## Pine Lake Middle School (Issaquah School District)

Grade 6

## Introduction and Overview

This report presents results from the fall 2018 Healthy Youth Survey in Washington State. This survey was sponsored by the Department of Health, the Office of Superintendent of Public Instruction, the Department of Social and Health Services and the Liquor and Cannabis Board in cooperation with schools throughout the state of Washington.

Survey questions covering the same topics are grouped together when possible but be sure to consult the index for related questions when you are searching for information on a specific topic. The numbering in this report is not the same as the question order on the survey itself.

The bulleted points and graphs included at the beginning of this report highlight selected findings. Additional information may be found in the *Interpretive Guide* posted to the Healthy Youth Survey web site: http://www.askhys.net/Reports/Additional.

## **Survey Participation in this Report**

Number of students surveyed:	304
Number of valid responses:	303
Number of enrolled students*:	330
Your survey participation rate**:	92%

\* The estimate of enrolled students is based on figures from the 2018-2019 school year, provided by OSPI.

\*\* The survey participation rate is the number of valid responses divided by the number of enrolled students.

## **Caution about Participation Rates and Bias**

Please use the following guidance when reviewing your results:

- 70% or greater participation-Results are probably representative of students in this grade.
- 40-69% participation-Results may be representative of students in this grade.
- Less than 40% participation-Results are likely not representative of students in this grade but do reflect students who completed the survey.

There may be limitations to your results even if you have a high participation rate. For instance, a particular group of students (say, the school orchestra) may have been away from school the day of the survey, and that could bias the results. It is important to acknowledge the potential limitations when using the results in this report. For reports summarizing results at the county or School District level, you should also consider whether the schools that participated represent all students in that area.

## **Small Numbers: Caution about Number of Students Participating**

Results based on small numbers of students answering a question are unstable---that is, they could easily change with the absence from school of only a couple of students. This is especially the case when only a few students choose a particular answer option. Also, in this situation, the reported 95% confidence interval might be too narrow. Thus, use caution if fewer than 30 students answered a question and fewer than 5 students selected a given response option.

For example, if 20 students answered a question and of those 20 only 3 students answered "Yes", the estimate is unreliable.

See the Understanding Your Report section later in this report for a discussion of "confidence intervals" to help guide your interpretation of the results.

## Key to the Notes

Three versions of the survey were used in the administration of the 2018 HYS. Forms A and B were given to secondary students (grades 8, 9, 10, 11 and 12 in some small school districts). Eight questions on sexual orientation, behavior and abuse were optional at the discretion of the school; schools that did not administer the optional items tore off the last page of the survey booklet. Form C was given to elementary students (grade 6 and 7 in some small school districts).

A list of the topics asked and their location in the report are provided in the Questions by Topic section at the end of this report. "Core" questions are asked on both Forms A and B. A list of Core Questions is also found at the end of this report.

The following notes are used throughout this report to document the differences between the questions on different versions and indicate the optional questions:

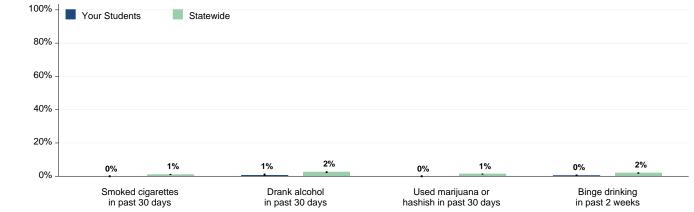

A = wording on Form A; B = wording on Form B; C = wording on Form C

† = optional questions

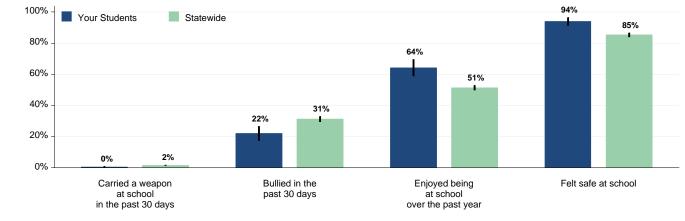

## **Highlights of the Local Results**

Your students and students statewide reported the following behaviors and attitudes:

	Your S	tudents	State	ewide
Substance Use	% (:	±CI)	% (	±CI)
Smoked cigarettes in past 30 days	0.0%	(±0.0)	1.0%	(±0.3)
Drank alcohol in past 30 days	0.7%	(±0.9)	2.4%	(±0.4)
Used marijuana or hashish in past 30 days	0.0%	(±0.0)	1.3%	(±0.3)
Binge drinking in past 2 weeks	0.3%	(±0.7)	1.9%	(±0.4)

	Your Students	Statewide
Bullying and School Climate	% (±CI)	% (±CI)
Carried a weapon at school in the past 30 days	0.3% (±0.7)	1.5% (±0.3)
Bullied in the past 30 days	22.1% (±4.7)	31.2% (±1.8)
Enjoyed being at school over the past year	64.1% (±5.4)	51.3% (±1.6)
Felt safe at school	93.9% (±2.7)	85.3% (±1.5)

For more information on specific HYS topics, see the Fact Sheets at www.AskHYS.net, under HYS Results – Fact Sheets

% of Students

## Selected Results by Gender

Selected survey questions are presented by gender to highlight any differences between females and males.

The p-values reported after each question, calculated from a chi-square test, can be used to examine whether differences between females and males are statistically significant.

