

Valley Middle School of STEM

8th Grade Registration Form

2022 – 2023 School Year

Dear Parents/Guardians:

The 2022-2023 class registration process has begun!

As a STEM Middle School, we are excited to offer specialized programming for your child in the upcoming school year. Please consult our website at vmss.district196.org/ for a copy of the Registration Guide with a description of STEM and complete course descriptions.

As an eighth grader at VMSS, your child is afforded **two elective classes** in his or her schedule. Below is a listing of the elective classes being offered in 2022-23. Elective classes are full year commitments that meet on an every-other-day basis and should be chosen carefully. Every effort will be made to place a student in his or her requested classes, however, this is not always possible. **Students may not request an elective class that they have previously taken in 7th grade.** (For example: If you are enrolled in STEM Applied Arts in 7th grade then you may not take it in 8th grade).
