**Attendees:** Tom Bravo, Jeff Halseth, Bridgett Phimister, Kari Schwietering  
Rick Kreyer, Patricia Magneson, Asya Phillips, Linda Tillou, Mary Juberian,  
Corey Maslowski Patrice Howard, Clarence Pollock, Angie Martinez  
Grande, Jessica Honza

Eye Wash Stations All Eye Wash Stations have been inspected and we are 99% compliance.

Year End Laboratory and Science Check List IEA will be doing an audit later this year for OSHA Files.  
Both HS and MS will still need to turn in their 2020 Year End Science Check List for OSHA Inspections later this spring. Any deficiencies found by IEA last spring is under design and will be corrected later this summer 2021.

Chemical Usage in District and Recalls. The chemical approved by the district H&S Manager last year is QT Plus which kills all Virus including Covid-19. Any other product must not be used unless approved by the district and H&S Committee.

Five Year Sprinkler Inspection The districts Five-year sprinkler Inspection is complete and we passed.

Playground Safety Please remind Lead Building Engineers that Playground safety reports are still due every month.

Pool Inspections The County Pool Inspector will be on site in the next couple of weeks. Please make sure all past violations are complete.

Regulatory Books Inspection by IEA and OSHA Our 27 OSHA Regulatory Books were inspected last week and we are in full compliance. However, we must continue to keep our building safe from non-UL approved items and safety issues.

IAQ Update Every school facility has been re-inspected last fall and winter for any building air flow issues and we are in full compliance with air changes per hour and building system flow. This was completed by certified mechanical engineers and PE.

The meeting concluded by 4:45 PM.