A p-value of less than 0.05 means there is a significant difference between females and males (that is, if there really is no difference between females and males, the probability of observing a difference at least this large is less than 5%).

To ensure student anonymity, we do not report results by gender for any question unless a minimum of students answer each response option. These results are "suppressed".

For your student results by gender, a minimum of 10 students need to answer each response option:

For example, to report smoking cigarettes in the past 30 days for your students by gender – surveys are needed for at least 10 females who smoke, 10 females who don't smoke, 10 males who smoke, and 10 males who don't smoke.

For state results by gender, a minimum of 5 students need to answer each response option.

Results that are suppressed are marked with asterisks "\*". Many small counties, districts and schools may not have enough students to report results by gender for all or some questions.

	Yo	our Studen	its	:	Statewide	
	Female %	Male %	p-value	Female %	Male %	p-value

## Understanding Your Report

#### N's

In this report "n" is shorthand for "number"---the number of students who took this survey or who answered a survey question. N's are important! We also report the point estimates (%), and the 95% confidence intervals (CI).

Here is an example of how results are displayed in the report tables and charts.

#### How many students took this survey?

Look on page 2, under Survey Participation. The "number of students surveyed" is the number of surveys that we received. We have careful procedures for "cleaning" to remove surveys with many inconsistent or false answers – the "clean" surveys are the "number of valid surveys". Only valid surveys are presented in this report.

#### How many students answered each survey question?

The n's for each question vary. Why? There are several reasons:

- There are two versions of the grades 8, 10, and 12 survey Form A and B. Core questions are on all versions, so the n's for those questions are about the same as the number of valid surveys. For non-Core questions the n's will be about half, or less.
- Some schools chose to take the questions about sexual orientation, behavior and abuse. Schools that chose
  to not ask those additional questions will have no responses for those questions. [District and county reports
  may include some schools that DID ask those questions and some that DID NOT.]
- Not all students finish the survey, so questions near the end have smaller n's. [NOTE: the order of the
  questions in the report is not the same as on the survey itself.] Also, some students may decide to skip certain
  questions.

Here are examples from a district with 400 valid surveys --- notice how the n's change with each question type.

19. Have you ever, even once in your life: Used marijuana? a. Yes b. No	(n=398) 49.0% (±3.0) 51.0% (±3.0)	(n=4,000) 46.0% (±1.0) 54.0% (±1.0)	N for a core question (almost all students)
20. Have you ever, even once in your life: Used inhalants (things you sniff to get high)? a. Yes b. No	(n=200) 11.0% (±4.0) 89.0% (±4.0)	(n=2,000) 12.0% (±2.0) 88.0% (±2.0)	N for a question on only one version (about half the students)
104. How old were you when you had sexual intercourse for the first time? <sup>†</sup>	(n=100)	(n=1,500)	N for an optional sexual
a. I have never had sexual intercourse.	70.0% (±8.0)	75.0% (±4.0)	behavior question (about
b. 11 years old or younger	2.0% (±2.0)	2.0% (±1.0)	half, or less if some schools
c. 12 years old	2.0% (±2.0)	1.0% (±1.0)	chose not to ask those
d. 13 years old	5.0% (±2.0)	4.0% (±1.0)	questions)
e. 14 years old	8.0% (±6.0)	7.0% (±2.0)	
f. 15 years old	9.0% (±5.0)	8.0% (±2.0)	
g. 16 years old	3.0% (±3.0)	2.0% (±1.0)	
h. 17 years old or older	1.0% (±1.0)	1.0% (±1.0)	
155. Does your school have a counselor	(n=375)	(n=3,750)	N for a core question near
a. Yes	90.0% (±3.0)	95.0% (±1.0)	the end of the survey
b. No	5.0% (±2.0)	2.0% (±1.0)	(almost all, except students
c. Not sure	5.0% (±2.0)	3.0% (±1.0)	who don't finish the survey

## How many students are we talking about?

N's are only provided for the total number of students who answered a question, not the individual answer options. Some people find it useful to translate their point estimates (%) into the number of students.

For example, in a district if 10% of students reported that "Yes" they used inhalants in their lifetime and 200 students answered the questions, then 20 students in the district used inhalants (20 X 0.10).

## **Confidence Intervals**

It is unlikely that the point estimate (%) reported for each question is *exactly* the same as the "true" value for all your students. This report includes 95% confidence intervals (CI) to describe this uncertainty. If there is no bias in the data, then there is a 95% chance that the CI will include the true value. So for example, if the point estimate and CI are 51.5% (±1.5%), then there is a 95% chance that the true percentage is between 50.0% and 53.0%.

The size of your CIs depend in part on the n for each question – as more students answer a question, your point estimate is likely to be closer to the "true" value. If you are a small school, district or county your CIs will be large. The confidence interval does not take into account the participation rate – in other words, a low participation rate can create bias which will not be reflected in the CI.

## How can you "use" confidence intervals?

Cls help you to decide if the differences between your students and the state are statistically significant.

