

OCTOBER 2021

# OSHKOSH AREA SCHOOL DISTRICT PROJECT PROGRESS REPORT

## WHAT'S NEW?

The Oshkosh Area School District and Bray Architects have partnered to gain community feedback on the name and mascot for the New Middle School. Over the past two months, our District and Bray Architects have held a community meeting for the New Middle School and attended two City of Oshkosh meetings as it relates to the traffic impact on the Jackson Field site.

## PLANNING & DESIGN UPDATE

At the Middle School, Oshkosh Area School District and Bray Architects have been immersed in detailed conversation on overall site design and continued dialogue on functionality of the building itself. By the first week of October, the user group meetings, including staff from Merrill and Webster Stanley, have concluded. Bray Architects is making the final push to send construction documents out to bid on behalf of the OASD. Design work for the upcoming Secure Entry Projects at North High School, West High School, Oakwood Elementary School, and Read Elementary School is ongoing and includes refining building and site plans.

## WHAT'S NEXT?

- » By mid-November, the Construction Documents for the New Middle School will be sent out to contractors for bidding. Results of bidding will be compiled towards the end of December with the Board's approval mid-January.
- » The first round of community feedback on the name and mascot of the New Middle School's has been collected, and it is currently being evaluated. The list will then be narrowed to five options, and OASD will be sending out another survey to staff, students, and community to select from a handful of options.
- » Over the next month, the OSAD will be reviewing additional qualification statements for the General Contractor of this summer's Secure Entry Projects at North High School, West High School, Read Elementary School, and Oakwood Elementary School.
