

Nurture your child's talent for academic excellence

Set the foundation for them to become an active problem solver, creative thinker, leader and team player.

Exploration

Encourage your child to have muddy, grassy or sandy feet by the end of each day, that's the childhood they deserve.

Limitless Possibility

At AISK, we curate magical moments for your child to learn and grow in the most hands-on learning environment available on the island. All lessons are accompanied by an interactive activity that allows your child to be fully immersed in the world they're learning about.

Discovery

To sustain and expand the instinctive

Your child will exceed learning benchmarks

At AISK learning is dynamic. Lesson plans are flexible to ensure that every question your child asks is answered and explored. This often means exploring new ways to make topics come alive and gives the opportunity to own their learning.

Your child will have an education like no other

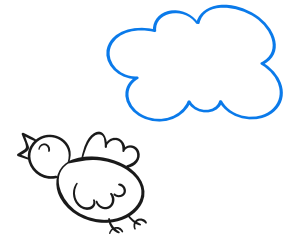

Observation based education is not reliant on standardized testing or one size fits all.

Connecting the Classroom to their personal experience and the community around them.

Student-led approach that teaches your child how to ask questions and seek answers.

Why choose AISK? Just ask a parent...

PATRICK HYLTON

“ I have two boys attending AISK and I am very happy with the quality of education they are receiving there.

The frequent and comprehensive information provided by the school on issues and developments in the school community and very importantly, particularly at this time the health and security protocols they have implemented and the strict adherence to those protocols. ”

TIFFANY-ANN LUE-BROWN

“ Since starting AISK, Jamie is more confident and outgoing and has excelled tremendously academically. The teachers are simply amazing, they have various ways of engaging the students, making learning fun for the students while still exceeding the learning expectations.

The primary reason we chose AISK was because they are focused on each student's individual learning needs. I was born and raised in Jamaica, AISK is by the far the best school in Kingston. AISK cares about the students' well being as well as their families. For us, they have gone above and beyond. ”

MARK HADDAD

“ Our decision to allow our daughter back to school in these times has been a great one.

The academic and social benefits to an in-class experience is without a doubt the optimum solution in learning. AISK has gone over and beyond in providing the safest environment with the resources afforded to them. Their level of daily communication and safety protocols certainly exceed anything we have seen or heard about since this change in our lives from March 2020. ”

SHAKIRA WALTON

“ As a teacher and pre-school owner, I know firsthand the difficulties that come along with teaching and running a school amidst a pandemic.

AISK has gone above and beyond to ensure that students have been able to continue to learn in a safe environment. ”