For an example, let's say your students report 25%  $\pm$ 5%. That means that the CI is between 20% and 30% Here is the math: 25% -5% = 20%, and 25% +5% = 30%

Using Cls, you can decide if the difference between your students and the state results are statistically significant:

- 1. A significant difference:
  - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
  - Students statewide report 36% ±3%, so the point estimate is 36% and the CI is 33% to 39%
  - The CIs don't overlap, so the difference is significant

Your students 20% 25% 30%

33% 36% 39% Students statewide

- 2. Not a significant difference:
  - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
  - Statewide students report 28% ±3%, so the point estimate is 28% and the CI is 25% to 31%
  - The CI for your students overlaps the point estimate for students statewide, so the difference is not significant

Your students	970	25%		30%	
		25%	28%	31%	Students statewide

- 3. Not sure if there is a difference:
  - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
  - Statewide students report 32% ±3%, so the point estimate is 32% and the CI is 29% to 35%
  - The CIs overlap, but don't include the other point estimates, so you don't know for sure if they are really
    different without using the significance testing tool described in the next paragraph.

Your students	20%	25%	30%			
			29%	32%	35%	Students statewide

More information about interpreting CIs is available on the HYS Training web page at www.AskHYS.net/Training. The Training web page includes past HYS training materials and a "Tool for Determining HYS Statistical Significance". Use the "tool" to find out if your results are significantly different.

## More Information

Much of the information on the Healthy Youth Survey is available online at www.AskHYS.net.

- Under HYS Results, you can find these "Frequency Reports". Also included is an Interpretive Guide with a
  detailed overview of the reports, information on statistical issues and how to use your data. There are also topical
  fact sheets and a data query system where you can run your own simple analysis.
- Under Training, there are copies of past HYS training workshop materials and the tool for testing significant differences.

Technical information is also at www.doh.wa.gov/DataandStatisticalReports/HealthBehaviors/HealthyYouthSurvey.

## **Frequency Results**

## **Demographics and General Information**

[Question 1 appears only on the secondary version of the survey.]

	Your S	Students	State	ewide	
	% (	(±CI)	% (	±CI)	
2. How old are you?	(n=302)		(n=9	(n=9,566)	
a. 10 or younger	2.3%	(±1.7)	1.5%	(±0.3	
b. 11	84.4%	(±4.1)	75.8%	(±1.0	
c. 12	13.2%	(±3.8)	22.0%	(±1.0	
d. 13	0.0%	(±0.0)	0.5%	(±0.2	
e. 14	0.0%	(±0.0)	0.0%	(±0.0	
f. 15 or older	0.0%	(±0.0)	0.0%	(±0.0	
. What sex/gender were you at birth, even if you are not that gender today?	(n=	:301)	(n=9	9,544)	
a. Female	55.8%	(±5.6)	49.9%	(±1.1	
b. Male	44.2%	(±5.6)	50.1%	(±1.1	
estions 4-5 appear only on the secondary version of the survey.]					
5. How do you describe yourself? (Select one or more responses.)	(n=	:279)	(n=8	8,987)	
a Amorican Indian or Alaskan Nativo	6 8%	(+3.0)	5 6%	(+∩ 0	

	(11=2	.13)	(11=0)	,507)	_
a. American Indian or Alaskan Native	6.8%	(±3.0)	5.6%	(±0.9)	
b. Asian or Asian American	35.8%	(±5.7)	7.3%	(±1.7)	
c. Black or African-American	0.7%	(±1.0)	4.2%	(±1.0)	
d. Hispanic or Latino/Latina	6.5%	(±2.9)	16.7%	(±4.1)	
e. Native Hawaiian or other Pacific Islander	0.0%	(±0.0)	1.7%	(±0.4)	
f. White or Caucasian	24.0%	(±5.0)	35.6%	(±4.3)	
g. Other	18.6%	(±4.6)	19.5%	(±1.6)	
More than one race/ethnicity marked	7.5%	(±3.1)	9.3%	(±0.9)	

Another way to report race and ethnicity, is to categorize all Hispanic students as Hispanic regardless of race. If a student is Not Hispanic and is in more than one race roll-up category they will be reported as 'Multiracial non-Hispanic'.

7. How do you describe yourself? (Select one or more responses.)	(n=2	279)	(n=8,	987)
White non-Hispanic	24.0%	(±5.0)	35.6%	(±4.3)
Hispanic	6.8%	(±3.0)	20.1%	(±4.4)
American Indian or Alaskan Native non-Hispanic	6.8%	(±3.0)	5.6%	(±0.9)
Asian or Asian American non-Hispanic	35.8%	(±5.7)	7.3%	(±1.7)
Black or African-American non-Hispanic	0.7%	(±1.0)	4.2%	(±1.0)
Native Hawaiian or other Pacific Islander non-Hispanic	0.0%	(±0.0)	1.7%	(±0.4)
Other non-Hispanic	18.6%	(±4.6)	19.5%	(±1.6)
Multiracial non-Hispanic	7.2%	(±3.0)	6.0%	(±0.7)

## Alcohol, Tobacco and Other Drug Use

Alcohol, tobacco, and other drug (ATOD) use has been a major concern in this country for many years. The consequences of ATOD use are well known. In the short term, ATOD use interferes with positive physical, emotional, and social development. In the long term, ATOD use is associated with delinquency and criminal activity, unintended injuries, and a variety of health complications including shorter life expectancy. Tobacco use is the world's leading cause of preventable death, disease, and disability. This section provides information about lifetime ATOD use (which in part reflects experimental use), use in the past 30 days (i.e., current use), and other tobacco-, alcohol-, and drug-related issues.

## Lifetime Use

[Questions 21-22 appear only on the secondary version of the survey.]

