WPCA Administrator's Report, February 2022 Meeting

- We had another water line break last Friday. Because of the icy weather, we worked on it Saturday morning. Underwood Road is very steep, and I was concerned for the safety of our people working in the icy conditions. We went door-to-door informing the customers about the water being turned off. Several homes in that area have small water pumps that could burn out if they aren't turned off. Water was shut off at 8:30 and was back online at 10:30.
- We had 7 Firms respond to our RFQ regarding the Engineering services for the Water and Wastewater System Improvements. We reviewed and graded each packet that was submitted and chose three firms to be interviewed on February 15th. The firms chosen are CDM Smith, Beta Group, and Weston and Sampson.
- I have put a draft of the proposed 22/23 water and sewer budgets in our packet. I will review the budgets at our upcoming meeting.

Putnam WWTP February 2022

Putnam Wastewater Report for the February 2022 meeting

All results & data used is as of January 31, 2022

- All required sampling, testing, laboratory analysis, and reporting had been completed for the wastewater treatment plant.
- The wastewater facility operated in full compliance with permit limits.
- We received 239,021 Gallons of Septic Wastewater in January.
- We successfully treated 18.1 million gallons of wastewater in January
- Average effluent concentrations for BOD & TSS were 4.0 mg/L & 3.0 mg/L respectively for the January. This is well below the NPDES permit average limit of 30.0 mg/L for them.
- No odor complaints had been received.
- We had 21 Call before you dig mark outs in January.
- A total of 4,200 feet of sewer line had been jetted in January. Pall Corp, Edmond, Grove to South Main, & Florence.
- We are finishing up with our discharge permit renewal. The last step will be to employ an extensive sampling and testing protocol. This is mandated by the DEEP and will require some additional overtime. *Update:* The men collected and tested all the extra samples.
- On a similar note: We have continued working with Pall Corp and engineering on their permit renewal. Additionally, they are still working on the best methodology of treating a discharge for a new process. More to follow. *Update:* A virtual meeting is scheduled with Pall in early February.
- Some of our staff has had training to reach higher levels of certification. One of our staff failed to pass the DEEP Class IV Wastewater Treatment test. He will continue to study and seek out more related training.
- Working on the selection for the RFQ that was advertised for engineering. We will conduct meetings with the folks that show the most promise for our needs.
