diesel fueled buses is approximately \$60,000 per year.

Impact of the Capital Improvement Fund on the FY 2019 Budget

Project	Square Feet	Salary & Benefits	Utilities	Insurance	Other	Total
League City Int-Fine Arts Addition	1,874	937	2,249	816	562	4,564
Brookside Int-Fine Arts Addition	2,198	1,099	2,638	957	659	5,353
Brookside Int-Classroom Addition	15,454	3,864	9,272	6,732	4,636	24,504
Total	19,526	\$ 5,900	\$ 14,159	\$ 8,506	\$ 5,858	\$ 34,422

Long Range Facilities Planning

The Clear Creek Independent School District Board of Trustees established a citizens committee in October 2016 to recommend a list of prioritized capital projects that will meet the District's growth and replacement needs over the next 3-5 years. This limited purpose committee met with staff, architects, engineers, and demographers in order to evaluate the District's long-term course for the addition, renovation and replacement of instructional facilities, support facilities, major mechanical systems, technology, and transportation. The Committee started with a list of \$1.2 billion worth of needs assessments and narrowed it to \$487 million in facility needs. Additional information on these identified facility needs is included in the Informational Section of this document.

Long Range Financial Planning

To meet the financial needs of a fast growth district, staff prepares an annual five-year financial plan that includes the facility assumptions developed by the facilities committee. The financial plan includes staffing and operational increases for new facilities. Staff also projects the long-range impact of bond issues to fund facility growth. In their totality, these plans truly give the District a facility and financial road map to meet the challenge of growth.

FINANCIAL

Capital Projects Funds Revenues

Interest rates have been steady over the last five years which has resulted in steady balances in interest income. The District invests bond proceeds as they are received and interest revenue is booked into the capital projects funds accounts. Districts can use this interest income to either fund additional capital projects or refund bonds. Since Clear Creek has many capital needs, the Board allocates interest revenue for additional capital projects.

Other Resources in the Capital Fund represents funding from the sale of bonds from the 2017 Bonds that were approved by voters in 2017. The first sale of these bonds came in the FY 2017-18 year.

FINANCIAL

Capital Project Fund Expenditures

Expenditures in the Capital Projects Fund will rise this year as the District continues work on new projects approved with Bonds 2017 as well as continues work on the remaining projects approved in the 2013 Bond Issue. In addition, in FY 2018-19 the District will continue to finalize the Clear Lake High School project funded through the 2007 Bond Issue as well as projects funded through the funds transferred over the past several years from the General Fund for special capital projects. The following is a description of the non-routine capital projects planned in the FY 2018-19 Capital Projects Fund budget.

FINANCIAL

Capital Fund Balance

As of August 31, 2017, the fund balance in the Capital Fund was \$63.8 million. This balance is projected to increase by \$102 million in FY 2017-18 and FY 2018-19 due to bond proceeds from Bonds 2017 and various projects underway that will take place over the course of the next four to five years.

Current Voter Approved Bond Programs

Voter authorized bond programs have given the District the ability to meet enrollment growth over the last nine years. A listing of the projects in bond programs that are currently under way is provided below. Projects in the 2007 Bond Program are virtually complete with only one minor project closeout issues remaining to be finalized as shown above.

Capital Projects		
Description	Projects	Funding
2007 BOND ISSUE		
New Schools	New High School (1) New Intermediate School (1) New Elementary Schools (2)	\$155,313,417
Campus Conversions	Convert 9 th Grade Centers to Intermediate Schools (2)	7,508,259
Capital Improvements & Replacements	Roofs, Major Mechanical Systems, Security Systems, School Bus Replacement	20,400,565
Total		\$183,222,241
2013 BOND ISSUE		
Rebuild and Improve 40+ Year old Schools	High School Rebuild (1) High School Rebuild Completion (1) Intermediate School Improvement (1) Elementary School Rebuild (1)	\$182,000,000
Safety, Priority Repairs & Growth	High School Expansion (1) Intermediate Addition (1) Elementary Addition (1) High Schools-Build 3 rd Gyms (2) Musical Instruments Replacements Safety Upgrades and Priority Repairs to Various Campuses Replace 40 school buses Replace emergency communications equipment	\$91,000,000
Instructional Technology	Improve wireless access in classrooms Provide projectors and whiteboards Student and teacher tablet computers Replace 6-8 year old computer labs and desktops	\$45,000,000
Co-Curricular and Extracurricular	Second District Stadium Veterans Memorial Stadium Repairs Expansion of Westside Agriculture Center New facility-Eastside Agriculture Center	\$49,000,000
Total		\$367,000,000

Enterprise Funds

Enterprise Funds

An enterprise fund is a proprietary fund that must be used to account for the District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods and services of those activities. The District's Enterprise Funds are the National Breakfast and Lunch Program (Child Nutrition Program), Athletic Concessions and District Advertising.

Child Nutrition Program

The Child Nutrition Program is an extremely large operation at Clear Creek School District. This is a budgeted fund and it must be formally adopted by the Board of Trustees.

The program serves more than 4.6 million meals every year (over 30,000 every day). The program is funded through several sources. One source of income is the revenue derived from the sale of breakfast and lunch to children and employees of the District. In the 2018–2019 budget, food sales of \$10.6 million is projected.

The second largest source of income comes from reimbursements from the federal government through the National School Lunch Program. This represents reimbursements from the Federal government for free or reduced-price meals for the District's most disadvantaged students. This amounts to \$4.5 million. The District also receives a small level of funding from the State.

On the expenditure side, the real cost of running this operation can be found in food costs. While personnel requirements are great, the cost of labor is small when compared to the cost of food. The increase in expenditures in this budget is due to a combination of enrollment growth and the 2% salary increase for employees.

Our Child Nutrition Fund accounts for just over \$15.2 million in revenue and expenses every year. Since enrollment is increasing, it is expected that the size of this program will grow as well.

Athletic Concessions

Athletic concessions represent a very small, but a very important piece of our Enterprise Fund. Revenue from this source accounts for \$230,000. For a District with a total General Fund budget of over \$343 million, it almost seems insignificant; however, this fund is crucial for the athletic program and serves a vital purpose in the district.

District Advertising

2018-19 marks the ninth year for the district advertising fund. The Community Education Partner Program is CCISD's advertising and marketing effort. The advertising program is designed to generate revenue to offset State cuts for public education. CCISD offers web, bus and stadium advertising. It is anticipated that the district will collect \$581,000 for this ninth-year program.

Internal Service Funds

Internal Service Funds

An internal service fund is a proprietary fund that must be used for services provided to organizations inside the District on a cost reimbursement basis. The District's Internal Service Funds are the District's dental, workers' compensation, disability self-insurance plans and property insurance.

Health Insurance Fund

This fund is used to manage the District's self-funded health insurance programs which includes a dental plan. This program is funded through both employee and district contributions. The health plan was in poor financial condition midway through the FY 2009-10 fiscal year and the District's Employee Benefits Committee, a committee of teachers and staff, proposed a move away from the self-funded health plan to the State of Texas Teacher Retirement System health plan effective January 1, 2011. This has saved employees and the District millions of dollars in premium costs. The self-funded dental plan remains in place.

Worker's Compensation Fund

The District also has a self-funded workers compensation program. Premiums and expenditures for this program are accounted for in this fund. This is a district funded plan and in order to keep costs low, the District has developed a proactive employee safety program. As a result, the District has an excellent safety record and consequently very low workers compensation claims. Reserves are very healthy in this fund as well.

Disability Insurance Fund

This fund is in place to handle the District's self-funded long-term disability plan. This plan is also entirely funded through district contributions. Employees are offered the option, at their own expense, to obtain short term disability insurance through a district approved insurance carrier.

Supporting Financial Schedules

Combined Statement of General Fund Expenditures

Detail by Function and Object Code

The Combined Statement of Expenditures by Function and Object Code shown on the following pages expands upon the expenditures portion of the Combined Statement of Revenues, Expenditures and Changes in Fund Balance shown on page 69. Expenditures are broken down to the Function Code and major Object Code level.

The **Function Code** is a mandatory 2-digit code applied to expenditures that identifies the purpose of the transaction. The first digit identifies the major class and the second digit refers to the specific function within the area. Example: The function "Health Service" is coded 33. The first 3 specifies Support Services - Student (Pupil) and the second 3 is Health Services.

The **Object Code** is a mandatory 4-digit code identifying the nature and object of an account, a transaction or a source. The first of the four digits identifies the type of account or transaction, the second digit identifies the major area, and the third and fourth digits provide further sub-classifications. Example: Money received for current year taxes is classified in account 5711. The 5 denotes revenue, the 7 shows Local and Intermediate Sources, the 1 denotes local real and personal property taxes revenue and the final 1 specifies current year levy.

Overview of Account Codes

Section 44.007 of the Texas Education Code (Code or TEC) requires that a standard school district fiscal accounting system be adopted by each school district. The system must meet at least the minimum requirements prescribed by the State Board of Education and also be subject to review and comment by the state auditor. Additionally, the accounting system must conform to Generally Accepted Accounting Principles (GAAP). This section further requires that a report be provided at the time that the school district budget is filed, showing financial information sufficient to enable the state board of education to monitor the funding process and to determine educational system costs by school district, campus and program.

The Texas Education Code, Section 44.008, requires each school district to have an annual independent audit conducted that meets the minimum requirements of the State Board of Education, subject to review and comment by the State Auditor. The annual audit must include the performance of certain audit procedures for the purpose of reviewing the accuracy of the fiscal information provided by the district through the Public Education Information Management System (PEIMS). The audit procedures are to be adequate to detect material errors in the school district's fiscal data to be reported through the PEIMS system for the fiscal period under audit.

A major purpose of the following accounting code structure is to establish the standard school district fiscal accounting system required by law. Although certain codes within the overview may be used at local option, the sequence of the codes within the structure, and the funds and chart of accounts, are to be uniformly used by all school districts in accordance with generally accepted accounting principles.

ACCOUNT CODE STRUCTURE

X X X	X	X X	X X X	X X	X X X	X X X X	X X
Fund Code	Year Code	Function Code	Organization Code	Program Intent Code	Local Option Code	Object Code	Sub-Object Code
(1xx-9xx) Account Groups (9xx)	(0-9)	(11-99)	(001-999)	(11-99)	(xxx)	Assets (1xxx) Liabilities (2xxx) Fund Equity (3xxx) Clearing Accounts (4xxx) Revenues/Income (5xxx) Expenditures/Expenses (6xxx) Other Resources/Non Operating Revenues/Residual Equity Transfers In (7xxx) Other Uses/Non Operating Expenses/Residual Equity Transfers Out(8xxx)	(xx)

BASIC SYSTEM CODE COMPOSITION

Fund Code

The fund code is a mandatory 3-digit code to be used for all financial transactions to identify the fund group and specific fund. The first digit refers to the fund group, and the second and third digit specifies the fund. Example: A Special Revenue Fund could be coded 211. The 2 indicates the Special Revenue Fund, the 11 specifies ESEA, Title I, Part A - Improving Basic Programs.

Fund	Title
100	General Fund 100-199 All General Funds
200/300/400	Special Revenue Funds 200-289 Federal Programs 290-379 Shared Services Arrangements - Federally Funded 380-429 State Programs 430-459 Shared Services Arrangements - State/Local Funded 460-499 Local Programs
500	Debt Service Funds 500-599 All Debt Service Funds
600	Capital Projects Funds 600-699 All Capital Project Funds
700	Proprietary Fund Types 700-749 Enterprise Funds 750-799 Internal Service Funds
800	Fiduciary Fund Types and Similar Component Units 800-829 Trust Funds 830-849 Investment Trust Funds 850-859 Pension Trust Funds 860-899 Agency Funds
900	General Capital Assets and General Long-Term Debt Account Groups 901 General Capital Assets Account Group 902 General Long-Term Debt Account Group

Fiscal Year Code

The fiscal year code is a mandatory single digit code that identifies the fiscal year of the transaction or the project year of inception of a grant project. Example: For the 18-19 fiscal year of the school district, an 9 would denote the fiscal year.

Function Code

The function code is a mandatory 2-digit code applied to expenditures/expenses that identifies the purpose of the transaction. The first digit identifies the major class and the second digit refers to the specific function within the area. Example: The function Health Service is coded 33. The first 3 specifies Support Services - Student (Pupil) and the second 3 is Health Services.

Function	Title
10	Instruction and Instructional Related Services (provide direct interaction between staff and students to achieve learning)
	11 Instruction
	12 Instructional Resources and Media Services
	13 Curriculum Development and Instructional Staff Development
20	Instructional and School Leadership (leadership of staff who are providing instructional related services)
	21 Instructional Leadership
	23 School Leadership
30	Support Services (Pupil) (directly supports students)
	31 Guidance, Counseling and Evaluation Services
	32 Social Work Services
	33 Health Services
	34 Student (Pupil) Transportation
	35 Food Services
	36 Extracurricular Activities
40	Administrative Support Services (general administrative support services)
	41 General Administration
50	Support Services - Non-student Based (used to support district support services)
	51 Facilities Maintenance and Operations
	52 Security and Monitoring Services
	53 Data Processing Services
60	Ancillary Services (support services supplemental to the operation of the district)
	61 Community Services
70	Debt Service (payment of debt principal and interest)
	71 Debt Service
80	Capital Outlay (acquisition, construction or major renovation of district facilities)
	81 Facilities Acquisition and Construction
90	Intergovernmental Charges (transfer of resources to another governmental unit)
	91 Contracted Instructional Services Between Public Schools
	93 Payments to Fiscal Agent/Member Districts of Shared Services Arrangements
	95 Payments to Juvenile Justice Alternative Education Programs
	97 Payments to Tax Increment Fund
	99 Other Intergovernmental Charges

Organization Code

The organization code is a mandatory 3-digit code identifying the organization, i.e., High School, Middle School, Elementary School, Superintendent's office, etc. An organization code does not necessarily correspond with a physical location. The activity, not the location, defines the organization. Campuses are examples of organization codes and are specified for each school district in the Texas School Directory. Example: Expenditures for a high school might be classified as 001. This is a campus organization code that is defined in the Texas School Directory for that high school.

Organization

001-699
700
800-997
998-999

Title

Organization Units - Campuses
Organization Units - Administrative
Organization Units - Locally Defined
Unallocated/Undistributed Organization Unit - Local Option

Program Intent Code

The program intent code is a 2-digit code used to designate the intent of a program provided to students. These codes are used to account for the cost of instruction and other services that are directed toward a particular need of a specific set of students. The intent (the student group toward which the instructional or other service is directed) determines the program intent code, not the demographic makeup of the students served. Example: An entire class of physics is taught at the basic level. Program intent code 11 would designate Basic Educational Services.

Local Option Codes 1

The local option code is a 2-digit code for optional use to provide special accountability at the local level.

Object Code

The object code is a mandatory 4-digit code identifying the nature and object of an account, a transaction or a source. The first of the four digits identifies the type of account or transaction, the second digit identifies the major area, and the third and fourth digits provide further sub-classifications. Example: Money received for current year taxes is classified in account 5711. The 5 denotes revenue, the 7 shows Local and Intermediate Sources, the 1 denotes local real and personal property taxes revenue and the final 1 specifies current year levy.

FINANCIAL

The following summarizes the major categories of operating revenue codes.

5700 LOCAL & INTERMEDIATE SOURCES

5711	Current Taxes
5713	Delinquent Taxes
5719	Penalties, Interest & Other Taxes
5722	Shared Service Arrangements
5737	Services to Other Districts
5739	Tuition & Fees
5742	Interest
5743	Facility & Equipment Rentals
5746	T.I.F.
5749	Other Local Revenues
5752	Gate Receipts
5769	Other Intermediate Sources

5800 STATE PROGRAM REVENUES

5811	Available School Fund
5812	Foundation School Fund
5829	Other State Revenue
5831	TRS On-Behalf

5900 FEDERAL PROGRAM REVENUES

5920	Indirect Costs
5931	School Health & Related Services
5941	Impact Aide
5949	ROTC

The following summarizes the major categories of operating expenditure codes.

6100 PAYROLL COSTS

6110	Teachers and Other Professional Personnel
6120	Support Personnel
6130	Employee Allowances
6140	Employee Benefits

6200 PROFESSIONAL AND CONTRACTED SERVICES

6210	Professional Services
6220	Tuition and Transfer Payments
6230	Education Service Centers
6240	Contracted Maintenance and Repair Services
6250	Utilities
6260	Rentals – Operating Leases
6290	Miscellaneous Contracted Services

6300 SUPPLIES AND MATERIALS

6310	Supplies and Materials for Maintenance and/or Operations
6320	Textbooks and Other Reading Materials
6330	Testing Materials
6340	Food Service and Other Resale Items
6390	Supplies and Materials – General

6400 OTHER OPERATING EXPENDITURES

6410	Travel
6420	Insurance and Bonding Costs
6430	Election Costs
6440	Depreciation Expenditures
6490	Miscellaneous Operating Costs

6500 DEBT SERVICE

6510	Debt Principal
6520	Interest Expenditures
6590	Other Debt Service Expenditures

6600 CAPITAL OUTLAY – LAND, BUILDINGS AND EQUIPMENT

6610	Land Purchase and Improvement
6620	Building Purchase, Construction or Improvement
6630	Furniture and Equipment
6640	Fixed Assets – District Defined
6650	Fixed Assets Under Capital Leases

Sub-Object Code

The sub-object code is an optional 2-digit code that may be used by the district to further describe the transaction.

OTHER DISCLOSURES

District Goals and Objectives

The funding required by the District's goals has been included throughout the District budget in various funds.

Post-Employment Benefits

The District does not provide post-employment healthcare benefits except those mandated by Consolidated Omnibus Budget Reconciliation Act ("COBRA"). The requirements established by COBRA are fully funded by employees who elect coverage under the act, and no direct costs are incurred by the District. Therefore, there is no accrued obligation recorded in the District's financial statements.

