## School Accountability Report Card

### Reported Using Data from the 2015-16 School Year

#### Published During 2016-17

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### School Description and Mission Statement (School Year 2016-17)

Description: Caliber Schools are free, public, non-selective charter schools offering a rigorous, personalized, college preparatory education for Bay Area students. Caliber: ChangeMakers Academy, which opened in August 2016, currently serves approximately 300 TK-3 and 6th grade students at our campus in Vallejo, CA. In the next two years we will add 4th/5th and 7th/8th grade students and serve TK-8.

Mission: Our mission is to provide students with a challenging, engaging, and personalized education that equips them with the knowledge, character, and skills they will need to succeed in competitive colleges, careers, and communities. We believe every child can succeed in college and life if they are given the opportunity. Unfortunately, too many students never get this chance. The American education system is failing students in under-resourced communities. Students in many districts graduate high school without the essential skills or knowledge they need to succeed in college and beyond. In contrast, Caliber Schools provides a free, safe, personalized, high quality education that includes a robust academic program. We teach critical life skills such as conflict resolution and goal setting. All Caliber students participate in our daily coding, robotics, and engineering program, as well as a rigorous writing program. We prepare all of our students to graduate from a four-year college without remediation.

We achieve this mission through 9 core components of our educational model:

- \* Personalized learning
- \* Project-based science and social studies
- \* Blended English and Math
- \* Collaboration in grade teams
- \* Emotional intelligence
- \* Daily writing
- \* Longer school day
- \* Enrichment
- \* Computer coding and computational thinking

### Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2016-17)

Year and month in which data were collected: January 2017

Caliber's curriculum relies heavily on the use of adaptive instructional software instead of traditional textbooks. As a result, the materials reported here include many software tools that we use in different areas of our curriculum. In addition to the many instructional benefits of using software such as this (e.g., permitting highly personalized instruction), the school also benefits because the software is automatically updated over time, and is easily available to all students. As a result, all students have access to the most recent versions at all times.

**School Facility Conditions and Planned Improvements (Most Recent Year)**

Caliber: ChangeMakers Academy works in close cooperation with the Vallejo City Unified School District (VCUSD) to provide a facility that is safe and clean.

VCUSD has allocated facilities to Caliber: ChangeMakers Academy under Prop. 39 and is responsible for the good repair of them. As this is a new school and a new site, VCUSD and SCOE have not yet conducted a FIT report on most of the facilities we have been allocated.

Caliber maintains responsibility for ensuring the day-to-day cleanliness of the facility. The school custodial staff carries out daily cleaning schedules to ensure a clean and safe school.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

### CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

### CAASPP Test Results in ELA by Student Group

#### Grades Three through Eight and Grade Eleven (School Year 2015-16)

Student Group	Grade	Number of Students		Percent of Students	
		Enrolled	Tested	Tested	Standard Met or Exceeded

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**CAASPP Test Results in Mathematics by Student Group  
Grades Three through Eight and Grade Eleven (School Year 2015-16)**

Student Group	Grade	Number of Students		Percent of Students	
		Enrolled	Tested	Tested	Standard Met or Exceeded

Note: Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.
