CHROMEBOOK FEES

Chrome book devices are loaned to students and remain the property of the KSD. Just like textbooks, team uniforms, and other school property issued to students for school purposes, there is a responsibility to care for and return the property in good condition. However, we understand that accidents or loss may happen, even when students are doing their best to take care of their devices.

Service

Unexpected problems do occur with the devices that are not the fault of the user (computer crashes, software errors, etc.). KSD Information Technology Department is available to assist students with getting such issues resolved. Students should submit work orders through their school Chromebook coordinator. KSD owned devices should not be taken to an outside computer service for repair.

Loaner Devices

Temporary replacements (sometimes called "hot swaps") are available at each school so that learning may continue during any repair process. Students are responsible for the care of the loaner device. The same rules and regulations apply to loaner devices.

Repairs

Costs of accidental damage and theft are covered as follows. (Accidental damage, fire, flood or natural disaster.)

Examples costs

Accidental Damage	Stolen*	Not Covered

Accidental damage vs. Negligence

Accidents do happen. There is a difference, however, between an accident and negligence. If the device is deemed to be intentionally or willfully damaged, the student may be subject to discipline and the cost of repair or replacement. Willful damage includes damage caused by removal of the case, writing on the machine, willful destruction, prying off keys/trackpad, spilling liquid in the machine, etc.

Repair costs are for parts; no labor charges are assessed. Representative costs are provided here:

Lost Equipment

If any equipment is lost, the student or parent must immediately report it to the school Chromebook coordinator. When a device is reported as lost or stolen, the Information Technology Department will remotely turn off all device functionality so the device is unusable.

Equipment Return

All District owned devices must be returned. Students leaving the KSD midyear must return the device to the Chromebook site coordinator. As a part of the return procedure, the device will be inspected to assure that it is functioning properly and is not damaged. If a student leaves the KSD, but does not return the device, they will be fined for the full replacement cost, and standard rules for the restriction of records and transcripts would apply. Law enforcement may be involved for the purpose of recovering KSD property.