Fund Balance

Beginning with fiscal year 2011, the District implemented GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

Non-spendable Fund Balance - Amounts that are not in spendable form or are required to be maintained intact. As such, the inventory and prepaid items have been properly classified as Non-spendable Fund Balance.

Restricted Fund Balance - Amounts that can be spent only for specific purposes because of local, state or federal laws, or externally imposed conditions by grantors or creditors. The fund balances for grant funds are classified as restricted as is the fund balance in the Debt Service Fund.

FINANCIAL

Committed Fund Balance - Amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e. the Board of Trustees). To be reported as committed, amounts cannot be used for any other purposes unless the District takes the same highest level of action to remove or change the constraint. The District commits fund balance in the General Fund to set aside funds for disaster recoveries and special education residential treatments requirements. Fund balances in Capital Projects Funds are also committed.

Assigned fund balance - Amounts the District intends to use for a specific purpose. Intent can be expressed by the District or by an official or body to which the Board of Trustees delegates the authority. The District assigns fund balance for amounts encumbered on purchase orders.

Instructional Division and Campuses Strategies, Performance Objectives and Outcomes FY 2018-19

ACTION PLAN

Strategy Number: I
Plan Number: I.1

STRATEGY: We will inspire learning through an array of personalized opportunities and experiences.		
SPECIFIC RESULT: Experiences that support student choice and personalized learning.		
VISION FOR THIS SPECIFIC RESULT: In CCISD personalized learning is empowering learners to take ownership and responsibility for their academic and personal success. We consider each learner's strengths, needs, and aspirations and provide options for choice in how, when, and where they learn. Learners have flexibility in how they access information, process content, and demonstrate their mastery of the highest standards.		
CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Teachers and students understand what is to be learned (learning standards) and the various processes to get there. Students, in collaboration with teachers, set goals, make decisions how, when, and where to learn, track progress, and revise goals once met. This process is repeated until mastery of the standard has been achieved. Teachers offer a wide variety of processes for students to learn. Students are in a rigorous and supportive classroom environment.		
ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Identify learner need to address based on review of student performance data.	Principal, Instructional Coach, Teacher	Aug 2018-June 2019
2. Define the purpose of personalized learning in the context of student performance data.	Principal, Instructional Coach, Teacher	Aug – Sept 2018
3. Examine teacher competencies. Facilitate discussions with teachers to determine their individual baseline for learning.	Principal, Instructional Coach	Aug – Sept 2018
4. Review district level data to look at trends to plan professional learning for campus staff.	Exec Dir PL, Principal, Exec Dir of Assess & Eval	Aug – Sept 2018
5. Create SMART (Specific, Measurable, Attainable, Results-based, Time-bound) goals for teacher learning and change in practice based on teacher competencies.	Principal, Instructional Coach	Sept 2018, ongoing
6. Create SMART (Specific, Measurable, Attainable, Results-based, Time-bound) goals for student agency and performance.	Principal, Instructional Coach	Sept 2018, ongoing
7. Create communities of practice focused on resolving the questions about the different approaches and models for building student agency.	Principal	Sept – Oct 2018, ongoing
8. Develop learning agenda to introduce all campus staff to the different approaches and models for building student agency.	Principal	Sept – Oct 2018, ongoing
9. Define student and teacher experience.	Principal	Oct 2018
10. Identify problem of practice to solve using these strategies.	Principal, Instructional Coach, Teacher	Oct 2018
11. Implement personalized learning practices	Teacher	Ongoing
12. Implement Measures of Academic Progress (MAP) at designated schools.	Exec Dir PL	Oct 2018, May 2019
13. Monitor classroom practices and student performance data.	Asst. Supt., Principal, Instructional Coach, Teacher	Ongoing
14. Design a system to recognize/celebrate successes of personalized learning	Principal	Oct – Nov 2018
15. Adjust based on data trends	Principal, Instructional Coach, Teacher	Jan 2019

Outcome: MAP school performance at designated schools at or above national median.
Year to be completed: 2021

FINANCIAL

ACTION PLAN

Strategy Number: I
Plan Number: I.2

STRATEGY: We will inspire learning through an array of personalized opportunities and experiences.		
SPECIFIC RESULT: A comprehensive system to empower each student to set and achieve goals providing for varied pathways to success.		
VISION FOR THIS SPECIFIC RESULT: CCISD students are self-directed and self-motivated learners that value goal setting processes to achieve academic and behavioral success. Teachers design or co-create with each student, various pathways to support individual needs of students to lead to academic success.		
CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Teachers and students understand what is to be learned, and work together to identify appropriate goals and a plan for achieving each goal. This is a cyclical process, and as goals are reached, new ones are set. Teachers support students to learn to create their own goals, and help them to learn how to incrementally accomplish goals to reach mastery of standards. Teachers help students understand themselves and encourage them to have an awareness of how they learn best. Students are encouraged to created their pathway, which may differ from their peers, to achieve each academic and behavioral goal.		
ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Define sustainable goal setting in CCISD to encourage student agency through ongoing goal setting and attainment.	Exec Dir of C&I, Asst Supt Elem, Asst Supt Sec, Dep Supt C&I	Sept. 2018
2. Develop district resources to support goal setting and attainment such as Standards-Based Grading, Learning Progressions, Blended Learning, etc.	Asst Supt Elem, Asst Supt Sec, Dep Supt C&I	Ongoing
3. Examine teacher goal setting competencies. Facilitate discussions with teachers to determine their individual baseline for learning.	Exec. Dir of PL, Principal	Sept – Oct 2018
4. Review district level data to look at trends in data to support professional learning for campus staff.	Exec. Dir of Assess & Eval, Exec. Dir of PL	Oct 2018
5. Facilitate a culture of student agency where goal setting by administrators, teachers, and students is publicly shared and encouraged.	Superintendent	Sept 2018 – June 2019
6. Create tools for goal setting such as curriculum resources and online tools.	Exec Dir of C&I	Oct 2018; ongoing
7. Collect data for students utilizing district assessments to help guide students in setting goals.	Exec. Dir of Assess & Eval	Sept 2018; ongoing
8. Evaluate whole group and individual data to notice trends for planning for goal attainment.	Principal, Teacher	Sept 2018; ongoing
9. Share tools used for goal setting with students.	Teacher	Sept 2018; ongoing
10. Meet with students to set individual goals and action plans, considering student strengths and growth areas in planning the pathway.	Teacher	Sept 2018; ongoing
11. Communicate goal setting system and student progress to parents.	Chief Communications Officer, Principal	Nov 2018 – June 2019
12. Create a plan for follow-up, revision, and celebration of goals.	Exec Dir of C&I, Asst Supt Elem, Asst Supt Sec, Principal, Teacher	Sept 2018 - April 2019

Outcome: Teachers indicate they are better informed to meet student needs.
Year to be completed: 2020

ACTION PLAN

Strategy Number: II
Strategy Number II
Plan Number: II.1

STRATEGY II: We will provide support to meet the needs and aspirations of each student.

SPECIFIC RESULT: Student mentorship opportunities at all levels.

VISION FOR THIS SPECIFIC RESULT: Mentoring supports students in knowing that someone cares about them, assures them they are not alone in dealing with day-to-day challenges, and makes them feel connections to their community. Quality mentoring relationships provide positive impact on students in personal, academic, and professional situations.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Students benefit from multiple and varied mentorship opportunities. Students can describe the impact of a mentor on their life. Campuses have multiple partnerships to meet varied needs. District and campus leaders develop community partnerships.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Identify and document existing mentor programs.	Coordinator of Prevention/At-Risk	Aug – Oct 2018
2. Collect feedback and data from students, teachers, parents and mentors on effectiveness of existing programs.	Exec Dir of Assess and Evaluation	Oct 2018 – March 2019
3. Develop recommendations for future improvements and expansions, as practicable.	Exec Dir of Assess and Evaluation	May 2019
4. Expand mentorships from 9 to 15 schools.	Principal, Coordinator of Prevention/At-Risk	Aug 2018 – June 2019

Outcome: Increase formalized mentor programs from 9 schools to 15 schools by June 2019.

Year to be completed: 2020

FINANCIAL

ACTION PLAN

Strategy Number: II
Plan Numbers: II.2

STRATEGY II: We will ensure each student understands and is prepared to assume his or her role as a productive citizen.

SPECIFIC RESULT: A systematic approach for instructional and behavioral supports for each student.

VISION FOR SPECIFIC RESULT(S): Through a comprehensive support system facilitated by committed and caring adults, CCISD ensures each student is successful. Each school adheres to a consistent, systematic approach to support students who struggle through the CCISD Response to Intervention (RtI) and Student Support Teams (SST) Procedures. Each school has an RtI lead who coordinates district procedures that are focused on providing a wide array of interventions. School staff, using systematic data collection, use evidence-based practices to inform academic and behavioral interventions, such as Positive Behavioral Interventions and Supports (PBIS). The RtI and SST process is clear and understandable, documented, and driven by meaningful student performance data.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Teachers share concerns about the academic performance or behavior of any student with the campus RtI lead after implementing Tier 1 practices. The RtI lead is viewed as a resource in intervention, data gathering, and progress monitoring. Teams of teachers meet regularly to review student performance data and propose interventions. Interventions are implemented, data tracked, and results are reported back to RtI/SST. The RtI lead and all teachers understand Tiers I, II, and III and have the capacity to implement all Tiers. Student data is entered into the Skyward RtI module. Principals regularly monitor, at least once each nine-weeks, the progress of students. Teachers consistently gather meaningful student data. Students make academic and behavioral gains as a result of RtI/SST.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Assign an RtI lead for each school	Asst Supt of Elem, Asst Supt of Sec Principal	Aug 2018
2. Provide annual overview training of CCISD RtI/SST procedures for RtI lead	Asst Supt of Elem, Asst Supt of Sec	Aug 2018
3. Provide ongoing professional learning on Tiers I, II, and III	Exec Dir PL	Sept 2018 ongoing
4. Provide annual training on Skyward RtI module	CTO, Director of SDS	Aug 2018
5. Provide all staff training on CCISD RtI/SST procedures	RtI Lead	Sept 2018
6. Schedule RtI/SST meetings at least once each month	Principal, RtI Lead	Sept 2018, ongoing
7. Review student performance data at RtI/SST meetings	RtI Lead, Teacher	Sept 2018, ongoing
8. Plan interventions at RtI/SST meetings	RtI Lead, Teacher	Sept 2018, ongoing
9. Record meeting information in Skyward RtI	RtI Lead, Teacher	Sept 2018, ongoing
10. Implement interventions, monitor progress and gather supporting data	Teacher	Sept 2018, ongoing
11. Expand Positive Behavioral Interventions and Supports (PBIS) at selected schools	Asst Supt of Elem, Asst Supt of Sec	Sept 2018
12. Implement specific improvements based on PBIS Implementation Blueprint	Deputy Supt C&I	Sept 2018 – May 2019
13. Report mid-year student performance by campus	Principal, RtI Lead	Jan 2019
14. Report end-of-year summative student performance by campus	Principal, RtI Lead	June 2019
15. Analyze campus strengths and weaknesses in implementation	Principal	June 2019

Outcomes: Improved achievement for students served through SST. Reductions in violations of Student Code of Conduct at PBIS schools.

Year to be completed: 2019

FINANCIAL

ACTION PLAN

Strategy Number: II
Plan Number: II.3

STRATEGY III: We will provide support to meet the needs and aspirations of each student.

SPECIFIC RESULT: A process to ensure consistent enrichment opportunities for each student.

VISION FOR SPECIFIC RESULT(S): In CCISD every educator leads with the belief that each student possesses unique strengths and abilities. Each student knows he/she has strengths and works to develop and enhance these strengths. Student growth and improvement is tracked and communicated with parents so that parents play an equal role in developing the strengths of their children. District leaders carefully evaluate enrichment programs and determine what is working well, with the goal of expanding opportunities. This evaluation is also focused on the needs and interests of students and their families. Evaluation data is used to develop action plans for multi-year implementation and achievement of the specific result statement.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Students and their parents are well-informed of all opportunities available in CCISD. Teachers know each student as an individual and suggest new opportunities to build on strengths. District and campus staff provide informational meetings and resources so parents are well-informed of opportunities.

ACTION STEP (NUMBER EACH ONE)	PERSON RESPONSIBLE	TIMELINE
1. Evaluate current processes that enrich the abilities and goals of each student	Exec Dir of Assess & Eval	Aug – Oct 2018
2. Develop improvement plans based on evaluation results to ensure consistency	Asst Supt of Elem, Asst Supt of Sec	Oct – Dec 2018
3. Implement expanded enrichment programs through Brookside Science Magnet.	Asst Supt of Sec Deputy Supt C&I	Aug 2018 – June 2019
4. Research additional opportunities to expand Dual Language to League City Elementary School and E-STEM to Hall Elementary School	Asst Supt of Elem , Director of Adv Acad	Oct – Dec 2018
5. Develop implementation plans for expansions	Asst Supt of Elem , Director of Adv Acad	Jan – April 2019
6. Develop professional learning for staff to support implementation	Director of Adv Acad, Exec Dir of Prof Learn	May 2019
7. Implement plans	Asst Supt of Elem, Asst Supt of Sec	June – Aug 2019
8. Monitor implementation plans and make improvements based on review	Asst Supt of Elem, Asst Supt of Sec	Dec 2019

Outcome: Increased student enrichment opportunities.

Year to be completed: 2019

FINANCIAL

ACTION PLAN

Strategy Number: III
Plan Numbers: III.1

STRATEGY III: We will ensure safe and nurturing learning environments.

SPECIFIC RESULT: Mental health/wellness to support student success.

VISION FOR SPECIFIC RESULT(S): An intentional culture of safety permeates every aspect of district and campus activities. Students and staff are empowered to take ownership of, and responsibility for, the safety and security of district visitors, staff, students and property. Safety issues become a natural discussion topic in student and employee meetings. Specific actions are taken annually to enhance school safety.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Employees and students recognize, and proactively eliminate safety hazards as they are encountered. Safety committees are a natural outgrowth of a concern for safety. The districtwide safety committee systematically reviews safety issues and recommends policies and procedures. Over a three-year period, campus safety assessments are completed, recommendations presented, plans to address recommendations, including funding, are presented and implemented.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Convene community safety committee to develop recommendations for enhanced safety.	Superintendent	June – July 2018
2. Present safety recommendations to superintendent and Board of Trustees.	Superintendent	July 2018
3. Develop a budget to fund implementation of safety recommendations.	Dep Supt for Bus & SS	July 2018
4. Implement Year 1 safety recommendations.	Dep Supt for Bus & SS, Director of Facilities	July 2018 – June 2019

Outcome: Year 1 Safety Committee recommendations implemented by June 2019.
Year to be completed: 2019

ACTION PLAN

Strategy Number: III
Plan Numbers: III.2

STRATEGY III: We will ensure safe and nurturing learning environments.

SPECIFIC RESULT: Facility enhancements to support school safety.

VISION FOR SPECIFIC RESULT(S): An intentional culture of safety permeates every aspect of district and campus activities. Students and staff are empowered to take ownership of, and responsibility for, the safety and security of district visitors, staff, students and property. Safety issues become a natural discussion topic in student and employee meetings. Specific actions are taken annually to enhance school safety.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Employees and students recognize, and proactively eliminate safety hazards as they are encountered. Safety committees are a natural outgrowth of a concern for safety. The districtwide safety committee systematically reviews safety issues and recommends policies and procedures. Over a three-year period, campus safety assessments are completed, recommendations presented, plans to address recommendations, including funding, are presented and implemented.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Convene community safety committee to develop recommendations for enhanced safety.	Superintendent	June – July 2018
2. Present safety recommendations to superintendent and Board of Trustees.	Superintendent	July 2018
3. Develop a budget to fund implementation of safety recommendations.	Dep Supt for Bus & SS	July 2018
4. Implement Year 1 safety recommendations.	Dep Supt for Bus & SS, Director of Facilities	July 2018 – June 2019

Outcome: Year 1 Safety Committee recommendations implemented by June 2019.
Year to be completed: 2019

FINANCIAL

ACTION PLAN

Strategy Number: III
Plan Numbers: III.3

STRATEGY III: We will ensure safe and nurturing learning environments.		
SPECIFIC RESULT: Comprehensive, aligned bullying prevention programs/processes PK-12.		
VISION FOR SPECIFIC RESULT: Each student develops Core Values as the foundation of learning and growth. We aspire for each student to be a well-informed, successful learner and a good person. Core Values include trustworthiness, respect, responsibility, fairness, caring, and citizenship. For students to internalize Core Values, students must be consistently taught Core Values by adults in the school. Adults in the school and district are purposeful about lessons taught, words spoken, and classroom/school events planned/implemented. Adults are intentional about the Core Value of Caring and routinely are "kind to others." Adults discuss kindness and empathy and seek opportunities to model these character traits throughout the school community. Bully prevention is closely and clearly connected to Core Values. A deeply aligned system of bullying prevention curriculum is adopted, implemented, and monitored in support of Core Values.		
CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Students and adults will be recognized for demonstrating Core Values. The culture of the school and district reflects accountability for all to demonstrate and exhibit Core Values. Staff consistently reference Core Values in their daily interactions with students. Structures are in place to have daily discussions around Core Values. Students and staff engage in routines, morning meetings, guidance lessons, school wide assemblies, and service learning projects built around Core Values. Student disciplinary practices are based on applying the Core Values for students to learn when behavior expectations are not met. When bullying is reported a trusted adult takes immediate action to ensure student safety. Students and staff understand the difference between social conflict and bullying behaviors. A common vocabulary around bullying prevention is used by all staff and students. Students recognize the difference between being a bystander and being an upstander. School staff engage parents in being a part of the prevention of bullying.		
ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Review counselor survey data on implementation of bullying prevention curriculum.	Director of Counseling	June – July 2018
2. Determine needed improvements and resources based on survey data.	Director of Counseling Asst Supt. Elem. Asst Supt. Sec.	July 2018
3. Order necessary resources for coming school year.	Director of Counseling	July 2018
4. Expand district developed bullying prevention curriculum to include 8 th grade.	Director of Counseling	July – August 2018
5. Convene cross-functional team to select bullying prevention programs to be used at each level.	Deputy Supt. C&I	August – November 2018
6. Establish aligned delivery expectations for districtwide bullying prevention programs.	Asst Supt. Elem. Asst Supt. Sec.	November 2018 – Feb 2019
7. Determine baseline data sources for evaluation.	Exec. Dir. Assess.	Feb 2019
8. Establish budget request for expanded bullying prevention programs.	Director of Counseling	Feb 2019
9. Develop professional learning to support implementation	Director of Counseling Exec Dir of Prof Learn	Feb – Jun 2019
10. Implement districtwide bullying prevention programs.	Director of Counseling	August 2019
11. Monitor implementation.	Director of Counseling	Aug – Dec 2019
12. Provide mid-year report of outputs.	Deputy Supt. C&I	Jan. 2020
13. Adjust based on mid-year review.	Director of Counseling Asst Supt. Elem. Asst Supt. Sec.	Jan. 2020
14. Provide end of year report on outcomes	Deputy Supt. C&I	May 2020
15. Make improvements.	Director of Counseling Asst Supt. Elem. Asst Supt. Sec.	June 2020

Outcome: Bullying/harassment incidents reported and addressed.
Year to be completed: 2020

STRATEGY IV: We will ensure each student understands and is prepared to assume his or her role as a productive citizen.

