Liberty Sr High School (Issaquah School District)

Grade 10

Introduction and Overview

This report presents results from the fall 2016 Healthy Youth Survey in Washington State. This survey was sponsored by the Department of Health, the Office of Superintendent of Public Instruction, the Department of Social and Health Services and the Liquor and Cannabis Board in cooperation with schools throughout the state of Washington.

Survey questions covering the same topics are grouped together when possible but be sure to consult the index for related questions when you are searching for information on a specific topic. The numbering in this report is not the same as the question order on the survey itself.

The bulleted points and graphs included at the beginning of this report highlight selected findings. Additional information may be found in the *Interpretive Guide* posted to the Healthy Youth Survey web site: http://www.askhys.net/Reports/Additional.

Survey Participation in this Report

Number of students surveyed: 266
Number of valid responses: 261
Number of enrolled students*: 326
Your survey participation rate**: 80%

Caution about Participation Rates and Bias

Please use the following guidance when reviewing your results:

- 70% or greater participation-Results are probably representative of students in this grade.
- 40-69% participation-Results may be representative of students in this grade.
- Less than 40% participation—Results are likely not representative of students in this grade but do reflect students who completed the survey.

There may be limitations to your results even if you have a high participation rate. For instance, a particular group of students (say, the school orchestra) may have been away from school the day of the survey, and that could bias the results. It is important to acknowledge the potential limitations when using the results in this report. For reports summarizing results at the county or School District level, you should also consider whether the schools that participated represent all students in that area.

Small Numbers: Caution about Number of Students Participating

Results based on small numbers of students answering a question are unstable---that is, they could easily change with the absence from school of only a couple of students. This is especially the case when only a few students choose a particular answer option. Also, in this situation, the reported 95% confidence interval might be too narrow. Thus, use caution if fewer than 30 students answered a question and fewer than 5 students selected a given response option.

For example, if 20 students answered a question and of those 20 only 3 students answered "Yes", the estimate is unreliable.

See the Understanding Your Report section later in this report for a discussion of "confidence intervals" to help guide your interpretation of the results.

Key to the Notes

Three versions of the survey were used in the administration of the 2016 HYS. Forms A and B were given to secondary students (grades 8, 9, 10, 11 and 12 in some small school districts). Six questions on sexual orientation, behavior and abuse were optional at the discretion of the school; schools that did not administer the optional items tore off the last page of the survey booklet. Form C was given to elementary students (grade 6 and 7 in some small school districts).

A list of the topics asked and their location in the report are provided in the Questions by Topic section at the end of this report. "Core" questions are asked on both Forms A and B, a list of Core Questions is also found at the end of this report.

The following notes are used throughout this report to document the differences between the questions on different versions and indicate the optional questions:

A = wording on Form A; B = wording on Form B; C = wording on Form C

† = optional questions

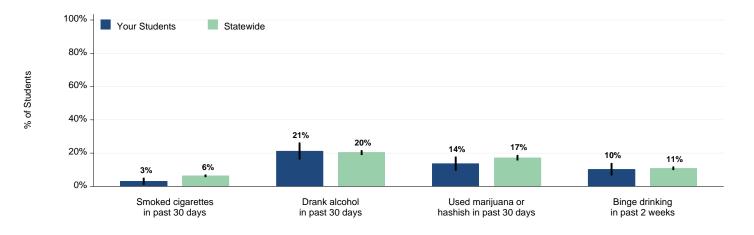

^{*} The estimate of enrolled students is based on figures from the 2016-2017 school year, provided by OSPI.

^{**} The survey participation rate is the number of valid responses divided by the number of enrolled students.

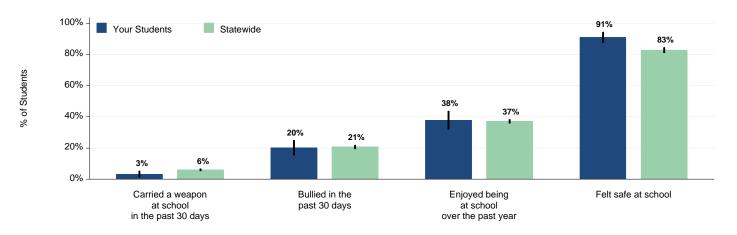

Highlights of the Local Results

Your students and students statewide reported the following behaviors and attitudes:

	Your Students	Statewide
Substance Use	% (±CI)	% (±CI)
Smoked cigarettes in past 30 days	3.1% (±2.2)	6.3% (±0.8)
Drank alcohol in past 30 days	21.3% (±5.1)	20.3% (±1.4)
Used marijuana or hashish in past 30 days	13.7% (±4.2)	17.2% (±1.6)
Binge drinking in past 2 weeks	10.3% (±3.8)	10.9% (±1.0)

