Staff at Good Shepherd

A dynamic and caring staff is at the heart of our Summer Program. Our carefully selected, experienced, and well-trained staff members have diverse backgrounds working with children. They bring their talents and enthusiasm to connect with each child's unique personality and interests. We are excited to share our gifts and look forward to spending the summer with your children!

Health & Safety

Our number one commitment is to our campers' safety while they are participating in our Summer Program. To ensure the safety of each child, camp staff members are assigned to small groups. Outdoor activities will be limited to no more than 15 minutes when the heat index

is 95 degrees or higher. Staff members trained in First Aid and CPR are on-site and available during Summer Program hours.

The Summer Program requires that a camper's health conditions, treatments, and medications be listed and explained. Please remember to list all camper allergies, as it is essential that we have this information to best serve your child. Parents are required to provide an epi-pen, inhaler, or emergency medication, as needed. You will drop off any medications with Ursula Villarreal, Good Shepherd Summer Program assistant, on the first day of the camp week. If you are attending multiple weeks, you are welcome to leave all medications with us throughout the summer. Please make sure all medications and bags are appropriately labeled with the camper's name and medication instructions. Parents may contact the Director of Enrichment at any time to discuss their child's health concerns.

COVID-19 Safety Protocols

Please see our COVID-19 safety protocols please click [here](#). Our summer program follows the safety protocols of the school. If any changes to protocols are made, we will update this information and notify you via email.