SPECIFIC RESULT: Students develop the necessary Core Values to apply in any situation.

VISION FOR SPECIFIC RESULT: Each student develops Core Values as the foundation of learning and growth. We aspire for each student to be a well-informed, successful learner and a good citizen. Core Values include trustworthiness, respect, responsibility, fairness, caring, and citizenship. For students to internalize Core Values, students must be consistently taught Core Values by adults in the school. Adults in the school and district are purposeful about lessons taught, words spoken, and classroom/school events planned/implemented. All actions at the school and district incorporate Core Values. Students are provided opportunities to learn and apply Core Values through student-centered leadership activities and events. The curriculum is infused with Core Values.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Students and adults are recognized for demonstrating Core Values. The culture of the school and district reflects accountability for all to demonstrate and exhibit Core Values. Staff consistently reference Core Values in their daily interactions with students. Structures are in place to have daily discussions around Core Values. Students and staff engage in routines, morning meetings, school wide assemblies, and service learning projects built around Core Values. Student disciplinary practices are based on applying the Core Values for students to learn when behavior expectations are not met. Core Values are the foundation of all school activities. Planning and implementation is based on use of the Core Values.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Convene a Core Values Cadre at each school to be led by the principal	Principal	Aug – Sept 2018
2. Develop a Core Values Communication Plan	Chief Communications Officer	Sept 2018
3. Create protocol for campus character cadres to review and act on their 11 Principles school self-assessment	Exec Dir of C&I	Sept 2018
4. Post Core Values posters in every classroom, office, and common space in all schools	Principal, Teacher	Aug 2018
5. Provide/support ongoing professional learning on Core Values that provide knowledge/understanding, teaching/modeling strategies	Exec Dir PL; Dir of Counseling & St Svcs	Oct – Dec 2018
6. Expand resources that support teaching Core Values	Exec Dir of C&I	Oct – Dec 2018
7. Create an itslearning course for planning and implementing morning meetings and intentional teaching of Core Values	Principal, Cadre	Nov 2018 – Feb 2019
8. Implement morning meetings and intentional teaching of Core Values	Principal	Aug 2018 – June 2019
9. Recognize students and adults who model Core Values	Principal, Chief Communications Officer	Monthly
10. Create student disciplinary data system report based on Core Values	Chief Tech Officer	Oct – Dec 2018
11. Monitor and report student disciplinary data based on Core Values	Chief Tech Officer, Director Parent Assistance	Monthly
12. Document evidence of implementation of Core Values	Principal	Monthly

Outcomes: Increased number of State/National Schools of Character from 5 to 7. Increased number of the Leader in Me Schools from 2 to 6.

Year to be completed: 2019

ACTION PLAN

Strategy Number: IV
Plan Numbers: IV.1

STRATEGY IV: We will ensure each student understands and is prepared to assume his or her role as a productive citizen.

SPECIFIC RESULT: Responsible use of technology while learning at school, home, and in the community.

VISION FOR SPECIFIC RESULT: Students and staff consistently demonstrate digital responsibility in all areas including digital rights, literacy, communication, emotional intelligence/self-regulation, security, safety, use, and identity. The culture of digital responsibility is taught and learned, exists, and permeates within, across, and beyond each person's school, home, and digital/physical community.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Teachers and staff transparently model responsible use of technology. Ownership of the teaching and learning of the responsible use of technology is shared between staff, students, and sponsors in all classes and student organizations. All staff are responsible digital citizens. A communication, assessment, and feedback plan is established and implemented.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Utilize behavioral assessment instrument for staff, students, and parents to determine which areas of responsible use of technology need the greatest attention and provide feedback.	Chief Technology Officer, Director of Learning Technology, Principal	Aug – Dec 2018
2. Align one area per month to focus on responsible use of technology.	Core Values District Implementation Team, Principal	Aug 2018 – June 2019
3. Identify appropriate opportunities in lesson plans and agendas to teach elements of responsible use of technology.	Teacher	Aug 2018 – June 2019

Outcome: Data gathered from assessments to guide future implementation planning.

Year to be completed: 2020

FINANCIAL

ACTION PLAN

Strategy Number: V
Plan Number: V.1.

STRATEGY: We will broaden and strengthen connections within our communities		
SPECIFIC RESULT: School attendance zones to ensure student safety and maximize facility usage.		
VISION FOR THIS SPECIFIC RESULT: Maximize the learning opportunities and needs for student achievement; Make efficient use of instructional facilities; Consider available data provided by the district and demographer; and Consider constructive public feedback.		
CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Through a public and transparent process, parent representatives, selected through the process outlined in CCISD School Board Policy (FC) Local, meet during the fall to develop school attendance zones for 2019-2020. The Board of Trustees thoughtfully considers recommendations from the School Boundary Advisory Committee and acts.		
ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Draft implementation plan in accordance with CCISD School Board Policy FC (Local).	Deputy Supt C&I	May – August 2018
2. Consider SBAC charges and guidelines.	Board of Trustees	August 27, 2018
3. Post and distribute application for SBAC membership.	Chief Communications Officer	Aug. 28 – Sept. 26. 2018
4. Receive/sort applications by attendance zone.	Deputy Supt C&I	September 27, 2018
5. Conduct membership random drawing to select 30 parent members and 2 community members.	Deputy Supt C&I	September 27, 2018
6. Convene the first SBAC meeting to outline charges and guidelines, meeting dates, planning processes, and answer member questions.	Superintendent	October 17, 2018
7. Meet on a weekly basis to review available information and develop recommendations.	Deputy Supt C&I	Oct. 17 – December 2018
8. Draft recommendations are presented to the Board of Trustees.	SBAC	January 2019
9. Hold public hearings are held to gather public feedback on proposed attendance zone recommendation.	SBAC, Deputy Supt C&I	January 2019
10. Consider public feedback and make revisions as agreed.	SBAC	January 2019
11. Present final recommendation to Board of Trustees.	SBAC	February 2019
12. Consider recommendations.	Board of Trustees	February 2019

Outcome: 2019-2020 School Attendance Zone recommendations.
Year to be completed: 2019

FINANCIAL

ACTION PLAN

Strategy Number: VI
Plan Number: VI.1.

STRATEGY: We will ensure mutual understanding and support through effective communication.

SPECIFIC RESULT: Standardized, consistent communication platforms and messaging.

VISION FOR THIS SPECIFIC RESULT: All students, parents, and employees receive communication that is timely and actionable. Employees are fully informed of district and school operations in routine events and during emergency situations. Information from the district is provided at a rate and quality that ensures employees make decisions that ensure students are safe. Students and parents use district provided communication methods to send and receive information.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: The district identifies specific methods of communication to students, parents, and employees. The district uses these methods of communication in daily operations and during emergency situations. Information communicated to students and parents is accurate and timely. Parents and students trust the communication from the school and the district.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Convene community safety committee to develop recommendations for enhanced safety.	Superintendent	June – July 2018
2. Present safety recommendations to superintendent and Board of Trustees.	Superintendent	July 2018
3. Develop a budget to fund implementation of safety recommendations.	Dep Supt for Bus & SS	July 2018
4. Hold parent meetings with CCISD standard presentations and videos shown	Principals	October 20, 2018
5. Ensure consistent communication going to ccisd.net, emergency website, and the emergency app	Chief Communications Officer	Aug 2018 – June 2019
6. Develop standard communication matrix for each protocol and evidence of compliance to the matrix.	Chief Communications Officer	January 2019
7. Survey parents after an event to see how we met their communication expectations and what we can do better. As part of our communication matrix, we have certain triggers for parent meetings and can gauge parent reaction	Chief Communications Officer	May 2019
8. Report results of metrics and make improvements	Chief Communications Officer	June 2019

Outcome: Analytics demonstrating enhanced, consistent communication.

Year to be completed: 2019

FINANCIAL

ACTION PLAN

Strategy Number: VII
Plan Number: VII.1

STRATEGY: We will build capacity for organizational change.

SPECIFIC RESULT: Professional learning plans that provide varied and flexible opportunities.

VISION FOR THIS SPECIFIC RESULT: Educators are continually energized through new learning and application of new/improved skills. Campus administrators meet with teachers to develop student-centered targets for student learning. Administrators observe teachers and provide specific, meaningful feedback to improve teaching. Teachers meet multiple times throughout the year with the administrator to discuss student performance data, share instructional strategies, and reflect on student outcomes. The administrator provides questions for reflection for the teacher which lead to meaningful professional learning experiences to improve teaching and learning.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Campus administrators work closely with teachers to create a supportive learning environment. Administrators provide frequent, informative feedback on observations of lessons. Teachers and professional staff use qualitative and quantitative data to determine student and educator learning needs. Teachers in collaboration with their principal and instructional coaches identify a shared goal at the campus, department or grade level for student and educator learning and a personalized professional learning goal that supports the shared goal. Teachers, in communities of practice, partner with instructional coaches to select and implement appropriate evidence-based strategies to achieve student and educator learning goals. Teachers are supported at their school with resources, leadership, data, learning designs, implementation over time and an explicit connection to performance standards. Teachers use student evidence to monitor and refine implementation of new teaching strategies. Teachers, instructional coaches and principals evaluate student results. Communities of practice share their findings with other campus and district teachers to ensure equity of a strong teaching and learning connection across all campuses in our district.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Provide teacher orientation session for T-TESS to teachers.	Asst Supt HR	July – Aug 2018
2. Develop the Goal Setting and Professional Development (GSPD) Plan.	Principal, teacher	Aug – Sept 2018
3. Engage in an ongoing review of student performance data by teacher.	Principal, teacher	Ongoing
4. Observe teachers in classrooms through announced and unannounced visits.	Teacher	Ongoing
5. Provide teacher feedback on observations.	Principal	Ongoing
6. Convene the summative conference.	Principal	March-May 2019
7. Develop professional learning plans for ongoing improvement.	Principal, teacher	March-May 2019

Outcome: Full implementation of T-TESS.

Year to be completed: 2019

ACTION PLAN

Strategy Number: VII
Plan Number: VII.2

STRATEGY: We will build capacity for organizational change.

SPECIFIC RESULT: Training of safety protocols, procedures, and lifesaving techniques for CCISD employees.

VISION FOR THIS SPECIFIC RESULT: Employees in CCISD are provided resources and training to be prepared for emergency situations. Safety protocols are widely distributed and reviewed through a variety of training approaches. Emergency drills are conducted throughout the year.

CRITICAL ATTRIBUTES FOR THIS SPECIFIC RESULT: Each employee knows and understands his/her role for a variety of emergency situations. This knowledge is gained through written communication, ongoing professional learning, and daily practice based on a culture of safety.

ACTION STEPS	PERSON RESPONSIBLE	TIMELINE
1. Determine course content required.	Director of Athletics, Exec Dir of PL	Sept 2018
2. Identify priority groups of employees to train.	Asst Supt HR, Exec Dir of PL	Sept 2018
3. Create calendar of trainings and drills.	Exec Dir PL	Sept 2018
4. Initiate trainings and drills.	Exec Dir PL	Oct 2018 – June 2019
5. Improve training and drills based on participant feedback.	Director of Athletics, Exec Dir of PL	Ongoing
6. Document trainings and drills completed.	Exec Dir of PL	Oct 2018 – June 2019
7. Report annually trainings and drills completed.	Deputy Supt C&I	June 2019

Outcome: Consistent training of safety protocols, procedures, and lifesaving techniques.

Year to be completed: 2020

District General & Administrative

League City, TX 77573

Deputy Superintendent of Business & Support Services - District: Paul McLarty

Departmental Description:

The office of General and Administrative Services is not a department in the conventional sense. It acts as a catchall for services and expenditures that are district-wide in nature and do not fit with our other departments. This includes copiers, insurance, legal services, utilities, workers compensation, unemployment, vehicle replacement, teacher retirement payments, and district-wide services.

INFORMATIONAL SECTION

The Economy

Economy and Demographics

The following information has been derived from various sources, including the Texas Municipal Reports published by the Municipal Advisory Council of Texas, U.S. Census data, area Chamber of Commerce and District officials. While such sources are believed to be reliable, no representation is made as to the accuracy thereof.

Industrial Economic Base

The economy of the District and its surrounding area is diversified, with oil and gas as the base of industrial activity. The abundance of key natural resources along the Texas Gulf Coast has created the country's greatest concentration of petrochemical complexes within the overall coastal area. Though District industries are largely petrochemical in nature, they are not exclusively so. Originally a rice farming and ranching area, the lakes and waterways of the District offer not only boating and fishing sports and revenues from recreational tourist facilities, but also represents a hub of industrial development lining the nearby Houston Ship Channel.

The Johnson Space Center of the National Aeronautics and Space Administration ("NASA"), which is currently responsible for NASA's space shuttle and space station projects, is an important part of the Clear Lake area economy, both as an employer of more than 3,000 civil service employees and approximately 15,050 local contractors. In addition, Space Center Houston, a visitor complex and educational facility, has approximately 800,000 visitors annually. The rate and extent of continued development within the Clear Lake Area could be influenced by the degree of continued federal funding of Johnson Space Center projects.

A major employment base in the general area has been the Bayport Industrial Development ("Bayport"), a planned industrial development of approximately 10,750 acres by Exxon Land Development with approximately 62 industrial plants in operation. Bayport is located in southeast Harris County approximately 23 miles from the central business district of the City of Houston. It includes a 40-foot deep water port and channel facility connected to the Houston Ship Channel, barge dock facilities, a pipeline network and railroad service lines.

The Baybrook Mall serves the southeast metropolitan Houston Area and Galveston County. The mall contains 1.1 million leasable square feet and is anchored by four major department stores.

Presently serving the Clear Lake area are four general hospitals, Clear Lake Regional Medical Center in the City of Webster with 482 beds; Memorial Hermann Southeast Hospital in the City of Houston with 256 beds; UTMB Health in League City; and Methodist Hospital in the City of Nassau Bay with 135 beds.

Residential Development

The major residential development in CCISD is occurring in the Westwood Subdivision in League City with 218 vacant developed lots and 593 future lots. Active development is occurring at Magnolia Creek in League City with 167 vacant developed lots and 30 future lots, Hidden Lakes in League City with 160 vacant developed lots, The Reserve at Clear Lake City with 125 vacant developed lots, and The Reserve at Lake City with 108 vacant developed lots. Future development is expected at the Westland Ranch in League City in League City with 1,026 future lots. In addition, Westwood Subdivision in League City and Coastal Point in League City have 593 and 542 future lots respectively. Overall, the District has more than 3,200 future lots to build on and nearly 1,270 vacant developed lots.

Educational Facilities

Also serving the area is the University of Houston-Clear Lake, constructed on a 524-acre site in the District, with enrollment of approximately 8,600 students. In 2011, the University gained approval from the state to add freshman and sophomore level courses to its roster and welcomed its first freshman class in the fall of 2014.

The San Jacinto Junior College District operates a South Campus on 13735 Beamer Road with a current enrollment of approximately 10,817 students. The San Jacinto College Clear Creek Extension Center is located at Clear Creek High School in League City. Students living in the Clear Creek Independent School District pay in-district fees for classes taken at the extension center. Classes are offered Tuesday through Thursday evenings.

The College of the Mainland in Texas City, Texas is a junior college, which also offers mandatory continuing education classes for realtors and travel agents in the Clear Lake area at a local hotel and travel agency. Currently, there are approximately 4,148 full time students enrolled.

Harris County Economic Base

A significant portion of the District is located in Harris County (the "County"), the most populous county in the State of Texas, with a 2010 estimated population of 4,092,459, an increase of approximately 20.35% since 2000. The County's economy is based on industry, mineral production, shipping and agriculture.

Harris County is a highly industrialized county with manufacturing plants producing petroleum refining, chemicals, food, fabricated metal products, non-electric machinery, primary metals, scientific instruments, paper and allied products and printing and publishing. Harris County is also a corporate management center, a center of energy, space and medical research centers and a center of international business. Harris County contains the nation's largest concentration of petrochemical plants and the largest U.S. wheat

exporting port which is among the top U.S. ports in the value of foreign trade and total tonnage.

Galveston County Economic Base

Galveston County is located on the Gulf Coast. Port activities dominate the economy but also included are insurance and finance centers, petrochemical plants, varied manufacturing, tourism, medical educational center, oceanographic research center, ship building, and commercial fishing. Galveston County had a 2000 United States Census population of 250,158 which grew to 291,309 in 2010, an increase of 16.50% since 2000.

