SUMMARY OF PROJECTED NEW HOMES

Several extrapolations can be drawn from the data on the previous pages. These projections are conjecture based upon these plans and past experience.

- 1. There are approximately **742** units planned for West Lampeter Township in the next several years.
- 2. There are approximately **7** units planned for Strasburg Borough
- 3. The municipality has averaged less than **10** new homes each year for the last 10 years.

Summary

A total of **759** homes are potential for the next few years depending upon many factors including the economy and the sewer moratorium. The breakdown by municipality for these potential homes is as follows:

Strasburg Borough	7
Strasburg Township	10
West Lampeter Township	742 *

* includes 10 non-development homes annually

Presently, we average **.3148** children per household that attend public school. If the home school, tutor, and cyber school students (178) and private/parochial students (665) are included in the calculation, the average household contains .4011 school-age children. If Willow Valley's households (1,556) were excluded, each household averages .4772 school-age children. If this ratio continues and if all units are built, this would be an increase of approximately 239 school-age children residing in the District.

Our students come from approximately 2,020 different addresses (households). This means that approximately 20.67% of our households have students in school. If Willow Valley is subtracted, the percent of our households that have students in school is approximately 24.59%.

Numbers of students in District buildings do not accurately reflect the number of students who are receiving their education in District buildings because some students attend the Lancaster County Career and Technology Center, Lancaster County Academy, Lancaster Lebanon Virtual Solutions, or other appropriate placements located outside the District. The number of District secondary students currently being educated for either full or partial days outside the District is 120, while the number of elementary students is 16.

Growth Time Line

The closing of Strasburg Elementary School in 2013 transitioned all K-2 students to Lampeter Elementary School. With this transition, the following statements are true:

1. The District is currently conducting a Feasibility Study with Crabtree, Rohrbaugh and Associates. The study includes a review of all District buildings and student growth projections.
2. Lampeter Elementary is currently at, or slightly above the desired student capacity threshold. Taking into account student projections based upon live births, it appears all other buildings will remain within student capacity limits for the foreseeable future.
3. All buildings continue to be properly maintained and remain in good condition given their age. The previously referenced Feasibility Study will include recommendations to enable District buildings to continue to meet the needs of all learners.

It is, however, important to remember that enrollment numbers are based on projections. The further into the future that the one extends, the less reliable the projections become.