#### Have you ever, even once in your life:

nave you ever, even once in your me:	Your S	tudents	Statewide	
23. Drank more than a sip or two of beer, wine, or hard liquor (for example: vodka, whiskey, or gin)? (Computed from question 23 or 232)	<b>% (±Cl)</b> (n=296)		% <b>(</b> ± <b>CI)</b> (n=8,685)	
a. No	86.8%	(±3.9)	75.7%	(±1.1)
b. Yes	13.2%	(±3.9)	24.3%	(±1.1)
24. Used marijuana? (Computed from question 24 or 230)	(n=	296)	(n=8	3,683)
a. No	98.3%	(±1.5)	96.2%	(±0.5)
b. Yes	1.7%	(±1.5)	3.8%	(±0.5)
25. Used inhalants (things you sniff to get high)?	(n=	295)	(n=8	3,678)
a. No	98.3%	(±1.5)	97.1%	(±0.4)
b. Yes	1.7%	(±1.5)	2.9%	(±0.4)

[Questions 26-30 appear only on the secondary version of the survey.]

31. Used other illegal drugs?	(n=2	(n=297)		
a. Yes	2.0%	(±1.6)	2.6%	(±0.4)
b. No	98.0%	(±1.6)	97.4%	(±0.4)

## 30-Day Use (Use in the Past 30 Days)

#### During the past 30 days, on how many days did you:

32. Smoke cigarettes?	(n=2	298)	(n=8,	944)
a. None	100.0%	(±0.0)	99.0%	(±0.3)
b. 1-2 days	0.0%	(±0.0)	0.5%	(±0.2)
c. 3-5 days	0.0%	(±0.0)	0.2%	(±0.1)
d. 6-9 days	0.0%	(±0.0)	0.1%	(±0.1)
e. 10-29 days	0.0%	(±0.0)	0.1%	(±0.0)
f. All 30 days	0.0%	(±0.0)	0.2%	(±0.1)
Any use in past 30 days	0.0%	(±0.0)	1.0%	(±0.3)

	Your St	udents	State	wide
3. Use chewing tobacco, snuff, or dip?	•	% <b>(±CI)</b> (n=298)		± <b>CI)</b> ,869)
a. None	100.0%	(±0.0)	99.0%	(±0.3)
b. 1-2 days	0.0%	(±0.0)	0.5%	(±0.2)
c. 3-5 days	0.0%	(±0.0)	0.2%	(±0.1)
d. 6-9 days	0.0%	(±0.0)	0.2%	(±0.1)
e. 10-29 days	0.0%	(±0.0)	0.1%	(±0.1)
f. All 30 days	0.0%	(±0.0)	0.1%	(±0.1)
Any use in past 30 days	0.0%	(±0.0)	1.0%	(±0.3)

[Question 34 appears only on the secondary version of the survey.]

35. Use an electronic cigarette, also called e-cigs, or vape pens?	(n=	298)	(n=8,838)		
a. None	99.3%	(±0.9)	97.0%	(±0.5)	
b. 1-2 days	0.7%	(±0.9)	1.7%	(±0.3)	
c. 3-5 days	0.0%	(±0.0)	0.5%	(±0.2)	
d. 6-9 days	0.0%	(±0.0)	0.2%	(±0.1)	
e. 10-19 days	0.0%	(±0.0)	0.2%	(±0.1)	
f. 20-29 days	0.0%	(±0.0)	0.1%	(±0.1)	
g. All 30 days	0.0%	(±0.0)	0.3%	(±0.1)	
Any use in past 30 days	0.7%	(±0.9)	3.0%	(±0.5)	

[Questions 36-37 appear only on the secondary version of the survey.]

## During the past 30 days, on how many days did you:

## 38. Drink a glass, can or bottle of alcohol (beer, wine, wine coolers, hard

liquor)?	(n=	298)	(n=8,	,769)
a. None	99.3%	(±0.9)	97.6%	(±0.4)
b. 1-2 days	0.7%	(±0.9)	1.8%	(±0.3)
c. 3-5 days	0.0%	(±0.0)	0.3%	(±0.2)
d. 6-9 days	0.0%	(±0.0)	0.1%	(±0.1)
e. 10 or more days	0.0%	(±0.0)	0.2%	(±0.1)
Any use in past 30 days	0.7%	(±0.9)	2.4%	(±0.4)

	Your Students % (±CI) (n=297)		Statewide	
39. Use marijuana or hashish (weed, hash, pot)?			•	% <b>(±CI)</b> (n=8,687)
a. None	100.0%	(±0.0)	98.7%	(±0.3)
b. 1-2 days	0.0%	(±0.0)	0.7%	(±0.2)
c. 3-5 days	0.0%	(±0.0)	0.2%	(±0.1)
d. 6-9 days	0.0%	(±0.0)	0.2%	(±0.1)
e. 10-19 days	0.0%	(±0.0)	0.1%	(±0.0)
f. 20-29 days	0.0%	(±0.0)	0.0%	(±0.0)
g. All 30 days	0.0%	(±0.0)	0.1%	(±0.1)
Any use in past 30 days	0.0%	(±0.0)	1.3%	(±0.3)
40. Not counting alcohol, tobacco, or marijuana, use another illegal drug?	(n=:	298)	(n=8	,706)
a. None	99.7%	(±0.7)	99.1%	(±0.3)
b. 1-2 days	0.0%	(±0.0)	0.6%	(±0.2)
c. 3-5 days	0.0%	(±0.0)	0.1%	(±0.1)
d. 6-9 days	0.0%	(±0.0)	0.0%	(±0.0)
e. 10 or more days	0.3%	(±0.7)	0.2%	(±0.1)
Any use in past 30 days	0.3%	(±0.7)	0.9%	(±0.3)

#### 41. Use any illegal drug, including marijuana? (Computed from questions 39

and 40)	(n=2	(n=8,645)		
None	99.7%	(±0.7)	98.4%	(±0.4)
Any use in past 30 days	0.3%	(±0.7)	1.6%	(±0.4)

[Questions 42-44 appear only on the secondary version of the survey.]

