A summer school program is available for students who do not meet the passing criteria on EOC assessments established by the Texas Education Agency (TEA). Students will be provided accelerated instruction at no cost to the student.

STAAR-EOC Alternate 2 (STAAR-ALT 2)
STAAR-ALT 2 is an alternate assessment designed for students with significant cognitive disabilities who receive instruction in an alternate curriculum through special education. The Admission, Review, and Dismissal (ARD) Committee will determine if the student meets the state participation requirements for the STAAR-ALT 2 assessment.

For additional information regarding State Assessment Resources, please visit [http://texasassessment.com/](http://texasassessment.com/).

REGARDING ALGEBRA II AS A HIGH SCHOOL GRADUATION REQUIREMENT
A student is not required by state law (Texas Education Code, Section 28.025) to successfully complete Algebra II as a requirement for high school graduation. However, there are potential consequences to a student who does not successfully complete an Algebra II course.

A student is eligible for automatic admission to a Texas public college or university as an undergraduate student if the student earned a grade point average in the TOP 10 PERCENT of the student’s high school graduating class or in the percentage of qualified applicants that are anticipated to be offered admission to The University of Texas at Austin, and the applicant—
- successfully completed the requirements for the distinguished level of achievement under the foundation high school program at a public high school; or
- satisfied ACT’s College Readiness Benchmarks on the ACT assessment or earned on the SAT assessment a score of at least 1500 out of 2400 or the equivalent.

A student may not earn the distinguished level of achievement or be eligible for automatic admission to a Texas public college or university as an undergraduate student if the student does not successfully complete high school Algebra II.

There are several state financial aid programs available for certain Texas public high school students. Certain state financial aid programs include curriculum requirements that should be considered when planning a student’s high school career to ensure eligibility for financial aid under one of these programs. Please note that this is not a complete list of requirements and additional eligibility requirements apply. A full list of requirements is available through the Texas Higher Education Coordinating Board’s (THECB) financial aid webpage at [http://www.collegeforalltexans.com/apps/financialaid/tofa.cfm?Kind=GS](http://www.collegeforalltexans.com/apps/financialaid/tofa.cfm?Kind=GS)
For initial eligibility for a TEXAS grant, a student enrolling in an eligible institution must be a graduate of a public or accredited private high school in this state who completed the Foundation High School Program or its equivalent and have accomplished any two or more of the following:

- Successful completion of the course requirements of the International Baccalaureate Diploma Programme or earning of the equivalent of at least 12 semester credit hours of college credit in high school through courses described in Texas Education Code (TEC), Sections 28.009(a)(1), (2), and (3)
- Satisfaction of the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the THECB under TEC, Section 51.334 on any assessment instrument designated by the THECB or qualification for an exemption as described by TEC, Section 51.338(b), (c), or (d)
- Graduation in the top one-third of the person's high school graduating class or graduation from high school with a grade point average of at least 3.0 on a four-point scale or the equivalent
- Completion for high school credit of at least one advanced mathematics course following the successful completion of an Algebra II course or at least one advanced career and technical or technology applications course

### Awarding of Credits

#### GRADE LEVEL CLASSIFICATION

Grade level classification depends on the number of credits students have earned as well as their cohort. A cohort is assigned when a student enters high school for the first time and is projected out four years. This year's incoming 9th grade students will be Cohort 2027.

<table>
<thead>
<tr>

</tr>
<tr>

</tr>
</tbody>
</table>

Reclassification of grade levels is made at the beginning of each school year. Students who have not been promoted to their designated cohort-grade due to lack of credits may be eligible for reclassification at the end of the first semester. Despite the number of credits earned, students are not reclassified beyond their cohort. For example, if a student in Cohort 2027 has 6 or more credits at semester of their 9th grade year, they will not be reclassified as a 10th grade student until the fall of the following school year along with the rest of their cohort who have 6 or more credits at that time.

### MINIMUM ATTENDANCE FOR CLASS CREDIT

Students must be in attendance at least 90% of the time a class is in session to receive credit. (Texas Education Code 25.092) The actual number of days a student must attend in order to receive credit will vary, depending on the number of days in the semester. A student who attends fewer than 90% of the days the class is offered cannot receive credit for the class unless the Attendance Committee finds that the absences are the result of extenuating circumstances. More information is available on the district’s attendance website - [https://www.ctbisd.edu/about-us/district-policies/attendance](https://www.ctbisd.edu/about-us/district-policies/attendance)
Grades awarded for high school credit taken prior to grade 9, regardless of the school district where it was taken, shall be included in the high school grade point average (GPA) and shall be used to determine high school rank in class.

Grading System

FORMATIVE AND SUMMATIVE GRADES

Numeric grades 0-100 are assigned during nine-weeks grading cycles. Formative work is 25% and summative assessments/projects are 75% of the nine-weeks grade. Semester grades are calculated as 40% each nine-weeks average and 20% semester exam. Semester credit is awarded for averages of 70 and above.

GRADE POINT AVERAGES (GPA) AND RANKING

Grade points are awarded as follows:
- Numerical grade +9 points for Advanced and other designated courses
- Numerical grade +5 points for Honors
- Student GPA is also reported on an unweighted 4.0 scale

Rank in class for grades 9-12 is determined by using a weighted grade point system on a 100 point scale. GPA and Rank are calculated at semester and end of school. For 12th grade students, GPA and Rank are also calculated before the first nine-weeks for the purpose of early acceptance applications and again after the third nine-weeks for Honor Graduate designation.

HONOR GRADUATES

To be eligible for valedictory, salutatory, or top ten student honors, a student shall have attended high school in the District continuously for two school years, commencing with enrollment no later than the end of the last Friday in September of the student’s junior year, until graduation.

Honor Graduates shall be determined by academic grade points, which shall be calculated as specified above. The valedictorian, salutatorian, and honor graduates shall be determined by their rank in class, and academic grade points shall be calculated at the end of the third nine-weeks of their senior year. Honor graduates may be designated as the top ten percent of the students in the graduating class, with any variation at the discretion of the principal with central office approval. Honor graduates must have completed the Distinguished Foundation High School Program for graduation.

EARLY GRADUATION

A student shall be eligible for early graduation if the student has developed a plan with his/her counselor and satisfies ALL requirements for graduation by the end of the student’s third year in high school. Students who meet early graduation criteria are not considered Grade 12 until the end of the school year when final GPA and Ranking is calculated. Upon reclassification, a student who graduates in three years shall not displace a senior in class rank. Instead, the student shall be placed alongside the student in the senior class who holds a weighted numeric average that is closest to the early graduate candidate.
Additional Course Credit Options

CORRESPONDENCE COURSES

Correspondence courses may be taken for first time credit or credit recovery with approval from the home campus. Correspondence courses require a high level of individual commitment and must be completed within the timeframe listed by the provider institution. Students should speak with their school counselor for approval prior to registering for a correspondence course. All associated fees are the responsibility of the student and the student’s guardian.

Credits to fulfill state graduation requirements may be granted for correspondence courses only under the following conditions:

1. The institutions offering the courses are the University of Texas at Austin, Texas Technological (TECH) University, or other public institutions of higher education approved by the Commissioner of Education.
2. Students may earn a maximum of three state-required credits through correspondence courses and may be enrolled in only one correspondence course at a time.
3. Grades earned from correspondence courses are not included in GPA calculations.

RECOVERY LAB

Students may repeat a course for credit recovery using C-FB approved software on the high school campus. Administrative approval is needed for a student to recover a credit. Grades earned for completing courses with District approved software shall not be computed for determining class rank. Courses taken in recovery lab are not accepted for NCAA eligibility.

SUMMER SCHOOL

Students may repeat any course offered in summer school when credit was not earned during the regular academic year. Students may take selected courses for acceleration according to summer school guidelines and administrative approval for foundation courses. There is an enrollment fee for summer school courses taken for acceleration. Course selection and enrollment is limited and contingent upon teacher availability.

Course selection and enrollment forms are available in the campus counselors’ offices in the spring. Enrollment in any of CFB courses requires approval of the student’s home campus, counselor, diagnostician, and/or principal.

Additional Guidelines:

- Dates, times, fees and locations of the CFB Summer School term are announced each spring.
- Registration for these courses is separate from regular school enrollment and is announced in the spring.
TEXAS VIRTUAL SCHOOL NETWORK

The TXVSN works in partnership with Texas public schools to provide students expanded opportunities to enroll in courses offered by Texas Education Agency-approved online course providers. Students interested in TXVSN courses should consult their school counselors for guidance.

The course catalog may be accessed at https://catalog.mytxvsn.org/.

All associated fees of TXVSN Catalog courses are the responsibility of the student and the student’s guardian.

NIGHT SCHOOL PROGRAM

The district provides an opportunity for students to recover credit or earn credit in selected courses by attending evening classes. Courses follow a college course format of attending 2.5-3.5 hours per evening. There is an enrollment fee to attend the CFB Night School.

Additional Guidelines:

- Students may pick up their registration form from their school counselor; the form must be signed by the counselor for admittance to the program. The form may be available online.
- Students must attend each evening that the class is scheduled to earn credit. A student may be dropped after the second absence and tuition is not reimbursed.

CREDIT BY EXAMINATION

Carrollton-Farmers Branch ISD offers two types of Credits by Exam (CBE): Credit by Exam for acceleration and Credit by Exam for course recovery.

Credit by Exam for Acceleration

A student in any grades 6-12 can earn credit for a course in which he or she has had no prior instruction if the student scores:

- Three or higher on an approved AP exam
  *Students with a qualifying AP score may earn up to a maximum of 4 years of high school credit in World Languages.
- Scale score of 60 or higher on CLEP exam
- Minimum score of 80% on approved CBE

If a student is given credit on the basis of an examination on which the student scored 80% or higher, the CBE score must be entered on the student’s transcript and the student is not required to take an applicable STAAR End-of-Course assessment for that course.

If a student fails to earn credit by exam for a high school course before the beginning of the school year when the student would normally be expected to enroll in the course according to our district’s course sequence, the student must satisfactorily complete the course in order to earn credit.
Credit by Exam for Course Recovery

A student in any grade 6-12 may be given credit for an academic subject in which he or she had some prior instruction if the student earns a minimum score of 70%.

What is considered prior instruction?
- A course taken and completed (evident by a grade recorded on transcript) but credit was not awarded due to failing grade or absence failure.
- A course taken from a non-accredited school
- A course taken at an equivalent agency from another state
- A course taken from an accredited association recognized by the Commissioner of Education
- CBE for remediation is not accepted for NCAA eligibility.

