

# Rush Elementary

## School Improvement Plan

### Annual Update: 2021-22

*This school improvement plan meets the requirements of WAC 180-16-220 and WAC 180-105-020.<sup>1</sup>*

#### SCHOOL OVERVIEW

**Description:** Rush Elementary is a school where all students are provided a rich academic program in a safe, nurturing environment. Rush is situated in South-Redmond and most students who graduate from Rush Elementary go on to attend Rose Hill Middle School and then Lake Washington High School. Last year, 652 students attended Rush Elementary. 4.1% of our students met the qualification for Low Income, 6.4% qualified for Special Education Services, and 30.4% met the qualification criteria for Multi-Language Learner support. One of our strengths as a community is the diversity of our students who bring rich knowledge and experiences from many cultural backgrounds. Our students and families speak more than 40 languages and come from all over the United States and the world. We have one of the largest Multilingual Learner programs in the district and provide a differentiated model to support each student. Our teachers use Sheltered Instruction Observation Protocol (SIOP) strategies in their classrooms to help all students be successful, including our multilingual learners.

Using a Multi-Tiered Systems of Support (MTSS) approach, we use data to carefully decide how best to support students and provide an appropriate level of academic and behavioral support. Our staff is in our fourth year of schoolwide Positive Behavioral Interventions & Supports (PBIS) implementation. Taking a proactive approach to teaching students clearly defined behavior expectations has allowed us to collect data and address student needs in a positive and supportive way. We are of the mindset that our proactive approach will increase our students' sense of belonging at Rush. To provide our students with a strong tier 1 foundation and build our students' sense of community, our PBIS committee is participating in Restorative Practices professional development. Our work with Restorative Practices will focus on nurturing healthy relationships and creating just and equitable learning spaces where our students can thrive as they feel welcomed, valued, and appreciated. This year, we are focused on implementing the new Illustrative Math curriculum which builds deep conceptual understanding as well as developing math fluency. The goal is to help our students become confident mathematicians who are not afraid to struggle to solve complicated problems.

We believe partnering with families is essential to our success. Teachers meet with families at least three times a year during Family Connection meetings in August and conferences in October and January. This is also the second year that family members have joined our Equity Team to ensure families have a voice at our school and we are creating more equitable opportunities for all students. Our PTA always supports the educational process and provides enriching programs which further enhance the positive school climate and culture for our students and their families. We are confident that Rush provides a strong academic and social emotional learning experience where children can thrive and families feel involved. Our teachers spend considerable time in staff development to continuously improve their practices and meet the needs of each child. We believe that every student can achieve high standards, and we work hard to ensure success for each of our students.

**Mission Statement:** *Accept where students are, then inspire, engage and challenge them to reach personal success.*

---

<sup>2</sup> Enrollment and racial diversity based on annual October 1 headcount and includes any Preschool-Gr 12 enrollment. Students included in program count (FRL, SpEd, EL) if enrolled on October 1 and receiving services at any time during that school year.

## CONTINUOUS IMPROVEMENT PRIORITIES

Our target is that all students and student groups are improving, with all gaps closing, each year. The following priorities have been set to guide us in achieving this.

| <b>Priority #1</b>                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                     |                                       |                                                                                                                                                       |                                                                          |                                                                                           |                                                       |     |     |                       |     |     |     |                       |     |     |     |                       |     |     |     |                       |     |     |     |                       |     |     |     |

| <b>Data and Rationale Supporting Focus Area</b>            | <p>A core guideline for MTSS implementation is having 80% or more of the students reach the benchmark criteria established by the screening tool. When reviewing the Fall FastBridge universal screener data, less than 80% of 2<sup>nd</sup> Graders and 5<sup>th</sup> Graders demonstrated proficiency in “Operations” component which is based on the CBMmath Automaticity assessment. The chart below gives the percentage of students who were on track in each grade level based on the Screening-to-Intervention Report.</p> <table border="1"> <thead> <tr> <th>Grade</th> <th>earlyMath (Number)</th> <th>CBMmath Automaticity (Operations)</th> <th>aMath (General Math)</th> </tr> </thead> <tbody> <tr> <td>Kindergarten</td> <td>90%</td> <td>84%</td> <td>88%</td> </tr> <tr> <td>1<sup>st</sup> Grade</td> <td>82%</td> <td>89%</td> <td>86%</td> </tr> <tr> <td>2<sup>nd</sup> Grade</td> <td>70%</td> <td>74%</td> <td>74%</td> </tr> <tr> <td>3<sup>rd</sup> Grade</td> <td>97%</td> <td>88%</td> <td>88%</td> </tr> <tr> <td>4<sup>th</sup> Grade</td> <td>93%</td> <td>89%</td> <td>86%</td> </tr> <tr> <td>5<sup>th</sup> Grade</td> <td>96%</td> <td>71%</td> <td>84%</td> </tr> </tbody> </table> <p>The only other area that shows below 80% is 2<sup>nd</sup> grade earlyMath (Number) and 2<sup>nd</sup> grade aMath. As we work on number sense in 2<sup>nd</sup> grade, it should also increase both of these scores. We will continue to monitor these scores and implement further interventions as needed.</p> |                                                                                            |                      | Grade | earlyMath (Number) | CBMmath Automaticity (Operations) | aMath (General Math) | Kindergarten | 90% | 84% | 88% | 1 <sup>st</sup> Grade | 82% | 89% | 86% | 2 <sup>nd</sup> Grade | 70% | 74% | 74% | 3 <sup>rd</sup> Grade | 97% | 88% | 88% | 4 <sup>th</sup> Grade | 93% | 89% | 86% | 5 <sup>th</sup> Grade | 96% | 71% | 84% |