## **Other Tobacco-Related Questions**

[Questions 45-46 appear only on the secondary version of the survey.]

## 47. During the past 7 days, on how many days were you in the same room

with someone who was smoking cigarettes?	(n=2	288)	(n=7,	998)
a. 0 days	90.3%	(±3.4)	81.8%	(±1.4)
b. 1-2 days	8.3%	(±3.2)	11.0%	(±0.8)
c. 3-4 days	1.0%	(±1.2)	2.4%	(±0.4)
d. 5-6 days	0.0%	(±0.0)	1.2%	(±0.3)
e. 7 days	0.3%	(±0.7)	3.6%	(±0.6)

## 48. During the past 7 days, on how many days did you ride in a car with

someone who was smoking cigarettes?	(n=289)			000)
a. 0 days	98.3%	(±1.5)	89.1%	(±1.3)
b. 1-2 days	1.0%	(±1.2)	5.3%	(±0.8)
c. 3-4 days	0.3%	(±0.7)	1.8%	(±0.4)
d. 5-6 days	0.3%	(±0.7)	0.8%	(±0.2)
e. 7 days	0.0%	(±0.0)	2.9%	(±0.6)

[Questions 49-55 appear only on the secondary version of the survey.]

## Other Electronic Cigarette- and Vaping-Related Questions

[Questions 56-59 appear only on the secondary version of the survey.]

## **Other Alcohol-Related Questions**

60. Think back over the last 2 weeks. How many times have you had five or more drinks in a row? (A drink is a glass of wine, a bottle of beer, a shot	Your Students % (±Cl)		State % (1	ewide ±CI)
glass of liquor, or a mixed drink.)	(n=:	297)	(n=8	,628)
a. None	99.7%	(±0.7)	98.1%	(±0.4)
b. Once	0.0%	(±0.0)	1.1%	(±0.2)
c. Twice	0.3%	(±0.7)	0.3%	(±0.1)
d. 3-5 times	0.0%	(±0.0)	0.2%	(±0.1)
e. 6-9 times	0.0%	(±0.0)	0.1%	(±0.1)
f. 10 or more times	0.0%	(±0.0)	0.2%	(±0.1)
61. Drinking Categories Variable (Computed from questions 38 and 60)	(n=	297)	(n=8	,569)
No drinking past 30 days and no binging past 2 weeks	99.0%	(±1.1)	96.5%	(±0.5)
1-2 days drinking past 30 days and no binging past 2 weeks	0.7%	(±0.9)	1.3%	(±0.2)
3-5 days drinking past 30 days and/or 1 binge past 2 weeks	0.0%	(±0.0)	1.2%	(±0.3)
6+ days drinking past 30 days and/or 2+ binge past 2 weeks	0.3%	(±0.7)	1.0%	(±0.3)

[Questions 62-69 appear only on the secondary version of the survey.]

## **Other Marijuana-Related Questions**

[Questions 70-75 appear only on the secondary version of the survey.]

## **Other Alcohol- and Drug-Related Questions**

[Questions 76-78 appear only on the secondary version of the survey.]

#### 79. During the past year in school, how many times did you get information in

classes about reasons not to use alcohol or drugs?	(n=289)	(n=7,915)
a. Never	23.9% (±4.9)	28.9% (±2.9)
b. Once	28.0% (±5.2)	22.9% (±1.5)
c. 2-3 times	27.0% (±5.1)	24.1% (±1.9)
d. 4 or more times	21.1% (±4.7)	24.1% (±3.1)

[Questions 80-82 appear only on the secondary version of the survey.]

## **Other Health Concerns**

## **Nutrition and Fitness**

This section provides results regarding other health concerns including nutrition and fitness, health conditions and health care, safety, behaviors related to intentional injury, and depression. Proper nutrition and exercise are critical components of a healthy life, as is access to preventive health care. Safety-related behaviors can profoundly influence the outcome of an accident. Injury is the leading cause of death for adolescents aged 10 to 19, and violence contributes to injury-related deaths. People who are depressed experience a range of symptoms, and depression is associated with suicidal behavior.

Obese: "Obese" includes students who are in the top 5% for body mass index by age and gender based on growth charts developed by the Centers for Disease Control and Prevention (2000). "Overweight" includes students who are in the top 15% but not the top 5%.

[Question 83 appears only on the secondary version of the survey.]

	Your Students		State	ewide
84. How often do you eat dinner with your family?	<b>% (</b> : (n=)	% <b>(±CI)</b> (n=7,745)		
a. Never	1.0%	(±1.2)	2.9%	(±0.5)
b. Rarely	7.7%	(±3.1)	9.1%	(±0.9)
c. Sometimes	10.1%	(±3.5)	13.2%	(±1.1)
d. Most of the time	33.2%	(±5.5)	29.2%	(±1.6)
e. Always	47.9%	(±5.8)	45.6%	(±1.7)

[Question 85 appears only on the secondary version of the survey.]