Additional Guidelines for CBE:
- There is no charge for CBE for acceleration or credit recovery.
- Grades earned for taking Credit by Exam courses shall not be computed for determining class rank but do appear on the student transcript.
- A student may attempt to earn CBE for a specific high school course only two (2) times. Students who do not earn course credit on the first CBE must wait for a new testing window to reassess.
- Board approved Credit by Exams include University of Texas, Texas Tech, and Avant-STAMP.
- Students are expected to review the course study guides on the university websites prior to testing as some content areas, such as English Language Arts, have pre-exam activities or reading assignments that must be completed outside of the testing environment before taking the Credit by Exam.

TAC §74.24 states that CBE testing is scheduled a minimum of three days during each of the following calendar dates:
- January 1- March 31
- April 1-June 30
- July 1-September 30
- October 1-December 31

Scheduling Guidelines

COURSE SELECTION

Students select courses each year based on conversations with their school counselor and discussions with their parents. CFBISD encourages students to take courses that will challenge their thinking and offer the best opportunities for growth in areas of interest both personally and College/Career. Students should refer to their Personal Graduation Plan (PGP) and adjust it to meet the changing interests or offerings each year.

Course Descriptions are found in this High School Planning Guide and serve as a reference to help students select the most appropriate courses for graduation and their personal goals. Not all courses are offered at every campus and some courses listed may not be offered in a given year due to interest, teacher availability, or state curriculum changes.
SCHEDULE CHANGES

Changes in a schedule or a course may be made only on the published days before the start of the semester. Requests for schedule changes may be honored for the following reasons:

1. Error in scheduling;
2. Student failure in a prerequisite;
3. Change in program (athletics, band, choir, etc.); and
4. Level changes as recommended by teachers and counselor with parental knowledge and administrative approval.

Requests not meeting the listed reasons will not be considered. It should be understood that a schedule change to help balance a classroom enrollment will be done as needed. Appeals on schedule changes will not be heard beyond the building principal.

SENIOR OUT PERIOD CRITERIA

Students of the Carrollton-Farmers Branch Independent School District shall be enrolled during the designated daily attendance period and fulfill the following attendance requirements.

FRESHMEN, SOPHOMORES, AND JUNIORS
- Must be enrolled on campus for a full schedule
- No release time except as related to curriculum requirements.

SENIORS
- With parent permission and administrative approval, seniors may have one period out if they are on track for graduation
- Out periods for seniors are scheduled at the beginning and/or end of the school day. Students enrolled in Career & Technical Education Career Prep classes will receive additional release time to report to work.
- Out periods not related to curriculum are limited to one singular out period each semester.
Academies offer students an opportunity to experience a concentrated four-year curriculum in the areas of: biomedical professions; media arts and technology; international business, law and criminal justice; math, engineering, science and technology. In each of the academies, students are placed in internships and/or clinical rotations through cooperative education training placements in a business or field related to their career interest and some receive certification in certain areas. ECHS offers students the college-campus experience and the ability to earn an Associate’s Degree while working toward their high school diploma with support from CFBISD teachers.

Common characteristics of all academies include:

- A small learning community of students with the same focus and similar goals
- College preparatory curriculum
- Partnership with employers, the community and local colleges
- A school within a high school
- A course of study designed for exploring specific careers

Mary Grimes Education Center is an Alternative High School available to eligible students who choose to complete their high school graduation requirements in a non-traditional educational environment. Students complete credits through individualized self-paced computer instruction facilitated by a classroom teacher. Mary Grimes Education Center was established to reclaim students to the educational system who are at risk of dropping out of school or who have dropped out of school before completing high school graduation. Mary Grimes is also the home of the Moving on Up and Functional Skills Workshop programs that serve our 18+ special needs students in the district.

Students are assigned to the Bea Salazar Learning Center (DAEP) from their local campus based upon disciplinary action.

Senate Bill 1, Chapter 37, as passed by the 74th Texas Legislature, establishes the following academic provisions for students placed into the disciplinary alternative education program: “Each school district shall provide an alternative education program that focuses on English Language Arts, mathematics, science, history, and self-discipline.”

All DAEP students work under the direct supervision of a certified classroom teacher on individualized curriculum that correlates to the home campus curriculum. In addition, students are taught new ways of thinking and behaving to enhance their self-discipline.

NEWCOMER AND ESOL PROGRAM

The English as a Second Language program in Carrollton-Farmers Branch ISD follows the curriculum framework of the district. The purpose of English for Speakers of Other Languages (ESOL) is to instruct students who speak another language and have been identified to benefit from this program in the foundations of the English language.

The English Language Development and Acquisition course is designed to provide instructional opportunities for recent immigrant students with little or no English proficiency. Newcomers less than 12 months in U.S. schools who have scored at the limited English level of the state approved English oral language proficiency test will be enrolled in English Language Development and Acquisition (ELDA) while concurrently enrolling in ESOL I. ELDA will be issued as a local elective credit for each of the first two semesters. The development of communicative competence occurs through targeted lessons based on students’ needs, with language proficiency as the focus of instruction. Both course offerings enable students to become increasingly more proficient in English in all four-language domains. Teachers validate students’ native language and culture as a valuable resource and as a foundation to attain the target language by developing language, enriching vocabulary, and building literacy for newly arrived and Emergent Bilingual students.
Special Education Services are available for eligible students in Carrollton-Farmers Branch ISD who have an identified disability and a need for specially designed instruction.

The campus Safety Net Acceleration Planning (SNAP) team can refer a student for a complete evaluation, at no cost to the parents, to determine if the student meets eligibility for special education services.

Carrollton-Farmers Branch provides a continuum of service options to assure that students with disabilities are successful.

**SECTION 504, DYSLEXIA AND RELATED DISORDERS**

A 504 Plan lists accommodations related to the child’s disability. A child may be eligible for accommodations under a 504 Plan if he or she has a physical or mental health disability that impacts one or more major life functions.

Dyslexia support programs in Carrollton-Farmers Branch I.S.D. have been designed to offer an educational option for both regular and special education students who exhibit primary difficulties in phonemic awareness, single-word decoding, reading, fluency, spelling, comprehension, and written expression and have an educational diagnosis of dyslexia.

Student screening, identification, placement, and monitoring procedures are designed to ensure that students receive the most appropriate support to address their identified needs. Screening for dyslexia may be initiated by teachers or by parents. Contact the dyslexia coordinator/support teacher at your child’s campus.

**ADVANCED ACADEMIC SERVICES / GIFTED AND TALENTED PROGRAMMING**

Carrollton Farmers Branch ISD’s gifted and talented programs are designed to challenge the advanced learner who demonstrates the need for an augmented curriculum. Typically, advanced students differ from their age peers in three important ways. First, they absorb information at a faster rate and process it very efficiently. Second, they are often able to comprehend information with greater depth than their classmates, showing greater insight and understanding. Third, they often have interests that are more typical of older children or even adults. These three learning differences are frequently enhanced by other complementary characteristics: independence, persistence, nonconformity, and motivation. For more information: cfbgifted.com

**Advanced Learner Program/Leading Exceptional Academic Producers (LEAP)**

At the high school level, Advanced Learners and LEAP students take AP Human Geography and AP World History in conjunction with their GT/Honors English curriculum in the 9th and 10th grade. Other opportunities include Honors, Advanced Placement, and OnRamps. Gifted students may also choose to apply to attend one of the academies offered: Biomedical Science, Media Arts and Technology, Math-Engineering-Science Technology (METSA), Law and Criminal Justice, or International Business Academies.
Referral

A student may be referred for gifted and talented screening by teachers, parents, administrators, counselors, students, and other members of the community who believe the student may qualify for gifted and talented services. Identification of students is conducted to determine which students require program alterations because of their unique educational needs.

*Referral forms may be obtained at the student’s campus through the counselor’s office.

HONORS AND ADVANCED PLACEMENT (AP) COURSE OPTIONS

Honors courses prepare students to be successful in college level courses in English, mathematics, social studies, and science. They are intended to ensure that middle and high school students are taught the skills, concepts, and habits of mind needed for college.

Grades earned in courses with Honors weighting shall receive five (5) additional grade points in the calculation of the numeric weighted GPA.

The Advanced Placement Program (AP) allows students to take rigorous college level courses while still in high school. Students can choose to undertake college-level academic learning in a wide array of content areas: English, Math, Social Studies, Science, Fine Arts, and World Languages.

To show that they have mastered the advanced material, students participate in taking the AP exam for each course. Students can check with the college or university they plan to attend regarding their AP Exam credit qualification.

AP courses make substantial academic demands on students. Most courses are a full year in length. Students are required to do considerable outside reading and other assignments and to demonstrate the analytical skills and writing abilities expected of first year students in a strong college program. This experience helps students develop the intellectual skills and self-discipline they will need in college.

Grades earned in courses with AP academic weighting shall receive nine (9) additional grade points in the calculation of the weighted numeric GPA.

*Fees may be required for course materials or testing
OnRamps is an innovative dual enrollment and professional development initiative led by The University of Texas at Austin. Founded in 2011 in partnership with the Texas Higher Education Leaders Consortium, OnRamps is dedicated to preparing high school students for postsecondary student success.

How OnRamps Works

1. OnRamps students are enrolled in a yearlong high school course facilitated by a high school teacher who is trained and certified by OnRamps to teach the course on their local campus.
2. During the first half of the course, OnRamps students complete a series of required assignments that are designated by an Instructor of Record at the university to determine eligibility to be dually enrolled in the university course.
3. Students who successfully complete the high school version of the course receive credit from their local high school. In addition, students who successfully complete the spring college course receive three core credits from The University of Texas at Austin guaranteed to transfer to any public college or university in Texas.

Grades earned in courses with UT OnRamps academic weighting shall receive nine (9) additional grade points in the calculation of the weighted numeric GPA.

*Fees may be required for course materials or enrollment

Dual credit courses are defined as courses in which students may receive both high school and college course credit provided the courses meet both district and college guidelines. Concurrent enrollment means that the student is taking a college course for college credit while the student is still in high school.

Dallas College welcomes students who meet the criteria for dual and concurrent enrollment. Students enrolling in dual and concurrent credit courses must make certain that they follow established enrollment procedures and pay applicable fees for textbooks and other supplies. Contact your high school counselor to begin the enrollment process. Proof of credit earned may be needed if a course is taken outside the usual agreement.

Information from Dallas College about Dual Credit can be found at this link: https://www.dcccd.edu/high-school-students/dual-credit/pages/default.aspx

Students should consult their school counselors regarding dual credit course options and enrollment as this is subject to change from time of printing. The following courses may be taken at CFBISD high school or through Dallas College campuses for dual credit purposes.

