Standardized Testing

All SYA schools are ETS test centers, allowing students to take appropriate tests while abroad. Each school is also staffed with a College Counseling Liaison who helps juniors begin to make college application plans and seniors to complete the process already begun with guidance from their home school counselors.

During the 2019-2020 Academic Year, all of SYA's campuses evacuated early due to COVID-19. As a result, many students participated in SAT and Advanced Placement exams in the United States at their home schools. SYA's programs were suspended for 2020-2021, and no testing data was recorded. As a result, the following data demonstrate a snapshot of prior years' student testing statistics, through 2019 or 2020 when data was available.
