

# Clear Browser History

## Chrome:

- Click the 3 vertical dots **⋮** in the top right corner below the X.
- Click on **History**. On the menu that pops out, click **History**.
- Click **Clear browsing data** on the left side. Then click the **Advanced** tab.
- Set the **Time range** dropdown box to: **All time**.
- Put a checkmark in every box (can leave Passwords unchecked).
- Click the **Clear data** button.
- Completely close all browser windows, then launch and try again.

## Firefox:

- Click the 3 dashes **☰** in the top right corner below the X.
- Click on **History**. Then select **Clear recent history**.
- Set **Time range to clear** dropdown box to: **Everything**.
- Put a checkmark in every box (can leave Active Logins unchecked)
- Click **OK**.
- Completely close all browser windows, then launch and try again.

## Edge:

- Click the 3 horizontal dots **⋯** in the top right corner below the X.
- Click on **History**.
- On the menu that pops out, click the 3 dots **⋯** on the top right for **More Options**.
- Select **Clear browsing data**.
- Set **Time range** dropdown box to: **All time**.
- Put a checkmark in every box (can leave Passwords unchecked).
- Click the **Clear now** button.
- Completely close all browser windows, then launch and try again.

## SAFARI:

- **Mac**
  - Click **History** on the top menu bar.
  - Click **Clear History**.
  - On pop-up box, set **Clear** dropdown box to: **all history**.
  - Click the **Clear History** button.
  - Completely close all browser windows, then launch and try again.
- **iPhone/iPad**
  - Go to **Settings**.
  - Scroll down to **Safari**.
  - Tap **Clear History and Website Data**.