*Fees may be required for course materials or testing

In the table below, the Acceptable column indicates which students may earn dual credit for the course listed. All is any of the 5 campuses, Com is 4 comprehensive campuses, and ECHS is only ECHS.

According to SB 1517 and Section 33.081 of the Texas Education Code, students enrolled in identified advanced courses including Honors, Advanced Placement (AP), International Baccalaureate, Dual Credit and Dual Enrollment are eligible for exemption from the state's No-Pass, No-Play policy. Additionally, local school boards are authorized to identify and approve a listing of such "advanced" courses and set the exemption standard students must meet to retain UIL eligibility.

The courses listed below have been identified as "advanced" by the CFBISD Board. Dual credit courses listed in the chart under that heading in this High School Planning Guide are also identified in CFBISD as advanced courses and fall under these guidelines.

Students earning grades between 60-69 at the end of an evaluation period can retain UIL eligibility. Students earning grades below 60 can retain UIL eligibility if they meet the following standards:
1. Has been attending tutorials with the teacher
2. Is in good standing with the Teacher/not a behavior problem/turns in work regularly
3. Principal declares the student in good standing, sees the student is really trying and it is in the best interest of the student to declare him/her eligible.

The CFB Programs of Study initiative is designed to help students plan for their future. The pathways concept is incorporated and aligned into our personal graduation planning process. The Texas CTE initiative helps students develop a personal graduation plan that connects career interests with secondary and postsecondary education. This process helps make education more relevant and encourages students to remain in school and graduate college and/or workforce ready. A major goal of the district is to ensure relevancy and integrate meaning into the delivery of core skills in math, science, social studies, and English.

The district has adopted all 14 of the Texas Education Agency’s (TEA) Career Clusters which are organized around broad career fields. With the help of career assessments, careful consideration and discussion, each student can identify specific career pathways that match their interests and desired skills. When one or more pathways appears interesting, students should look carefully at the possible degrees, careers and working conditions associated with these area(s).

All of the identified career pathways include challenging, relevant courses that provide roadmaps to future career goals. Additionally, because all students take a “core” of academic courses, career paths overlap enough to allow the flexibility to change pathways if interests change or new knowledge and skills are acquired.

The curriculum associated with Texas CTE Career Clusters includes broad areas of study that are flexible enough to allow students to change as they acquire new knowledge and experiences. Using each student’s individual interests and aptitudes, identified in the 8th grade, parents, counselors, teachers, or other district professionals can help students develop a personal graduation plan.

NCAA Information

The National Collegiate Athletic Association (NCAA) is an organization dedicated to providing a pathway to opportunity for college athletes. Additional information regarding how to plan for participation in collegiate athletics can be found at http://fs.ncaa.org/Docs/eligibility_center/Student_Resources/CBSA.pdf

In January 2023, the NCAA Division I Council voted to eliminate test score requirements for initial-eligibility for incoming college freshmen student-athletes.

This eligibility requirement change was due to a recommendation made by the NCAA Standardized Test Score Task Force, a committee charged with reviewing initial eligibility requirements as part of the NCAA’s eight-point plan to advance racial equity.

“As some NCAA member schools shift away from requiring standardized test scores for general student admissions, the Council felt it was appropriate to reflect those admission standards in eligibility requirements for incoming freshman student-athletes," Lynda Tealer, Chair of NCAA Division I Council, said.

Since Fall 2020, the NCAA has waived standardized test requirements for those entering college, now standardized tests will no longer be required to meet NCAA Initial Eligibility for all students, effective immediately.
Sample High School Four-Year Plan Worksheet

This four-year plan worksheet is intended to give you and your parent(s) a guide to use as you progress through high school. Review the plan each year to ensure you are taking the required courses for graduation. Consult your counselor for the Career and Technical Education (CTE) Programs of Study offered for each of the endorsements on this page. You may use the CTE Programs of Study, College, Career and Military Readiness (CCMR) indicators to help you select courses that support your college and career goals.

After high school, I plan to:
- Attend a 4-year university to earn a bachelor’s degree
- Attend a 2-year college to transfer to university
- Attend a 2-year college to earn an associate’s degree
- Attend a 2-year college or technical school to earn a certification
- Work part time while attending college
- Work full time
- Join the military

26 Credits

*Distinguished Level of Achievement (DLA), which requires four credits in math including Algebra II, is required to be admitted to a Texas public university under the Top 10% automatic admission policy. DLA also requires four credits in science and successful completion of an endorsement, and it makes you a more competitive applicant at selective colleges and universities.

Courses are listed by Subject. Most courses are considered “State Credits" that are earned toward the graduation requirements. Where that is not the case, “(Local)” has been listed out next to the Credit description.

Not all courses listed within these pages are offered at all campuses subject to teacher availability, student interest, and curriculum changes that may occur after the publication of this guide.
ENGLISH LANGUAGE ARTS

All students must complete four credits of English Language Arts for graduation.

The first three credits must be from English I, English II, and English III.

English I
- OnLevel
- Honors
- Honors/GT
- ESOL
- PAS
- Fundamentals
- Applied
- Developmental

English II
- OnLevel
- Honors
- Honors/GT
- ESOL
- PAS
- Fundamentals
- Applied
- Developmental

English III
- OnLevel
- AP
- PAS
- Fundamentals
- Applied
- Developmental

The fourth credit must be from English IV for the Distinguished Plan. Students are encouraged to earn the English IV credit or, on a case-by-case scenario, may choose from a variety of Alternate ELA courses for the Foundation Plan.

English IV
- OnLevel
- AP
- Dual Credit
- PAS
- Fundamentals
- Applied
- Developmental

Alternate ELA
- Creative Writing
- Research/Technical Writing
- Practical Writing Skills
- Business English (CTE)
- Independent Study in ELA

Students may also select Alternate ELA or ELA Support courses as an Elective. These courses earn state elective credits toward graduation.

ELA Support
- Reading
- English Language Development & Acquisition (ELDA)
- English Plus (local credit)
ENGLISH I
3220100
The English I course provides an integrated focus on reading, writing, research, listening and speaking, and oral and written conventions (the TEKS, ELPS, and CCRS). Students will participate in a general review of grammar in context of their writing. The course includes studies of the short story, non-fiction, poetry, novel, and drama. The development of critical reading and critical writing skills is a major emphasis of this course. **EOC TESTED SUBJECT.**

1010 English I
GRADE PLACEMENT: 9
CREDIT: 1 UNIT

1070 Honors English I
GRADE PLACEMENT: 9
CREDIT: 1 UNIT
GPA: +5 points on weighted GPA
Extends curriculum of English I with more depth and complexity. Strong attention will be given to the development of composition and critical reading skills. Vocabulary development and outside reading will complement each unit of study. All literature study will be supported by a writing component.

1015 GT/Honors English I
GRADE PLACEMENT: 9
PREREQUISITE: GT Identified
TAKEN WITH: 7982 AP Human Geography
CREDIT: 1 UNIT
GPA: +5 points on weighted GPA
Offers an interdisciplinary curriculum of Honors English I and AP Human Geography providing the major content in a humanities format. Emphasis is on assisting students to develop an understanding of the changes in a global society.

1912 English I for Speakers of Other Languages (ESOL I) 3200600
GRADE PLACEMENT: 9
PREREQUISITE: LPAC Placement
CREDIT: 1 UNIT
Specifically designed instruction in the English I TEKS for beginner and intermediate level Emergent Bilingual student using ESL methodology.

0300 PAS English I
GRADE PLACEMENT: 9
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Provides a yearlong program of interrelated language skills with study in the areas of reading, writing, speaking and listening. Includes a study of literature, personal and creative writing, and introductory research skills. Includes development of a writing portfolio. Instructional techniques will vary to accommodate the student’s IEP/BIP.

9401 Fundamentals of English I
GRADE PLACEMENT: 9
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Focuses on language skills and reading concepts that are based on the modified content of the TEKS.

9201 Applied English I
3220107
GRADE PLACEMENT: 9
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Aligned with content modifications stipulated by the students IEP.

9101 Developmental English I
3220107
GRADE PLACEMENT: 9
PREREQUISITE: ARD Placement, only at RLT
CREDIT: 1 UNIT
Individualized instruction that emphasizes communication for students with severe cognitive and physical disabilities.
ENGLISH II

3220200

The English II course provides an integrated study focusing on the English II TEKS, ELPS, and CCRS while extending on language skills. The course includes study of various literary genres, including the short story, poetry, drama, non-fiction, and the novel. All students will participate in the recursive writing process. Emphasis in both semesters will be placed on vocabulary development, composition skills (with a focus on persuasive), critical reading and critical writing skills. **EOC TESTED SUBJECT.**

1151 English II
GRADE PLACEMENT: 10
PREREQUISITE: English I
CREDIT: 1 UNIT

1171 Honors English II
GRADE PLACEMENT: 10
PREREQUISITE: English I
CREDIT: 1 UNIT
GPA: +5 points on weighted GPA
Extends the curriculum of English II with more depth and complexity. Students will review writing skills and extend their study of vocabulary, the short story, novel, poetry, non-fiction and drama. Strong attention will be given to the development of composition and critical reading skills. Outside reading assignments will be expected. All literature study will be supported by a writing component.

1115 GT/Honors English II
GRADE PLACEMENT: 10
PREREQUISITE: GT Identified, English I
TAKEN WITH: 7975 AP World History
CREDIT: 1 UNIT
GPA: +5 on weighted GPA
Provides an interdisciplinary approach integrating Honors English II and AP World History for identified gifted students. Enables students to discover and appreciate how mankind, through the ages, has dealt with universal problems as reflected in literature, politics, economics, culture, and the arts.

1913 English II for Speakers of Other Languages (ESOL II) 3200700
GRADE PLACEMENT: 10
PREREQUISITE: Beginner or Intermediate English Language Proficiency
CREDIT: 1 UNIT
Provides instruction in the English II TEKS for beginner and intermediate level Emergent Bilingual students to build English language proficiency. Students are placed in this course according to their current level of English proficiency.

0302 PAS English II
GRADE PLACEMENT: 10
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Provides a yearlong interrelated study of the four skills required for effective speaking and listening. Includes the study of literature through various genres. Students continue the development of a writing portfolio. Instructional techniques will vary to accommodate the student’s IEP/BIP.