Bullying and School Climate	Your Students % (±CI)	Statewide % (±CI)
Carried a weapon at school in the past 30 days	3.1% (±2.1)	6.0% (±0.8)
Bullied in the past 30 days	20.2% (±4.9)	20.7% (±1.3)
Enjoyed being at school over the past year	37.7% (±6.0)	37.2% (±1.3)
Felt safe at school	91.0% (±3.5)	82.8% (±1.8)

For more information on specific HYS topics, see the Fact Sheets at www.AskHYS.net, under HYS Results – Fact Sheets

Selected Results by Gender

Selected survey questions are presented by gender to highlight any differences between females and males.

The p-values reported after each question, calculated from a chi-square test, can be used to examine whether differences between females and males are statistically significant.

A p-value of less than 0.05 means there is a significant difference between females and males (that is, if there really is no difference between females and males, the probability of observing a difference at least this large is less than 5%).

To ensure student anonymity, we do not report results by gender for any question unless a minimum of students answer each response option. These results are "suppressed".

For your student results by gender, a minimum of 10 students need to answer each response option:

For example, to report smoking cigarettes in the past 30 days for your students by gender – surveys are needed for at least 10 females who smoke, 10 females who don't smoke, 10 males who smoke, and 10 males who don't smoke.

For state results by gender, a minimum of 5 students need to answer each response option.

Results that are suppressed are marked with asterisks "*". Many small counties, districts and schools may not have enough students to report results by gender for all or some questions.

	Yo	Your Students			Statewide	
	Female %	Male %	p-value	Female %	Male %	p-value
Smoked cigarettes in past 30 days	(n=2	55)		(n=10	,398)	
Smoked digarettes in past 30 days	***	***	***	5.4%	7.2%	0.0002
Drank alcohol in past 30 days	(n=2	54)		(n=10	,382)	
Drank alconor in past 50 days	22.2%	20.3%	0.7099	21.5%	19.0%	0.0012
Used marijuana or hashish in past 30 days	(n=2	56)		(n=10	,369)	
Osed manjuana of mashish in past 50 days	11.1%	16.2%	0.2403	17.1%	17.3%	0.7042
Binge drinking in past 2 weeks	(n=2	53)		(n=10	,300)	
bilige dillikilig ili past 2 weeks	***	***	***	10.6%	11.2%	0.4065
Carried a weapon at school in the past 30 days	(n=2	56)		(n=10	,260)	
Carried a weapon at school in the past 50 days	***	***	***	3.5%	8.6%	<.0001
Bullied in the past 30 days	(n=2	57)		(n=10	,664)

Enjoyed being at school over the past year	(n=2	57)		(n=10	,319)	
Enjoyed being at school over the past year	35.9%	39.5%	0.5519	35.9%	38.7%	0.0039
Felt safe at school	(n=2	56)		(n=10	,615)	
i on saic at soliooi	91.3%	90.7%	0.8577	83.4%	82.4%	0.1466

Understanding Your Report

N's

In this report "n" is shorthand for "number"---the number of students who took this survey or who answered a survey question. N's are important! We also report the point estimates (%), and the 95% confidence intervals (CI).

Here is an example of how results are displayed in the report tables and charts.

How many students took this survey?

Look on page 2, under Survey Participation. The "number of students surveyed" is the number of surveys that we received. We have careful procedures for "cleaning" to remove surveys with many inconsistent or false answers – the "clean" surveys are the "number of valid surveys". Only valid surveys are presented in this report.

How many students answered each survey question?

The n's for each question vary. Why? There are several reasons:

- There are two versions of the grades 8, 10, and 12 survey Form A and B. Core questions are on all
 versions, so the n's for those questions are about the same as the number of valid surveys. For non-Core
 questions the n's will be about half, or less.
- Some schools chose to take the questions about sexual orientation, behavior and abuse. Schools that chose
 to not ask those additional questions will have no responses for those questions. [District and county reports
 may include some schools that DID ask those questions and some that DID NOT.]
- Not all students finish the survey, so questions near the end have smaller n's. [NOTE: the order of the
 questions in the report is not the same as on the survey itself.] Also, some students may decide to skip certain
 questions.

Here are examples from a district with 400 valid surveys --- notice how the n's change with each question type.

