

Our world has
changed...

... and will likely be this way for a while.
AISK's doors have been open for face to face learning since August 20.

We have adapted ...

All day, everyday our students are learning. Having robust class discussions, interacting with the course material and socializing with friends. Students are happy and most importantly enjoying full-time school!

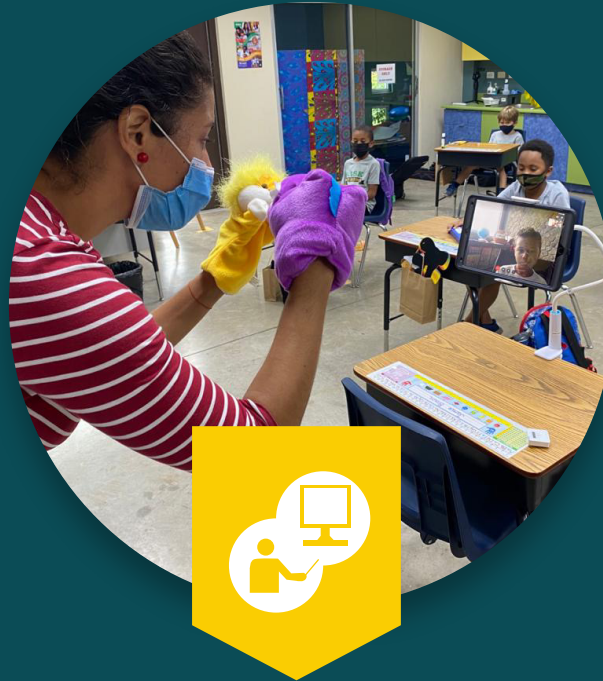

From Early Years to Sixth Form ...AISK is in session!

We've got you covered at every turn...

FACE TO FACE

HOME LEARNING

DISTANCE LEARNING

We offer 3 different learning options. Face to Face and Home Learning modes go hand in hand. As parents travel or community members go into quarantine, the student's learning continues through the Home Learning Plan. We are also equipped for Distance Learning if and when needed.

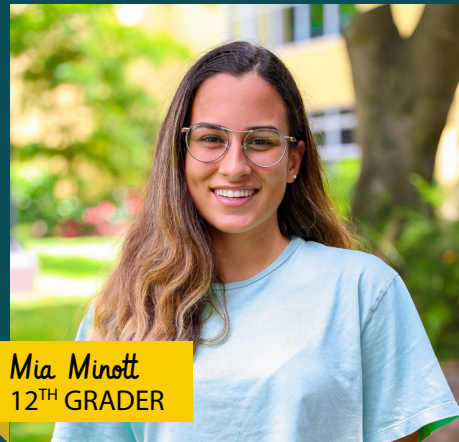

Our students say...

Jone Cornich
8TH GRADER

// Being with my friends and being back on campus has been really fun.

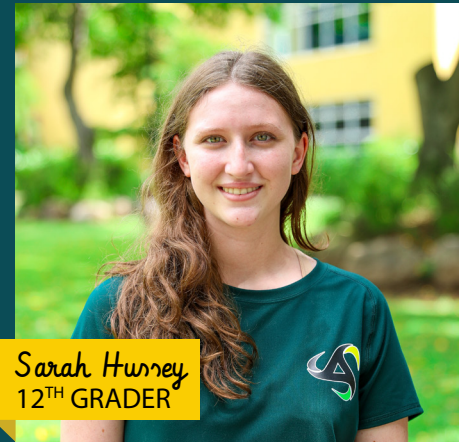

This has definitely been a much better experience than distance learning. Like any other student I had my concerns, but all of the protocols, mask wearing and the signs all across campus have put me at ease. It's been such an interesting change with teachers coming to us, and having plastic dividers allows to speak comfortably. //

Mia Minott
12TH GRADER

// I am happy that we're fortunate enough to all be back here.

I am happy that I get to see my friends and my teachers and having school in person. Everyone follows the protocols and instructions provided by AISK, that gives me a sense of comfort and so I feel safe. Classes in person are obviously better than online classes, I find that I retain information better and I get to have those deep personal connections with my support systems here in my last year of high school. //

Sarah Hurrey
12TH GRADER

// It's been really nice to have school in-person and be back with my teachers and friends.

With everyone wearing their mask and all the precautions AISK has put in place I feel safer than ever. Classes have been a lot easier in person than it was for me online and I feel this way is better for students and teachers. //

Levi Foster
ELEMENTARY

// Yes I am happy to be back at school and yes I do feel safe at school. I'm enjoying classes in fact I have another class soon! //

Our parents say...

// I have two boys attending AISK and I am very happy with the quality of education they are receiving there.

The frequent and comprehensive information provided by the school on issues and developments in the school community and very importantly, particularly at this time the health and security protocols they have implemented and the strict adherence to those protocols. //

Patrick Hylton

// AISK's Covid Management has gone beyond our expectations.

The school has taken every step to ensure that our children are safe and comfortable. Families have adapted to the new protocols and the children are very happy being back at school for face to face learning. //

Anna Melville

// Our decision to allow our daughter back to school in these times has been a great one.

The academic and social benefits to an in-class experience is without a doubt the optimum solution in learning. AISK has gone over and beyond in providing the safest environment with the resources afforded to them. Their level of daily communication and safety protocols certainly exceed anything we have seen or heard about since this change in our lives from March 2020. //

Mark Haddad

// As a teacher and pre-school owner, I know firsthand the difficulties that come along with teaching and running a school amidst a pandemic.

AISK has gone above and beyond to ensure that students have been able to continue to learn in a safe environment. //

Shakira Walton