9402 Fundamentals of English II
GRADE PLACEMENT: 10
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Provides an integrated study focusing on the English II TEKS as modified by the individual student’s IEP.
9202 Applied English II
3220207
GRADE PLACEMENT: 10
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Student will focus on expansion of language skills and basic written formal communication. Adapted to meet the needs outlined in student’s IEP.

9102 Developmental English II
3220207
PREREQUISITE: ARD Placement, only at RLT
CREDIT: 1 UNIT
Individualized instruction that emphasizes communication for students with severe cognitive and physical disabilities.

ENGLISH III
3220300
The English III course provides an integrated study focusing on the English III TEKS, ELPS, and CCRS. All students will participate in the recursive writing process. This course continues emphasis on composition skills, vocabulary skills and literary analysis, and research skills. The student will explore English as a developing and changing language. All literary study is supported by a writing component.

1210 English III
GRADE PLACEMENT: 11
PREREQUISITE: English II
CREDIT: 1 UNIT

1221 AP English Language & Composition
A3220100
GRADE PLACEMENT: 11
PREREQUISITE: English II
CREDIT: 1 UNIT
GPA: +9 on weighted GPA
AP Exam: Required
FEES: Textbook and other fees may apply
Uses instructional strategies designed for the college bound student who excels in the composition process and the study of rhetoric and literature. The curriculum includes a review of the conventions of English, composition, and research skills with a continued emphasis on outside reading and vocabulary building. Strong attention will be given to the development of composition and critical reading skills. Literary emphasis is on the development of American culture and ideas.

0304 PAS English III
GRADE PLACEMENT: 11
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Provides a survey of American literature chronologically from the beginning of literary development in the United States through contemporary times. Integrates writing skills with the study of literature and the research process. Instructional techniques will vary to accommodate the student’s IEP/BIP.

9403 Fundamentals of English III
GRADE PLACEMENT: 11
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Provides an integrated study focusing on the English III TEKS as modified by the individual student’s IEP.

9203 Applied English III
GRADE PLACEMENT: 11
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Adapted to meet the needs outlined in student’s IEP.
9103 Developmental English III
PREREQUISITE: ARD Placement, only at RLT
CREDIT: 1 UNIT
Individualized instruction that emphasizes communication for students with severe cognitive and physical disabilities.

ENGLISH IV
3220400
The English IV course provides an integrated study focusing on the English IV TEKS, ELPS, and CCRS. All students will participate in the recursive writing process. The course also includes an intense study of composition and research skills. Literary emphasis is on the development of British literature and ideas.

1310 English IV
GRADE PLACEMENT: 12
PREREQUISITE: English III
CREDIT: 1 UNIT

1979 AP English Literature & Composition
A3220200
GRADE PLACEMENT: 12
PREREQUISITE: English III
CREDIT: 1 UNIT
GPA: +9 on weighted GPA
AP Exam: Required
FEES: Textbook and other fees may apply
Extends on the curriculum of English IV with more depth and complexity and offers a college-level course for students focusing on poetry, drama, fiction and prose. Includes intensive study of representative works from various genres and periods, concentrating on works of recognized literary merit. Writing assignments focus on the critical analysis of literature and include expository, analytical, and argumentative essays.

9404 Fundamentals of English IV
GRADE PLACEMENT: 12
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Provides an integrated study focusing on the English IV TEKS as modified by the individual student’s IEP.

9204 Applied English IV
GRADE PLACEMENT: 12
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Student will focus on employment and independent living language development through social activities. Adapted to meet the needs outlined in student’s IEP.

9104 Developmental English IV
PREREQUISITE: ARD Placement, only at RLT
CREDIT: 1 UNIT
Individualized instruction that emphasizes communication for students with severe cognitive and physical disabilities.
Alternate ELA
These courses may be taken to satisfy the fourth English credit required for graduation or, if English IV is taken as that fourth credit, these courses may be taken as state elective credits toward an Arts & Humanities Endorsement.

Creative Writing
3221200
GRADE PLACEMENT: 9-12
CREDIT: ½ or 1 UNIT
Explores the principles of expressive writing. All students will demonstrate an understanding of the recursive writing process. Uses the process approach to composition to help students develop fluency, voice, audience awareness, and editing strategies/techniques needed to become life-long writers.

1154 Creative Writing – semester
1155 Advanced Creative Writing - semester
1156 Creative Writing – full year

1322 Research/Technical Writing
3221100
GRADE PLACEMENT: 12
CREDIT: ½ UNIT
Students will research a topic or a variety of topics and present that information through a variety of media. All students are expected to demonstrate an understanding of the recursive nature of the writing process, effectively applying the conventions of usage and the mechanics of written English.

1323 Practical Writing Skills
03221300
GRADE PLACEMENT: 12
CREDIT: ½ UNIT
Allows students to develop skills necessary for composing business letters and requests for information, as well as for completing job applications and resumes. This course emphasizes skill in the use of conventions and mechanics of written English, the appropriate and effective application of English grammar, and the effective use of vocabulary.

8321 Business English (CTE)
13011600
GRADE PLACEMENT: 12
CREDIT: 1 UNIT
Students enhance communication and research skills by applying them to the business environments.

1321 Independent Study in English
3221800
GRADE PLACEMENT: 12
CREDIT: 1 UNIT
Focuses student learning on a special project in reading, writing, speaking or research. Student products are negotiable.
ELA SUPPORT
These courses are designed to support the ELA Learner who may have gaps in performance on ELA skill tests or diagnostic assessments. Credits earned from these courses do not satisfy the required ELA credits needed for graduation. They can be elective credits only and are not applied to an endorsement.

READING
GRADE PLACEMENT: 9-12
PREREQUISITE: Does Not Meet Grade Level on STAAR Reading or ARD Placement
CREDIT: 1 UNIT
Emphasizes individual improvement in reading comprehension, vocabulary development, reading rate, study skills, listening skills, and reading for pleasure. through a combination of instructional, modeled, and independent reading components.

Fundamental and Applied Reading courses are adapted to meet the needs outlined in student’s IEP based on modified content of the TEKS. These courses may be a substitute for World Language credit requirement.

1609 Reading I 3270700
1610 Reading II 3270800
1611 Reading III 3270900

1617 Fundamentals of Reading I 3270700
1618 Fundamentals of Reading II 3270800
1619 Fundamentals of Reading III 3270900

9206 Applied Reading I 3270700
9207 Applied Reading II 3270800

1613 Intensive Reading/Literature
GRADE PLACEMENT: 9-10
PREREQUISITE: Test Scores
CREDIT: 1 UNIT Reading; 1 UNIT English elective
NOTE: This course may take 2 periods on a student’s schedule for daily instruction. This is an intensive reading intervention program and has been proven effective for those students needing additional support in reading. The Intensive Reading/Literature classroom is a special place for reading, learning, and sharing ideas that support and build academic language. The instructional sessions will include both Whole Group Instruction and Small-Group Rotations.

1914 English Language Development & Acquisition (ELDA) 3200800
GRADE PLACEMENT: 9-12
PREREQUISITE: 12 months or less in US Schools, OLPT = LEVEL 0.1
TAKEN WITH: English I or English II (ESOL or OnLevel)
CREDIT: 1 UNIT
Provides a year-long course of instructional support for students with little or no English proficiency. Students may take this course with a different corequisite for a maximum of two credits.

9105 DEVELOPMENTAL ENGLISH PLUS, only at RLT
84000205
GRADE PLACEMENT: 12
PREREQUISITES: ARD Placement
CREDIT: 1 UNIT (Local)
Student will focus on understanding generalizations in real life context, the responsibilities of independent living and skills related directly to employment. Adapted to meet the needs outlined in student’s IEP.
**For students needing support with STAAR EOC English 1 or English 2 content, we offer the following:**

**Reading for EOC**
GRADE PLACEMENT: 9-12  
CREDIT: 1 UNIT  
This course focuses on reading strategies that help with decoding, understanding, and applying information from a variety of literary genres and cross-curriculum materials. Each course may be taken only once.

1620 Reading for EOC  
033270700

1621 Reading 2 for EOC  
03270800

**1640 STAAR ELA**
GRADE PLACEMENT: 9-12  
PREREQUISITE: Teacher Recommendation and/or STAAR Math Score  
CREDIT: ½ LOCAL  
NOTE: This course is repeatable  
Designed to specifically target the individual learner’s areas of growth for success on the EOC English 1 and/or English 2 exam.
MATHEMATICS

All students must complete three credits of Mathematics for graduation. We encourage all students to complete a fourth year as that is required for any endorsement offered.

The first three credits must be from Algebra I, Geometry, and Algebra II (or Math Models followed by Algebra II with counselor approval).

The fourth credit may be from a variety of Advanced Mathematics or alternate courses.

Alternate courses that can be a fourth credit of math include the following courses.
## ALGEBRA I

**3100500**

Uses a variety of representations (concrete, numerical, algorithmic, and graphical) to expand the understanding of functions, linear functions and quadratic and other nonlinear functions. Graphing calculators will be used extensively in this course. *EOC TESTED SUBJECT.*

91212  Applied Geometry  
GRADE PLACEMENT:  10  
REREQUISITE: ARD Placement  
CREDIT:    1 UNIT  
Student will focus on consumer application in the use of money, problem solving and fundamental skills. Adapted to meet the needs in student’s IEP.

91112  Developmental Geometry  
PREREQUISITE: ARD Placement, only at RLT  
CREDIT:    1 UNIT  
Individualized instruction emphasizes music and rhythm for students with severe cognitive and physical disabilities.

MATHEMATICS MODELS WITH APPLICATIONS  
3102400  
This course teaches students to use algebraic, graphical, and geometric reasoning to recognize patterns and structure, to model information, and to solve problems from various disciplines. Math Models provides a path for students to succeed in Algebra II.

4710  Mathematics Models  
GRADE PLACEMENT: 10-11

OTHER ADVANCED MATH COURSES

4796 Advanced Quantitative Reasoning
3102510
GRADE PLACEMENT: 12
PREREQUISITE: Algebra II
CREDIT: 1 UNIT
Focused on analyzing numerical data, probability, analyzing statistical studies, designing a study, a discrete look at change, other models of change, spatial and geometric modeling, networks and graphs, and decision making in finance as well as voting and selection process.