19. Have you ever, even once in your life: Used marijuana? a. Yes b. No	(n=398) 49.0% (±3.0) 51.0% (±3.0)	(n=4,000) 46.0% (±1.0) 54.0% (±1.0)	N for a core question (almost all students)
20. Have you ever, even once in your life: Used inhalants (things you sniff to get high)? a. Yes b. No	(n=200) 11.0% (±4.0) 89.0% (±4.0)	(n=2,000) 12.0% (±2.0) 88.0% (±2.0)	N for a question on only one version (about half the students)
a. I have never had sexual intercourse for the first time? [†] a. I have never had sexual intercourse. b. 11 years old or younger c. 12 years old d. 13 years old e. 14 years old f. 15 years old g. 16 years old h. 17 years old or older	(n=100) 70.0% (±8.0) 2.0% (±2.0) 2.0% (±2.0) 5.0% (±2.0) 8.0% (±6.0) 9.0% (±5.0) 3.0% (±3.0) 1.0% (±1.0)	(n=1,500) 75.0% (±4.0) 2.0% (±1.0) 1.0% (±1.0) 4.0% (±1.0) 7.0% (±2.0) 8.0% (±2.0) 2.0% (±1.0) 1.0% (±1.0)	N for an optional sexual behavior question (about half, or less if some schools chose not to ask those questions)
155. Does your school have a counselor a. Yes b. No c. Not sure	(n=375) 90.0% (±3.0) 5.0% (±2.0) 5.0% (±2.0)	(n=3,750) 95.0% (±1.0) 2.0% (±1.0) 3.0% (±1.0)	N for a core question near the end of the survey (almost all, except students who don't finish the survey

How many students are we talking about?

N's are only provided for the total number of students who answered a question, not the individual answer options. Some people find it useful to translate their point estimates (%) into the number of students.

For example, in a district if 10% of students reported that "Yes" they used inhalants in their lifetime and 200 students answered the questions, then 20 students in the district used inhalants (20 X 0.10).

Confidence Intervals

It is unlikely that the point estimate (%) reported for each question is *exactly* the same as the "true" value for all your students. This report includes 95% confidence intervals (CI) to describe this uncertainty. If there is no bias in the data, then there is a 95% chance that the CI will include the true value. So for example, if the point estimate and CI are 51.5% (±1.5%), then there is a 95% chance that the true percentage is between 50.0% and 53.0%.

The size of your CIs depend in part on the n for each question – as more students answer a question, your point estimate is likely to be closer to the "true" value. If you are a small school, district or county your CIs will be large. The confidence interval does not take into account the participation rate – in other words, a low participation rate can create bias which will not be reflected in the CI.

How can you "use" confidence intervals?

CIs help you to decide if the differences between your students and the state are statistically significant.

For an example, let's say your students report 25% \pm 5%. That means that the CI is between 20% and 30% Here is the math: 25% -5% = 20%, and 25% \pm 5% = 30%

Using CIs, you can decide if the difference between your students and the state results are statistically significant:

- 1. A significant difference:
 - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
 - Students statewide report 36% ±3%, so the point estimate is 36% and the CI is 33% to 39%
 - The CIs don't overlap, so the difference is significant

- Not a significant difference:
 - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
 - Statewide students report 28% ±3%, so the point estimate is 28% and the CI is 25% to 31%
 - The CI for your students overlaps the point estimate for students statewide, so the difference is not significant

- 3. Not sure if there is a difference:
 - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
 - Statewide students report 32% ±3%, so the point estimate is 32% and the CI is 29% to 35%
 - The CIs overlap, but don't include the other point estimates, so you don't know for sure if they are really
 different without using the significance testing tool described in the next paragraph.

More information about interpreting CIs is available on the HYS Training web page at www.AskHYS.net/Training. The Training web page includes past HYS training materials and a "Tool for Determining HYS Statistical Significance". Use the "tool" to find out if your results are significantly different.

More Information

Much of the information on the Healthy Youth Survey is available online at www.AskHYS.net.

- Under HYS Results, you can find these "Frequency Reports". Also included is the 2012 Interpretive Guide with a
 detailed overview of the reports, information on statistical issues and how to use your data. There are also topical
 fact sheets and a data query system where you can run your own simple analysis.
- Under Training, there are copies of past HYS training workshop materials and the tool for testing significant differences.

Technical information is also at www.doh.wa.gov/DataandStatisticalReports/HealthBehaviors/HealthyYouthSurvey.

d. I was honest once in a while.		survey	s pulled	
e. I was not honest at all.	surveys pulled			

Alcohol, Tobacco and Other Drug Use

Alcohol, tobacco, and other drug (ATOD) use has been a major concern in this country for many years. The consequences of ATOD use are well known. In the short term, ATOD use interferes with positive physical, emotional, and social development. In the long term, ATOD use is associated with delinquency and criminal activity, unintended injuries, and a variety of health complications including shorter life expectancy. Tobacco use is the world's leading cause of preventable death, disease, and disability. This section provides information about lifetime ATOD use (which in part reflects experimental use), use in the past 30 days (i.e., current use), and other tobacco-, alcohol-, and drug-related issues.

