Reported by Amy – Priscilla over crossing guards at Bountiful, concerned won't be able to get guard since has a traffic light and a guard both north and south, though for different, schools, Next step, get with city to review options and what would they consider, we have contacts to schedule time with the city, Amy's group at school will work on applying for a grant for us, will contact UDOT, get data from Bountiful City of accidents and this intersection and demographic data, could take three to four years to complete this project Principal Hadlock with get the safe routes updated

- **Covid update**

Reported by Adam King – Remote learning complete, back at school, unsure what will happen if we get back to those numbers, currently have 8 cases, which is about where we have been since return, the running total will change to 7 days due to State and Davis County Health Departments, the dashboard will show 7 days

Question: how are teachers doing with all the changes and ambiguity? Answer: we have good teachers who love their students; however getting tired, some bills are targeting them, sometimes 8-9 slots go unfilled, need to feel appreciated (thanks to PTO and community council for thank you treats), teaching is a physically, emotionally and intellectually challenging job, sincere specific thank you letter from parents/students is a big boost

Some other ideas – Best of Davis, KSL teachers, report when you overhear students saying good/nice things about teachers

- **Next year Goals & LAND trust appropriations/ spending**

Principal Hadlock – Need to start working on next year's goals, in our district usually a standard process, get departments, groups, community council to contribute to improvements, look at statistics, department chair meeting, Principal Hadlock with ask for strengths/weaknesses and funding requests and present to community council, if possible,

Would like to have meeting for March to March 23rd 3:30 to review the teacher requests

- **Digital Citizenship & safety**

Focus on benefits and drawbacks of social media, no need to participate if you don't feel comfortable, talk about a social media break, ways to protect against phishing, tracking, poster created about iPhone air dropping and turning on only accept from contacts, will be sent out a few times and is posted on the website