4770 Honors Pre-Calculus
3101100
GRADE PLACEMENT: 10-12
PREREQUISITE: Geometry and Algebra II
CREDIT: 1 UNIT
GPA: +5 on weighted GPA
Presents an analytical view of the underlying structure of mathematics through the study of functions and the properties of limits and continuity and extends the concepts introduced in Algebra and Geometry. This course will provide a bridge to Advanced Placement Calculus AB or Calculus BC. Students are expected to enroll in Calculus upon successful completion of this course.
DUAL CREDIT MATH COURSES
GRADE PLACEMENT: 11-12
PREREQUISITE: Acceptance to Dallas College https://www.dcccd.edu/high-school-students/dual-credit/pages/default.aspx
CREDIT: 1 UNIT each semester
COLLEGE CREDIT: 3 HRS each
GPA: no impact for Comp Campuses
FEES: Textbook and other fees may apply

4783D Dual Credit College Algebra
IHE11100
PREREQUISITE: Algebra II
Reviews skills in intermediate algebra and further develops rational expressions, roots, exponents and radicals. Other topics include complex numbers, systems of equations and inequalities, theory of equations, progressions, the binomial theorem, proofs, and applications.

4793D Dual Credit Trigonometry
3102501
PREREQUISITE: College Algebra
Focuses on the study of angular measures, trigonometric functions, identifies solutions of triangles, equations, inverse trigonometric functions, complex numbers, and applications.

4782 Dual Credit Calculus III
IHE11100
PREREQUISITE: AP Calculus AB or BC
Focuses on the study of vectors and analytic geometry in 3-space; partial and directional derivatives; extrema; double and triple integrals and applications; cylindrical and spherical coordinates.

4784 Dual Credit Differential Equations I
3102501
PREREQUISITE: AP CALCULUS AB or BC
Focuses on first order equations, existence uniqueness theorem, linear equations, separation of variables, higher order linear equations, systems of linear equations, series solutions and numerical solutions.

AP MATHEMATICS COURSES

4779 AP PRE-CALCULUS
GRADE PLACEMENT: 10-12
PREREQUISITE: Algebra II
CREDIT: 1 UNIT
GPA: +9 on weighted GPA
AP EXAM: Required
FEES: Textbook and other fees may apply
Students acquire and apply mathematical tools in real-world modeling situations in preparation for using these tools in college-level calculus. Modeling, a central instructional theme for the course, helps students come to a deeper understanding of each function type. By examining scenarios, conditions, and data sets, as well as determining and validating an appropriate function model, students develop a greater comprehension of the nature and behavior of the function itself. The formal study of a function type through multiple representations (e.g., graphical, numerical, verbal, analytical), coupled with the application of the function type to a variety of contexts, provides students with a rich study of precalculus.

AP CALCULUS
GRADE PLACEMENT: 11-12
PREREQUISITE: Pre-Calculus
CREDIT: 1 UNIT
GPA: +9 on weighted GPA
AP Exam: Required
FEES: Textbook and other fees may apply
Prepares the student to take the Advanced Placement examination for possible college credit. Algebraic, numerical, and graphical representations are emphasized throughout the course.

4780 AP Calculus AB
A3100101 (Equivalent to at least a semester of calculus at most colleges and universities.)
Includes techniques and applications of the derivative, definite integral, and the Fundamental Theorem of Calculus.
### AP Calculus BC
A3100102 (Equivalent to at least a year of calculus at most colleges and universities)
Includes all the topics of Calculus AB plus additional topics in differential and integral calculus including parametric, polar, and vector functions and series.

### AP Statistics
A3100200
GRADE PLACEMENT: 11-12
PREREQUISITE: Algebra II
CREDIT: 1 UNIT
GPA: +9 on weighted GPA
AP Exam: Required
FEES: Textbook and other fees may apply
Introduces the major concepts and tools for collecting, analyzing and drawing conclusions from data. In addition, offers an examination for students desiring to earn credit for a one-semester, introductory, non-calculus based college course in statistics.

### ALTERNATE MATH COURSES

**8231 Applied Mathematics for Technical Careers**
GRADE PLACEMENT: 11-12
PREREQUISITE: Algebra I and Geometry
CREDIT: 1 UNIT
This course satisfies a high school mathematics graduation requirement. This course uses problem-solving situations, hands-on activities, and technology to extend mathematical thinking and engage student reasoning. Situations relating to technical applications provide students opportunities to make connections with mathematics and the workplace. In addition, students will learn the skills necessary to communicate using mathematics. Hands-on activities will allow students to model, explore, and develop abstract concepts applicable to technical careers. (Essential to this course is the partnership between mathematics and technical teachers.)

Statistics & Business Decision Making, Digital Engineering, Accounting II and AP Computer Science A descriptions can be found in the CTE section.

**For students needing support with STAAR EOC Algebra 1 content, we offer the following:**

**4786 Math Strategies**
N1110030
GRADE PLACEMENT: 9-12
CREDIT: 1 UNIT
This course focuses on how to think about mathematical learning. These basic understandings will include identifying errors in the teaching and learning process, input errors, physiological concerns, and key cognitive skills.

**4785 STAAR Math**
84100STR
GRADE PLACEMENT: 9-12
PREREQUISITE: Teacher Recommendation and/or STAAR Math Score
CREDIT: ½ UNIT LOCAL
NOTE: This course is repeatable
Designed to specifically target the individual learner’s areas of growth for success on the EOC Algebra 1.
SCIENCE

All students must complete three credits of Science for graduation. We encourage all students to complete a fourth year as that is required for any endorsement offered.

Credits must include Biology and at least one lab class of IPC, Chemistry or Physics.

Engineering Science

Students interested in Science laboratory fieldwork may also complete up to a year of Science Lab Management for local credit.
BIOLOGY
03010200
Provides an introductory laboratory course in biology. Topics include: cellular functions, microorganisms, plant and animal processes, animal and plant classification, genetics, and ecology. Safety and manipulative laboratory skills are stressed. Students will conduct both field and laboratory investigations. **EOC TESTED SUBJECT.**

6620 Biology I
GRADE PLACEMENT: 9-10
CREDIT: 1 UNIT

6625 Honors Biology I
GRADE PLACEMENT: 9-10
CREDIT: 1 UNIT
GPA: +5 on weighted GPA
Provides a more in-depth study of the topics covered in Biology. Included are laboratory activities which enhance creativity, provide individual research opportunities, and field investigations.

0348 PAS Biology I
GRADE PLACEMENT: 9
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Instructional techniques will vary to accommodate the student’s IEP/BIP.

9221 Applied Biology I
03010207
GRADE PLACEMENT: 9-10
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Student will investigate science related to home, school and community through the use of activity-based studies including a study of plants and animals. Adapted to meet the needs outlined in student’s IEP.

9121 Developmental Biology I
030102007
PREREQUISITE: ARD Placement, only at RLT
CREDIT: 1 UNIT
Individualized instruction that emphasizes routine and structure for students with severe cognitive and physical disabilities.

IPC/CHEMISTRY
03060201
INTEGRATED PHYSICS & CHEMISTRY (IPC)
Builds on concepts in physics and chemistry and their relationship to living systems, the earth’s structure, astronomy, and other physical and chemical phenomena observed. This course emphasizes hands-on laboratory science, higher order thinking, and interrelationships between the sciences. Though this course is not required for all students, if taken, it must precede Chemistry and Physics.

6616 Integrated Physics & Chemistry
GRADE PLACEMENT: 9-10 recommended
CREDIT: 1 UNIT

0345 PAS IPC
GRADE PLACEMENT: 9-10
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT

9222 Applied IPC
GRADE PLACEMENT: 10-12
PREREQUISITE: ARD Placement
CREDIT: 1 UNIT
Student will investigate science related to home and independent living through the use of activity-based studies including a study of force, friction, and chemical reactions. Adapted to meet the needs outlined in student’s IEP.
9122 Developmental IPC
PREREQUISITE: ARD Placement, only at RLT
CREDIT: 1 UNIT
Individualized instruction that emphasizes routine and structure for students with severe cognitive and physical disabilities.

CHEMISTRY
03040000
Provides a complete course in the concepts of chemistry including the study of the properties of matter, atomic theory, Periodic Table, chemical bonding, the mole concept, chemical reactions, principles of ideal gas, behavior of solutions, and nuclear chemistry. Honors level extends concepts for the student who has a high interest in chemistry, has done well in science and mathematics and is able to grasp high level skills.

GPA: +5 on weighted GPA
Laboratory activities are presented that are appropriate for the topics under study and provide opportunities for individual research.

PHYSICS
03050000
Provides a complete course in the concepts of Physics. Laboratory activities are presented appropriately for the topics being studied. Topics include: a study of motion, force and energy, electro-magnetism, electricity, electromagnetic radiation, optics, sound and nuclear energy. Honors level offers the student who has a high interest in science and has done well in both science and mathematics.

6655 Physics
GRADE PLACEMENT: 9-12

PREREQUISITE: 1 Sci credit AND Algebra I (or concurrent)
CREDIT: 1 UNIT
COLLEGE CREDIT: Optional
FEES: Textbook and other fees may apply
This is an algebra-based (non-calculus) course in mechanics that fulfills a general physics requirement.
Students will practice problem solving and analyzing physical situations involving motion, force, energy, rotations, heat, oscillations, waves, and sound. The course lays the groundwork for college majors including engineering, physics, chemistry, or mathematics.

LAB-BASED SCIENCES

ENVIRONMENTAL SYSTEMS
03020000
Explores principles of the environment: biotic and abiotic factors in habitats; ecosystems and biomes; interrelationships among resources and an environmental system; relationship between carrying capacity and changes in populations, ecosystems and the environment.

6615 Environmental Systems
GRADE PLACEMENT: 11-12
PREREQUISITE: 2 Years of Lab Sciences

Student will investigate science related to home and independent living through the use of activity-based studies including weather, seasonal changes, and the water cycle. Adapted to meet the needs outlined in student’s IEP.

9123 Developmental Environmental Systems
PREREQUISITE: ARD Placement, only at RLT
CREDIT: 1 UNIT
Individualized instruction that emphasizes routine and structure for students with severe cognitive and physical disabilities.

ASTRONOMY
03060100
Provides a laboratory course where students acquire knowledge about the sun, planets, moon, and stars. Topics included are: information about the universe; scientific theories of the evolution of the universe; characteristics and the life cycle of stars; exploration of the universe; role of the sun in our solar system; planets; and the orientation and placement of the Earth.

6670 Astronomy

SOCIAL STUDIES

All students must complete 4 credits of Social Studies for graduation.

The first three credits must be World Geography, World History and US History.

Economics and US Government make up the fourth credit. Each are ½ credit.

Students may also select Advanced SS courses as an Elective. These courses earn state elective credits toward graduation.
WORLD GEOGRAPHY
03320100
Students examine cultures and the interaction of humans with their physical environment thematically, using process skills to study geographic patterns and influences on past and present events in order to make informed decisions about the future.