INFORMATIONAL

The Kemah Boardwalk, located 20 miles from downtown Houston, has over 4.5 million visitors annually. The Kemah Boardwalk features restaurants like Joe's Crab Shack, The Flying Dutchman, Cadillac Bar, Landry's Seafood House, Saltgrass Steakhouse, Kemah Crabhouse, Babin's Seafood House, and the Aquarium Restaurant featuring a 50,000-gallon aquarium brimming with marine life. There are dancing fountains, midway games, amusement park rides and retail specialty shops. The seaside hotel, The Boardwalk Inn, provides upscale accommodations on the Boardwalk. Adjacent to the Kemah Boardwalk is the Kemah Lighthouse Shopping District featuring over 30 specialty shops, numerous Bed and Breakfast accommodations, and numerous restaurants.

State and Local Funding of School Districts in Texas

Litigation Relating to the Texas Public School Finance System

On April 9, 2001, four property wealthy districts filed suit in the 250th District Court of Travis County, Texas (the "District Court") against the Texas Education Agency, the Texas State Board of Education, the Texas Commissioner of Education (the "Commissioner") and the Texas Comptroller of Public Accounts in a case styled West Orange-Cove Consolidated Independent School District, et al. v. Neeley, et al. The plaintiffs alleged that the \$1.50 maximum maintenance and operations ("M&O") tax rate had become in effect a state property tax, in violation of Article VIII, Section 1-e of the Texas Constitution, because it precluded them and other school districts from having meaningful discretion to tax at a lower rate. Forty school districts intervened alleging that the Texas public school finance system (the "Finance System") was inefficient, inadequate, and unsuitable, in violation of Article VII, Section 1 of the Texas Constitution, because the State of Texas (the "State") did not provide adequate funding. As described below, this case has twice reached the Texas Supreme Court (the "Supreme Court"), which rendered decisions in the case on May 29, 2003 ("West Orange-Cove I") and November 22, 2005 ("West Orange-Cove II"). After the remand by the Supreme Court back to the District Court in West Orange-Cove I, 285 other school districts were added as plaintiffs or interveners. The plaintiffs joined the interveners in their Article VII, Section 1 claims that the Finance System was inadequate and unsuitable, but not in their claims that the Finance System was inefficient.

On November 30, 2004, the final judgment of the District Court was released in connection with its reconsideration of the issues remanded to it by the Supreme Court in West Orange-Cove I. In that case, the District Court rendered judgment for the plaintiffs on all of their claims and for the interveners on all but one of their claims, finding that (1) the Finance System was unconstitutional in that the Finance System violated Article VIII, Section 1-e of the Texas Constitution because the statutory limit of \$1.50 per \$100.00 of taxable assessed valuation on property taxes levied by school districts for maintenance and operation purposes had become both a floor and a ceiling, denying school districts meaningful discretion in setting their tax rates; (2) the constitutional mandate of adequacy set forth in Article VII, Section 1, of the Texas Constitution exceeded the maximum amount of funding available under the funding formulas administered by the State; and (3) the Finance System was financially inefficient, inadequate, and unsuitable in that it failed to provide sufficient access to revenue to provide for a general diffusion of knowledge as required by Article VII, Section 1, of the Texas Constitution.

The intervening school district groups contended that funding for school operations and facilities was inefficient in violation of Article VII, Section 1 of the Texas Constitution, because children in property-poor districts did not have substantially equal access to education revenue. All of the plaintiff and intervenor school districts asserted that the Finance System could not achieve "[a] general diffusion of knowledge" as required by Article VII, Section 1 of the Texas Constitution, because the Finance System was underfunded. The State, represented by the Texas Attorney General, made a number of arguments opposing the positions of the school districts, as well as asserting that school districts did not have standing to challenge the State in these matters.

In West Orange-Cove II, the Supreme Court's holding was twofold: (1) that the local M&O tax had become a state property tax in violation of Article VIII, Section 1-e of the Texas Constitution and (2) the deficiencies in the Finance System did not amount to a violation of Article VII, Section 1 of the Texas Constitution. In reaching its first holding, the Supreme Court relied on evidence presented in the District Court to conclude that school districts did not have meaningful discretion in levying the M&O

tax. In reaching its second holding, the Supreme Court, using a test of arbitrariness determined that: the public education system was "adequate," since it is capable of accomplishing a general diffusion of knowledge; the Finance System was not "inefficient," because school districts have substantially equal access to similar revenues per pupil at similar levels of tax effort, and efficiency does not preclude supplementation of revenues with local funds by school districts; and the Finance System does not violate the constitutional requirement of "suitability," since the Finance System was suitable for adequately and efficiently providing a public education.

In reversing the District Court's holding that the Finance System was unconstitutional under Article VII, Section 1 of the Texas Constitution, the Supreme Court stated: Although the districts have offered evidence of deficiencies in the public school finance system, we conclude that those deficiencies do not amount to a violation of Article VII, Section 1. We remain convinced, however, as we were sixteen years ago, that defects in the structure of the public school finance system expose the system to constitutional challenge. Pouring more money into the system may forestall those challenges, but only for a time. They will repeat until the system is overhauled.

In response to the intervener districts' contention that the Finance System was constitutionally inefficient, the West Orange-Cove II decision states that the Texas Constitution does not prevent the Finance System from being structured in a manner that results in gaps between the amount of funding per student that is available to the richest districts as compared to the poorest district, but reiterated its statements in Edgewood Independent School District v. Meno, 917 S.W.2d 717 (Tex. 1995) ("Edgewood IV") that such funding variances may not be unreasonable. The Supreme Court further stated that "[t]he standards of Article VII, Section 1 - adequacy, efficiency, and suitability - do not dictate a particular structure that a system of free public schools must have." The Supreme Court also noted that "[e]fficiency requires only substantially equal access to revenue for facilities necessary for an adequate system, "and the Supreme Court agreed with arguments put forth by the State that the plaintiffs had failed to present sufficient evidence to prove that there was an inability to provide for a "general diffusion of knowledge" without additional facilities.

Funding Changes in Response to West Orange-Cove II

In response to the decision in West Orange-Cove II, the Texas Legislature (the "Legislature") enacted House Bill 1 ("HB 1"), which made substantive changes in the way the Finance System is funded, as well as other legislation which, among other things, established a special fund in the State treasury to be used to collect new tax revenues that are dedicated under certain conditions for appropriation by the Legislature to reduce M&O tax rates, broadened the State business franchise tax, modified the procedures for assessing the State motor vehicle sales and use tax and increased the State tax on tobacco products (HB 1 and other described legislation are collectively referred to herein as the "Reform Legislation"). The Reform Legislation generally became effective at the beginning of the 2006-07 fiscal year of each district.

Current Public School Finance System

Overview

The following description of the Finance System is a summary of the Reform Legislation and the changes made by the State Legislature to the Reform Legislation since its enactment, including modifications made during the regular through third called sessions of the 79th Texas Legislature (collectively, the "2006 Legislative Session"), the regular session of the 81st Texas Legislature (the "2009 Legislative Session") and the regular and first called sessions of the 82nd Texas Legislature (collectively, the "2011 Legislative Session") and the regular session of the 83rd Texas Legislature (collectively, the "2013 Legislative Session"). For a more complete description of school finance and

fiscal management in the State, reference is made to Vernon's Texas Codes Annotated, Education Code, Chapters 41 through 46, as amended.

Funding for school districts in the State is provided primarily from State and local sources. State funding for all school districts is provided through a set of funding formulas comprising the "Foundation School Program," as well as two facilities financing programs. Generally, the Finance System is designed to promote wealth equalization among school districts by balancing State and local sources of funds available to school districts. In particular, because districts with relatively high levels of property wealth per student can raise more local funding, such districts receive less State aid, and in some cases, are required to disburse local funds to equalize their overall funding relative to other school districts. Conversely, because districts with relatively low levels of property wealth per student have limited access to local funding, the Finance System is designed to provide more State funding to such districts. Thus, as a school district's property wealth per student increases, State funding to the school district is reduced. As a school district's property wealth per student declines, the Finance System is designed to increase its State funding. A similar equalization system exists for facilities funding wherein districts with the same tax rate for debt service raise the same amount of combined State and local funding. Facilities funding for debt incurred in prior years is expected to continue in future years; however, State funding for new school facilities was not appropriated by the 83rd Texas Legislature for the 2014–15 fiscal biennium.

Local funding is derived from collections of ad valorem taxes levied on property located within each district's boundaries. School districts are authorized to levy two types of property taxes: a limited maintenance and operations ("M&O") tax to pay current expenses and an unlimited interest and sinking fund ("I&S") tax to pay debt service on bonds. Under current law, M&O tax rates are subject to a statutory maximum rate of \$1.17 per \$100 of taxable value for most school districts. Current law also requires school districts to demonstrate their ability to pay debt service on outstanding indebtedness through the levy of an ad valorem tax at a rate of not to exceed \$0.50 per \$100 of taxable property at the time bonds are issued. Once bonds are issued, however, districts may levy a tax to pay debt service on such bonds unlimited as to rate or amount (see "TAX RATE LIMITATIONS" herein). As noted above, because property values vary widely among school districts, the amount of local funding generated by the same tax rate is also subject to wide variation among school districts.

The Reform Legislation, which generally became effective at the beginning of the 2006–07 fiscal year of each school district in the State, made substantive changes to the Finance System, which are summarized below. While each school district's funding entitlement was calculated based on the same formulas that were used prior to the 2006–07 fiscal year, the Reform Legislation effected changes to the manner in which school districts are funded that were intended to reduce local M&O tax rates by one-third over two years through the introduction of the "State Compression Percentage," with M&O tax levies declining by approximately 11% in fiscal year 2006–07 and approximately another 22% in fiscal year 2007–08. (Prior to the Reform Legislation, the maximum M&O tax rate for most school districts was \$1.50 per \$100 of taxable assessed valuation.) Subject to local referenda, a district may increase its local M&O tax levy up to \$0.17 above the district's compressed tax rate. Based on the current State Compression Percentage, the maximum M&O tax rate is \$1.17 per \$100 of taxable value for most school districts (see "TAX RATE LIMITATIONS" herein).

Local Funding for School Districts

The primary source of local funding for school districts is collections from ad valorem taxes levied against the taxable property located in each school district. As noted above, prior to the Reform Legislation, the maximum M&O tax rate for most school districts was generally limited to \$1.50 per \$100 of taxable value, and the majority of school districts were levying an M&O tax rate of \$1.50 per \$100 of taxable value at the time the Reform Legislation was enacted. The Reform Legislation required each school district to "compress" its tax rate by an amount equal to the "State Compression Percentage." For fiscal years 2007–08 through 2014–15, the State Compression Percentage has been set at 66.67%, effectively setting the maximum compressed M&O tax rate for most school districts at \$1.00 per \$100 of taxable value. The State Compression Percentage is set by legislative appropriation for each State fiscal biennium or, in the absence of legislative appropriation, by the Commissioner. School districts are permitted, however, to generate additional local funds by raising their M&O tax rate by \$0.04 above the compressed tax rate without voter approval (for most districts, up to \$1.04 per \$100 of taxable value). In addition, if the voters approve the tax rate increase, districts may, in general, increase their M&O tax rate by an additional two or more cents and receive State equalization funds for such taxing effort up to a maximum M&O tax rate of \$1.17 per \$100 of taxable value.

State Funding for School Districts

State funding for school districts is provided through the Foundation School Program, which provides each school district with a minimum level of funding (a "Basic Allotment") for each student in average daily attendance ("ADA"). The Basic Allotment is calculated for each school district using various weights and adjustments. This basic level of funding is referred to as "Tier One" of the Foundation School Program. The basic level of funding is then "enriched" with additional funds known as "Tier Two" of the Foundation School Program. Tier Two provides a guaranteed level of funding for each cent of local tax effort that exceeds the compressed tax rate (for most districts, M&O tax rates above \$1.00 per \$100 of taxable value). The Finance System also provides an Existing Debt Allotment ("EDA") to subsidize debt service on eligible outstanding school district bonds and an Instructional Facilities Allotment ("IFA") to subsidize debt service on newly issued bonds. IFA primarily addresses the debt service needs of property-poor school districts. A New Instructional Facilities Allotment ("NIFA") also is available to help pay operational expenses associated with the opening of a new instructional facility. Future-year IFA and NIFA awards, however, were not funded by the Legislature for the 2012–13 fiscal biennium, although funding awards for IFA made in prior years will continue to be funded (but not the second year for NIFA for the 2012–13 fiscal biennium for districts that first became eligible for NIFA in the 2010–11 fiscal year). Tier One and Tier Two allotments represent the State's share of the cost of M&O expenses of school districts, with local M&O taxes representing the district's local share. EDA and IFA allotments supplement a school district's local I&S taxes levied for debt service on eligible bonds issued to construct, acquire and improve facilities. Tier One and Tier Two allotments and existing EDA and IFA allotments are generally required to be funded each year by the Legislature. Since future-year IFA awards were not funded by the Legislature for the 2014–15 fiscal biennium, and debt service assistance on school district bonds that are not yet eligible for EDA is not available, debt service on new bonds issued by districts to construct, acquire and improve facilities must be funded solely from local I&S taxes. State funding allotments may be adjusted in certain circumstances to account for shortages in State appropriations or to allocate available funds in accordance with wealth equalization goals.

Tier One allotments are intended to provide all districts a basic level of education necessary to meet applicable legal standards. Tier Two allotments are intended to guarantee each school district that is not subject to the wealth transfer provisions described below an opportunity to supplement that basic

INFORMATIONAL

program at a level of its own choice; however, Tier Two allotments may not be used for the payment of debt service or capital outlay. The cost of the basic program is based on an allotment per student known as the "Basic Allotment". The Basic Allotment is adjusted for all districts by a cost adjustment factor intended to address competitive labor markets for teachers known as the "cost of education index." In addition, district-size adjustments are made for small- and midsize districts. The cost of education index and district-size adjustments applied to the Basic Allotment, create what is referred to as the "Adjusted Allotment". The Adjusted Allotment is used to compute a "regular program allotment," as well as various other allotments associated with educating students with other specified educational needs. For fiscal year 2013–14, the Basic Allotment is \$4,950, and for fiscal year 2014–15, the Basic Allotment was increased to \$5,040 for each student in average daily attendance.

Tier Two currently provides two levels of enrichment with different guaranteed yields depending on the district's local tax effort. The first six cents of tax effort that exceeds the compressed tax rate (for most districts, M&O tax rates ranging from \$1.01 to \$1.06 per \$100 of taxable value) will, for most districts, generate a guaranteed yield of \$59.97 per cent per weighted student in average daily attendance ("WADA"). The second level of Tier Two is generated by tax effort that exceeds the compressed tax rate plus six cents (for most districts eligible for this level of funding, M&O tax rates ranging from \$1.07 to \$1.17 per \$100 of taxable value) and has a guaranteed yield per cent per WADA of \$31.95. Property-wealthy school districts are subject to recapture at the equivalent wealth per student of \$319,500 (see "Wealth Transfer Provisions" below).

The IFA guarantees each awarded school district a specified amount per student (the IFA Guaranteed Yield) in State and local funds for each cent of tax effort to pay principal of and interest on eligible bonds issued to construct, acquire, renovate or improve instructional facilities. To receive an IFA, a school district must apply to the Commissioner in accordance with rules adopted by the Commissioner before issuing the bonds to be paid with State assistance. If the total amount appropriated by the State for IFA in a year is less than the amount of money school districts applying for IFA are entitled to for that year, districts applying will be ranked by the Commissioner by wealth per student, and State assistance will be awarded to applying districts in ascending order of adjusted wealth per student beginning with the district with the lowest adjusted wealth per student. Clear Creek does not qualify for IFA funding.

State financial assistance is provided for certain existing debt issued by school districts (referred to herein as EDA) to produce a guaranteed yield (the EDA Yield). Effective September 1, 2003, the portion of the local debt service rate that has qualified for equalization funding by the State has been limited to the first 29 cents of debt service tax or a greater amount for any year provided by appropriation by the Legislature. A district may not receive EDA funding for the principal and interest on a series of otherwise eligible bonds for which the district receives IFA funding. Clear Creek does not qualify for EDA funding.

A district may also qualify for a NIFA allotment, which provides assistance to districts for operational expenses associated with opening new instructional facilities. The 84th Texas legislature did appropriate funds for the 2015-16 and 2016-17 fiscal years for NIFA allotments. However, CCISD does not qualify for NIFA allotments.

INFORMATIONAL

2006 Legislation

Since the enactment of the Reform Legislation in 2006, most school districts in the State have operated with a "target" funding level per student ("Target Revenue") that is based upon the "hold harmless" principles embodied in the Reform Legislation. This system of Target Revenue was superimposed on the Foundation School Program and made existing funding formulas substantially less important for most school districts. As noted above, the Reform Legislation was intended to lower M&O tax rates to give school districts "meaningful discretion" in setting their M&O tax rates, while holding school districts harmless by providing them with the same level of overall funding they received prior to the enactment of the Reform Legislation. Under the Target Revenue system, each school district is generally entitled to receive the same amount of revenue per student as it did in either the 2005–2006 or 2006–07 fiscal year (under existing laws prior to the enactment of the Reform Legislation), as long as the district adopted an M&O tax rate that was at least equal to its compressed rate. The reduction in local M&O taxes resulting from the mandatory compression of M&O tax rates under the Reform Legislation, by itself, would have significantly reduced the amount of local revenue available to fund the Finance System. To make up for this shortfall, the Reform Legislation authorized Additional State Aid for Tax Reduction ("ASATR") for each school district in an amount equal to the difference between the amount that each district would receive under the Foundation School Program and the amount of each district's Target Revenue funding level.

2015 Legislation

As a general matter, the 84th Texas Legislature did not enact substantive changes to the Finance System. However, of note, Senate Joint Resolution 1, passed during the 84th Texas Legislature, proposed a constitutional amendment increasing the mandatory homestead exemption for school districts from \$15,000 to \$25,000 and requiring that the tax limitation for taxpayers who are age 65 and older or disabled be reduced to reflect the additional exemption. The amendment was approved by the voters at an election held on November 3, 2015 and became effective for the tax year beginning January 1, 2015.

