

LAMPETER-STRASBURG SCHOOL DISTRICT

"SPECIAL SERVICE"

"Special Service" transportation is bus service provided to and from school on days when L-S schools are scheduled to be closed, and home from school on days when L-S schools are scheduled to have a student early dismissal. "Special Service" will be provided on the dates as indicated below. If your child's school is open on these dates and you need bus service on these dates, you must circle **"YES"** on the Transportation Request Form where it asks, "Do you need Special Service Transportation".

Instead of using the entire bus fleet, only three or four buses are used on "Special Service" days. This may cause your child to board the bus earlier than usual and/or arrive home later than normal, depending upon the number of non-public schools in session that day and the actual number of students riding the buses that day.

If you request Special Service transportation, we ask that you please use it – routes are established based upon those students requesting, and some students are on the bus for a longer time than necessary due to traveling past stops where students end up not using the requested service.

Special Service bus schedules will be emailed to families requesting this service a few days prior to each special service date. Please be sure to check your email for your schedule, as they may change depending upon which schools happen to be open.

Please refer to the enclosed calendar for dates that L-S Schools are closed for students and/or have early dismissals. These are the dates that "Special Bus Service" is provided.