WORLD LANGUAGES

All students must complete 2 credits of World Language for graduation. These World Language credits should be from the same language. Some students may be recommended for a Special Topics course as an appropriate alternative to a Level II World Language course. (A substitution of academic or CTE courses can be made for students who receive special education services. Speak with the counselor for more information.)

Students are encouraged to further their exposure to world languages and culture by taking additional classes of the same language or exploring other world languages throughout their high school years.

There are also dual credit opportunities students may select from Dallas College. Acceptance to Dallas College is required and fees may apply.

WORLD LANGUAGE ALTERNATIVES

3920  Special Topics in Language & Culture
11410000
GRADE PLACEMENT:  10-12
PREREQUISITE: Level I credit in any World Language & Recommendation by ARD, 504, or General Ed committee that includes the Level I teacher.
CREDIT:  1 UNIT
Students demonstrate novice level communication skills acquired in a World Language Level I course, develop a greater understanding of other cultures, make connections to other disciplines, draw comparisons between languages and cultures, and effectively engage in global communities. Students enhance their personal and public lives, and meet the career demands of the 21st century, by gaining insight into other world languages and cultures.

Dual Credit Opportunities
Students wishing to pursue world language through dual credit classes offered through Dallas College must be admitted to the college. These courses are taken at the student’s convenience outside of the regular school day. World Language courses through Dallas College offer the opportunity for students to earn 2 years of language credit in one school year as each course is taught for a semester and earns a full year’s language equivalent at the high school campus. *Textbook and other fees may apply
https://www.dcccd.edu/high-school-students/dual-credit/pages/enrollment.aspx

Academic or Career-Technical Education Substitutions
Students receiving Special Education Services are permitted to use core subject or CTE courses that are not otherwise meeting graduation requirements as World Language Substitutions. This decision should be discussed and determined by an ARD Committee.
ATHLETICS, PHYSICAL EDUCATION & HEALTH

All students must complete 1 credit of Physical Education (PE) for graduation. Up to 4 PE credits are allowed towards meeting the state graduation requirements.

Students can earn PE credit through a variety of athletics, physical activity and special case offerings. No PE course may be taken twice for state credit.

PHYSICAL EDUCATION - ATHLETICS

The following courses are offered as competitive sports governed by the rules and regulations of the University Interscholastic League. Athletes must maintain eligibility to compete.

Athletes enroll in the level that corresponds with the number of years he/she has participated in any athletics program. This allows for up to 4 credits in athletics to be earned. In order to best provide regular practice for student athletes, athletics classes are scheduled for two periods – one on “A” days and the other on “B” days. The expectation is that athletes are scheduled into both periods. Exceptions can be made based on academic or other co-curricular needs. In either case, successful completion of athletics courses will yield one credit per year.

**Advanced Art II-IV**
Advanced Levels of Visual Arts courses focus on specific art mediums including Ceramics, Drawing, Jewelry, Painting, and Sculpting. Not all mediums are taught at each campus. Students select which art medium they wish to study in depth. Year II expands the student’s experience with the art medium and introduces techniques and tools specific to that art. Years III and IV extend previous skills and provide opportunities for reflection, self-evaluation, explore personal style and insight. Sketch books and journals are required. Portfolios of the student’s body of work will be prepared to showcase their creations.

PERFORMANCE ARTS

Dance
3830100, 3830200, 3830300, 3830400
Year I introduces basic movement skills and an awareness of fundamental dance vocabulary in any or all of the following styles: aerobics, ballet, folk, modern, jazz and tap. Addresses the history of dance as an art form, choreography techniques, and performance skills. Years II-IV provide involvement with movement skills and dance vocabulary at the intermediate to advanced level and continued development in all areas previously covered. Improvisation, informal presentations, and critiquing will be explored. In addition to choreography and manipulation of body, space, force and time, Year IV will focus on production and performance skills.

All Dance class levels are based on years of participation, not grade or skill level. Year I of Dance, Folklorico and Dance Company can earn an additional PE credit if one is not already earned through athletics or a prior year of PE.

Theatre
3250100, 3250100, 3250100, 3250100
All theatre courses require after school participation.
Year I introduces the basic components of theatre skills through which the student begins to develop an appreciation of live theatre, the various performing arts, and a study of plays. This introductory theatre course requires attendance of productions and minimal after school rehearsal. Years 2-4 investigate further the world of acting and theatre production. Character study and play analysis allow the Theatre student to explore performing a role, development of creative skill and relating to other actors in a meaningful way, with special emphasis on competitive work and department productions. Advanced Theatre courses require attendance and participation in productions and competitions.

Technical Theatre
3250500, 3250600, 3251100, 3251200
All technical theatre courses require after school participation.
Year I involves students in scenery construction, lighting, costumes, make-up, properties and sound reinforcement for an actual theatre production. This introductory technical theatre course requires attendance of productions. Years 2-4 explore the technical and business aspects of the theatre and the application of these methods and procedures with the major portion of class time spent on actual work on a production. These advanced technical theatre courses encourage students to learn all aspects of technical production and then concentrate on those skills which are of most interest to them. Students in Years 2-4 are required to attend productions, competitive activities and some after school rehearsal.

Develops and appreciation of choral music and desirable vocal skills through the rehearsal and performance of a variety of styles of appropriate choral literature. Fundamentals of Music Theory will be emphasized through sight reading and rhythmic drill exercises. The choir will perform at concerts and/or choral competitions as deemed appropriate by the director. Advanced levels provide experiences for the vocal student who has proven to be able to exceed or excel in the areas of vocal technique, sight-reading, intervallic, and rhythmic analysis, while continuing to perform the most difficult music available for high school treble or mixed choirs. All vocal students are encouraged to participate in UIL Solo and Ensemble Contest and TMEA All-Region auditions. TMEA All-Region auditions may be required at the advanced levels. Choir level is based on years of participation, not grade level.

Introduces musicianship, theory, musical materials and procedure. It integrates aspects of melody, harmony, texture, rhythm, form, musical analysis, elementary composition, and to some extent, history and style. The student’s ability to read and write musical notation is fundamental to such a course.
CAREER AND TECHNICAL EDUCATION (CTE)

CTE courses are designed to introduce, explore, and enhance student knowledge in a variety of post-secondary fields of work. Programs of Study align these CTE courses into sequences that prepare students with the knowledge and skills necessary for success in their chosen career. These sequences embed relevant, real world experiences and can culminate in an industry-based certification.

All students are encouraged to fulfill the remaining credits for graduation through a Program of Study. Completing a career pathway within a Program of Study can lead to an Endorsement in Arts & Humanities, Business & Industry, Public Services, or Science Technology Engineering & Mathematics (STEM).

Students can choose from the following Programs of Study in CFBISD.

8217  **Principle of Agriculture, Food and Natural Resources**  
13000200  
GRADE PLACEMENT:  9-12  
CREDIT:  1 UNIT  
Enhances the agricultural comprehension of young adults. Includes agricultural career development, leadership, communications and personal finances. This course also includes the overview of soil and plants, animals, and agricultural construction.

8218  **Livestock Production**  
13000300  
GRADE PLACEMENT:  10-12  
PREREQUISITE:  Principles of AFNR  
CREDIT:  1 UNIT  
Introduces the common veterinary skills and procedures used on livestock, anatomy of livestock, genetics and reproduction, and diseases that can affect all livestock animals.

8219  **Wildlife, Fisheries and Ecology Management**  
GRADE PLACEMENT:  9-12  
CREDIT:  1 UNIT  
This course examines the management of game and non-game wildlife species, fish, aqua-crops and their ecological needs related to current agricultural practices.

8220  **Small Animal Management**  
13000400  
GRADE PLACEMENT:  9-12  
PREREQUISITE:  Principles of AFNR  
CREDIT:  ½ UNIT  
Focuses on working in small animal industry, animal rights and welfare, career opportunity in small animal care. This course is recommended for those that have an interest in the Animal industry.

13000610  
GRADE PLACEMENT:  11-12  
PREREQUISITE:  8220, 8221, or 8218  
CREDIT:  2 UNITS  
Develop and expand the knowledge, techniques and skills pertaining to Veterinary Technical Assistant area. This course is designed as a laboratory-oriented course that allows students hands-on experience within the area of diagnostic testing, client records, employer/employee relationship, and techniques used in surgical practices.

8223  **Advanced Animal Science**  
13000700  
GRADE PLACEMENT:  12  
PREREQUISITE:  Algebra I, Geometry, Biology, IPC/Chem and 8220, 8221 or 8218  
CREDIT:  1 UNIT  
Develop and investigate the scientific and technological dimensions of scientific animal agriculture, genetics and reproduction, anatomy and physiology of various livestock species, nutritional
requirements, and disease and parasites of livestock. This class is recommended for those students with an interest in the Animal Industry. This course counts as a 4th science credit.

8224 Agriculture Mechanics and Metal Technologies 13002200
GRADE PLACEMENT: 10-12
PREREQUISITE: 8217
CREDIT: 1 UNIT
The course develops an understanding of safety and skill in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques.

8225 Practicum in AFNR 13002500
GRADE PLACEMENT: 12
PREREQUISITE: 8222
CREDIT: 2 UNITS
Provides students with a non-paid internship arrangement between the high school and agriculture industry. It provides juniors and seniors with a professional internship experience. Gain knowledge and skills needed to enter the workforce as an electrician or building maintenance supervisor, prepare for a postsecondary degree in a specified field of construction or construction management, or pursue an approved apprenticeship program. Students will acquire knowledge and skills in safety, electrical theory, tools, codes, installation of electrical equipment, and the reading...
of electrical drawings, schematics, and specifications.

CONSTRUCTION MANAGEMENT
Construction Management includes the knowledge of design techniques and tools related to the management of architectural and engineering projects. Students will gain knowledge and skills to enter the workforce as apprentice carpenters or building maintenance supervisors’ assistants or to build a foundation toward a postsecondary degree in architecture, construction science, drafting, or engineering. Year II students will continue their growth in understanding of knowledge of design techniques and tools related to the management of architectural and engineering projects. They will be able to enter the workforce as carpenters, building maintenance technicians, or supervisors.

Tourism Marketing Concepts and Applications
N1302270
GRADE PLACEMENT: 10-12
CREDIT: 1 UNIT
Provide students with a thorough understanding of marketing concepts and theories that apply to the travel and tourism industry to include lodging, food and beverage operations, recreation, amusements, attractions, convention and visitors' bureaus and tourism companies. While general concepts of marketing for travel and tourism are similar to the marketing of other products and services, the travel and tourism industry has unique characteristics that create a variety of challenges and opportunities specific to and important for tourism marketing professionals. Students will learn broad tourism marketing concepts such as understanding a product/service, pricing out a product/service, promoting a product/service with a focus on direct sales and the placement or distribution channels for a product. They will also be introduced to the concepts of markets, market segmentation, and customer needs related to the tourism industry.

