Program Overview and Summary

HISTORY

The International Baccalaureate (IB) was founded in Geneva, Switzerland in 1968. The first programme offered by the IB was the Diploma Programme (DP) and this was the only IB programme in existence until 1994 when the Middle Years Programme (MYP) was developed. This was followed by the Primary Years Programme (PYP) in 1997 and more recently the Careers-related Certificate, introduced in 2011.

The visionaries of the IB DP created the program for internationally mobile families with children who needed to prepare for university and couldn't necessarily do so through studying the local curriculum. At the heart of the programme has always been the motive to provide high-quality, international education for a better world.

In 2011 there were 2,872 IB World Schools across 138 countries.

RHS MISSION STATEMENT

The mission of Rockford High School is to foster the development of a **caring** environment by prioritizing personal **relationships** and creating a **collaborative** culture that prepares all students to become **inquisitive lifelong learners** who act as **compassionate global citizens**.

IB MISSION STATEMENT

The International Baccalaureate® aims to develop **inquiring, knowledgeable and caring** young people who help to create a better and more peaceful world through **intercultural understanding and respect**.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, **compassionate and lifelong learners** who understand that other people, with their differences, can also be right.

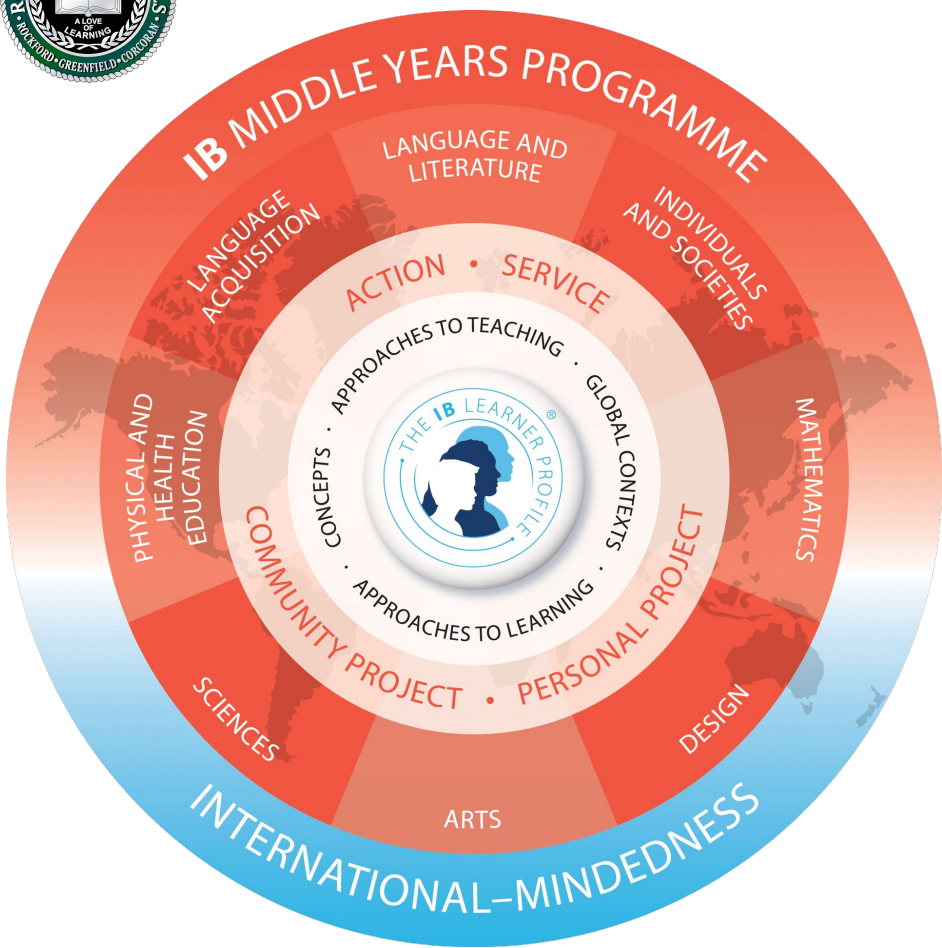

Our IB Program consists of 3 programs -

What is IB?

The aim of all IB programmes is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world.

Middle Years Program (MYP)

The Middle Years Program is the base of our IB program. Students will be exposed to MYP in 9th and 10th grade and it provides the framework that encourages students to make practical connections between their studies and the real world.