Senate Bill 1, which was also passed during the 84th Texas Legislature provides for additional state aid to hold school districts harmless for tax losses resulting from the increased homestead exemption. Any hold harmless funding for future biennia must be approved in a subsequent legislative session, and the District can make no representation that such funding will occur.

Senate Bill 1 also prohibits a school district from reducing the amount of or repealing an optional homestead exemption that was in place for the 2014 tax year for a period ending December 31, 2019. An optional homestead exemption reduces both the tax revenue and State aid received by a school district.

Wealth Transfer Provisions

Some districts have sufficient property wealth per student in WADA ("wealth per student") to generate their statutory level of funding through collections of local property taxes alone. Districts whose wealth per student generates local property tax collections in excess of their statutory level of funding are referred to as "Chapter 41" districts because they are subject to the wealth equalization provisions contained in Chapter 41 of the Texas Education Code. Chapter 41 districts may receive State funds for certain competitive grants and a few programs that remain outside the Foundation School Program, as well as receiving ASATR until their overall funding meets or exceeds their Target Revenue level of funding. Otherwise, Chapter 41 districts are not eligible to receive State funding. Furthermore, Chapter 41 districts must exercise certain options to reduce their wealth level to equalized wealth levels of funding, as determined by formulas set forth in the Reform Legislation. For most Chapter 41 districts, this equalization process entails paying the portion of the district's local taxes collected in excess of the equalized wealth levels of funding to the State (for redistribution to other school districts) or directly to other school districts with a wealth per student that does not

INFORMATIONAL

generate local funds sufficient to meet the statutory level of funding; a process known as "recapture".

The equalized wealth levels that subject Chapter 41 districts to wealth equalization measures for fiscal year 2014–15 are set at (i) \$504,000 per student in WADA with respect to that portion of a district's M&O tax effort that does not exceed its compressed tax rate (for most districts, the first \$1.00 per \$100 of taxable value) and (ii) \$319,500 per WADA with respect to that portion of a district's M&O tax effort that is beyond its compressed rate plus \$.06 (for most districts, M&O taxes levied above \$1.06 per \$100 in taxable value). M&O taxes levied above \$1.00 but below \$1.07 per \$100 of taxable value are not subject to the wealth equalization provisions of Chapter 41. Chapter 41 districts with a wealth per student above the lower equalized wealth level but below the higher equalized wealth level must equalize their wealth only with respect to the portion of their M&O tax rate, if any, in excess of \$1.06 per \$100 of taxable value. Chapter 41 districts may be entitled to receive ASATR from the State in excess of their recapture liability, and such districts may use their ASATR funds to offset their recapture liability.

Under Chapter 41, a district has five options to reduce its wealth per student so that it does not exceed the equalized wealth levels: (1) a district may consolidate by agreement with one or more districts to form a consolidated district; all property and debt of the consolidating districts vest in the consolidated district; (2) a district may detach property from its territory for annexation by a property-poor district; (3) a district may purchase attendance credits from the State; (4) a district may contract to educate nonresident students from a property-poor district by sending money directly to one or more property-poor districts; or (5) a district may consolidate by agreement with one or more districts to form a consolidated taxing district solely to levy and distribute either M&O taxes or both M&O taxes and I&S taxes. A Chapter 41 district may also exercise any combination of these remedies. Options (3), (4) and (5) require prior approval by the transferring district's voters; however, Chapter 41 districts may apply ASATR funds to offset recapture and to achieve the statutory wealth equalization requirements, as described above, without approval from voters.

A district may not adopt a tax rate until its effective wealth per student is at or below the equalized wealth level. If a district fails to exercise a permitted option, the Commissioner must reduce the district's property wealth per student to the equalized wealth level by detaching certain types of property from the district and annexing the property to a property-poor district or, if necessary, consolidate the district with a property-poor district. Provisions governing detachment and annexation of taxable property by the Commissioner do not provide for assumption of any of the transferring district's existing debt. The Commissioner has not been required to detach property in the absence of a district failing to select another wealth-equalization option.

THE SCHOOL FINANCE SYSTEM AS APPLIED TO THE DISTRICT

The District's wealth per student for the 2016-17 fiscal year is more than the equalized wealth value. Accordingly, the District has been required to exercise one of the permitted wealth equalization options. As a district with wealth per student in excess of the equalized wealth value, the District has agreed to reduce its wealth per student by electing to purchase attendance credits from the State.

A district's wealth per student must be tested for each future fiscal year and, if it exceeds the maximum permitted level, must be reduced by exercise of one of the permitted wealth equalization options. Accordingly, if the District's wealth per student should exceed the maximum permitted level in future school years, it will be required each year to exercise one or more of the wealth reduction options. If the District were to consolidate (or consolidate its tax base for all purposes) with a property-poor district, the outstanding debt of each district could become payable from the consolidated district's combined property tax base, and the District's ratio of taxable property to debt could become diluted. If the District were to detach property voluntarily, a portion of its outstanding debt could be assumed by the district to which the property is annexed.

INFORMATIONAL

Tax Information

General

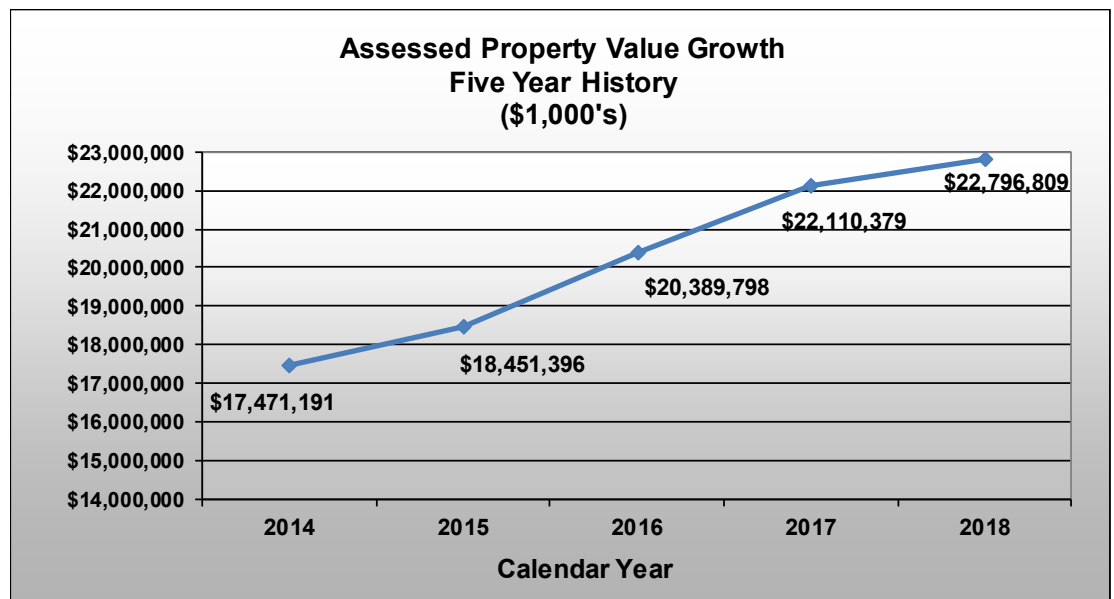

One of the District's principal sources of operational revenue and its principal source of funds for debt service payments is the receipts from ad valorem taxation. The following is a recapitulation of (a) the authority for taxation, including methodology, limitations, remedies and procedures; (b) historical analysis of collection and trends of tax receipts and provisions for delinquencies; and (c) an analysis of the tax base, including relative property composition and principal taxpayers.

County-Wide Appraisal District

The Texas Property Tax Code (the "Property Tax Code") establishes for each county in Texas a single appraisal district with responsibility for recording and appraising property for all taxing units within the

county, and a single appraisal review board, with responsibility for reviewing and equalizing the values established by the appraisal district. The appraisal of property within the District is the responsibility of both the Galveston Central Appraisal District and the Harris County Central Appraisal Districts (the Appraisal Districts). The Tax Code requires appraisal districts by May 15 of each year, or as soon thereafter as practicable, to prepare appraisal records of property as of January 1 of each year based upon market value. The chief appraiser in each district must give written notice before May 15 or as soon thereafter as practicable, to each property owner whose property value is appraised higher than the prior tax year or the value rendered by the property owner or whose property was not on the appraisal roll the preceding year.

Notice must also be given if ownership of the property changed during the preceding year. An appraisal review board has the ultimate responsibility for determining the value of all taxable property within each District; however, any property owner who has timely filed notice with the appraisal

review board may appeal a final determination by the appraisal review board by filing suit in a Texas district court. Prior to such appeal or any tax delinquency date, however, the property owner must pay the tax due on the value of that portion of the property involved that is not in dispute or the amount of tax imposed in the prior year, whichever is greater, or the amount of tax due under the order from which the appeal is taken. In such event, the value of the property in question will be determined by the court, or by a jury, if requested by any

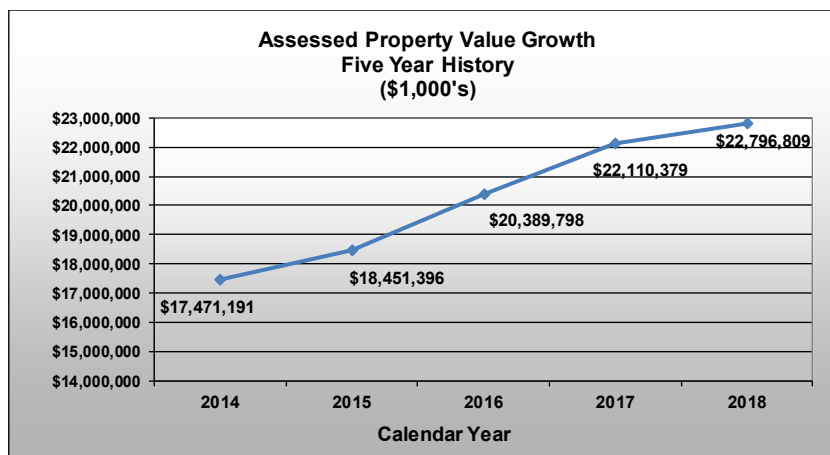

INFORMATIONAL

party. In addition, taxing units such as the District are entitled to challenge certain matters before the appraisal review board, including the level of appraisals of a certain category or property, the exclusion of property from the appraisal records or the grant in whole or in part of an exemption. A taxing unit may not, however, challenge the valuation of individual properties.

Although the District has the responsibility for establishing tax rates and levying and collecting taxes each year, under the Tax Code, the District does not establish appraisal district standards nor determine the frequency of revaluation or reappraisal. An appraisal district is governed by a board of directors elected by the governing bodies of the county and all cities, towns, school districts, and, if entitled to vote, the conservation and reclamation districts that participate in the appraisal district. The Tax Code requires each appraisal district to implement a plan for periodic reappraisal of property to update appraised values. Such plan must provide for reappraisal of all real property in the appraisal district at least once every three years. The District cannot certify to the frequency of reappraisals which will be utilized by its appraisal Districts or whether reappraisals will be conducted on a zone or county-wide basis.

Tax Rate Limitations

A school district is authorized to levy maintenance and operation ("M&O") taxes subject to approval of a proposition submitted to district voters. The maximum M&O Tax rate that may be levied by a district cannot exceed the voted maximum rate or the maximum rate described in the next succeeding paragraph. The maximum voted M&O Tax rate for the District is \$1.50 per \$100 of assessed valuation as approved by the voters at an election held on November 5, 2002 under

Chapter 20, Texas Education Code (now codified at Section 45.003, Texas Education Code). For any fiscal year beginning with the 2006-07 fiscal year, the maximum tax rate per \$100 of assessed valuation that may be adopted by the District may not exceed the lesser of (A) \$1.50 and (B) the sum of (1) the rate of \$0.17, and (2) the product of the state compression percentage multiplied by \$1.50. The state compression percentage has been set, and will remain, at 66.67% for fiscal years 2007-08 through 2012-13. The state compression percentage is set by legislative appropriation for each state fiscal biennium or, in the absence of legislative appropriation, by the Commissioner. Furthermore, a school district cannot annually increase its tax rate in excess of the district's rollback tax rate without submitting such tax rate to a referendum election and a majority of the voters voting at such election approving the adopted rate.

A school district is also authorized to issue bonds and levy taxes for payment of bonds subject to voter approval of a proposition submitted to the voters under Section 45.003(b)(1), Texas Education Code, as amended, which provides a tax unlimited as to rate or amount for the support of school district bonded indebtedness.

Chapter 45 of the Texas Education Code, as amended, requires a district to demonstrate to the Texas Attorney General that it has the prospective ability to pay debt service on a proposed issue of bonds, together with debt service on other outstanding new debt of the district, from a tax levied at a rate of

INFORMATIONAL

\$0.50 per \$100 of assessed valuation before bonds may be issued. In demonstrating the ability to pay debt service at a rate of \$0.50, a district may take into account State allotments to the district which effectively reduces the district's local share of debt service. Once the prospective ability to pay such tax has been shown and the bonds are issued, a district may levy an unlimited tax to pay debt service. The District's current outstanding debt service requirement is \$1,394,047,413 which is covered with a \$0.34 cent tax rate. At a \$0.50 cent tax rate ceiling, the District's total debt ceiling is \$2,453,410,964.

Rollback Tax Rate

In setting its annual tax rate, the governing body of a school district generally cannot adopt a tax rate exceeding the district's rollback tax rate without approval by a majority of the voters voting at an election approving the higher rate. The tax rate consists of two components: (1) a rate for funding of maintenance and operation expenditures, and (2) a rate for debt service. For the 2007-08 fiscal year and thereafter, the rollback tax rate for a school district is the lesser of (A) the sum of (1) the product of the district's state compression percentage for that year multiplied by \$1.50, (2) the rate of \$0.04, (3) any rate increase above the rollback tax rate in prior years that were approved by voters, and (4) the district's current debt rate, or (B) the sum of (1) the district's effective maintenance and operations tax rate, (2) the product of the district's state compression percentage for that year multiplied by \$0.06; and (3) the district's current debt rate.

The effective maintenance and operations tax rate for a school district is the tax rate that, applied to the current tax values, would provide local maintenance and operating funds, when added to State funds to be distributed to the district pursuant to Chapter 42 of the Texas Education Code for the school year beginning in the current tax year, in the same amount as would have been available to the district in the preceding year if the funding elements of wealth equalization and State funding for the current year had been in effect for the preceding year.

By each September 1 or as soon thereafter as practicable, the Board of Trustees adopts a tax rate per \$100 taxable value for the current year. Before adopting its annual tax rate, a public meeting must be held for the purpose of adopting a budget for the succeeding year. Furthermore, Section 26.05 of the Property Tax Code provides that the governing body of a taxing unit is required to adopt the annual tax rate for the unit before the later of September 30 or the 60th day after the date the certified appraisal roll is received by the taxing unit.

Property Subject to Taxation by the District

The Texas Property Code defines market value as follows: "the price in which a property would transfer for cash or its equivalent under prevailing market conditions if: (A) exposed for sale in the open market with a reasonable time for the seller to find a purchaser; (B) both the seller and the purchaser know of all the uses and purposes to which the property is adapted and for which it is capable of being used and the enforceable restrictions on its use; and (C) both the seller and the purchaser seek to maximize their gains and neither is in a position to take advantage of the exigencies of the other." Any exemptions the taxpayer is eligible for reduce the market value to arrive at the appraised or taxable value.

Except for exemptions provided by Texas law, all real and certain tangible personal property with a tax situs on the District is subject to taxation by the District. Principal categories of exempt property include; property owned by the State of Texas or its political subdivisions; property exempt from ad valorem taxation by federal law, certain improvements in real property and certain tangible property located in designated reinvestment zones; certain property of a nonprofit corporation used in scientific research and educational activities benefiting a college or university, and designated historic sites.

INFORMATIONAL

Other principal categories of exempt property include tangible personal property not held or used for production of income, solar and wind powered energy devices; most individually owned automobiles; \$10,000 exemption to residential homesteads of persons ages 65 or over and property of disabled persons; an exemption of between \$5,000 and \$12,000 applicable to real or personal property of disabled veterans or the surviving spouses or children of a deceased veteran who died while on active duty in the armed forces; \$25,000 in market value for all residential homesteads; and certain classes of tangible property. The State mandated \$10,000 exemption for persons 65 years of age or older or disabled amounted to \$150,693,125 of the 2018 tax roll.

In addition, except for increases attributable to certain improvements, the District is prohibited by state law from increasing the total ad valorem tax of the residence homestead of persons 65 years of age or older above the amount of tax imposed in the year such residence qualified for an exemption based on the age of the owner. The freeze on ad valorem taxes on the homesteads of persons 65 years of age or older is also transferable to a different residence homestead. State mandated homestead exemptions amounted to \$1,342,308,144 of the 2018 tax roll.

The District also grants an additional \$18,330 local option exemption for persons over 65 years of age or disabled persons and additional homestead exemptions of up to 5% of market value of a residential homestead for all taxpayers. The value of property exempted from taxation by the \$18,330 local option and the 5% residential homestead exemption for the 2018 tax year were \$270,658,471 and \$678,867,333 respectively.

INFORMATIONAL

Owners of agricultural and open space land, under certain circumstances, may request valuation of such land on the basis of productive capacity rather than market value. The loss of value due to property values based on productivity value and timber production on the 2018 tax roll was approximately \$93,566,557.

The Tax Code also provides for an exemption from ad valorem taxation for certain pollution control property. In 2018, the District lost \$39,147,531 of taxable value as a result of such exemption.