Lifetime Use

Have you ever, even once in your life:

16. Smoked a cigarette, even just a puff? (Computed from question 227)	(n=131)	(n=5,091)
a. No	87.8% (±5.7)	80.8% (±1.8)
b. Yes	12.2% (±5.7)	19.2% (±1.8)

7. Smaked a whole singuistic? (Commuted from avection 47)		Your Students % (±CI)		Statewide % (±CI) (n=5,281)	
17. Smoked a whole cigarette? (Computed from question 47) a. No	95.9%	(±3.6)	87.4%	(±1.5)	
b. Yes	4.1%	(±3.6)	12.6%	(±1.5)	
8. Drank more than a sip or two of beer, wine, or hard liquor (for example:					
vodka, whiskey, or gin)? (Computed from question 18 or 228)		253)		0,337)	
a. No	56.5%	(± 6.2)	52.4%	(±2.1)	
b. Yes	43.5%	(±6.2)	47.6%	(±2.1)	
9. Used marijuana? (Computed from question 19 or 226)		254)		0,304)	
a. No	81.5%	(±4.8)	72.2%	(±2.4)	
b. Yes	18.5%	(±4.8)	27.8%	(±2.4)	
20. Used inhalants (things you sniff to get high)?	(n=	131)	(n=5	5,063)	
a. No	95.4%	(±3.6)	92.4%	(±1.0)	
b. Yes	4.6%	(±3.6)	7.6%	(±1.0)	
21. Used heroin?	(n=	131)	(n=5	5,072)	
a. No	98.5%	(±2.1)	96.4%	(±0.7)	
b. Yes	1.5%	(±2.1)	3.6%	(±0.7)	
22. Used methamphetamines (meth, crystal meth, ice, crank)? Do not include					
other types of amphetamines.		131)		,066)	
a. No	99.2%	(±1.5)	95.9%	(± 0.7)	
b. Yes	0.8%	(±1.5)	4.1%	(±0.7)	
3. Used cocaine?	(n=	131)	(n=5	5,063)	
a. No	97.7%	(±2.6)	95.0%	(±0.9)	
b. Yes	2.3%	(±2.6)	5.0%	(±0.9)	
24. Used steroids (muscle builders) without a doctor's prescription?	(n=	131)	(n=5	5,062)	
			,	<u> </u>	
a. No	97.7%	(± 2.6)	96.4%	(± 0.7)	

[Question 25 appears only on the elementary version of the survey.]

30-Day Use (Use in the Past 30 Days)

During the past 30 days, on how many days did you:

26. Smoke cigarettes?	(n=:	255)	(n=10	,459)
a. None	96.9%	(±2.2)	93.7%	(±0.8)
b. 1-2 days	1.2%	(±1.3)	2.6%	(± 0.4)
c. 3-5 days	0.8%	(±1.1)	1.1%	(± 0.2)
d. 6-9 days	1.2%	(±1.3)	0.8%	(± 0.2)
e. 10-29 days	0.0%	(±0.0)	0.9%	(± 0.3)

Other Health Concerns

Nutrition and Fitness

This section provides results regarding other health concerns including nutrition and fitness, health conditions and health care, safety, behaviors related to intentional injury, depression, and gambling behavior. Proper nutrition and exercise are critical components of a healthy life, as is access to preventive health care. Safety-related behaviors, such as wearing a seat belt when in a moving vehicle, can profoundly influence the outcome of an accident. Injury is the leading cause of death for adolescents aged 10 to 19, and violence contributes to injury-related deaths. People who are depressed experience a range of symptoms, and depression is associated with suicidal behavior.

Obese: "Obese" includes students who are in the top 5% for body mass index by age and gender based on growth charts developed by the Centers for Disease Control and Prevention (2000). "Overweight" includes students who are in the top 15% but not the top 5%.

Obese . 11.6% (±1.5) Overweight . 15.2% (±1.4) Normal weight . . 15.2% (±1.4) Underweight . . 2.4% (±0.5) te: Results for this question are suppressed for building-level reports 77. e. At least once a week	1.6% (±2.2)	1.8% (±0.4)

School Climate

In the past few years Washington State has given increased attention to supportive learning environments. Students need a safe, nurturing, healthy, and civil learning environment if they are to be successful in school. This section provides information about student perceptions of school climate.