86. Did you eat breakfast today?	(n=:	295)	(n=8,058)		
a. Yes	88.8%	(±3.6)	76.0%	(±2.0)	
b. No	11.2%	(±3.6)	24.0%	(±2.0)	

[Questions 87-90 appear only on the secondary version of the survey.]

#### 91. How many sodas, sports drinks (such as Gatorade) and other sweetened

drinks (such as Snapple or SoBe) did you drink	,	(n=	(n=294)		,057)
a. None		69.0%	(±5.3)	54.4%	(±2.6)
b. 1		26.5%	(±5.1)	31.9%	(±1.6)

[Questions 150-151 appear only on the secondary version of the survey.]

## School Climate

In the past few years Washington State has given increased attention to supportive learning environments. Students need a safe, nurturing, healthy, and civil learning environment if they are to be successful in school. This section provides information about student perceptions of school climate.

152. In the last 30 days, how often have you been bullied? Bullying is when one or more students threaten, spread rumors about, hit, shove, or otherwise hurt another student over and over again. It is not bullying when two students of about the same strength or power argue or fight or tease each other in a friendly way.	% (:	tudents ±CI) 299)	State % ( <u>⊣</u> (n=8,	:CI)
a. I have not been bullied.	77.9%	(±4.7)	68.8%	(±1.8)
b. Once	14.4%	(±4.0)	15.4%	(±0.9)
c. 2 – 3 times	4.7%	(±2.4)	7.8%	(±0.7)
d. About once a week	1.7%	(±1.5)	2.8%	(±0.4)
e. Several times a week	1.3%	(±1.3)	5.2%	(±0.7)

[Questions 153-164 appear only on the secondary version of the survey.]

## Quality of Life

Health-related quality of life is an individual's or group's perceived physical and mental health over time. At the individual level it involves a person's health and health-related conditions; at the community level it involves conditions that influence people's health. This section contains the results of the survey questions related to individual quality of life.

[Question 165 appears only on the secondary version of the survey.]

166. Do you have goals and plans for the future?	bu have goals and plans for the future? (n=295)		plans for the future? (n=295) (n=9,254)	
a. No	18.6% (±4.5	) 16.3% (±0.8)		
b. Yes	81.4% (±4.5	) 83.7% (±0.8)		

## **Children's Hope Scale**

Hope reflects a future orientated mindset and motivational process by which an individual has an expectation toward attaining a desirable goal. Research has linked hope with overall physical, psychological, and social well-being. This section introduces the Children's Hope Scale, an assessment of agency (ability to initiate and sustain action towards goals) and pathways (capacity to find a means to carry out goals).

[Questions 167-171 appear only on the secondary version of the survey.]

## **Risk and Protective Factors**

Decades of research have shown that certain risk factors are associated with increased likelihood of health risk behaviors including ATOD use, violence, and delinquent behaviors. Similarly, research from Drs. Hawkins and Catalano and associates at the University of Washington, has shown that protective factors exert a positive influence against the negative influence of risk factors. The premise of the risk reduction and protective factor enhancement approach to prevention is that preventing a problem before it occurs requires addressing the factors that predict the problem. Ideally, this strategy entails discovering the causes of the problem behavior and influencing those causes. Many of the survey questions were used to assess students' status on risk and protective factors in the community, school, and peer-individual domains. Composite scales were computed for use in local program planning.

## **Risk and Protective Factor Framework and Reporting Schedule**

This table provides a list of risk and protective factors included in the Healthy Youth Survey by year.

	2006	2008	2010	2012	2014	2016	2018
Community Protective Factors							
Opportunities for Prosocial Involvement	Xs	χs	Xs	XS	XS	XS	XS
Rewards for Prosocial Involvement	Х	Х	XE	XE	XE	XE	XE
Community Risk Factors							
Perceived Availability of Handguns	XS	XS	XS	XS			XS
Laws And Norms Favorable to Drug Use	Х	Х	Х	Х	Х	Х	Х
Low Neighborhood Attachment	Xs	XS	Xs

## **Risk and Protective Factor Scale Results and Graphs**

For each risk factor scale, the percentage of students who are at risk (i.e., who agreed with statements that predict ATOD use or other problem behaviors) is reported; higher percentages indicate that more students are likely to engage in problem behaviors. For each protective factor scale, the percentage of students who are resilient (i.e., who agreed with statements that predict the ability to resist ATOD use or other problem behaviors) is reported; higher percentages indicate that fewer students are likely to engage in problem behaviors. For each behaviors. These percentages are based on computational methods provided by the University of Washington's Social Development Research Group.

## **Community Domain**

## Perceived Availability of Drugs (Questions 172-175)

	Your St	udents	State	wide
172. If you wanted to get some beer, wine, or hard liquor (for example vodka, whiskey, or gin), how easy would it be for you to get some?	<b>% (</b> ± (n=2	,	•	± <b>CI)</b> ,715)
a. Very hard	72.0%	(±5.2)	70.7%	(±1.5)
b. Sort of hard	15.4%	(±4.2)	15.2%	(±1.1)
c. Sort of easy	7.3%	(±3.0)	8.4%	(±0.6)
d. Very easy	5.2%	(±2.6)	5.6%	(±0.6)

## 173. If you wanted to get some cigarettes, how easy would it be for you to get

some?	(n=287)	(n=8,649)
a. Very hard	87.1% (±3.9)	76.9% (±1.4)
b. Sort of hard	9.1% (±3.3)	12.0% (±0.8)
c. Sort of easy	2.1% (±1.7)	6.1% (±0.7)
d. Very easy	1.7% (±1.5)	5.1% (±0.5)