Levy & Tax Collection

The District is responsible for the collection of its taxes. Taxes are due on receipt of the tax bill, and become delinquent after January 31 of the following year, or on the first day of the calendar month next following the expiration of twenty-one days after mailing the tax bills, whichever occurs later. A delinquent tax incurs an initial penalty of six percent (6%) of the amount of the tax and accrues an additional penalty of one percent (1%) per month up to July 1, at which time the total penalty becomes twelve percent (12%). In addition, delinquent taxes accrue interest at one percent (1%) per month. If the tax is not paid by July 1, an additional penalty of up to fifteen percent (15%) may under circumstances be imposed by the District. The Tax Code also makes provision for the split payment of taxes, discounts for early payments, partial payments of taxes and the postponement of the delinquency date of taxes under certain circumstances.

INFORMATIONAL

Collection of Delinquent Taxes

Taxes levied by the District are a personal obligation of the owner of the property. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed for the year on the property. The District's tax lien is on parity with tax liens of all other such taxing units. A tax lien on real property has priority over the claim of most creditors and other holders of liens on the property encumbered by the tax lien, regardless if the debt or lien existed before the attachment of the tax lien. Except with respect to taxpayers who are 65 years of age or older, at any time after taxes on property become delinquent, the District may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both.

Collection of delinquent taxes by foreclosure may be adversely affected by the amount of taxes owed to other taxing units, by the effects of market conditions on the foreclosure sale price, by taxpayer redemption rights, or by bankruptcy proceedings which restrict the collection of a taxpayer's debt.

Student Enrollment Projections

Enrollment projections are provided through a contract with Templeton Demographics. Templeton Demographics integrates school district information regarding current specific school enrollments with individual neighborhood housing forecasts to create enrollment projections. The projections are updated to include new home starts and closings, under-construction and finished inventory as well as a review of remaining vacant lots, all by subdivision. Templeton provides a build-out analysis tool that allows the district to get an idea of what to expect as vacant land continues to develop.

Templeton Demographics was retained in early 2011 to provide enrollment projections to the School Boundary Advisory Committee. The purpose of the SBAC is to examine potential attendance zones, review the related challenges associated with new and anticipated growth of the District, and recommend new attendance zones. This allows the District to make efficient use of instructional facilities and determine future facility needs. Templeton updated the enrollment projections in October of 2016.

The District is steadily growing and has large areas of undeveloped land. The Templeton Demographics report will be a key data source for the District in the future. Current projections show student enrollment for the FY 2018-19 fiscal year to be 42,295. This number will grow to 44,026 over the next ten years.

INFORMATIONAL

Financial Forecasts

Basis of Assumptions

Clear Creek Independent School District utilizes a number of data points and underlying assumptions in developing long range financial forecasts. Due to the uncertainty associated with the current school funding system, State revenues are difficult to forecast beyond the 2018-2019 fiscal year. Clear Creek receives just over 28% of its total revenue from state sources. By conservatively forecasting state revenues, the District can closely approximate the total revenue picture in future years. Clear Creek's financial forecast is based on the following information and data sources.

Required Data

Source

Student Enrollment
Staffing
Property Value - Current
Property Value - Growth
New School Construction
Major Maintenance & Renovation
Maintenance & Operations Tax Rate

CCISD Long Range Facilities Master Plan
CCISD Clear Plan 2020
State Tax Cap of \$1.17

Combined Statement of Revenues, Expenditures & Changes to Fund Balance

The three-year forecast of revenues, expenditures and changes in fund balance is provided over the next several pages. Forecasts are included for all governmental funds. All funds will be impacted by enrollment growth; however, the General Fund is hardest hit in a fast growth scenario. While capital and debt service funds naturally increase as bond programs are approved by voters, there are dedicated tax dollars to meet those financial needs. The General Fund, however, is the main operating fund of the District and is often pressed to meet the financial needs of a growing district. It includes the impact of continued increases in property values, student enrollment, and teaching staff to meet projected growth over the period. It also includes the impact of staffing the new school openings that are projected over the period as well as increased operational costs inherent with new campuses. Other Resources include proceeds from Bonds 2017 that are anticipated over the coming years.

Forecasts focus on two of the District's Strategic Goals as described on Page 4:

- Goal 1: We will inspire learning through an array of personalized opportunities and experiences.
- Goal 3: We will ensure safe and nurturing learning environments.

Since property value growth and student enrollment have a huge impact on district costs, they are provided below for review.

Property Value Growth (4% per year)

<u>FY 2018-19</u>	<u>FY 2019-20</u>	<u>FY 2020-21</u>	<u>FY 2021-22</u>

INFORMATIONAL

Governmental Funds Forecast

The Governmental Funds financial forecast is reflective of the District's anticipated growth in student enrollment which drives state funding. Each fund is highlighted in the following pages with individual forecasts. A list of key inputs and assumptions that were used to develop each forecast is provided.

INFORMATIONAL

General Fund Forecast

Major Impacts on Revenue

The 83rd Texas Legislative session for the 2013-2015 biennium partially restored previous state budget cuts to CCISD. Although there are small increases in property growth, any increases in property tax revenues are offset by decreases in state funding due to the state funding formulas. The District anticipates continued student growth which will drive state revenues up. For the 2018-19 fiscal year, an enrollment gain of 155 students is anticipated and an enrollment gain of approximately 192 students is anticipated per year thereafter. Other resources include transfers from the Capital Fund to help balancing the budget.

Major Impacts on Expenditures

It is imperative that the District provide annual salary increases to employees to maintain a competitive salary structure. The forecast includes an annual 1% increase at a cost of approximately \$3.2 million per year. In addition, approximately twenty personnel units will be required at an annual cost of \$1.3 million to serve the enrollment growth that is projected. In 2019-2020 the cost of personnel for a new intermediate campus have been included at a total cost of \$1.4 million. Other uses include \$3 million in transfers to the Capital Fund for technology replacements.

Description	Approved Budget 2018 - 2019	Forecast 2019-2020	Forecast 2020-2021	Forecast 2021-2022

Major Impacts on Fund Balance

The above forecast reflects a negative trend in Fund Balance. The District will be better prepared to evaluate this after the State Legislature meets in 2019 to determine the effect that state finance legislation will have on funding.

INFORMATIONAL

Capital Projects Funds Forecast

Major Impacts

The projects outlined in the Capital Projects Fund Forecast involve four sets of funds: Bonds 2017, Bonds 2013, Bonds 2007, and the CCISD Capital Plan Fund.

Bond Programs: The major cost driver is the capital projects funds has been the construction and renovation of facilities. The bulk of these costs will be covered by the 2017 and 2013 Bonds as well as the funds remaining in Bonds 2007 which will be used for renovations at Clear Lake High School. A recap of the Bonds 2013 \$367 million in projects and Bonds 2017 \$487 million in projects is also outlined below. These projects are slated to continue through August of 2019. Other resources include funds from the sale of Bonds 2017 that will take place over the next few years.

Major Maintenance and Capital Replacement: Major maintenance and capital replacement needs in existing facilities are also key inputs into the long-range Capital Funds forecast. The District established a Capital Replacement Fund with seed money from fund balance from the General Fund to meet these needs. The District's capital improvement plan is updated twice a year and it highlights projects for the next two years.

Project descriptions and timelines are included below.

Bond 2013 – Project Descriptions

40 Year Old + Rebuilds and Improvements

Category Total: \$182,000,000

Clear Lake High School.....\$98,606,691
Major rebuild of 1972 building • A comprehensive, two story high school to accommodate 9th, 10th, 11th, 12th grade in one building • Improve safety and security • Eliminate the use of a 9th grade center • Proposal excludes field house, gyms, pool and science wing

Clear Creek High School.....\$24,227,219
Complete the rebuild of Clear Creek High School (1956) which was not included in the 2004 bond • Includes career and technical education, athletics and fine arts areas

Seabrook Intermediate.....\$11,773,351
Replace portables with permanent addition • Expand cafeteria, library and stage to accommodate student enrollment

McWhirter Elementary.....\$30,804,660
Complete rebuild of 1956 and 1971 buildings • Addresses safety concerns with 72 exterior doors

Improvements to the following 40 Year old + facilities:.....\$16,663,402

Clear Lake City Elementary • Ross Elementary • White Elementary • Whitcomb Elementary • Clear Lake Intermediate • Clear Path Alternative School • Clear View Education Center • District Assessment Center

Student Safety, Priority Repairs, and Growth

Category Total: \$87,000,000

Clear Brook High School.....\$20,879,208
Secure entrance ~ Repair significant foundation failure • Expand commons and other areas for growth

Creekside Intermediate.....\$8,251,469
Permanent addition to accommodate enrollment • Defers need for an additional intermediate on the West side of the District

Greene Elementary.....\$5,700,355
Permanent addition to accommodate enrollment • Expand cafeteria and core areas

Clear Creek High School & Clear Springs High School third gyms to accommodate enrollment.\$8,636,277
Relieve scheduling conflicts during school day • Standard for 5A high schools is 4 gyms per high school

Safety upgrades and priority repairs to the following schools:.....\$43,052,825

Armand Bayou Elementary • Bauerschlag Elementary • Bay Elementary • Brookwood Elementary • Falcon Pass Elementary • Ferguson Elementary • Gilmore Elementary • Goforth Elementary • Hall Elementary • Hyde

Student Safety, Priority Repairs, and Growth

Continued

Elementary • Landolt Elementary • League City Elementary • North Pointe Elementary • Robinson Elementary • Stewart Elementary • Ward Elementary • Weber Elementary • Wedgewood Elementary • Brookside Intermediate • Clear Creek Intermediate • League City Intermediate • Space Center Intermediate • Westbrook Intermediate • Main Transportation Center • Support facilities • Replace 40 school buses with more than 200,000 miles • Replace emergency communications equipment

Instructional Technology

Category Total: \$45,000,000

Improve wireless access in all classrooms • Provide classroom equity with projectors and interactive whiteboards in classrooms • Start-up investment only for student and teacher tablet computers for online learning, textbooks, and enrichment • Replacements for aging computer labs and desktops

Co-curricular and Extracurricular

Category Total: \$49,000,000

Second District Stadium..... \$39,079,651
Second stadium to accommodate five 5A high schools and ten intermediate schools • 9,500 seat steel structure with track and field house for graduation staging and student events • Does not include media scoreboard • Land purchased for a stadium in the 2004 bond • Alleviate traffic and scheduling conflicts at Clear Creek High School and Clear Creek Intermediate • Eliminate Thursday evening home games

Veterans Memorial Stadium.....\$2,026,581
Address safety concerns with the 1956 stadium • Replace end of life-cycle turf

Westside Agriculture Center.....\$2,922,089
Expand facility to accommodate program growth among three high schools

Eastside Agriculture Center.....\$3,552,687
New facility at a new location to accommodate program growth and two high schools

Music Instrument Replacements.....\$1,800,000

TOTAL PRELIMINARY RECOMMENDATION: (Rounded to even number) \$367,000,000

1% of total for bond issuance costs • Project management costs

Bond 2017 – Project Descriptions

Schools for Enrollment Growth

Clear Creek ISD's student enrollment is nearly 42,000 and projections have the district adding an additional 2,100 students by 2021. CCISD is at 91.4% capacity for schools.

Elementary School #27: \$43,009,402 (2018)

A new elementary school for 1,000 students will be built on donated property along Highway 96 in League City.

Stewart Elementary: \$18,952,357 (2018)

An 18 classroom addition will be added to the school and portables removed. Additional parking, library renovations, and a new intercom system are included.

Clear Lake Intermediate: \$9,833,727 (2020)

A 10 classroom addition will be added to the school and portables removed.

Creekside Intermediate: \$8,047,947 (2019)

A 7 classroom addition will be added to the school.

Aging Schools and Repairs

Nearly 30% of the schools in Clear Creek ISD are more than 40 years old. Under this bond proposal, two schools that are over 50 years old will be rebuilt to meet today's learning standards and 6 will receive major renovations.

Clear View High School: \$45,162,961 (2019)

The original school was built in 1939. In 2019, a smaller high school will be built behind the existing school to serve the unique program of Clear View High School as well as workforce readiness programs open to all CCISD high school students.

League City Elementary: \$46,938,285 (2020)

The original school was built in 1960. In 2020, a new elementary school will be built behind the existing school and will be constructed to serve 900 students.

Major renovations will be conducted at the following 40-50 year plus schools. Improvements include foundation/exterior repairs, increasing classroom and group learning spaces, updating libraries, re-utilizing existing administration areas for instruction or to enhance security, upgrading technology and adding a STEM lab to Ed White. All these major renovation projects include identified priority repairs and equipment replacements.

Whitcomb Elementary (2022): \$28,598,565

Ross Elementary (2022): \$20,747,320

Ed White E-STEM Elementary (2019): \$16,443,354

Clear Lake City Elementary (2019): \$16,015,594

Hall Elementary (2021): 20,674,344

Landolt Elementary (2021): \$18,812,319

Armand Bayou Elementary (2018): \$4,962,851

Main Transportation Center Renovation (2019): \$24,711,488

District-wide Priority Items: \$66,235,122

Major project total costs include priority repairs at CCISD schools and support facilities. Repairs and equipment replacements were prioritized based on the following criteria: updates to current construction codes, safety reasons or critical replacements with life expectancy of 1–2 years.

INFORMATIONAL

Safety Improvements

The bond proposal will address playground safety, upgrading campus security systems, and replacing school buses that are between 15-25 years old and have more than 200,000 miles.

Playground Replacement Fund: \$1,500,000

75 School Buses: \$7,900,000

Security, Surveillance, Access Control and Intrusion Detection Equipment: \$8,110,333

Student Programs

Second CCISD Science Magnet Program: \$10,273,515

In 2018, Brookside Intermediate will be expanded with both classrooms and science labs in order for the district to open a second science magnet program. Annually, 200 students are turned away from the Seabrook Science Magnet due to limited space. Total project cost includes a Fine Arts addition, and identified priority repairs and equipment replacements.

Clear Creek High School (2019): \$13,722,229

The auditorium will receive a new sound booth, ticket booth, lighting, and a set shop expansion. Priority repairs are also included in the total project cost.

Clear Creek Intermediate (2019): \$6,537,081

A new ground floor band hall will be added and existing fine arts and athletic spaces will be renovated. Priority repairs are also included in the total project cost.

League City Intermediate (2018): \$5,886,556

A fine arts addition and renovation of the existing band hall. Priority repairs are also included in the total project cost.

Space Center Intermediate (2018): \$3,199,013

A new rehearsal room will be added and renovations of the existing choir/orchestra area. Priority repairs are also included in the total project cost.

District-wide Athletic and Fine Arts Equipment Replacements: \$4,000,000

INFORMATIONAL

Debt Service Fund Forecast

Major Impacts

The major cost driver in the Debt Service Fund is the size of voter approved bond programs. The forecast reflects the issuance of the bond proceeds from the 2017 bonds. It is anticipated that property growth from FY 2018-19 through FY 2021-22 will enable the District to balance this budget. The surplus fund balance is healthy and is part of the plan to cover increased debt service payments in the future without raising debt service tax rates for the bond programs.

INFORMATIONAL

Special Revenue Funds Forecast

Major Impacts

The Special Revenue Funds are dependent on continued federal and state government funding for various grant programs. Federal program funding, which makes up the majority of special revenue funds is expected to stay relative stable over the next three years with no big gains or losses in funds. State and local funding, however, has increased somewhat. Overall these funds are projected to grow at a 5.0% annual rate over the next three years. This includes 2.5% annually for inflation plus a modest 2.5% growth rate in programs.

2017-2018	A	A	B	B	A

Accountability Rating System for 2013

In 2009, the Texas Legislature passed House Bill 3 mandating the creation of an entirely new accountability system beginning with the 2012-13 fiscal year. The Texas Education Agency produced a plan for implementing these changes in the House Bill 3 Transition Plan in December, 2010. In 2012, TEA began working with advisory committees in order to develop the new system. The goals of the new system include:

- Improving student achievement at all levels in the core subjects of the state curriculum
- Ensuring the progress of all students toward achieving advanced academic performance
- Closing advanced academic performance level gaps among student groups
- Rewarding excellence based on other indicators in addition to state assessment results

The overall design of the new accountability system is a performance index framework. The performance indexes include evaluation of performance of all students and ten student groups; (1) economically disadvantaged; (2) English language learners (ELL), (3) special education and seven race/ethnicity groups; (4) African American; (5) American Indian; (6) Asian; (7) Hispanic; (8) Pacific Islander; (9) White; (10) two or more races.

Indexes

Performance indicators are grouped into four indexes that align with the goals of the state accountability system.

Index 1 – Student Achievement is a snapshot of performance across subjects on both general and alternative assessments at the satisfactory performance standard. This is based on meeting certain performance on STAAR for grades 3-8, high school EOC exams and TAKS Grade 11.

Index 2 – Student Progress separates measures of student progress from measures of student achievement to show improvements students are making independent of overall achievement levels. Growth is evaluated by subject and student groups (all students and all student groups). Student performance is compared with previous year to current year STAAR results in reading, mathematics, and writing.

Index 3 – Closing Performance Gaps emphasizes academic achievement of the economically disadvantaged student group and the lowest performing race/ethnicity student groups and is based on meeting performance in the current year for the three lowest performing groups of the prior school year.

Index 4 – Postsecondary Readiness measures high school graduation and STAAR performance at the postsecondary readiness standard. The intent of this index is to emphasize the importance for students to receive a high school diploma that provides them with the foundation necessary for success in college, the workforce, job training programs or the military. It is composed of high school graduation rates and diploma type.

2017-2018 Academic Performance Report

Performance Measure	Grade	Score
Student Achievement	A	91/100
STAAR Performance		87/100
College, Career, and Military Readiness		93/100
Graduation Rate		95/100
School Progress	B	84/100
Academic Growth in Reading and Math		82/100
Relative Performance to Students at Similar Districts		84/100
Closing the Gaps	A	95/100
Grade Level Performance		93/100
Academic Growth/Graduation Rate		78/100
English Language Proficiency		100/100
Student Achievement		100/100

Additional District Performance Measures

Performance measures listed below will provide the reader with additional indicators of the excellent education provided by Clear Creek ISD. The District uses a variety of measures to provide staff with information that will improve performance. Specific data from the Texas Education Agency on performance measures for the FY 2016-17 and FY 2017-18 school years are not available at this time.