when a student is teased repeatedly in a way he or she doesn't like. It is NOT bullying when two students of about the same strength argue or fight. In the last 30 days, how often have you been bullied?			Statewide % (± CI) (n=10,727)		
a. I have not been bullied.	79.8%	(±4.9)	79.3%	(±1.3)	
b. Once	9.7%	(±3.6)	8.9%	(±0.6)	
c. 2-3 times	5.4%	(±2.8)	6.5%	(±0.6)	
d. About once a week	2.7%	(±2.0)	2.6%	(±0.4)	
e. Several times a week	2.3%	(±1.9)	2.6%	(±0.4)	
47. When a student is being bullied at school, how often do teachers or other adults at school try to put a stop to it?	(n=	120)	(n=4	.,938)	
a. Almost always	37.5%	(±8.8)	30.9%	(±1.9)	
b. Often	27.5%	(±8.1)	24.6%	(±1.4)	
c. Sometimes	12.5%	(±6.0)	19.7%	(±1.3)	
d. Once in a while	15.0%	(±6.5)	12.7%	(±1.0)	
e. Almost never	7.5%	(±4.8)	12.1%	(±1.0)	
148. If you see bullying or have been bullied at school do you know how to report it?		123)		i,004)	
a. Yes	74.0%	(± 7.9)	72.4%	(± 2.0)	
b. No	11.4%	(± 5.7)	12.6%	(±1.4)	
c. Not sure	14.6%	(±6.3)	15.0%	(±1.2)	
149. In the past 30 days, how often were you bullied, harassed, or intimidated at school or on your way to or from school because of your race,					
ethnicity, or national origin or what someone thought it was?		122)		(,070)	
a. 0 times	93.4%	(±4.5)	89.3%	(±1.0)

Quality of Life

Health-related quality of life is an individual's or group's perceived physical and mental health over time. At the individual level it involves a person's health and health-related conditions; at the community level it involves conditions that influence people's health. This section contains the results of the survey questions related to individual quality of life.

162. Youth Quality of Life (Computed from questions 163-167)	(n=121)		(n=4	(n=4,835)

[Question 168 appears only on the elementary version of the survey.]

Risk and Protective Factors

Decades of research have shown that certain risk factors are associated with increased likelihood of health risk behaviors including ATOD use, violence, and delinquent behaviors. Similarly, research from Drs. Hawkins and Catalano and associates at the University of Washington, has shown that protective factors exert a positive influence against the negative influence of risk factors. The premise of the risk reduction and protective factor enhancement approach to prevention is that preventing a problem before it occurs requires addressing the factors that predict the problem. Ideally, this strategy entails discovering the causes of the problem behavior and influencing those causes. Many of the survey questions were used to assess students' status on risk and protective factors in the community, school, and peer-individual domains. Composite scales were computed for use in local program planning.

Risk and Protective Factor Framework and Reporting Schedule

This table provides a list of risk and protective factors included in the Healthy Youth Survey by year.

	2004	2006	2008	2010	2012	2014	2016
Community Protective Factors							
Opportunities for Prosocial Involvement	χs	Xs	Xs	XS	ΧS	XS	χs
Rewards for Prosocial Involvement	X	Χ	Χ	XE	XE	XΕ	XE
Community Risk Factors							
Transitions and Mobility	Xs

Low Commitment to School	X	X	Х	X	Х	X	Х
Academic Failure	X	Χ	Χ	Χ	Χ	X	X

Note: X^S = Included only on the secondary version; X^E = Included only on the elementary version.

Risk and Protective Factor Scale Results and Graphs

For each risk factor scale, the percentage of students who are at risk (i.e., who agreed with statements that predict ATOD use or other problem behaviors) is reported; higher percentages indicate that more students are likely to engage in problem behaviors. For each protective factor scale, the percentage of students who are resilient (i.e., who agreed with statements that predict the ability to resist ATOD use or other problem behaviors) is reported; higher percentages indicate that fewer students are likely to engage in problem behaviors. These percentages are based on computational methods provided by the University of Washington's Social Development Research Group.

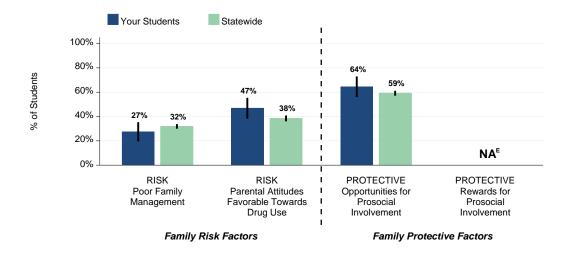

Community Domain Risk Factors	Your Students % (±Cl)	Statewide % (±CI)
Perceived Availability of Drugs (Questions 169-172)	(n=134)	(n=5,448)

Peer and Individual Domain

Perceived Risk of Drug Use (Questions 222-225)

How much do you think people risk harming themselves if they:

222. Smoke one or more packs of cigarettes per day?	(n=1	132)	(n=5	,317)
a. No risk	3.0%	(±3.0)	3.0%	(±0.7)
b. Slight risk	2.3%	(± 2.6)	3.9%	(± 0.6)
c. Moderate risk	6.1%	(±4.1)	11.9%	(±1.3)
d. Great risk	86.4%	(± 5.9)	77.9%	(± 2.0)
e. Not sure	2.3%	(±2.6)	3.3%	(±0.6)
223. Try marijuana once or twice?	(n=1	132)	(n=5	,306)
a. No risk	20.5%	(± 7.0)	29.4%	(± 2.4)
b. Slight risk	33.3%	(±8.1)	30.8%	(±1.9)
c. Moderate risk	27.3%	(± 7.7)	20.9%	(±1.7)
d. Great risk	15.9%	(± 6.3)	15.7%	(± 2.2)
e. Not sure	3.0%	(±3.0)	3.2%	(± 0.5)

224. Use marijuana regularly (at least once or twice a week)?	% (:	tudents ±CI) 132)	% (=	ewide ±CI) ,294)
a. No risk	10.6%	(±5.3)	13.5%	(±1.7)
b. Slight risk	11.4%	(± 5.5)	19.4%	(±1.4)
c. Moderate risk	32.6%	(±8.1)	28.1%	(±1.5)
d. Great risk	41.7%	(±8.5)	35.2%	(± 2.9)
e. Not sure	3.8%	(± 3.3)	3.7%	(± 0.6)
225. Take one or two drinks of an alcoholic beverage (wine, beer, a shot,	/	420)	/- F	005)
liquor) nearly every day? a. No risk	4.5%	132) (±3.6)	(n=5 5.5%	,285) (±0.7)
b. Slight risk	7.6%	(±4.6)	17.0%	(±1.3)
c. Moderate risk	30.3%	(±7.9)	31.6%	(±1.3)
d. Great risk	53.0%	(±8.6)	42.6%	(±1.8)
e. Not sure	4.5%	(±3.6)	3.2%	(± 0.6)

Early Initiation of Drug Use (Questions 226-229)

How old were you the first time you:

226. Used marijuana?	(n=	254)	(n=10	0,304)
a. Never have	81.5%	(±4.8)	72.2%	(±2.4)
b. 10 or younger	0.0%	(± 0.0)	2.0%	(± 0.4)

Think of your four best friends (the friends you feel closest to). In the past year (12 months), how many of your best friends have		Your Students % (生CI)		Statewide % (±Cl)		
238. Participated in clubs, organizations or activities at school? a. None of my friends	(n= 7.9%	(n=127) 7.9% (±4.7)		(n=4,605) 14.6% (±2.2)		
b. 1 of my friends	10.2%	(±5.3)	13.0%	(±1.0)		
c. 2 of my friends	11.0%	(±5.5)	15.6%	(±1.1)		
d. 3 of my friends	11.8%	(±5.7)	12.6%	(±1.1)		
e. 4 of my friends	59.1%	(±8.7)	44.2%	(±2.9)		
239. Made a commitment to stay drug-free?	(n=	(n=124)		(n=4,559)		
a. None of my friends	22.6%	(±7.5)	29.1%	(±2.1)		
b. 1 of my friends	12.1%	(± 5.8)	13.2%	(±1.1)		
c. 2 of my friends	6.5%	(± 4.4)	9.5%	(±1.0)		
d. 3 of my friends	12.1%	(± 5.8)	9.5%	(±0.8)		
e. 4 of my friends	46.8%	(±8.9)	38.8%	(±3.3)		
240. Liked school?	(n=122)		(n=4,569)			
a. None of my friends	23.0%	(± 7.6)	30.4%	(±2.2)		
b. 1 of my friends	4.9%	(± 3.9)	14.9%	(±1.2)		
c. 2 of my friends	21.3%	(± 7.4)	15.9%	(±1.4)		
d. 3 of my friends	15.6%	(± 6.5)	13.8%	(± 0.9)		
e. 4 of my friends	35.2%	(±8.6)	24.9%	(±1.9)		
241. Regularly attended religious services?		(n=120)		(n=4,552)		
a. None of my friends	25.0%	(±7.9)	36.2%	(±3.0)		
b. 1 of my friends	30.0%	(± 8.3)	24.8%	(±1.6)		
c. 2 of my friends	17.5%	(± 6.9)	16.8%	(±1.4)		
d. 3 of my friends	10.8%	(± 5.6)	8.7%	(±1.1)		
e. 4 of my friends	16.7%	(±6.8)	13.6%	(±2.0)		
242. Tried to do well in school?		(n=123)		(n=4,557)		
a. None of my friends	0.8%	(±1.6)	6.3%	(±1.1)		
b. 1 of my friends	5.7%	(±4.2)	6.0%	(±1.1)		
c. 2 of my friends	8.9%	(±5.1)	8.2%	(±1.1)		
d. 3 of my friends	10.6%	(± 5.5)	14.4%	(±1.0)		
e. 4 of my friends	74.0%	(± 7.9)	65.0%	(± 2.5)		