## 174. If you wanted to get some marijuana, how easy would it be for you to get

some?	(n=284)		(n=8	,612)
a. Very hard	93.3%	(±2.9)	85.4%	(±1.2)
b. Sort of hard	5.6%	(±2.7)	7.7%	(±0.7)
c. Sort of easy	0.0%	(±0.0)	3.7%	(±0.5)
d. Very easy	1.1%	(±1.2)	3.3%	(±0.5)

## 175. If you wanted to get a drug like cocaine, LSD, or amphetamines, how

······································					
easy would it be for you to get some?	(n=285)		(n=8,	,600)	
a. Very hard	94.7%	(±2.6)	90.8%	(±0.8)	
b. Sort of hard	3.5%	(±2.1)	5.3%	(±0.6)	
c. Sort of easy	0.7%	(±1.0)	1.9%	(±0.3)	
d. Very easy	1.1%	(±1.2)	1.9%	(±0.3)	

## Perceived Availability of Hand Guns (Question 176)

[Question 176 appears only on the secondary version of the survey.]

## Laws and Norms Favorable to Drug Use (Questions 177-182)

		Your Students		Statewide		
77. How wrong would most adults in your neighborhood <sup>C</sup> / neighborhood or community <sup>A</sup> think it was for kids your age: To use marijuana?		% <b>(</b> ±CI) (n=288)		± <b>CI)</b> 5,880)		
a. Very wrong	94.1%	(±2.7)	81.2%	(±1.3		
b. Wrong	4.5%	(±2.4)	11.1%	(±0.9

## Parental Attitudes Favorable Towards Drug Use (Questions 205-207)

[Questions 205-207 appear only on the secondary version of the survey.]

## School Domain

## Academic Failure Questions (Questions 208-209)

	Your S	tudents	State	wide
208. Putting them all together, what were your grades like last year?	•	± <b>CI)</b> 292)	•	± <b>CI)</b> ,031)
a. Mostly As	67.5%	(±5.4)	43.9%	(±3.2)
b. Mostly Bs	28.4%	(±5.2)	39.1%	(±2.4)
c. Mostly Cs	3.8%	(±2.2)	12.9%	(±1.4)
d. Mostly Ds	0.3%	(±0.7)	2.6%	(±0.5)
e. Mostly Fs	0.0%	(±0.0)	1.6%	(±0.4)

## 209. Are your school grades better than the grades of most students in your

class?	(n=272)	(n=	9,010)
a. NO!	5.5% (±	2.7) 6.3%	(±0.7)
b. No	32.4% (±	5.6) 32.8%	(±1.4)
c. yes	54.8% (±	6.0) 51.2%	(±1.6)
d. YES!	7.4% (±	3.1) 9.7%	(±0.9)

## Low Commitment to School (Questions 210-216)

## 210. How often do you feel the schoolwork you are assigned is meaningful

and important?	(n=298)		nd important? (n=298)		(n=9,345)	
a. Almost always	23.2%	(±4.8)	24.8%	(±1.4)		
b. Often	35.9%	(±5.5)	27.2%	(±1.1)		
c. Sometimes	27.5%	(±5.1)	31.7%	(±1.1)		
d. Seldom	7.7%	(±3.0)	9.9%	(±0.7)		
e. Never	5.7%	(±2.6)	6.5%	(±0.6)		
211. How interesting are most of your courses to you?	(n=	293)	(n=9	,119)		
a. Very interesting and stimulating	12.6%	(±3.8)	11.7%	(±1.1)		
b. Quite interesting	37.9%	(±5.6)	34.9%	(±1.5)		
c. Fairly interesting	37.5%	(±5.6)	35.7%	(±1.4)		
d. Slightly dull	8.5%	(±3.2)	12.9%	(±0.8)		
e. Very dull	3.4%	(±2.1)	4.8%	(±0.5)		

	Your S	tudents	State	ewide
212. How important do you think the things you are learning in school are going to be for you later in life?	-	± <b>CI)</b> 298)	•	± <b>CI)</b> ,338)
a. Very important	30.9%	(±5.3)	38.9%	(±2.1)
b. Quite important	39.3%	(±5.6)	28.1%	(±1.1)
c. Fairly important	19.8%	(±4.6)	19.7%	(±1.1)
d. Slightly important	7.0%	(±2.9)	10.6%	(±0.8)
e. Not at all important	3.0%	(±2.0)	2.8%	(±0.4)
Think back over the past year in school. How often did you:				
213. Enjoy being in school?	(n=	301)	(n=9	,533)
a. Never	2.3%	(±1.7)	7.3%	(±0.8)
b. Seldom	7.3%	(±3.0)	6.8%	(±0.6)
c. Sometimes	26.2%	(±5.0)	34.5%	(±1.1)
d. Often	38.2%	(±5.5)	26.6%	(±1.2)

214. Hate being in school?	(n=	301)	(n=9	,424)
a. Never	16.9%	(±4.3)	19.6%	(±1.3)
b. Seldom	38.9%	(±5.5)	25.0%	(±1.7)
c. Sometimes	33.9%	(±5.4)	37.6%	(±1.6)
d. Often	7.0%	(±2.9)	9.8%	(±0.8)
e. Almost always	3.3%	(±2.0)	8.0%	(±0.9)
215. Try to do your best work in school?	(n=	302)	(n=9	,391)
a. Never	1.3%	(±1.3)	1.8%	(±0.3)
b. Seldom	0.3%	(±0.7)	1.5%	(±0.3)
c. Sometimes	6.0%	(±2.7)	7.8%	(±0.8)