PRACTICUM
GRADE PLACEMENT: 12
PREREQUISITE: 8202, Teacher Approval
CREDIT: 2 UNITS
Provides occupationally specific opportunities for students to participate in a learning experience that combines classroom instruction with actual business and industry career experiences in the hotel/service industry. Students will be placed in internship positions at hotels via local hotel associations. Extended courses offer additional time on the worksite.
HUMAN SERVICES

Family and Community Services [https://tea.texas.gov/sites/default/files/hs-family-and-community-services.pdf](https://tea.texas.gov/sites/default/files/hs-family-and-community-services.pdf)

Heath and Wellness [https://tea.texas.gov/sites/default/files/hs-health-and-wellness.pdf](https://tea.texas.gov/sites/default/files/hs-health-and-wellness.pdf)
Industry Certifications: Community Health Worker, Pre-professional Certification in Nutrition Food & Wellness

8206 Principles of Human Services
13024200
GRADE PLACEMENT: 9-12
CREDIT: 1 UNIT
Enables students to investigate careers in the human services career cluster, including counseling and mental health, early childhood development, family and community, personal care services and consumer services. Each student is expected to complete the knowledge and skills essential for success in high-skill, high-wage, or high-demand human services careers in this laboratory course.

8207 Dollars and Sense
13024300
GRADE PLACEMENT: 11-12
CREDIT: ½ UNIT
Focuses on consumer practices and responsibilities, money-management processes, decision-making skills, impact of technology, and preparation for human services careers.

8208 Interpersonal Studies
13024400
GRADE PLACEMENT: 9-12
CREDIT: ½ UNIT
Examines how the relationships between individuals and among family members significantly affect the quality of life. Students use knowledge and skills in family studies and human development to enhance personal development, foster quality relationships, promote wellness of family members, manage multiple adult roles, and pursue careers related to counseling and mental health services.

8209 Lifetime Nutrition and Wellness
13024500
GRADE PLACEMENT: 10-12
CREDIT: ½ UNIT
Allows students to use principles of lifetime wellness and nutrition to help them make informed choices that promote wellness as well as pursue careers related to hospitality and tourism, education and training, human services, and health sciences.

8355 Applied Nutrition and Dietetics
N1302541
GRADE PLACEMENT: 10-12
CREDIT: 1 UNIT
Introduces and applies career-focused and real-world topics related to nutrition such as the nutrition care process, types of nutrition education and counseling, development of nutrition programs, and nutrition industry related research. Students will research requirements necessary to become a professional in the nutrition and dietetics field.

8210 Child Development
13024700
GRADE PLACEMENT: 10-12
CREDIT: 1 UNIT
Addresses knowledge and skills related to child growth and development from prenatal through school-age children, equipping students with child development skills. Students use these skills to promote the well-being and healthy development of children and investigate careers related to the care and education of children.
8211 Counseling and Mental Health
13024600
GRADE PLACEMENT: 10-12
CREDIT: 1 UNIT
In this course, students model the knowledge and skills necessary to pursue a counseling and mental health career through simulated environments. Students are expected to apply knowledge of ethical and legal responsibilities, limitations, and the implications of their actions. Professional integrity in counseling and mental health care is dependent on acceptance of ethical and legal responsibilities.

8212 Family and Community Services
13024900
GRADE PLACEMENT: 11-12
CREDIT: 1 UNIT
Involves students in realistic and meaningful community-based activities through direct service or service-learning experiences. Students are provided opportunities to interact with and provide services to individuals, families, and the community through community or volunteer services. Emphasis is placed on developing and enhancing organizational and leadership skills and characteristics.

PRACTICUM IN HUMAN SERVICES
GRADE PLACEMENT: 11-12
PREREQUISITE: 8206, 8207, 8209, 8212
CREDIT: 2 UNITS
This course provides background knowledge and occupation-specific training that focuses on the development of consumer services, early childhood development and services, counseling and mental health services, and family and community-services careers. It is designed to meet the occupational preparation needs and interests of students and should be based upon the knowledge and skills selected from two or more courses in a coherent sequence in the Human Services Cluster. Extended course provides more time on the worksite.

**8171 Principles of Info Technology**
13027200
GRADE PLACEMENT: 9-12
CREDIT: 1 UNIT
Develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment.

**Computer Maintenance**
GRADE PLACEMENT: 10-12
PREREQUISITE: 8171
CREDIT: 1 UNIT
Students will acquire knowledge of computer maintenance and creating appropriate documentation, analyze the social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health, safety, and diversity in society and in the workplace as related to computer maintenance.

**8177 Computer Maintenance**
13027300

**8177L Computer Maintenance with Lab**
13027310 (2 UNITS)

**8178 Networking**
13027400
GRADE PLACEMENT: 10-12
PREREQUISITE: 8717 and 8177
CREDIT: 1 UNIT
Students will develop knowledge of the concepts and skills related to data networking technologies and practices in order to apply them to personal or career development. To prepare for success, students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems.

**8310 Internetworking Technologies I**
N1302803
GRADE PLACEMENT: 10-12
CREDIT: 1 UNIT
The Introduction to Networks course introduces the concept of networking, using various analogies to help the student understand the movement of packets throughout the Internet, and the protocol standards used. The Routing and Switching course moves the student into the theory of “moving packets.” The concepts of routing and switching “packets” to the correct destination is covered, and how a network administrator can direct and/or streamline this process through device configuration and deployment.
**8175 Web Design**  
03580820  
GRADE PLACEMENT: 10-12  
CREDIT: 1 UNIT  
Students learn to make informed decisions and apply the decisions to the field of information technology. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven society. Students enhance reading, writing, computing, communication, and critical thinking and apply them to the information technology environment.

**8172 Web Communications**  
03580810  
GRADE PLACEMENT: 9-10  
CREDIT: ½ UNIT  
This is an exploratory course in web communications. The six strands include creativity and innovation; communication and collaboration; research and information fluency; critical thinking; problem solving, and decision making; digital citizenship; and technology operations and concepts.

**8315 Independent Study in Evolving/Emerging Technologies**  
03581500  
GRADE PLACEMENT: 11-12  
CREDIT: 1 UNIT  
Through the study of evolving/emerging technologies, including technology-related terms, concepts, and data input strategies, students will communicate information in different formats and to diverse audiences using a variety of technologies. Students will learn to make informed decisions, develop and produce original work that exemplifies the standards identified by the selected profession or discipline, and publish the product in electronic media and print.

**8415 IT Troubleshooting**  
N1302815  
GRADE PLACEMENT: 10-12  
CREDIT: 1 UNIT  
Students apply logic over technical components to identify and resolve problems. The course focuses on developing a methodical approach in IT troubleshooting and leveraging those skills in a workplace environment.

**PRACTICUM IN INFORMATION TECHNOLOGY**  
GRADE PLACEMENT: 12  
PREREQUISITE: Any IT Sequence  
CREDIT: 2 UNITS  
Prepares students for success in a technology-driven society with knowledge and skills in the proper use of analytical skills and application of information technology concepts and standards. Critical thinking, information technology experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid internship, or as career preparation. Extended course work provides the same instruction but more time on the worksite.

8403  Fundamentals of Computer Science  03580140
GRADE PLACEMENT:  9-12
PREREQUISITE: Algebra I (or concurrent)
CREDIT:  1 UNIT
Intended as a first course for those students just beginning the study of computer science. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations and concepts.

COMPUTER SCIENCE
GRADE PLACEMENT:  9-12
PREREQUISITE: Algebra I (or concurrent)
CREDIT:  1 UNIT
Provides beginning skills and concepts associated with programming methodology, programming languages, data types, data structures, algorithms and applications of computing. Year II includes object-oriented programming, data structure, abstract data structures, sorting and searching, dynamic memory allocation and algorithmic analysis. JAVA is the programming language used for teaching computer concepts and for completing program assignments.

8408  Foundations of Cybersecurity  03580850
GRADE PLACEMENT:  9-12
CREDIT:  1 UNIT
In the Foundations of Cybersecurity course, students will develop the knowledge and skills needed to explore fundamental concepts related to the ethics, laws, and operations of cybersecurity. Students will examine trends and operations of cyberattacks, threats, and vulnerabilities. Students will review and explore security policies designed to mitigate risks. The skills obtained in this course prepare students for additional study in cybersecurity.
**8405 Cybersecurity Capstone**
03580855  
GRADE PLACEMENT:  9-12  
CREDIT:    1 UNIT  
Students will develop the knowledge and skills needed to explore advanced concepts related to the ethics, laws, and operations of cybersecurity. Students will examine trends and operations of cyberattacks, threats, and vulnerabilities. Students will develop security policies to mitigate risks. The skills obtained in this course prepare students for additional study toward industry certification. A variety of courses are available to students interested in the cybersecurity field.

**8406 Game Programming and Design**
03580380  
GRADE PLACEMENT:  10-12  
CREDIT:    1 UNIT  
Solve gaming problems through data analysis, including the identification of task requirements, planned search strategies, and programming concepts to access, analyze, and evaluate information needed to design games. Research current laws and regulations and by practicing integrity and respect. Students will create a computer game that is presented to an evaluation panel.

**8407 Mobile Application Development**
03580390  
GRADE PLACEMENT:  10-12  
CREDIT:    1 UNIT  
Mobile Application Development will foster students' creativity and innovation by presenting opportunities to design, implement, and deliver meaningful projects using mobile computing devices. Students will gain an understanding of the principles of mobile application development through the study of development platforms, programming languages, and software design standards.

**8416 Web Game Development**
03580830  
GRADE PLACEMENT:  11-12  
PREREQUISITE:  8175  
CREDIT:    1 UNIT  
Learn to make higher-level informed decisions and apply the decisions to the field of information technology and gaming. Students implement personal and interpersonal skills to prepare for a rapidly evolving technology environment. Successfully perform and interact in a technology-driven society. Students enhance reading, writing, computing, communication, and critical thinking and apply them to the information technology environment.

8140 Principles of Government & Public Administration
13018200
GRADE PLACEMENT: 9-11
CREDIT: 1 UNIT
Introduces students to the three branches of the U.S. government (legislative, executive, and judicial). Students will examine governmental documents such as the U.S. Constitution with special emphasis on the Bill of Rights. Students will also interpret and apply concepts of governance to assess public administration in society.