INFORMATIONAL

Financial Performance Measures

Financial Integrity Rating System of Texas

During the 77th regular session of the Texas legislature (2001), Senate Bill 218 was passed and Governor Perry signed it into law shortly thereafter. This law requires each school district to prepare an annual financial accountability report within two months of the date of issuance of the final School FIRST ratings. The District's received official notification of the 2017 Final School FIRST rating on November 15, 2018 for the 2016-2017 fiscal year.

The School FIRST accountability rating ensures that Texas school districts are accountable not only for student learning, but also for achieving these results cost effectively and efficiently. The information provided by the School FIRST system will guide the District in continued efforts to maximize each taxpayer dollar.

Many business-related issues are covered in this report. The primary reporting tool, however, is the Financial Accountability Ratings Worksheet. This worksheet was developed by representatives of the Texas Education Agency (TEA), the Texas Business & Education Council (TBEC) and the Texas Association of School Business Officials (TASBO). It is administered by the TEA and calculated on information submitted to the Agency via the PEIMS submission each year.

Changes to the School FIRST system implemented by the Texas Education Agency in August 2015 are being phased-in over three years. The worksheet for the rating year 2014-2015 contained only seven indicators. The worksheet for the 2015-2016 and 2016-2017 increased to 15 indicators. The new categories of indicators include Critical Indicators, Solvency Indicators and Financial Competence Indicators. The worksheet for the rating year 2016-2017 requires higher scores for select ratings compared to the worksheet for the rating year 2015-2016.

The worksheet consists of 15 indicators, each weighted equally with the exception of the Critical Indicators. A No response on indicators #1, #2, #3, #4 or #5 automatically result in a failure of FIRST, so these first five indicators are of utmost importance.

The Clear Creek ISD School Board, administration and the community have worked hard to improve and maintain the financial condition of the District. This report demonstrates this improvement to all concerned. Currently, Clear Creek ISD enjoys a rating of ***"Above Standard"***. The worksheet itself and a discussion of its salient points follow.

INFORMATIONAL

2017-2018 RATINGS BASED ON SCHOOL YEAR 2016-2017 DATA - DISTRICT STATUS DETAIL

Name: CLEAR CREEK ISD(084910)		Publication Level 1: 8/6/2018 2:48:24 PM	
Status: Passed		Publication Level 2: 8/8/2018 12:11:29 PM	
Rating: B = Above Standard		Last Updated: 8/8/2018 12:11:29 PM	
District Score: 88		Passing Score: 60	
#	Indicator Description	Updated	Score
1	Was the complete annual financial report (AFR) and data submitted to the TEA within 30 days of the November 27 or January 28 deadline depending on the school district's fiscal year end date of June 30 or August 31, respectively?	4/20/2018 8:37:53 AM	Yes
2	Review the AFR for an unmodified opinion and material weaknesses. The school district must pass 2.A to pass this indicator. The school district fails indicator number 2 if it responds "No" to indicator 2.A. or to both indicators 2.A and 2.B.		
2.A	Was there an unmodified opinion in the AFR on the financial statements as a whole? (The American Institute of Certified Public Accountants (AICPA) defines unmodified opinion. The external independent auditor determines if there was an unmodified opinion.)	4/20/2018 8:37:53 AM	Yes
2.B	Did the external independent auditor report that the AFR was free of any instance(s) of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds? (The AICPA defines material weakness.)	4/20/2018 8:37:53 AM	Yes
3	Was the school district in compliance with the payment terms of all debt agreements at fiscal year end? (If the school district was in default in a prior fiscal year, an exemption applies in following years if the school district is current on its forbearance or payment plan with the lender and the payments are made on schedule for the fiscal year being rated. Also exempted are technical defaults that are not related to monetary defaults. A technical default is a failure to uphold the terms of a debt covenant, contract, or master promissory note even though payments to the lender, trust, or sinking fund are current. A debt agreement is a legal agreement between a debtor (= person, company, etc. that owes money) and their creditors, which includes a plan for paying back the debt.)	4/20/2018 8:37:53 AM	Yes
4	Did the school district make timely payments to the Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	4/20/2018 8:37:53 AM	Yes

INFORMATIONAL

5	<u>Was the total unrestricted net position balance (Net of the accretion of interest for capital appreciation bonds) in the governmental activities column in the Statement of Net Position greater than zero? (If the school district's change of students in membership over 5 years was 7 percent or more, then the school district passes this indicator.)</u>	4/20/2018 8:37:53 AM	Yes
6	<u>Was the number of days of cash on hand and current investments in the general fund for the school district sufficient to cover operating expenditures (excluding facilities acquisition and construction)? (See ranges below.)</u>	4/20/2018 8:37:53 AM	8
7	<u>Was the measure of current assets to current liabilities ratio for the school district sufficient to cover short-term debt? (See ranges below.)</u>	4/20/2018 8:37:53 AM	6
8	<u>Was the ratio of long-term liabilities to total assets for the school district sufficient to support long-term solvency? (If the school district's change of students in membership over 5 years was 7 percent or more, then the school district passes this indicator.)</u>	4/20/2018 8:37:53 AM	4
9	<u>Did the school district's general fund revenues equal or exceed expenditures (excluding facilities acquisition and construction)? If not, was the school district's number of days of cash on hand greater than or equal to 60 days?</u>	4/20/2018 8:37:53 AM	10
10	<u>Was the debt service coverage ratio sufficient to meet the required debt service? (See ranges below.)</u>	4/20/2018 8:37:53 AM	10
11	<u>Was the school district's administrative cost ratio equal to or less than the threshold ratio? (See ranges below.)</u>	4/20/2018 8:37:53 AM	10
12	<u>Did the school district not have a 15 percent decline in the students to staff ratio over 3 years (total enrollment to total staff)? (If the student enrollment did not decrease, the school district will automatically pass this indicator.)</u>	6/19/2018 11:11:02 AM	10
13	<u>Did the comparison of Public Education Information Management System (PEIMS) data to like information in the school district's AFR result in a total variance of less than 3 percent of all expenditures by function?</u>	4/20/2018 8:37:56 AM	10
14	<u>Did the external independent auditor indicate the AFR was free of any instance(s) of material noncompliance for grants, contracts, and laws related to local, state, or federal funds? (The AICPA defines material noncompliance.)</u>	4/20/2018 8:37:56 AM	10
15	<u>Did the school district not receive an adjusted repayment schedule for more than one fiscal year for an over allocation of Foundation School Program (FSP) funds as a result of a financial hardship?</u>	4/20/2018 8:37:56 AM	10

INFORMATIONAL

Analysis of F.I.R.S.T. Ratings

Critical Indicators

Indicators #1 through #5 are the critical indicators. Any "NO" response in this category is an indicator of fiscal distress. These five indicators revolve around:

- Timely filing of the Annual Financial Report (AFR)
- Auditor opinion
- Compliance with the payment terms of all debt agreements
- Timely payment of all payroll taxes
- Total net assets

Clear Creek ISD easily passed all of the critical indicators due to timely filing of the annual audit report with a "clean" opinion, timely payment of payroll taxes, compliance with the payment terms of all debt agreements, and an unrestricted net asset balance of \$67 million.

Solvency Indicators

Indicators #6 through #12 concern the solvency of Clear Creek ISD. These seven indicators focus on:

- Cash and investments on hand
- Current asset to current liability ratio
- Long-term liability to total asset ratio
- Revenues compared to expenditures
- Debt service coverage ratio
- Administrative cost ratio
- Student to staff ratio

Clear Creek ISD scored the maximum points on four of these indicators. On indicator #6 the District scored less than the maximum primarily due to CCISD having 86 days of cash and current investments on hand. To score the maximum of 10 points the district needed 90 days on hand. On indicator #7 which measures current assets to current liabilities to determine if a school district has enough short-term assets at the end of the fiscal year to pay off short-term liabilities, CCISD scored 6 out of 10 points. On indicator #8 which looks at long term liabilities and compares it to total assets CCISD scored 4 out of 10 points. CCISD does not anticipate this score changing next year due to the amount of long-term debt which is a result of continued enrollment growth resulting in the need for more facilities.

Financial Competence Indicators

Indicators #13 through #15 identify if there are any serious deficiencies in the financial management of the District. These three indicators focus on:

- Quality of Public Education Information Management System (PEIMS) financial data compared to the AFR result in less than a 3% variance
- Instance(s) of material noncompliance noted by the external independent auditor
- Adjustments due to financial hardship to the regular repayment of any Foundation School Program funds overpayments

Clear Creek ISD met or exceeded all three of these indicators as a comparison of PEIMS data to the annual financial report resulted in .00005% variance. The AFR noted no instance of material noncompliance and the district is not on a financial hardship payment plan due to an over allocation of Foundation School Program funds.

Perspectives on the Schools Survey

During the spring of 2018, the school district conducted three surveys provided to parents, staff and students. The data collected will be used as a means for continuous improvement for CCISD.

Parent Survey Results

The district received over 6,000 responses to this survey. When asked how well the district is educating students, 82% of respondents gave the district an A or a B. When asked what grade would they give for how well the child's campus is educating students, 84% of parents assigned an A or B. Parents responded that compared to students nationwide, Clear Creek ISD's students' achievements are 56% better than average. 91% of parents responded that following this year, their child will be prepared for the next grade level, course, college, or career.

Staff Survey Results

The district received over 3,000 responses to this survey. When asked how well the district is educating students, 90% of respondents gave the district an A or a B. When asked what grade would they give for how well the child's campus is educating students, 90% of staff assigned an A or B. 67% of staff responded that compared to students nationwide, Clear Creek ISD's students' achievements are average or better than average. 95% of staff responded that following this year, their students will be prepared for the next grade level, course, college, or career.

Staff was also surveyed on their use of technology in the classroom. 87% of staff agree that student learning is enhanced because of the use of student devices. 36% of staff frequently incorporate the use of student tablets/laptops into their lessons as compared to 27% who replied that they often incorporate the use of student devices.

Student Survey Results

Over 15,000 students responded to the Student Survey. When asked how well the district is educating students, 76% of respondents gave the district an A or a B. When asked what grade would they give for how well their campus in educating students, 78% of students assigned an A or B. 84% of students responded that compared to students nationwide, Clear Creek ISD's students' achievements are either average or better than average. 87% of students responded that following this year, they will be prepared for the next grade level, course, college, or career. 74% of students responded that their learning is enhanced because of the use of student devices.

The full survey results can be found under the district's website at www.ccisd.net/departments/communications.

District Achievements

Clear Creek Independent School District is a leader in the field of education in Texas. This is evident by the many academic, financial, operational and administrative awards that the District has earned over the last few years. A partial list of these achievements is provided below:

Awarded Above Standard Score on FIRST

Clear Creek ISD achieved an Above Standard rating on the Financial Integrity Rating System of Texas (FIRST).

Member of Texas High Performance Schools Consortium

Clear Creek ISD is a member of a group of 22 school districts empowered by the Texas Legislature to improve student learning in the state through the development of innovative, next-generation learning standards and assessment and accountability systems including standards and systems relating to career and college readiness.

Superintendent Smith named 2012 Superintendent of the Year by the Texas Association of School Boards

This most prestigious award recognizes one outstanding superintendent of the more than 1,000 throughout the state of Texas.

CCISD selected as one of the Houston Chronicle Top Workplaces.

For the seventh year in a row, CCISD employees gave the District an "A" for creating a positive work environment. CCISD ranked 19th out of 35 large places to work in Houston.

Continuing Academic Success

The Clear Creek Independent School District and all 43 campuses scored well above the state's standards regarding student achievement, student progress from year to year, closing the achievement gap and postsecondary readiness. Ten campuses earned an academic achievement distinction in Reading/English Language Arts, six campuses in mathematics, nine campuses in science, two campuses in social studies and thirteen campuses earned a distinction for student progress. In addition, eight campuses earned a distinction for closing performance gaps and fourteen campuses received a distinction for postsecondary readiness. Distinction designations are awarded to the top 25% of campuses that are similar to each other from across the state.

School Rankings and Recognitions

Three high schools were ranked among the top high schools in the nation by U.S. News and World Reports. Two elementary schools (Bay Elementary and Stewart Elementary) are recognized as National Blue Ribbon Schools.

INFORMATIONAL

Received the Meritorious Budget Award from the Association of School Business Officials, International

This award has been received for eleven consecutive years.

Received Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association

This award has been received for twelve consecutive years.

Received the Certificate of Excellence in Financial Reporting from the Association of School Business Officials International

This award has been received for twelve consecutive years.

Maintained high underlying credit rating

The District's maintains a high underlying credit rating of "Aa2" as rated by Moody's and "AA+" by Fitch Ratings Service.

Ranked a top Houston area school district

Ranked among the top five school districts in the Houston Metropolitan Area by Niche.

Maintained a low administrative cost ratio

The District maintains a very low administrative cost ratio in comparison to the Texas Education Agency's standard benchmark. For a large school district, 25,000 students or more, the Agency benchmark is an administrative cost ratio of 8.55%. Clear Creek's administrative cost ratio is 4.42%.

Employee Resource Allocations

The following page represents the total staffing levels in Clear Creek ISD. The Board of Trustees approved the following new positions for the 2018-19 fiscal year:

Board Meeting

Positions Approved

March, 2018 (10) and May, 2018 (25.5)	17 Core Teaching Units, 1 Diagnostician, 1 Career and Technology Teachers, 1 Foreign Language Teachers, .5 ESL Teachers, 1 Fine Arts Teachers, .5 Gifted and Talented Teacher, 9.5 Special Education Units, 1 Athletic Unit, and 2.5 Elementary start up units
---------------------------------------	--

July, 2018 (15)

15 Student Support Counselors

Please note that due to internal transfers of positions throughout the district the net changes reflected on the chart below may vary from the above position approvals.

NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE

The Clear Creek Independent School District will hold a public meeting at 6:00 PM, August 27, 2018 in Boardroom, Education Support Center, 2425 E. Main, League City, TX 77573. The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited.

The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and comparisons set out below and holds another public meeting to discuss the revised notice.

Maintenance Tax	\$1.0600/\$100 (proposed rate for maintenance and operations)				
School Debt Service Tax	\$0.3400/\$100 (proposed rate to pay bonded indebtedness)				
Approved by Local Voters					
<u>Comparison of Proposed Budget with Last Year's Budget</u>					
The applicable percentage increase or decrease (or difference) in the amount budgeted in the preceding fiscal year and the amount budgeted for the fiscal year that begins during the current tax year is indicated for each of the following expenditure categories.					
Maintenance and operations	3.73 % increase				
Debt Service	3.94 % increase				
Total expenditures	3.77 % increase				
<u>Total Appraised Value and Total Taxable Value</u> (as calculated under Section 26.04, Tax Code)					
	<u>Preceding Tax Year</u>	<u>Current Tax Year</u>			
Total appraised value* of all property	\$26,688,892,767	\$27,753,029,678			
Total appraised value* of new property***	\$592,210,182	\$462,379,732			
Total taxable value**** of all property	\$22,228,894,285	\$23,083,719,236			
Total taxable value**** of new property***	\$512,575,354	\$415,144,537			
*Appraised value is the amount shown on the appraisal roll and defined by Section 1.04(8), Tax Code.					
*** "New property" is defined by Section 26.012(17), Tax Code.					
**** "Taxable value" is defined by Section 1.04(10), Tax Code.					
<u>Bonded Indebtedness</u>					
Total amount of outstanding and unpaid bonded indebtedness* \$942,950,000					
*Outstanding principal.					
<u>Comparison of Proposed Rates with Last Year's Rates</u>					
	<u>Maintenance & Operations</u>	<u>Interest & Sinking Fund*</u>	<u>Total</u>	<u>Local Revenue Per Student</u>	<u>State Revenue Per Student</u>
Last Year's Rate	\$1.0400	\$0.3600*	\$1.4000	\$7,549	\$2,254
Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service	\$1.1496	\$0.3694*	\$1.5190	\$7,678	\$1,941
Proposed Rate	\$1.0600	\$0.3400*	\$1.4000	\$7,638	\$1,941
*The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, were approved by the voters of this district.					
<u>Comparison of Proposed Levy with Last Year's Levy on Average Residence</u>					
	<u>Last Year</u>	<u>This Year</u>			
Average Market Value of Residences	\$248,057	\$248,427			
Average Taxable Value of Residences	\$203,637	\$207,263			
Last Year's Rate Versus Proposed Rate per \$100 Value	\$1.4000	\$1.4000			
Taxes Due on Average Residence	\$2,850.92	\$2,901.68			
Increase (Decrease) in Taxes		\$50.76			
Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.					
Notice of Rollback Rate: The highest tax rate the district can adopt before requiring voter approval at an election is \$1.4065. This election will be automatically held if the district adopts a rate in excess of the rollback rate of \$1.4065. Texas Tax Code Section 26.08(a): An election is not required if the increase in the rate is to cover expenses incurred in response to a disaster.					
<u>Fund Balances</u>					
The following estimated balances will remain at the end of the current fiscal year and are not encumbered with or by a corresponding debt obligation, less estimated funds necessary for operating the district before receipt of the first state aid payment.					
Maintenance and Operations Fund Balance(s)	\$60,100,000				
Interest & Sinking Fund Balance(s)	\$26,800,000				

Glossary of Terms and Acronyms

This glossary contains definitions of terms used in this guide and such additional terms as seem necessary to common understandings concerning financial accounting procedures for schools. Several terms, which are not primarily financial accounting terms, have been included because of their significance for school financial accounting. The glossary is arranged alphabetically with appropriate cross-referencing where necessary.

Abatement – A complete or partial cancellation of a levy imposed by a governmental unit. Abatements usually apply to tax levies, special assessments, and service previously recorded expenditure or receipt item by such things as refunds, rebates, and collections for loss or damage to school property.

Account – This is a descriptive heading under which are recorded financial transactions that are similar in terms of a given frame of reference, such as purpose, object, or source.