## Perceived Risk of Drug Use (Questions 226-229)

## How much do you think people risk harming themselves if they:

226. Smoke one or more packs of cigarettes per day?	(n=2	294)	(n=8	,241)
a. No risk	2.7%	(±1.9)	6.7%	(±1.0)
b. Slight risk	3.1%	(±2.0)	5.6%	(±0.6)
c. Moderate risk	12.6%	(±3.8)	15.1%	(±0.9)
d. Great risk	77.6%	(±4.8)	61.9%	(±2.2)
e. Not sure	4.1%	(±2.3)	10.6%	(±1.2)

	Your S	tudents	State	wide
	•	% (±CI)		±CI)
227. Try marijuana once or twice?	(n=2	293)	(n=8	,192)
a. No risk	4.8%	(±2.5)	13.4%	(±1.4)
b. Slight risk	13.7%	(±4.0)	20.3%	(±1.1)
c. Moderate risk	27.6%	(±5.2)	23.3%	(±1.2)
d. Great risk	39.9%	(±5.6)	30.7%	(±1.4)
e. Not sure	14.0%	(±4.0)	12.3%	(±1.0)
228. Use marijuana regularly (at least once or twice a week)?	(n=2	293)	(n=8	,166)
a. No risk	4.1%	(±2.3)	10.6%	(±1.3)
b. Slight risk	4.1%	(±2.3)	9.3%	(±0.9)
c. Moderate risk	11.6%	(±3.7)	19.5%	(±1.1)
d. Great risk	69.6%	(±5.3)	48.8%	(±2.6)
e. Not sure	10.6%	(±3.5)	11.9%	(±1.0)

#### 229. Take one or two drinks of an alcoholic beverage (wine, beer, a shot,

liquor) nearly every day?	(n=	292)	(n=8,	164)
a. No risk	8.6%	(±3.2)	14.9%	(±1.3)
b. Slight risk	14.0%	(±4.0)	18.9%	(±0.9)
c. Moderate risk	24.0%	(±4.9)	23.9%	(±1.2)
d. Great risk	43.8%	(±5.7)	31.9%	(±1.6)
e. Not sure	9.6%	(±3.4)	10.4%	(±0.8)
	9.0%	(±3.4)	10.4%	(±0.0)

## Early Initiation of Drug Use (Questions 230-233)

[Questions 230-233 appear only on the secondary version of the survey.]

## Favorable Attitudes Toward Drug Use (Questions 234-237)

#### How wrong do YOU think it is for someone your age to:

#### 234. Drink beer, wine, or hard liquor (for example vodka, whiskey, or gin)

regularly?	(n=294)	(n=8,227)
a. Very wrong	93.2% (±2.9)	82.8% (±1.2)
b. Wrong	5.4% (±2.6)	11.7% (±0.8)
c. A little bit wrong	1.0% (±1.2)	4.4% (±0.6)
d. Not wrong at all	0.3% (±0.7)	1.1% (±0.2)
235. Smoke cigarettes?	(n=294)	(n=8,161)
a. Very wrong	96.6% (±2.1)	$a = \frac{1}{2}a(1 + 1)$
, , , , , , , , , , , , , , , , , , , ,	96.6% (±2.1)	86.7% (±1.0)
b. Wrong	96.6% (±2.1) 3.4% (±2.1)	86.7% (±1.0) 10.0% (±0.8)
b. Wrong c. A little bit wrong		
5	3.4% (±2.1)	10.0% (±0.8)

	Your Students		Statewide		
236. Use marijuana?	•	% <b>(±CI)</b> (n=293)		% <b>(±CI)</b> (n=8,109)	
a. Very wrong	98.3%	(±1.5)	88.9%	(±1.1)	
b. Wrong	1.7%	(±1.5)	7.2%	(±0.7)	
c. A little bit wrong	0.0%	(±0.0)	2.6%	(±0.5)	
d. Not wrong at all	0.0%	(±0.0)	1.3%	(±0.4)	
237. Use LSD, cocaine, amphetamines, or another illegal drug?	(n=	(n=293)		(n=8,095)	
a. Very wrong	98.0%	(±1.6)	93.3%	(±0.9)	
b. Wrong	1.4%	(±1.3)	4.5%	(±0.6)	
c. A little bit wrong	0.3%	(±0.7)	1.1%	(±0.5)	
d. Not wrong at all	0.3%	(±0.7)	1.1%	(±0.5)	

## Friends Use Drugs (Questions 238-241)

[Questions 238-241 appear only on the secondary version of the survey.]

## Social Skills (Questions 242-244)

[Questions 242-244 appear only on the secondary version of the survey.]

## **Questions by Topics**

Questions about a single topic are not always grouped together in this report. For example, some questions about alcohol are presented in the Alcohol, Tobacco, and Other Drug (ATOD) Use section and others are presented in the Risk and Protective Factor section. The following list, groups the questions by topic so you can easily locate them in this report.

Activities and Clubs 103

Alcohol Access 172 Current use 38, 60 Drinking and driving 124 Lifetime use 23 Perceived norms 178, 180, 234 Perceived risks 229 Prevention/intervention 79

Asthma 105-106

Bullying/Harassment 152

Demographics 2-3, 6-7, 10, 16-20
