

## Parent Instructions for Testing During Student Absences

If your student is absent on the COVID-19 testing day, you have two options:

### Option 1: Make an appointment to get tested at the Capital Diagnostics Lab:

- Call the Capital Diagnostics Lab number 301-498-0340.
- Be sure to explain the following: "Hi my name is \_\_\_ I am a parent at Barrie School and missed the testing time for my student, may I please set up an appointment time to be tested at your lab?" You must be registered under Barrie School before going to their site to get tested. The lab staff will come out to your car and test you from the car.
- Address for the lab: 14201 Park Center Drive, #405, Laurel, Maryland, 20707

### Option 2: Get tested at a convenient location near school or your home:

- You are welcome to use other testing locations as long as they use a professional grade PCR test.
- You may test at a provider of your choice OR at a recommended same day PCR testing site: [Quality First Urgent Care](#) is close to campus, professional, turns around the results quickly, and is highly recommended by the School Nurse.
- You can also review the [Comprehensive List of Testing Sites](#) throughout our region so you can find one conveniently located to your home.
- **Important! Email Nurse Kirstie at [kabernathy@barrie.org](mailto:kabernathy@barrie.org) no later than Sunday evening** that you are opting to have the testing done off-site so that she can notify your student's teachers in advance that they should not be tested at school on Tuesday. **We do not want any student accidentally tested on campus or to feel uncomfortable in any way.**
- **Submit results to [covidresults@barrie.org](mailto:covidresults@barrie.org) by Thursday of that same testing week.**
