<sup>1</sup> As explained in the Graduation Requirements document, except for the English seminars, any of the core courses described above may be replaced with a core course in a different department. Please read that document with particular care to ensure that this year's course requests fulfill all requirements. If Public Speaking has not yet been completed, it must be taken this year.

<sup>2</sup> A list of proposed English and History seminars will be available sometime before registration. Small class size is fundamental to the character of these courses. For this reason, we cannot guarantee any particular choice.

<sup>3</sup> Be sure to check that the appropriate prerequisites are met before choosing a science course.