Belief in the Moral Order (Questions 243-246)

243. I think it is okay to take something without asking as long as you get

away with it.	(n=	(n=130)		(n=5,272)	
a. NO!	36.2%	(±8.4)	45.1%	(±1.8)	
b. No	52.3%	(± 8.7)	44.2%	(±1.8)	
c. yes	8.5%	(±4.8)	8.3%	(± 0.9)	
d. YES!	3.1%	(± 3.0)	2.4%	(± 0.4)	

44. I think sometimes it's okay to cheat at school.		Your Students % (±CI) (n=130)		Statewide % (±CI) (n=5,271)	
a. NO!	20.8%	(±7.1)	31.1%	(±2.5)	
b. No	38.5%	(± 8.5)	39.7%	(±1.6)	
c. yes	35.4%	(±8.3)	24.8%	(± 2.5)	
d. YES!	5.4%	(±3.9)	4.4%	(±0.7)	
245. It is all right to beat up people if they start the fight.	(n=131)		(n=5,260)		
a. NO!	26.7%	(±7.7)	23.9%	(±2.1)	
b. No	29.0%	(± 7.9)	27.3%	(±1.6)	
c. yes	34.4%	(±8.2)	31.9%	(± 2.0)	
d. YES!	9.9%	(±5.2)	16.9%	(±1.8)	
246. It is important to be honest with your parents, even if they become upset					
or you get punished.	(n=131)		(n=5,261)		
a. NO!	6.1%	(± 4.2)	5.7%	(± 0.6)	
b. No	9.9%	(± 5.2)	12.9%	(±1.1)	
c. yes	60.3%	(± 8.5)	47.8%	(±1.7)	
d. YES!	23.7%	(± 7.4)	33.6%	(±1.6)	

Prosocial Involvement (Questions 247-249)

[Questions 242-244 appear only on the elementary version of the survey.]

Social Skills (Questions 250-252)

250. You're looking at CDs in a music store with a friend. You look up and see her slip a CD under her coat. She smiles and says, "Which one do you want? Go ahead, take it while nobody's around." There is nobody in sight,					
no employees, and no other customers. What would you do now?	(n=122)		(n=4	(n=4,510)	
a. Ignore her	16.4%	(±6.7)	20.2%	(±1.7)	
b. Grab a CD and leave the store	9.0%	(±5.2)	9.0%	(±1.2)	
c. Tell her to put the CD back	38.5%	(± 8.8)	38.2%	(± 2.0)	
d. Act like it's a joke and ask her to put the CD back	36.1%	(±8.6)	32.5%	(±1.9)	
251. You are visiting another part of town and you don't know any of the people your age there. You are walking down the street and some teenager you don't know is walking toward you. He is about your size. As he is about to pass you, he deliberately bumps into you and you almost					
lose your balance. What would you say or do?	(n=122)		(n=4,490)		
a. Push the person back	8.2%	(± 4.9)	11.0%	(± 1.3)	
b. Say nothing and keep on walking	50.0%	(± 9.0)	48.7%	(± 2.5)	
c. Say, "Watch where you're going," and keep on walking	29.5%	(±8.2)	29.2%	(±1.7)	
d. Swear at the person and walk away	12.3%	(±5.9)	11.1%	(±1.0)	

252. You are at a party at someone's house and one of your friends offers you a drink containing alcohol. What would you say or do?	Your Students % (士CI) (n=121)		% (:	Statewide % (±CI) (n=4,478)	
a. Drink it	27.3%	(± 8.0)	26.7%	(±2.5)	
 Tell your friend, "No thanks. I don't drink," and suggest that you and your friend go and do something else 	27.3%	(±8.0)	36.0%	(±2.3)	
c. Just say, "No, thanks," and walk away	30.6%	(± 8.3)	26.6%	(±1.2)	
d. Make up a good excuse, tell your friend you had something else to do, and leave	14.9%	(±6.4)	10.7%	(±1.2)	

Questions by Topics

Questions about a single topic are not always grouped together in this report. For example, some questions about alcohol are presented in the Alcohol, Tobacco, and Other Drug (ATOD) Use section and others are presented in the Risk and Protective Factor section. The following list, groups the questions by topic so you can easily locate them in this report.