All students in grades 3 through 5 take the survey twice a year, once in the fall and once in the late spring. The data reports the number of favorable responses based on a five-point scale. The fall data is shown below.</p> <table border="1" data-bbox="597 856 1373 1113"> <thead> <tr> <th><b>Topics</b></th> <th><b>Percentage of Favorable Answers</b></th> </tr> </thead> <tbody> <tr> <td>Supportive Relationships</td> <td align="center">86%</td> </tr> <tr> <td>Positive Feelings</td> <td align="center">69%</td> </tr> <tr> <td>Social Awareness</td> <td align="center">69%</td> </tr> <tr> <td>Challenging Feelings</td> <td align="center">67%</td> </tr> <tr> <td>Emotional Regulation</td> <td align="center">47%</td> </tr> </tbody> </table> <p>Based on the 2021 fall Panorama Survey, emotional regulation was significantly lower than the other four topics.</p> |  | <b>Topics</b> | <b>Percentage of Favorable Answers</b>       | Supportive Relationships                                                                     | 86%                                                                     | Positive Feelings                                                                              | 69%                                                  | Social Awareness                                                                                                                                                                                            | 69%                                      | Challenging Feelings                                                                 | 67%                                    | Emotional Regulation | 47% |

## TECHNOLOGY INTEGRATION PLAN

The Washington Basic Education Act requires schools to “integrate technology literacy and fluency” in their curriculum. The updated K-12 Educational Technology Learning Standards emphasize the ways technology can be used to amplify and transform learning and teaching.

The Technology Integration Facilitator Program (TIF) and Building Instructional Technology Plan (BIT) provide the structure and funding to support this requirement.

The goals of the TIF program are to support teachers in effectively:

1. Integrating the use of core instructional technologies within instruction.  
*Core instructional technologies include Microsoft tools, SMART Technologies, and classroom footprint technologies.*
2. Utilizing digital tools to enhance the learning process and ensure access to content.
3. Understanding and applying the Educational Technology Learning Standards across content areas.
4. Embedding digital citizenship and media literacy within instruction.

Building administrators work with their Technology Integration Facilitator (TIF) and Technology Integration Specialist to identify training needs based on the TIF program goals. The BIT plan identifies year-long goals and plans for providing professional learning to meet training needs. Beginning and end of year Technology Integration survey data informs the personalization of individual school plans in alignment with strategic efforts.

Based on Fall Technology Integration staff survey data, strategic implementations and OSPI requirements, the BIT Plan will focus on the following:

- Digital Citizenship
- Integrating core instructional technologies within instruction
- Utilizing digital tools to enhance learning and ensure student access to content
- Applying Ed Tech Learning Standards across content areas

## STATE ASSESSMENT PARTICIPATION

The Every Student Succeeds Act (ESSA) requires that all schools meet at least a 95% participation rate for state assessments for all students as well as each subgroup. Schools that fall below this threshold in any group must include goals and actions the school will take to ensure 95% of students participate. The latest participation rate that has been published by OSPI for the school was for state testing in spring 2019. During that year, the participation rate was met.

Strategies the school is using to meet participation requirements include:

- Common language on the importance of state testing is used by all schools in the district.
- Staff receive training on the administration of state assessments, including the use of supports and accommodations to ensure all students have an equal opportunity to demonstrate learning.
- Make-up testing is provided for students that miss the school’s date.
- Test completion lists are monitored by both school testing coordinators and district personnel.
- The district is using the recommended refusal procedures and form developed by the Washington Educational Research Association.

## COMMUNITY ENGAGEMENT PLAN

As a district of doers, learners, and believers, our “why” drives us. We do this all-important work because we want all of our students to have equitable and quality experiences in the Lake Washington School District in order to ensure that they get to choose their futures instead of their circumstances choosing them.

Research has consistently shown that family and community engagement is key to increasing the academic success and positive connections that students have at school, especially students from groups that are demographically under-represented or those historically marginalized. Therefore, it is imperative that we consistently plan and implement strategies to engage our families and school communities in authentic and culturally appropriate approaches.

To ensure that families have the support that they need to assist their children, OSPI requires that school districts have a family engagement policy in place that applies to all families.<sup>3</sup> The specific strategy our school is using to involve and inform the community of the School Improvement Plan is as follows:

|                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                            |