Accounting Period – A period at the end of which and for which financial statements are prepared; for example, September 1 through August 31.

Accrual – A method of accounting that recognizes the financial effect of transactions, events, and inter-fund activities when they occur, regardless of the timing of related cash flows.

ACT – Acronym for American College Test.

ActiveCare – A self-funded health plan managed by the Texas Teacher Retirement System to provide health coverage to employees of Texas school districts.

ADA – Acronym for Average Daily Attendance.

Administration – Those activities which have as their purpose the general regulation, direction, and control of the affairs of the local education agency that are system-wide and not confined to one school, subject, or narrow phase of school activity.

AEIS – Acronym for Academic Excellence Indicator System.

Agency Fund – A fund used to account for activities of student or other groups.

AIS – Acronym for Accelerated Instructional Services.

Allocation – A part of a lump-sum appropriation which is designated for expenditure by specific organization units and/or for special purposes, activities, or objects.

Amendment – A proposal to change the amount or scope of an activity or project after the budget has already been submitted to the Board.

AP – Acronym for Advanced Placement.

Appraisal – (1) The act of appraising. (2) The estimated value resulting from such action.

Appraise – To make an estimate of value, particularly of the value of property. Note: if the property is valued for purposes of taxation, the less-inclusive term "assess" is substituted for the above term.

INFORMATIONAL

Appropriation – An authorization granted by a legislative body to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in amount and as to the time when it may be expended.

Appropriation Account – A budgetary account set up to record specific authorization to spend. The account is credited with original and any supplemental appropriations and is charged with expenditures and encumbrances.

Assess – To value property officially for the purpose of taxation. Note, the term is also sometimes used to denote the levy of taxes, but such usage is not correct because it fails to distinguish between the valuation process and the tax levy process.

Assessed Valuation – A valuation set upon real estate or other property by a government as a basis for levying taxes.

Assets – Property owned by a local education agency which has a monetary value.

Available School Fund – A Texas constitutionally dedicated fund for the support of the public education system.

Balanced Budget – A budget with total expenditures not greater than the sum of total revenues plus fund balance.

Balance Sheet – An itemized statement that lists the total assets and the total liabilities of a given business to portray its net worth at a given moment of time. The amounts shown on a balance sheet are generally the historic cost of items and not their current values.

Benefits – A payment or entitlement, such as one made under an insurance policy or employment agreement, public assistance program, or something of value or usefulness.

Biennium – A specific period of two years during which a Texas legislative session is held.

Bill – (1) A term used to denote a law or statute passed by certain legislative bodies. A bill has greater legal formality and standing than a resolution. (2) A statement of an amount owing for goods and services sold on open account.

Board of Education – The elected or appointed body, which has been created according to State law and vested with responsibilities for educational activities in a given geographical area. These bodies are sometimes called school boards, governing boards, boards of directors, school committees, school trustees, etc. This definition relates to the general term and covers State boards, intermediate administrative unit boards, and local basic administrative unit boards.

Bond – A written promise, generally under seal, to pay a specified sum of money, called the face value, at a fixed time in the future, called the date of maturity, and carrying interest at a fixed rate, usually payable periodically. The difference between a note and a bond is that the latter usually runs for longer periods of time and requires greater legal formality.

Bonded Debt – Bonded debt is the part of the school district debt which is covered by outstanding bonds of the district. This is sometimes referred to as "Funded Debt or Bonded Indebtedness."

Bonds Authorized and Un-issued – Bonds that have been legally authorized but not issued and which can be issued and sold without further authorization.

INFORMATIONAL

Bonds Issued – Bonds sold.

Bonds Payable – The face value of bonds issued and unpaid.

Budget – A plan of financial operation embodying an estimate of proposed expenditures for a given period or purpose and the proposed means of financing them. The budget usually consists of three parts: The first part contains a message from the budget-making authority together with a summary of the proposed expenditures and the means of financing them. The second part consists of schedules supporting the summary. These schedules show in detail the proposed expenditures and means of financing them, together with information as to past years' actual revenues and expenditures and other data used in making the estimates. The third part is composed of drafts of the appropriation, revenue, and borrowing measures necessary to put the budget into effect.

Budgetary Accounts – These accounts are necessary to reflect budget operations and conditions, such as estimated revenues, appropriations, and encumbrances, the net balance, and other related information.

Capital Budget – A plan of proposed capital outlays and the means of financing them for the fiscal period. It is usually a part of the current budget. A capital program is sometimes referred to as a capital budget.

Capital Expenditure– An expenditure for the acquisition cost of capital assets (equipment, building, land) or expenditures to make improvements to capital assets that materially increase their useful life. Acquisition cost is the cost of the asset including the cost to put it into place.

Capital Outlays – Expenditures which result in the acquisition of or addition to fixed assets.

Capital Program – A plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long-term work program or otherwise. It sets forth each project or other contemplated expenditure in which the local education agency is to have a part and specifies the full resources estimated to be available to finance the projected expenditures.

Capital Projects Fund – A fund used to account for the expenditures of resources accumulated from sales of bonds and related interest earnings for the renovation, acquisition and construction of school facilities.

Co-curricular Activities – Direct and personal services for public school pupils, such as inter-scholastic athletics, entertainments, publications, clubs, band, and orchestra, that are managed or operated by the student body under the guidance and direction of an adult, and are not part of the regular instructional program.

Community Services – Services which are provided for the whole community or some segment of the community and which are not restricted to the public schools or adult education programs.

Consultant – A resource person who provides assistance to the regular personnel through conference, demonstration, research, or other means. There are two types of consultants; those retained on a temporary basis and those who are permanently employed.

Contracted Services – Labor, material, and other costs for services rendered by personnel who are not on the payroll of the local education agency.

INFORMATIONAL

Credit Rating – A published ranking, based on detailed financial analysis by a credit bureau, of one's financial history, specifically as it relates to one's ability to meet debt obligations. The highest rating is usually AAA, and the lowest is D. Lenders use this information to decide whether to approve a loan.

Current – As used in this manual, the term has reference to the fiscal year in progress.

Current Budget – The annual budget prepared for and effective during the present fiscal year.

Current Expenditures per Pupil – Current expenditures for a given period of time divided by a pupil unit of measure (average daily membership, average daily attendance)

Current Year's Tax Levy – Taxes levied for the current fiscal period.

Debt – An obligation resulting from the borrowing of money or from the purchase of goods and services. Debts of local education agencies include bonds, warrants, and notes, etc.

Debt Limit – The maximum amount of gross or net debt which is legally permitted.

Debt Service – Debt Service refers to the semi-annual amount of money needed to pay the interest and principal payments on a bond issue.

Debt Service Fund – A fund used to account for the accumulation of resources and payment of principal and interest on all bonds.

Defease – To render null and void an agreement, commitment or obligation specified in a written document. When a bond issue is refunded and an escrow is established for the benefit of its bondholders the terms of the original indenture and obligations of the Trustee are generally said to have been defeased. The Original trust indenture is supplanted by the newly formed escrow agreement.

Deficit – The excess of the obligations of a fund over the fund's resources.

Delinquent Taxes – Taxes remaining unpaid on and after the date on which they become delinquent by statute.

DTR – Acronym for district tax rate.

EE – Employees

Effective Tax Rate – A hypothetical property tax rate would give the district the same amount of revenue it had in the previous fiscal year.

Encumbrances – Commitments related to unperformed (executory) contracts for goods or services.

Enterprise Fund – A fund used to account for the District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities.

EOC – Acronym for End of Course.

ES – Acronym for Elementary School.

INFORMATIONAL

Estimated Revenue – When the accounts are kept on an accrual basis, this term designates the amount of revenue estimated to accrue during a given period regardless of whether or not it is all to be collected during the period.

Existing Debt Allotment (EDA) – Sometimes referred to as Tier III funding. Granted by the 1999 Legislature guarantees \$35 per student in state and local funds for each cent of effort (up to a maximum of \$.12 per \$100 valuation) to pay the principal and interest on eligible bonds. Eligible bonds are those that require a debt service payment during the 1998-99 fiscal year.

Expenditures – This includes total charges incurred, whether paid or unpaid, for current expense, capital outlay, and debt service. (Transfers between funds, encumbrances, and payments of cash in settlement of liabilities already accounted as expenditures are not considered as expenditures.)

Expenses - Charges incurred, whether paid or unpaid, for operation, maintenance, interest, and other charges which are presumed to benefit the current fiscal period. Note: legal provisions sometimes make it necessary to treat as expenses some charges whose benefits extend over future periods. For example, purchases of materials and supplies which may be used over a period of more than one year and payments for insurance which is to be in force for a period longer than one year frequently must be charged in their entirety to the appropriation of the year in which they are incurred and classified as expenses of that year even though their benefits extend also to other periods.

Fiscal Year – A twelve-month period of time to which the annual budget applies and at the end of which a local education agency determines its financial position and the results of its operations.

Fixed Assets – Land, building, machinery, furniture, and other equipment that the school district intends to hold or continue in use over a long period of time. "Fixed" denotes probability or intent to continue use or possession, and does not indicate immobility of an asset.

Food Service – Those activities which have as their purpose the preparation and serving of regular and incidental meals, lunches, or snacks in connection with school activities.

Foundation School Program – The primary source of state funding for Texas school districts.

FTE – Acronym for full-time equivalent.

Function – As applied to expenditures, this term has reference to an activity or service aimed at accomplishing a certain purpose or end; for example, Instruction, Instructional Administration, Plant Maintenance and Operations.

Fund – A sum of money or other resource set-aside for specific activities of a school district. The fund accounts constitute a complete entity and all of the financial transactions for the particular fund are recorded in them.

Fund Accounting – A method of accounting that separates and tracks financial transactions to meet restrictions and reporting requirements imposed by funding sources.

Fund Balance – The excess of assets of a fund over its liabilities and reserves. During the fiscal year prior to closing, it represents the excess of the fund's assets and estimated revenues for the period over its liabilities, reserves, and appropriations for the period.

GAAP – Acronym for Generally Accepted Accounting Principles.

INFORMATIONAL

GASB – Acronym for Governmental Accounting Standards Board.

GED – Acronym for General Educational Development.

General Fund – A fund used to finance the ordinary operations of the local education agency. It is available for a legally authorized purpose and consists of money not specifically designated for some other particular purpose.

General Obligation Bonds – Bonds that carry a pledge of the general taxing power for the payment of debt obligations. General Obligation bonds are backed by the full faith and credit of the issuing governmental agency.

GFOA – Acronym for Government Finance Officers Association.

HB – Acronym for House Bill.

HS – Acronym for High School.

IB – Acronym for International Baccalaureate.

Instruction – The activities dealing directly with the teaching of students or improving the quality of teaching.

Instructional Facilities Allotment (IFA) – Granted by House Bill 4 in 1997, program provides a guaranteed level (\$35) of state and local funds per student per penny of tax effort applicable to debt service on eligible bonds. However, there is a limit on funding for each biennium so the District must apply for funding. The applications are ranked based on relative property wealth and funds are awarded up to the dollar limit available.

Interest – A fee charged a borrower for the use of money.

Internal Service Fund – A fund used to account for revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis.

Inventory – A detailed list or record showing quantities, descriptions, values, and frequency, units of measure, and unit prices of property on hand.

I & S – Acronym for Interest & Sinking Fund (Debt Service Fund).

ISD – Acronym for Independent School District.

LAN – Acronym for local area network.

Levy – (Verb) To impose taxes or special assessments. (Noun) The total of taxes or special assessments imposed by a governmental unit.

Long-Term Loan – A loan which extends for more than 5 years from the date the loan was obtained and is not secured by serial or term bonds. Such loans are not legal in Texas under the general statutes.

INFORMATIONAL

Modified Accrual Basis of Accounting – Basis of accounting according to which (a) revenues are recognized in the accounting period in which they become available and measurable and (b) expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt and certain similar accrued obligations, which should be recognized when due.

M & O – Acronym for Maintenance and Operations Fund (General Fund).

MS – Acronym for Middle School.

Object – As applied to expenditures, this term has reference to an article or service received; for example, payroll costs purchased and contracted services, materials, and supplies.

OT – Acronym for Occupational Therapist.

Payroll – A list of individual employees entitled to pay, with the amounts due to each for personal services rendered.

Performance Measures – The specified level of performance on a specific performance indicator.

PEIMS – Acronym for Public Education Information Management System.

Permanent School Fund – An endowment fund established by the Texas Constitution that is managed to be a permanent, perpetual source of funding of public education.

Personnel, Full-Time – School employees who occupy positions the duties of which require them to be on the job on school days, throughout the school year, at least the number of hours the schools in the system are in session. Full-time work days are generally 7.5 hours.

Personnel, Part-Time – Personnel who occupy positions, the duties of which require less than full time-service. This includes those employed full-time for part of the school year, part-time for all of the school year, and part-time for part of the school year. See also Personnel, Full-Time.

Plant Maintenance (Plant Repairs and Repairs and Replacements of Equipment) – Those activities which are concerned with keeping the grounds, buildings, and equipment at their original condition or completeness or efficiency, either through repairs or by replacements of property (anything less than replacement of a total building).

PO – Acronym for Purchase Order.

PPCD – Preschool Programs for Children with Disabilities is available for children aged 3 through 5. Students are provided instruction in all areas of early childhood development.

Principal of a School – The administrative head of a school (not school district) to who has been delegated the major responsibility for the coordination and supervision of the activities of the school.

Principal of Bonds – The face value of bonds.

Program – The definition of an effort to accomplish a specific objective or objectives consistent with funds or resources available. Budgets and actual revenue and expenditure records may be maintained per program.

INFORMATIONAL

Program Budget – A budget wherein expenditures are based primarily on programs of work and secondarily on character and object. A program budget is a transitional type of budget between the traditional character and object number, on the one hand, and the performance budget on the other.

Property Taxes – The valuation of property in the School District is determined by the County Tax Assessor. The School District levies a tax per \$100 of assessed valuation.

PSAT – Acronym for Preliminary Standardized Achievement Tests.

PT – Acronym for Physical Therapist.

Purchase Order – A document authorizing the delivery of specified merchandise or the rendering of certain services and the making of a charge for them.

RADA – Acronym for Refined Average Daily Attendance.

Recapture – The recovery of financial resources from districts defined by the state as high property wealth.

Refunding Bonds – Bonds issued to pay off bonds already outstanding.

Reimbursement – Cash or other assets received as a repayment of the cost of work or services performed, or of other expenditures made for or on behalf of another governmental unit or department, or for an individual, firm, or corporation.

Reserve – An amount set aside for a specified purpose, or an account which records a portion of the fund balance that is to be segregated for some future use and, therefore, is not available for further appropriation and expenditure.

Rollback Tax Rate – The highest tax rate that can be adopted before requiring voter approval.

Salary – The total amount regularly paid or stipulated to be paid to an individual, before deductions, for personal services rendered while on the payroll of the school district. Payments for sabbatical leave are also considered as salary.

SAT – Acronym for Standardized Achievement Tests.

School – A division of the school system consisting of a group of pupils composed of one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary programs are housed in the same school plant.

School, Elementary – A school classified as elementary by State and local practice and composed of any span of grades not above grade six. In this District this term includes kindergartens and pre-kindergartens and goes through grade five.

School, Intermediate – A separately organized elementary school intermediate between elementary and middle school.

INFORMATIONAL

School, Middle – A separately organized secondary school intermediate between elementary, intermediate, and senior high school. In this District middle schools include grades six through eight.

School, Public – A school operated by publicly elected or appointed school officials in which the program and activities are under the control of these officials and which is supported by public funds.

School, Secondary – In this handbook a secondary school comprises any span of grades beginning with the next grade following the elementary/intermediate school and ending with or below grade 12, including middle schools, the different type of high schools, and alternative high schools.

School, Senior High – Schools offering the final years of high school work necessary for graduation; invariably preceded by a middle school in the same system.

School, Summer – The name applied to the school session carried on during the period between the end of the regular school term and the beginning of the next regular school term.

Serial Bonds – Bonds whose principal is to be repaid in periodic installments over the life of the issue.

Special Revenue Fund – A governmental fund type used to account for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditure for specified purposes.

STAAR – Acronym for State of Texas Assessment of Academic Readiness.

State Aid for Education – Any grant made by a State government for the support of education.

Student Wealth – Assessed value of property divided by school enrollment.

Supplemental Taxes – Taxes levied subsequent to the initial levy to add property omitted from the original tax roll(s).

Supply – A material item of an expendable nature that is consumed, worn out, or deteriorated in use; or one that loses its identity through fabrication or incorporation into a different or more complex unit or substance.

TAAS – Acronym for Texas Assessment Academic Skills exam.

TAKS – Acronym for Texas Assessment and Knowledge Skills Program.

TASP – Acronym for Texas Academic Skills Program.

Taxes – Compulsory charges levied by a governmental unit for the purpose of financing services performed for the common benefit. The term includes licenses and permits. It does not include special assessments.

Tax Year – The twelve-month reporting period for filing taxes.

TEA – Acronym for the Texas Education Agency.

TEKS – Acronym for Texas Essential Knowledge and Skills.

INFORMATIONAL

TRS – Acronym for Teacher Retirement System.

TRS On-Behalf – Contributions made by the State of Texas on behalf of a school district employees. These are recognized as equal revenues and expenditures by each district.

Unencumbered Balance of Appropriation – That portion of an appropriation not yet expended or encumbered; the balance remaining after deducting from the appropriation the accumulated expenditures and outstanding encumbrances.

Unexpended Balance of Appropriation – That portion of an appropriation not yet expended; the balance remaining after deducting from the appropriation the accumulated expenditures.

Unit Cost – Expenditures for a function, activity, or service divided by the total number of units for which the function, activity, or service was provided.

WADA – Acronym for Weighted Average Daily Attendance.

WAN – Acronym for wide area network.

Workers' Compensation – Compensation provided to employees who are injured or contract an occupational disease due to their employment.
