Dear Keeneyville District 20 Families,

We wanted to share with our families a pre-recorded [Administrator Video Discussion](#) to provide more information regarding the pending lawsuit challenging the Governor's executive orders on masking, quarantine and staff vaccination in schools. As you know, our Keeneyville District 20 is not named in the lawsuit, and the current temporary restraining order does not apply to our district. However, we are closely monitoring the case as it goes through the appeals process so that we can determine the potential impact on our schools. We expect an appellate decision will come swiftly, which will hopefully provide more clarity for all school districts.

In the meantime, we are thankful for your continued patience and understanding as we maintain the current [D20 COVID-19 Protocols](#) as we attempt to maintain stability for our students and staff, as well as minimize disruptions for our learning environment.

Sincerely,

Dr. Omar Castillo
Superintendent of Schools
Keeneyville ESD 20