Abuse 125-129

Activities and Clubs 96, 180-182, 238

Alcohol

Access 55, 169 Age at first use 228-229 Consequences 75 Current use 31, 52-53 Drinking and driving 113, 115

Family influence 56-57, 190-191, 201

Lifetime use 18

Perceived norms 59-60, 62, 174, 176, 230, 235

Perceived risks 61, 225 Prevention/intervention 71, 154 Use at school 58, 70 Usual type 54

Asthma 97-98

Bullying/Harassment 146-153

Demographics 1, 3-6, 8-9

Family

Food insecurity 78-79 Living situations 10-13 Military service 14 Mother's education 8

Fighting 121, 245

Physical activity 88-91, 94-95 Sedentary behavior 92-93

Gambling 145

Gangs 122-123

HIV/STD/Pregnancy Prevention 158-160

Health or Health Care Oral Health 99-100 Sleep 102

Honesty 15, 243-244, 246

Marijuana

Access 63, 171 Age at first use 226 Current use 32, 65 Family influence 66-67, 203 Lifetime use 19

Perceived norms 69, 173, 178, 232, 236

Perceived risks 223-224 Use at school 68, 70 Using and driving 116-117 Usual type 64

Mental Health

Anxiety and worry 136-137

Depression 130

Help with mental health 138-140

Suicide 131-133

Nutrition

Breakfast 81 Food insecurity 78-79 Fruit/Vegetable servings 80 Junk food 87 Soda and Sugar Drinks 82-84

Other Drugs

Access 172 Consequences 75 Current use 33-36 Family influence 72, 190 Lifetime use 20-24

Perceived norms 73, 233, 237

Perceived risks 74

Prevention/intervention 71, 154, 239

Use at school 70

Quality of Life 162-167

Safety-related Behaviors **Swimming 108-109** Wearing Safety Gear 107

School Climate

Absence 101, 151, 193, 212 Achievement 204-205

After-school activities 96, 180-182, 238

Bullying/harassment 146-151

Counseling and support 139-140, 154-157

Engagement 206-211, 213-219, 221, 240, 242, 248

Nutrition 13, 83-84, 87 Physical activity 90-91, 94-95 Prevention/intervention 71, 140, 154 Safety at 151, 220 Substance use at 46, 48, 58, 68, 70

Weapons at 118

Sexual Orientation 9

Social and Emotional Learning 141-144

Substance Use Prevention 71, 154

Texting and Driving 110, 112

Tobacco and Electronic Cigarettes/Vaping

Access 44, 50, 170 Age at first use 47, 227 Current use 26-30 Family 39, 202 Lifetime use 16-17 Perceived norms 45, 175, 231, 234

Perceived risks 51, 222 Prevention/intervention 43, 154 Secondhand smoke 37, 39 Susceptibility to smoking 40-42

Use at school 46, 48 Usual type 49

Weapons 118, 120, 177, 192

Weight and Weight Loss 76-77

Work 161

Core Questions

"Core" questions that appeared on both Forms A and B (the secondary versions of the survey) are listed below. All other questions appeared on either Form A or Form B, but not both. Core questions may or may not have appeared on Form C (the elementary version).

Activities

Participation in after school activities 96

Alcohol

Age when first drank alcohol 228 Binge drinking 52 Current alcohol drinking (past 30 days) 31 Levels of alcohol use 53

Bullvina

Been bullied (past 30 days) 146

Lifetime alcohol use 18

Demographics

Age 1
Education level of mother 8
Food insecurity 79
Gender 3
Language spoken in home 6
Loss of home due to family finances 12
Race/Ethnicity 4
Where you live 11

Fighting

Physical fighting (past 12 months) 121

Gangs

Gang involvement 122 Gangs at school 123

Who you live with 10

Honesty

Honesty in completing survey 15

Marijuana

Age when first used marijuana 226 Current marijuana use (past 30 days) 32 Lifetime marijuana use 19

Mental Health

Bothered by anxiety 136 Bothered by worrying 137 Depression (past 12 months) 130 Person(s) turned to when depressed 139 Seriously considered attempting suicide 131

Other Drugs

Current painkiller use (past 30 days) 35

School Climate

Been bullied (past 30 days) 143
Enjoyed being in school (past 12 months) 209
Feel safe at school 220
Grades in school (past 12 months) 204
Participation in after school activities 96
Weapon carrying on school property (past 12 months) 118

Texting and Driving

Texting and driving (past 30 days) 112

Tobacco

Current cigarette smoking (past 30 days) 26

Weapons

Weapon carrying on school property (past 12 months) 118

For more information on which survey forms each question was on, see the Survey Crosswalk at www.AskHYS.net, under HYS Results - QxQ
