Youth will also learn about the support and services available through the VR Program.

Job Readiness Workshop Series

for students with disabilities

The Job Readiness Workshop curriculum was developed based on USOR need, national research on youth with disabilities and employment, and successful job clubs. The workshops are designed to educate students with disabilities on self-discovery, job-readiness, job-seeking, and job-keeping.

Each workshop provides powerpoints, student workbooks (with reflective questions and note-taking pages), and activity suggestions and resources.

The curriculum is set up in a 10-week format, but may be adapted by the VR counselor to meet the teacher's schedule and student needs.

To schedule a Job Readiness Workshop, contact the USOR Transition Coordinator or your local VR Transition Counselor.