8148 Principals of Law, Public Safety, Corrections, and Security (non-Academy strand)
13029200
GRADE PLACEMENT: 9-11
CREDIT: 1 UNIT
Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, protective services, and corrections.

8143 Disaster Response
N1303011
GRADE PLACEMENT: 9-12
CREDIT: 1 UNIT
Includes basic training of students in disaster survival and rescue skills that improve the ability of citizens to survive until responders arrive. Students will learn how to make communities safer, stronger, and better prepared to respond to the threats of terrorism, crime, public health issues, and disasters of all kinds.

Law Enforcement
GRADE PLACEMENT: 10-12
PREREQUISITE: 8140
CREDIT: 1 UNIT
Includes the role of constitution law, the United States legal system, criminal law, law enforcement terminology, and the classification and elements of crime. Law Enforcement I is an overview of the history, organization, and functions of local, state, and federal law enforcement. Year II builds upon the knowledge and skills of Law Enforcement I with an emphasis on practicing police strategies in simulated settings.

Forensic Psychology
N1303012
GRADE PLACEMENT: 10-12
PREREQUISITE: Biology and Chemistry
CREDIT: 1 UNIT
Forensic psychology is the intersection between psychology and the criminal justice system. It involves understanding criminal law in the relevant jurisdictions in order to be able to interact appropriately with judges, attorneys and other legal professionals. An important aspect of forensic psychology is the ability to testify in court, reformulating psychological findings into the legal language of the courtroom, proving information to legal personnel in a way that can be understood.

Political Science
GRADE PLACEMENT: 10-12
PREREQUISITE: 8140
CREDIT: 1 UNIT
Political Science I explores the philosophical and theoretical underpinnings of various forms of government, both within the United States and throughout the world. Year II uses a variety of learning methods and approaches to examine the processes, systems, and political dynamics of the United States and other nations. The dynamic component of this course includes current U.S. and world events.

Legal Research and Writing
N1303014
GRADE PLACEMENT: 10-12
PREREQUISITE: Law and PS Academy
CREDIT: 1 UNIT
Identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and interrogation. Students obtain courtroom exposure and simulations through Mock Trial events.

Advanced Legal Skills and Professions
N1303016
GRADE PLACEMENT: 11-12
CREDIT: 1 UNIT
Provides students with a foundation to understand the basic mechanics of the U.S. legal system. Building on prior instruction in constitutional issues and the basics of American court systems, this course provides insight into the practical application of the law, as well as civil and criminal procedure, giving students a hands-on opportunity to experience a variety of legal professions.

MANUFACTURING

Welding [https://tea.texas.gov/sites/default/files/m-welding.pdf]
Industry Certifications: AWS Welder, NCEER Welding 1, API 1104 Welding, ASW SENSE Level 1

8167 Introduction to Welding
13032250
GRADE PLACEMENT: 9-12
PREREQUISITE: Algebra I
CREDIT: 1 UNIT
Introduction to welding technology with an emphasis on basic welding lab principles and operating procedures. Topics include industrial safety and health practices, hand tool and power machine use, measurement, laboratory operating procedures, welding power sources, career potential and introduction to codes and standards.

8169L Welding II Lab
13032410

8399 Principles of Manufacturing
13032200
GRADE PLACEMENT: 9-12
CREDIT: 1 UNIT
LAB CREDIT: 1 UNIT
Students are introduced to knowledge and skills used in the proper application of principles of manufacturing. The study of manufacturing technology allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities. Students will gain an understanding of what employers require to gain and maintain employment in manufacturing careers.

8164 Precision Metal Manufacturing
13032500
GRADE PLACEMENT: 9-12
PREREQUISITE: 8399
CREDIT: 1 UNIT
This course is designed to provide necessary skills in machining, it also provides a real-world foundation for any engineering discipline. This course may address a variety of materials such as plastics, ceramics, and wood in addition to metal. This course is designed to provide entry-level employment for the student or articulated credit integration into a community college and dual credit with a community college with completion of the advanced course.
8165 Diversified Manufacturing
13032650
GRADE PLACEMENT: 9-12
CREDIT: 1 UNITS
This course allows students the opportunity to understand the process of mass production by using a wide variety of materials and manufacturing techniques. Knowledge about career opportunities, requirements, and expectations and the development of skills prepare students for workplace success.

8166 Manufacturing Engineering Technology 13032900
GRADE PLACEMENT: 9-12
CREDIT: 1 UNITS
Students gain knowledge and skills in the application, design, production, and assessment of products, services, and systems and how those knowledge and skills are applied to manufacturing. Students will prepare for success in the global economy. The study of manufacturing engineering will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in a manufacturing setting.

PRACTICUM IN MANUFACTURING
GRADE PLACEMENT: 11-12
PREREQUISITE: any Manufacturing course
CREDIT: 2 UNITS
The Practicum in Manufacturing course is designed to give students supervised practical application of previously studied knowledge and skill. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. This can be a paid or unpaid experience. Extended course offers more time on the worksite.

**8250  Principles of Bioscience**
13036300
GRADE PLACEMENT: 9
CREDIT: 1 UNIT
This course will provide an overview of biotechnology, bioengineering, and related fields. Topics will include cell structure, proteins, nucleic acids, enzymatic reactions, genetics, immunology, etc. This will be used to understand the role Biotechnology plays in important agriculture, medicine, the environment, bioenergy, and other spheres. Students will be briefly introduced to nanotechnology, as used in medical research.

**BIOTECHNOLOGY**
GRADE PLACEMENT: 10-12
CREDIT: 1 UNIT
This is a project-based environment focused on implementation of the design process. Students will build prototypes or use simulation software to test their designs. Additionally, students will explore career opportunities, employer expectations, and educational needs in the robotic and automation industry. In Year II, students will explore artificial intelligence and programming in the robotic and automation industry. Students will build prototypes and use software to test their designs.

**8249  Principles of Applied Engineering**
13036200
GRADE PLACEMENT: 9-10
CREDIT: 1 UNIT
Principles of Applied Engineering provides an overview of the various fields of science, technology, engineering, and mathematics and their interrelationships. Students will develop engineering communication skills, which include computer graphics, modeling and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will have an understanding of the various fields of engineering and will be able to make informed career decisions. Further, students will have worked on a design team to develop a product or system. Students will use multiple software applications to prepare and present course assignments.
**8251  Computer Integrated Manufacturing (PLTW)**
N1303748
GRADE PLACEMENT:  10-12
CREDIT:  1 UNIT
Students will discover and explore manufacturing processes, product design, robotics and automation. They will design their own solutions for real-world manufacturing problems and utilizing associated equipment and technology such as a computer numerical control (CNC) machine. This course’s curriculum is based on current industry standards, and students will be given the opportunity to pursue an Advanced Manufacturing and Design Certification.

**8166  Manufacturing Engineering Technology** 13032900
GRADE PLACEMENT:  10-12
CREDIT:  1 UNIT
Students will gain knowledge and skills in the application, design, production, and assessment of products, services, and systems and how those knowledge and skills are applied to manufacturing. Students will prepare for success in the global economy. The study of manufacturing engineering will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in a manufacturing setting.

**8253  Introduction to Engineering Design (PLTW)** N1303742
GRADE PLACEMENT:  9-12
CREDIT:  1 UNIT
Uses a problem-solving model to improve existing products and invent new ones. Students learn how to apply this model to solve problems in and out of the classroom. Using sophisticated three-dimensional modeling software, students communicate the details of the products. Emphasis is placed on analyzing potential solutions and communicating ideas to others.

**ENGINEERING DESIGN AND PRESENTATION**
GRADE PLACEMENT:  10-12
PREREQUISITE:  Algebra I
Engineering Design and Presentation is a continuation of knowledge and skills learned in Principles of Applied Engineering. Students enrolled in this course will demonstrate knowledge and skills of the design process as it applies to engineering fields using multiple software applications and tools necessary to produce and present working drawings, solid model renderings, and prototypes. Students will use a variety of computer hardware and software applications to compete assignment and projects.

**8254  Engineering Design & Pres I**

**8252  Engineering Mathematics**
13036700
GRADE PLACEMENT:  11-12
PREREQUISITE:  Algebra II
CREDIT:  1 UNIT
Students solve and model design problems. Students will use a variety of mathematical methods and models to represent and analyze problems that represent a range of real-world engineering applications such as robotics, data acquisitions, spatial applications, electrical measurement, manufacturing process, materials engineering, mechanical drives pneumatics, process control systems, quality control and computer programming.
SCIENTIFIC RESEARCH AND DESIGN
GRADE PLACEMENT: 10-12
PREREQUISITE: Physics and 1 other lab sci
CREDIT: 1 UNIT
Provides the accelerated student with the opportunity to conduct an independent research project in the science of their major interest. Instruction in methods of research, advanced instrumentation, and presentation of findings is provided. Year II students will design and develop remotely operated vehicles for research or work application. The curriculum is physics-based and includes technological application of the four main energy systems: mechanical, fluid, electrical and thermal. Through a project/problem-based format, the course is designed to increase critical thinking and analysis skills using unmanned aerial vehicles involving science and engineering knowledge.

13037210

8259 Engineering Design and Problem Solving 13037300
GRADE PLACEMENT: 10-12
PREREQUISITE: Algebra I and Geometry
CREDIT: 1 UNIT
This course reinforces and integrates skills learned in previous mathematics and science courses. This course emphasizes solving problems, moving from well-defined toward more open ended, with real-world application. Students apply critical thinking skills to justify a solution from multiple design options. Additionally, the course promotes interest in and understanding of career opportunities in engineering. This course will count as a science credit.

8260 Engineering Science (PLTW) 13037500
GRADE PLACEMENT: 9-12
PREREQUISITE: Algebra I, Biology, and 1 of the following – IPC, Chem, or Phys
CREDIT: 1 UNIT
Exploring various technology systems and manufacturing processes helps students learn how engineers and technicians use math, science and technology in an engineering problem solving process to benefit people. The course also includes concerns about social and political consequences of technological change.

8261 Digital Electronics 13037600
GRADE PLACEMENT: 11-12
PREREQUISITE: Algebra I and Geometry
CREDIT: 1 UNIT
Emphasizes the design process, engineering systems, materials use and testing, as well as the production process and quality control. Students use computer simulation to learn about the logic of electronics as they design, test and construct real circuits and devices to control systems.

8403 Fundamentals of Computer Science 03580140
GRADE PLACEMENT: 9-12
