

Dear Parents and Carers 7.2.22

This week we will be reading 'Ten Little Fingers and Ten Little Toes'. We will be thinking about numerals 0-10, including ways to represent numbers. We will be developing our knowledge of numbers and quantities, using child led activities and resources such as Numicon to do so.

During group times this week, children will get the opportunity to put their knowledge into practice, by going on a walk to collect natural objects. After the walk, children will be challenged to match quantities of collected objects to numerals!

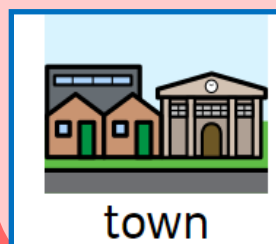

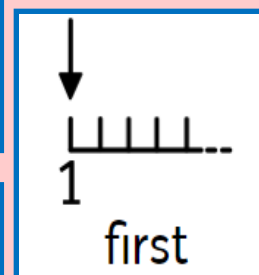

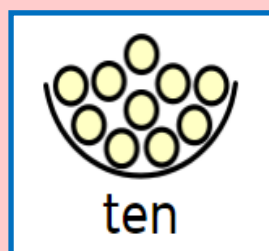

Thank you to all children, parents and staff for their creativity during maths day. Children engaged in multiple mathematical activities and enjoyed finding numbers on their teachers clothes! Pictures can be found on Twitter.

Polite reminder

If your child has their ears pierced, please ensure that they wear a small stud. For health and safety reasons, larger earrings, including hoops, are not permitted.

Words of the week
