

BRAIN BOOSTERS

Grades 1 - 5

Brain Boosters Junior Academics is a three-week program which will focus on improvement of skills in math, reading, and writing for elementary level students. Using hands-on activities and technology, they will strengthen their math computations, enhance their reading comprehension, and sharpen their writing skills. They will become active and curious learners while finding out that learning can be fun. These classes are designed to review previously learned concepts and prepare students for the upcoming year. Our classes, taught by experienced teachers, recognize the importance of differentiation, and focus on whole group and small group instruction to teach to students' individual needs.

Due to Covid-19 safety protocols, all campers and staff will be tested before attending. Masks will be required during indoor activities and daily sanitizing and cleaning requirements will be used each day.

SESSION:

July 5 – July 21

8:30 AM – 12:30 PM Monday – Thursday

\$800.00 for the full session

A non-refundable \$50 registration fee is required at time of registration (no registration fee before April 12, 2022)

Brain Boosters will provide opportunities for students to exercise their critical thinking skills to solve reading, writing, and math challenges. Students will work both independently and cooperatively to solve mysteries and complete hands-on projects as they review previously learned skills and those that will be introduced in the upcoming school year.

Math: Students will practice the fundamentals of computation while also working on a variety of challenging projects that will cultivate both critical thinking and problem-solving skills.

Reading: Our readers will continue to develop and strengthen their decoding skills and interpretive abilities through age-appropriate literature. Students will enjoy read-aloud and independent engagement with a variety of fiction and non-fiction texts.

Writing: Students will write daily to increase writing stamina and fluency. Lessons will focus on writing strategies, planning, and organization to help students express their ideas effectively. Dependent on grade level, students will sample and learn to write expository, descriptive, persuasive, and narrative pieces.

Optional Add-ons for Brain Boosters:

Afternoon Camp: \$275 per week Monday through Thursday 12:30 PM - 3:00 PM

includes lunch and two afternoon activities

Friday Full Day of Camp: \$125 per Friday (limited spaces)
