WHAT IS THIS?
INTRODUCING THE

“REMOTE VIDEO CAMERA SITE”
The Vehicle Maintenance Facility (VMF) has developed a new process for retrieving videos.

The following presentation demonstrates the do’s and don’ts when using the “REMOTE VIDEO CAMERA SITE”.
Video Download:

- Use caution when pulling up to the Remote Video Camera Site.
- Allow ample space for the vehicle to park while downloading the video.
Secure Vehicle:

- Keep the vehicle running.
- Place in park or neutral.
- Set the parking brake.
Orange Connector:
This is the wiring end connected to the site box.

The connectors ONLY connect one way.

Black Connector:
This is the wiring installed in the vehicle.

Insert the black connector into the orange connector.
Computer Location by Vehicle:

Each bus has a computer cable. Locate the cable in your vehicle.
Hook Up Process

- Driver must leave the vehicle ignition on and in neutral or park with the parking brake set.

- Go to the site box and feed the wiring from the box into the driver’s side of the vehicle. Always push ample wiring into the vehicle.
Hook Up Process cont....

When plugging in the wire from the site box, securely connect both ends until they click.
Video Pulled by Dispatch If:

- There’s a disciplinary issue on the vehicle.
- Request by School.
- Request by Supervision.
- Employee Injury.
Video Pulled by Jennifer Green If:

- There’s an incident or accident.

Unless there is an emergency, these tape pulls must be scheduled in advance.
What’s next...

• Wait until you’re cleared before moving.

• Unplug the wiring to the site box (you will need to hold down on the button/clip on the top of the wiring in the vehicle).

• Place the wiring back in the site box and close the site box door securely.

• Slowly pull away from the site (please be mindful of your vehicle clearance).
The Don’ts…

• Do not get too close to the site.
• Do not run over the cone(s).
• Do not run over the wiring.
• Do not pull off with the wiring still plugged into the vehicle.
• Do not leave wiring hanging from the box.
• Do not shut the door on the wiring.
