

## ***We'll put wings on your idea for a new school.***

*Looking to start a new school? **SOARING** Education Services provides a simple, low-risk, affordable approach to Christian education.*

Our expertise covers everything from funding recommendations to establishing a curriculum that meets your Christian education goals.

***EVERY STEP of the school start-up process is part of our roadmap, including:***

- Funding resources
- Planning and timetables
- Rallying community families
- Selecting an ideal learning facility
- Identifying and hiring passionate educators
- Designing and developing curriculum
- Establishing a distinct Christian identity
- Scheduling and operational planning
- Exploring enrollment and tuition models by state
- Marketing your school
- Consulting on state licensing and permitting

***We can help with EVERY ASPECT of starting a school.***

There's never been a better time to start a Christian school. With our guidance, your school will take off and soar with the best!

# Starting your own Christian school just got a whole lot easier.

At **SOARING** Education Services we take the guesswork out of starting a school and let you focus on what you do best.

Whether you're a small church looking to start a new school for your community or a homeschool parent seeking to include more families, SOARING has all the answers you need.

We can help with every aspect of starting and operating a school or even improving an existing school.

## Launch

We provide customized planning for your team using a facilitated process. This includes project planning, conceptualization, and prioritization of work. We provide the coaching, resources, tools, and materials needed for a successful, personalized school launch.

Launch services come in convenient packages which are tailored to your specific goals. These services and coaching are also available à la carte.

### Other launch services include:

- **Technology support services** — putting your school on the web and connecting students, educators, and parents.
- **Human resource services** — we'll become your HR department, handling everything from payroll to workers' comp claims.
- **Talent services** — staffing your school and finding passionate educators.
- **Accounting services** — basic financial management of your operation.
- **Curriculum and Learning Management** using carefully curated tools and resources.
- **Marketing and branding** your school to keep your enrollment levels high.

## Ongoing School Support

Any individual services outlined in the launch section can be customized for use with an existing school.

***Let SOARING be the wind beneath the wings of your school start-up!***
